Report to Development Permit Panel

To: Development Permit Panel

Date: December 14, 2004

From: Raul Allueva
Director of Development

File: DP 04-272337

Re: Application by William Rhone for a Development Permit at
9251 General Currie Road

Staff Recommendation

That a Development Permit be issued which would permit the construction of four (4) three-storey townhouses at 9251 General Currie Road on a site zoned Comprehensive Development District (CD/120).

Raul Allueva
Director of Development

SB:blg
Att.

Staff Report

Origin

William Rhone has applied to the City of Richmond for permission to develop four (4) three-storey residential townhouses at 9251 General Currie Road on a vacant site zoned Comprehensive Development District (CD/120) under Bylaw 7703 (RZ 03-251948). The subject development is the second phase to a townhouse development under construction at 7400 Heather Street (DP 04-010738).

Development Information

Information on the project including a comparison of the proposed development with the relevant Bylaw requirements is provided in **Attachment 1**.

Background

The subject site is located on General Currie Road between Heather and Ash Streets. The applicant is proposing two (2) three-storey buildings with four (4) units as the second phase (Phase II) to a previously approved eight-unit multiple-family development in the McLennan South Sub-Area of the City Centre area. The site has been consolidated with Phase I of the development. The overall development will have twelve (12) three-storey units.

Development surrounding the subject site is as follows:

- To the north, across a new lane, are three-storey townhouses;
- To the east, is an existing single-family home and a small multi-family development beyond;
- To the west, Phase I of the same development is under construction on the same consolidated site; and
- To the south and southwest, across General Currie Road, are existing single-family homes.

Rezoning and Public Hearing Results

The subject site went to Public Hearing on May 17, 2004 (RZ 03-251948). There are no outstanding issues identified at the rezoning stage or Public Hearing that require follow-up at the Development Permit stage.

Staff Comments

The proposed revised scheme attached to this report has satisfactorily addressed all the significant urban design issues and other staff comments identified as part of the review of the subject Development Permit application. In addition, it complies with the intent of the applicable sections of the Official Community Plan (OCP) and is in full compliance with the Comprehensive Development District (CD/120) Schedule.

Analysis

Conditions of Adjacency:

- A separate Development Permit (DP 04-010738) was issued to the same architect and owner for Phase I of the development on the adjacent lot to the west at 7400 Heather Street. The proposed development is proposed to be connected to Phase I development through shared driveway and recycling area;
- The impact of the development on the adjacent existing single-family home to the east (which also have future potential for townhouse development) has been mitigated from both northeast and southeast units. The northeast unit has been setback 5.4 m from the separating property line and tree screening will be provided. The southeast unit has been setback 2.1 m from the separating property line, windows in main living areas have been oriented away from the adjacent home and tree screening will be provided; and
- The proposed, height, siting and orientation of the buildings is consistent with the massing of the three-storey townhouse developments to the north across the lane and west across Heather Street.

Site Planning and Urban Design:

- The siting of the building and the relationship between the indoor spaces and the outdoor open space areas allow for adequate surveillance to meet safety and crime prevention objectives;
- A mailbox enclosure, located off General Currie Road was provided in Phase I to accommodate the needs of both phases; and
- A recycling enclosure, located off of the lane was provided in Phase I to accommodate the needs of both phases.

Architectural Form and Character:

- The building form is a repetition of Phase I. It is simple but well articulated; and
- The proposed building materials (hardiplank horizontal siding, board and batten stained wood siding, asphalt roof shingles and wood trim for the buildings) are consistent with the McLennan South Sub-Area Guidelines.

Landscape Design:

- The site was pre-loaded and the few existing trees were removed. There were no concerns raised concerning tree retention during the Rezoning or Public Hearing process for either phase, or during the Development Permit process for phase I. Nine (9) new trees are incorporated into the landscape design. In addition, street trees are proposed through the required General Currie Road frontage improvements;
- The thoughtful landscape design includes an improvement to and continuation of the treatment for Phase I. The landscaping for Phase I has been revised to: consolidate the visitor parking for both phases; link the manoeuvring aisle; and provide an amenity area with pedestrian connection from General Currie Road to the manoeuvring aisle. The landscape design for Phase I is continued through Phase II, including special paving treatment with a variety of patterning and colour as well as substantial planting and trees to provide a highly liveable environment in this City Centre neighbourhood; and
- The use of pavers in pedestrian areas improves permeability of the site.

General:

- Phase I of the development (under construction) includes a unit (Unit 8) which has been designed to include an accessible parking space, future conversion and future elevator installation to allow accessibility.

Advisory Design Panel Comments

The subject proposal was not presented to the Advisory Design Panel as it constitutes a small addition to a previously supported development project, and continues the pattern, design and overall quality previously approved for phase I.

Conclusions

Staff support this application. The applicant has presented a development that fits well into the existing context and generally complies with the guidelines in the Official Community Plan (OCP).

Sara Badyal, M.Arch.
Planner 1
(Local 4282)

SB:blg

The following conditions are required to be met prior to forwarding this application to Council for approval:

- Receipt of a Letter-of-Credit for landscaping in the amount of \$10,458.00; and
- Approval of the general compliance to DP 04-010738 to connect the visitor parking, manoeuvring aisle and widen the pedestrian amenity area between the phases.

Development Permit

No. DP 04-272337

To the Holder: WILLIAM RHONE
Property Address: 9251 GENERAL CURRIE ROAD
Address: C/O 2178 BARTLETT AVENUE
 VICTORIA, BC V8S 2P9

1. This Development Permit is issued subject to compliance with all of the Bylaws of the City applicable thereto, except as specifically varied or supplemented by this Permit.
2. This Development Permit applies to and only to those lands shown cross-hatched on the attached Schedule "A" and any and all buildings, structures and other development thereon.
3. The "Richmond Zoning and Development Bylaw No. 5300" is hereby varied or supplemented as follows:
 - a) The dimension and siting of buildings and structures on the land shall be generally in accordance with Plans #1 and #2 attached hereto.
 - b) The siting and design of off-street parking and loading facilities shall be generally in accordance with Plans #1 and #2 attached hereto.
 - c) Landscaping and screening shall be provided around the different uses generally in accordance with the standards shown on Plan #2 attached hereto.
 - d) Roads and parking areas shall be paved in accordance with the standards shown on Plans #1 and #2 attached hereto.
 - e) Sanitary sewers, water, drainage, highways, street lighting, underground wiring, and sidewalks, shall be provided as required.
 - f) Subject to Section 692 of the Local Government Act, R.S.B.C., the building shall be constructed generally in accordance with Plans #3 to #6 attached hereto.
4. As a condition of the issuance of this Permit, Council is holding the security set out below to ensure that development is carried out in accordance with the terms and conditions of this Permit. Should any interest be earned upon the security, it shall accrue to the Holder if the security is returned. The condition of the posting of the security is that should the Holder fail to carry out the development hereby authorized, according to the terms and conditions of this Permit within the time provided, the City may use the security to carry out the work by its servants, agents or contractors, and any surplus shall be paid over to the Holder, or should the Holder carry out the development permitted by this permit within the time set out herein, the security shall be returned to the Holder. The City may retain the security for up to one year after inspection of the completed landscaping in order to ensure that plant material has survived.

To the Holder: WILLIAM RHONE
Property Address: 9251 GENERAL CURRIE ROAD
Address: C/O 2178 BARTLETT AVENUE
VICTORIA, BC V8S 2P9

There is filed accordingly:

An Irrevocable Letter of Credit in the amount of \$10,458.

5. The land described herein shall be developed generally in accordance with the terms and conditions and provisions of this Permit and any plans and specifications attached to this Permit which shall form a part hereof.
6. If the Holder does not commence the construction permitted by this Permit within 24 months of the date of this Permit, this Permit shall lapse and the security shall be returned in full.

This Permit is not a Building Permit.
