Staff Report

Origin

Charan Sethi has applied to the City of Richmond for permission to rezone 6551 No. 4 Road from "Single-Family Housing District, Subdivision Area F (R1/F)" to "Comprehensive Development District (CD/155)" (**Attachment 1**), in order to permit a 12-unit townhouse development in a 2 and 2 ½-storey format.

Findings of Facts

Please refer to the attached Development Application Data Sheet (**Attachment 2**) for a comparison of the proposed development data with the relevant bylaw requirements.

Surrounding Development

The existing development surrounding the site is described as follows:

- To the north, are single-family zoned lots (Single-Family Housing District, Subdivision Area F (R1/F) fronting onto No. 4 Road and Alberta Road which also have redevelopment potential under the sub-area plan for townhouses;
- To the east, is McNeil Secondary School, fronting onto No. 4 Road;
- To the south, fronting No. 4 Road, are single-family zoned lots (R1/F), also having redevelopment potential; and
- To the west, across No. 4 Road are Agricultural District zoned lots (AG1) fronting onto No. 4 Road.

Related Policies and Studies

The subject site is in the McLennan North Sub-Area Plan of the Official Community Plan (OCP), and is located on No. 4 Road between Granville Avenue and Alberta Road. This area is designated "Residential Area 3" and permits 0.65 base floor area ratio (F.A.R.), two-family dwellings and 2 and 3-storey townhouses. The proposal conforms with the Area Plan designation.

Section 8 of the McLennan North Sub-Area Plan outlines the architectural and landscape elements which are applicable for developments in the area. This application meets all of the guidelines in the OCP, with the exception of sub-section 8.2.4 vi), which requires buildings on Garden City Road, Westminster Highway and No. 4 Road to be "Set back a minimum of 10 m (32.8 ft.) (excluding parking below finished grade)." Official Community Plan Amendment Bylaw No. 7874 proposes to deal with this issue by amending the McLennan North Sub-Area guidelines to allow a reduced setback on shallow lots.

OCP Amendment Bylaw No. 7874

For lots having under 50 m in depth, it becomes challenging to meet the required setbacks and site circulation needs while still maintaining a 10 m setback to the arterial roads. In these cases, a more flexible setback of 6 m is supported, consistent with the setbacks required in Single-Family Housing District (R1) and Townhouse District (R2) zones.

The McLennan North Sub-Area Plan already envisages buildings having an “informal, irregular edge to the street”. By reducing the required front setback for lots of under 50 m depth to 6 m, this “irregularity” in the streetscape can be accomplished. It should be noted that the Zoning Bylaw allows for 6 m setbacks in the Single-Family Housing District (R1) and Townhouse District (R2) zones. The proposed amendment to the Plan will maintain consistency between it and the existing zones in the area while providing flexibility for shallow lots to achieve the adequate front yard setback.

Staff Comments

The applicant has agreed to the legal and development requirements associated with the application (**Attachment 3**).

Analysis

Zoning Analysis

The proposed zone, Comprehensive Development District (CD/155) has been created in order to accommodate small townhouse developments in McLennan North – Residential Area 3, where new road construction would not be required and the proposed density does not exceed the base F.A.R. for the area. The setbacks, height, site coverage, and parking requirements of the Comprehensive Development District (CD/155) are compatible with the intent of the Area Plan.

Design Review and Future Development Permit Considerations

The proposal is consistent with the objectives of the McLennan North - Residential Area 3 in terms of unit type, density, scale, and open space. In particular:

- The proposed site layout provides for a streetscape of townhouses fronting No. 4 Road, which is consistent with the Development Permit guidelines for the area.
- The proposed density of 0.65 F.A.R., the base density for the area, is an appropriate density for a small site which is not required to contribute to the neighbourhood road network.
- The proposed 2 and 2 ½ storey units are consistent with the McLennan North Sub-Area Plan.
- A possible variance is proposed in order to enable 2 m side yard setbacks. These reduced setbacks can be considered as it abuts the adjacent properties in locations where no buildings are situated; however, future review will be undertaken at the Development Permit stage to evaluate this reduced setback in the context of the detailed design.

- A cross-access agreement is proposed to ensure access to 6571 No. 4 Road, to allow it to re-develop in a similar form and density, in order to avoid additional driveway crossings onto No. 4 Road.
- The applicant's proposal to pay-in-lieu of providing on-site indoor amenity space (e.g. \$12,000.) is consistent with City policy and is considered appropriate in light of the site's proximity to open space on the McNeil School Park site.
- Outdoor amenity space has been provided in a central location on the site. Further refinement of this space will be required at the Development Permit stage.

Financial Impact

None.

Conclusion

Staff recommend support for this application. Rezoning of the subject site as proposed conforms to citywide, City Centre, and McLennan North objectives for residential growth and development. Comprehensive Development District (CD/155) is consistent with the McLennan North Sub-Area – Residential Area 3, and with previously approved projects in the immediate vicinity, and therefore is considered appropriate. Overall, the project appears to be a good fit with the neighbourhood. On this basis, staff recommend that the proposed rezoning application be approved. Consistent with this application, Official Community Plan Amendment Bylaw No. 7874 will amend the OCP in order to allow reduced front yard setbacks (6 m) to No. 4 Road for lots of less than 50 m in depth.
