

CITY OF RICHMOND

REPORT TO COMMITTEE

TO: Planning Committee
FROM: Terry Crowe
Manager, Policy Planning
RE: **Advisory Committee on the Environment (ACE) 2000 Annual Report and proposed 2001 Work Program**

DATE: January 31, 2001
FILE: 0100-20-ACEN1-01

STAFF RECOMMENDATION

That Council:

- receive the ACE 2000 Annual Report for information, and;
- approve the ACE 2001 work program subject to the City's budget review process.

Terry Crowe
Manager, Policy Planning

Att.

FOR ORIGINATING DIVISION USE ONLY

CONCURRENCE OF GENERAL MANAGER

STAFF REPORT

ORIGIN

Pursuant to the Terms of Reference for Council's Advisory Committee on the Environment (ACE), this report provides:

- an annual report on the Committee's activities for the previous year and;
- a proposed 2001 work program which is submitted for Council's review and approval.

FINDINGS OF FACT

Attached to this report is a covering memo from the ACE Co-chairs who have highlighted the Committee's work over the past year in fulfilling its advisory mandate to Council (**Attachment 1**). Also attached is a summary table outlining the status of the various elements of the Committee's 2000 work program which was approved by Council on December 13, 1999 (**Attachment 2**)

The Committee's Terms of Reference require that ACE's proposed work program for 2001 be reviewed and approved by Council subject to the City's 2001 budget process (**Attachment 3**)

FINANCIAL IMPACT

ACE undertook its 2000 work program within its budget allocation for the year.

The City's proposed 2001 Budget provides financial resources to ACE to support:

- Committee Operation - \$2,500
- ACE- State of the Environment Outreach - \$5,000
- State of the Environment Report Update - \$30,000 ("carry over" from 2000)

CONCLUSION

Both the 2000 ACE Annual Report and the proposed 2001 ACE Work Program support the City's Corporate Strategic Plan and Official Community Plan goals and objectives relating to environmental management. The City is fortunate to have such a dedicated and committed group of community volunteers who assist the City in pursuit of its many environmental initiatives and goals. Staff recommend that Council approve the proposed 2001 ACE Work Program and give favourable consideration to the proposed 2001 budget.

Rob Innes
Planner

Memo

To: Richmond City Council
From: Advisory Committee on the Environment
Date: 27th January 2001
Re: Progress Report: Year 2000 Work Program

Please find attached a summary of the projects the Advisory Committee on the Environment (ACE) worked on in the year 2000. The Work Program for 2000 was as approved by Council on December 13, 1999. For each project we provide a statement of value, how ACE and other partners were involved, time-frame and status. Progress has been made on all items. We thank Terry Crowe and Rob Innes for the tremendous assistance they have provided.

We hope that the Environmental Guidebook for Community Groups, published December 2000, will significantly increase community involvement in protecting and improving our environment, and provide community groups with useful ideas and directions. We also hope that our detailed comments on the Environmental Purchasing Policy have proven useful.

Tours of the North Fraser Port Authority area and Fraser River Port Authority area by boat provided unique perspectives on these operations which allowed us to make more informed constructive comments on their draft Land Use Plans. A tour and detailed Q&A session at the Lulu Island Sewage Treatment Plant identified concerns over grease from restaurant facilities and provided an informative overview of the sewage treatment needs of Richmond, both now and with projections for the next 20 years.

Perhaps the greatest contribution ACE presently makes to the City of Richmond is in assisting with the State of the Environment (SOE) Report. All of the groundwork has been put in place for its intended Update in 2001. The ongoing efforts of SOE Sub-committee Chair Goffrey Gosonhing and his "Outreach Team" of ACE members, as well as City Staff should be particularly noted.

Many monitoring issues (e.g., Vancouver Airport Noise and Environmental Committees) are ongoing from year to year. For 2001, your ACE Co-Chairs are Dr. Adrian Wade (275-3952) and Eric Sykes (275-7533). We look forward to continuing to assist you.

Sincerely,

Dr. Adrian Wade
Co-Chair 2000

Paul Schaap
Co-Chair 2000
