## Staff Report

### Origin

Rodney and Enid Cardoz have made application to the City of Richmond to rezone the property at 7460 Williams Road from “Single-Family Housing District, Subdivision Area E” (R1/E) to “Comprehensive Development District” (CD/124) in order to permit the development of two (2) residential lots, each with a primary dwelling unit and an additional smaller unit located above the garage.

### Findings of Fact

A Development Application Data Sheet providing details about the development proposal is attached.

### Surrounding Development

- To the north: Across Williams Road, R1/E single-family housing within the Broadmoor Central West Sub-Area Plan;
- To the east: R1/E single-family housing immediately adjacent to subject property with some CD/124 Comprehensive Development District zoned lots in close proximity;
- To the south: R1/E single-family housing; and
- To the west: R1/E single family housing immediately adjacent to the subject property, with a significant amount of CD/124 Comprehensive Development District zoned lots in close proximity.

### Related Policies & Studies

- The subject lands are not located within any applicable 702 Policy designations (Single-Family Lot Size Policy);
- No Official Community Plan (OCP) amendments are required for this application;
- The application meets the “Revised Interim Strategy for Managing Rezoning Applications During the Review of the Lane Establishment and Arterial Road Redevelopment Policies” criteria and guidelines; and
- The applicants agree to develop in accordance with the interim Tree Protection Bylaw.

### Staff Comments

No significant concerns have been identified through the Staff Technical Review. A site inspection revealed two (2) existing trees of value on site. It appears that both trees will be affected by the new building envelopes proposed for the site. The requirement for a tree survey was waived as the applicant has agreed to provide appropriate replacement trees at a ratio of 2:1, with the required corresponding security to be administered by the City as per the interim Tree Protection Bylaw. The calliper of the replacement trees will meet the requirements set out in the Tree Protection Bylaw.

## **Analysis**

Similar proposals were approved by Council in 2001 and 2002 for five (5) other properties along the same block. The approved proposals allowed rezoning of Single-Family Housing District, Subdivision Area E (R1/E) lots to smaller Comprehensive Development District (CD/124) lots which were ultimately subdivided to allow a primary and additional living unit resulting in a final outcome of two (2) dwelling units per lot.

This property was identified in earlier staff reports on similar applications along this block as having development potential to rezone from Single-Family Housing District, Subdivision Area E (R1/E) to Comprehensive Development District (CD/124). The subject property is situated within an area that has a strong precedence of Comprehensive Development District (CD/124) development created from original Single-Family Housing District, Subdivision Area E (R1/E) zoned lots.

When CD/124 District type development was first introduced to this area, staff ran the applications through the full process of rezoning, Development Permit and subdivision approvals to ensure appropriate standards for building character, form and massing. Furthermore, some of the initial applications proposed rezoning for a series of adjacent properties, triggering the need for staff to direct the applications through a Development Permit process.

This area now has an established inventory of CD/124 District developments, and staff finds the form of development to be satisfactory. The applicant is proposing rezoning and development of a single lot. Therefore, staff proposes that this application be approved for rezoning and subdivision without requiring the applicant to go through a Development Permit process. Building form, character and massing, along with appropriate landscaping measures (including paving and fencing) will be ensured through a building scheme covenant to be registered on title. The applicant has submitted drawings similar in detail to those required for a Development Permit, which will form the schedule of the covenant. A landscape plan prepared by a registered landscape architect to the satisfaction of the City will also be registered as part of the building scheme covenant. Appropriate securities for landscaping, paving and fencing will be deposited with the City to ensure that development of the property occurs in accordance with the covenant.

As indicated earlier in this report, this application meets with all the requirements of the interim Tree Protection Bylaw. The applicant has indicated their agreement to replace the existing two (2) trees at a ratio of 2:1 at the appropriate calliper size as required in the bylaw, along with providing a \$500 per tree security (total \$2,000.).

## **Financial Impact or Economic Impact**

None.

**Conclusion**

Staff recommends support of this rezoning application as it complies with all applicable land use designations and policies, and is consistent with the redevelopment pattern along this block.

ATTACHMENT 4

**Conditional Rezoning Requirements**  
**7460 Williams Road**  
**RZ 05-313273**

Prior to final adoption of Zoning Amendment Bylaw 7988, the developer is required to complete the following requirements:

1. Provide a security to the City of Richmond in the form of cash or a clean, unconditional and irrevocable standby letter of credit drawn on a Canadian financial institution in an amount equal to \$500.00 for each replacement tree to be planted and maintained. A total security of \$2,000.00 for four trees is required for this application.
2. Secure the services of a registered landscape architect to prepare a landscape plan to the satisfaction of the City of Richmond.
3. Provide a security to the City of Richmond in the form of cash or a clean, unconditional and irrevocable standby letter of credit drawn on a Canadian financial institution in an amount to be determined by the City of Richmond to secure landscaping components such as, but not limited to, paving, fencing and other landscaping measures as required.
4. Registration of a restrictive covenant on title to ensure building construction and landscaping occurs in accordance with approved designs.
5. Apply to the City of Richmond for subdivision of the existing property.\*

\* Note: This requires a separate application.

**Richmond Zoning and Development Bylaw 5300  
Amendment Bylaw 7988 (RZ 05-313273)  
7460 Williams Road**

The Council of the City of Richmond, in open meeting assembled, enacts as follows:

1. The Zoning Map of the City of Richmond, which accompanies and forms part of Richmond Zoning and Development Bylaw 5300, is amended by repealing the existing zoning designation of the following area and by designating it **COMPREHENSIVE DEVELOPMENT DISTRICT (CD/124)**.

P.I.D. 010-265-503

Lot 21 Section 32 Block 4 North Range 6 West New Westminster District Plan 17380

2. This Bylaw may be cited as **“Richmond Zoning and Development Bylaw 5300, Amendment Bylaw 7988”**.
