Richmond, B.C., V6Y 2C1

Dear Sir,

Re: Steveston Museum

The Steveston Historical Society requests that the Parks and Recreation Committee instruct Richmond city staff to work with the society to explore options as to how the society can better utilize, and keep open for public use, the Steveston Museum building at 3811 Moncton Street. Because of this building's heritage and tourist value to the village of Steveston and the city of Richmond, it should be used as efficiently as possible.

The society is prepared to have representatives attend any meeting at which this subject will be discussed.

Hoping for a favourable response to this request,

Yours truly,

Graham Turnbull
Chairman,
Steveston Historical Society
