1.2 Imposition of Development Cost Charges

- 1.2.1 In accordance with the provisions of Section 933(1) of the *Local Government Act*, development cost charges are imposed, subject to the provisions of subsection 1.3.1, on every person who obtains:
- (a) approval of a subdivision of a **parcel**; or
 - (b) a **building permit**.
- 1.2.2 Every person who obtains approval of a subdivision of a **parcel** or a **building permit** must pay development cost charges on the following basis:
- (a) for **residential development** in the Lulu Island Area, in accordance with Schedule B;
 - (b) for **commercial development or light industrial development**:
 - (i) in the Lulu Island Area, in accordance with Schedule C;
 - (ii) in the Sea Island Area, in accordance with Schedule D; and
 - (c) for **major industrial development**, in accordance with the applicable portion of Schedule E.
- 1.2.3 Where a type of **development** is not identified in subsection 1.2.2, the development cost charges for the most comparable type of **development** are to be used to determine the amount payable.
- 1.2.4 Schedules A, B, C, D, and E are attached and form a part of this bylaw.

1.3 Restrictions on Requirement to Pay Development Cost Charges

1.3.1 The development cost charges imposed under section 1.2 apply only to the extent specified, and are subject to the restrictions specified in Division 10 of Part 26 of the *Local Government Act*.

1.4 Due Date For Payment of Development Cost Charges

1.4.1 The development cost charges imposed under subsection 1.2.1 must be paid:

- (a) in the case of the subdivision of a **parcel**, prior to the approval of the subdivision; and
- (b) in the case of a **building permit**, prior to the issuance of the **building permit**.

PART TWO: CALCULATION VARIATIONS

2.1 Parcels Covered By Water

2.1.1 For the purposes of calculating those portions of development cost charges based on a per acre rate, the acreage to be used in the calculations must include any portions of the **parcel** or **parcels** being subdivided or developed which are covered by water.

2.2 Combination Developments

2.2.1 In the case of an application for a **building permit** for a combination of both **residential development** and **commercial development**, the development cost charges are to be calculated as the sum of:

- (a) the applicable per unit rate for each residential unit, multiplied by the number of units; plus
- (b) the applicable square foot rate based on the number of **storeys of commercial development**, multiplied by the total floor area of such **development**; plus
- (c) the per acre drainage development cost charges specified for **commercial development**, in Schedule C, applied to the total area of the **parcel**.

2.3 Marinas

2.3.1 Liveaboard Marinas

In the case of a marina designed and intended solely for the moorage of floating homes, development cost charges are calculated on the basis of the **residential development** charge specified in Schedule B, except for the drainage portion of the development cost charges which are calculated at the rate for **commercial development** specified in Schedule C, applied to the total square footage of the land used in conjunction with the marina.

2.3.2 Other Marinas

In the case of a marina other than a marina designed solely for the moorage of floating homes, development cost charges are calculated as the sum of:

- (a) for the water area, the square foot rate for a one **storey** commercial building with a **building area** equal to the total area of all floats, wharves, docks, piers, and **buildings** on the water lot being used for the marina; plus
- (b) for any land area used in conjunction with such marina, the applicable square foot rate for **commercial development** based on the number of **storeys** multiplied by the total **building area** on the land.
