Chair, General Purposes Committee

Re:

POLICY ON THE ROUTINE RELEASE OF CLOSED RESOLUTIONS AND

REPORTS AND THE IMPLEMENTATION OF A 'CONSENT AGENDA'

The General Purposes Committee, at its meeting held on Monday, March 6th, 2006, considered the attached report, and recommends as follows:

Committee Recommendation

- (1) That the policy on the "Routine Release of Closed Resolutions and Reports" (as outlined in the report dated February 21st, 2006 from the Director, City Clerk's Office) be adopted, effective December 5th, 2005, on the basis that all undisclosed matters would be returned to Council no more than three months after initial presentation;
- That Council Procedure Bylaw No. 7560, Amendment Bylaw No. 8042, which *(2)* introduces new procedural rules around the use of a consent agenda, be introduced and given first, second and third readings; and
- (3) That staff proceed with the statutory public notification of this proposed change to the Council Procedure Bylaw.

Mayor Malcolm D. Brodie, Chair General Purposes Committee

Attach.

VARIANCE

Please note that staff recommended the following for Part (1):

That the policy on the "Routine Release of Closed Resolutions and Reports" (as outlined in the report dated February 21st, 2006 from the Director, City Clerk's Office) be adopted:

Staff Report

Origin

At the Regular Council Meeting of November 14, 2005, Council adopted the following referral:

WHEREAS the only process in place for the release of In-Camera (closed) reports and decisions by Council is by Council resolution or a formal Freedom of Information request

THEREFORE BE IT RESOLVED that the Director, City Clerk's Office prepare a policy for the consistent and timely release of all In-Camera items once the need for secrecy is no longer applicable.

This report responds to this referral and proposes that the practice of adopting resolutions at Council meetings by "general consent" be employed as a means of receiving previously closed items at open Council meetings and as a means of efficiently approving other routine administrative matters.

Analysis

The Consent Agenda

The "Consent Agenda" or adopting resolutions by general consent is a common procedural tool utilized at all levels of government including at the municipal level (for example, the City of Vancouver, Delta, City of North Vancouver, Kingston, London, Markham, Windsor, Guelph and Moncton use this procedure). The use of a Consent Agenda is intended to simplify the approval of various routine administrative matters and to receive items for information in one motion. This procedure saves valuable meeting time and allows Council to focus primarily on the substantive topics that require more discussion. This approach is appropriate for city councils of larger cities that have a substantial amount of business to consider and want to use their time as efficiently and effectively as possible. The implementation of this procedure would likely serve Richmond residents better in that the viewing public that are watching televised Council meetings and those in attendance in the chambers will see more time devoted to Council debate and discussion on the more interesting and current public policy issues and less time devoted to purely routine administrative matters that are not of general public interest.

It is important to emphasize that a consent agenda must not be used to avoid controversial matters nor to prevent debate where it is considered necessary. Nor is a consent agenda meant to minimize public input on agenda items. Items on a consent agenda would be delegable items in the same sense as any other items appearing on the regular agenda.

If circumstances dictate, items that are on a consent agenda can be easily removed and considered separately at the request of any Council member. This process is similar to the current process in which a Council member may ask that the question on a motion be called separately so that their opposition to a particular part of the motion may be recorded. Items that are removed from the consent agenda are considered and voted upon separately immediately after the consent agenda has been approved. An item may be removed from the consent agenda for a variety of reasons, for example:

- a Council member may wish to have a full discussion or separate vote on an item because new information may have come to light since the Committee meeting;
- a member of the public may have brought new information to the table through a delegation, prompting the need for further Council discussion;
- a Council member may need to declare a conflict of interest with regard to a consent agenda item, in which case, the item <u>must</u> be removed from the consent agenda and considered separately so that the Council member may excuse themselves from the meeting in accordance with the Community Charter.

If Richmond were to adopt this practice, it is suggested that the consent agenda appear on the regular agenda immediately after Committee of the Whole rises and reports upon hearing delegations on agenda items (Attachment 1 illustrates what a Council agenda would look like with a consent agenda component). Under the heading "Consent Agenda" would appear a number of non-controversial, routine items that would otherwise have appeared later on the regular agenda. Also appearing under this heading would be any items from a previous closed meeting that were now being received at the open meeting. At the beginning of the consent agenda, a prompt would appear as follows: Motion to adopt items 5 through 10 by general consent. Following the adoption of this resolution, there would be no need to read aloud or further consider those items. The minutes would reflect that those items were "Adopted on Consent."

The following matters listed below are recommended as suitable for adoption by general consent, bearing in mind that it is always a simple matter to move an item from the consent agenda to the regular agenda on an ad hoc basis if the matter proves to be anything other than routine:

- the receipt of minutes for information;
- the receipt of items at an open meeting from a previous closed meeting (described in more detail below);
- the introduction and first reading of rezoning and OCP bylaws and other land use matters that have received a positive recommendation from Planning Committee and which will be referred to Public Hearing in accordance with the Council Procedure Bylaw;
- appointments to advisory committees and other routine appointments;
- routine land matters, such as the approval and discharge of rights of way;
- other routine administrative/housekeeping matters such as changes to the City banking resolution,
- any other routine administrative matters that garnered no discussion or opposition at Committee and that, in the opinion of the Committee Chair, would be suitable for inclusion on the consent agenda.

The implementation of a consent agenda procedure will require a minor change to the Council Procedure Bylaw.

Policy on the Release of Closed Items

In order for an item to be considered at a closed Council or Committee meeting, the subject matter must meet at least one of the criteria specified in section 90 of the Community Charter. The criteria address subjects such as labour relations, personnel matters, land disposition,

litigation, intergovernmental negotiations, etc. (See Attachment 2 for a listing of the closed meeting criteria).

The Charter further provides that before holding a closed meeting, a resolution must be publicly adopted which states that the meeting is to be closed and which specifies, for each item, the reason why the public is to be excluded from the meeting under Section 90.

The City's current practice with regard to closed meeting reports is that during the drafting stage, staff are required to identify the particular closed meeting criteria that applies to the report and to include the criteria at the beginning of the report under the heading "Statutory Closed Meeting Criteria." The criteria for each item also appears on the public portion of the closed agenda cover sheet since the criteria must be included as part of the resolution to close the meeting to the public in accordance with Section 90. By adopting the closure and compliance resolution, Council is adopting staff's recommendation that the item(s) on the closed agenda comply with the closed meeting criteria as set out in the Charter.

While the Charter specifies a process under which matters are considered at closed meetings, there is no equivalent process specified for bringing matters out from the closed meeting in any kind of routine manner. Council may, of course, at its discretion, forward recommendations and/or reports to an open meeting or direct that items be made publicly available. It is also possible to make a request for the release of closed meeting recommendations and/or reports under the *Freedom of Information and Protection of Privacy Act*, but this would not be considered by most to be a routine process. Often, the circumstances which necessitated the matter being considered in closed session simply either fade over time or expire after a specific condition has been met at some point in the future, but this can be challenging to determine in advance with any great certainty. The end result, in the absence of any process to review already adopted closed recommendations and reports, is that the items that were considered at closed meetings often remain closed, even though the reason the matter was originally closed may no longer apply.

It should be noted that the requirement for confidentiality with regard to any given decision or report varies greatly from item to item, and in the case of some reports and decisions, the requirement for confidentiality may persist for years or in perpetuity (for example, personnel matters or matters where legal advice is sought and provided).

In the spirit of the proposed policy (see Attachment 3), it is suggested that the following approach be taken to implement a new, more rigorous method for managing the release of closed meeting recommendations and reports.

First, in addition to the current practice of identifying the relevant closed meeting criteria at the beginning of a report, staff will in future also be required to include a proposed course of action with regard to whether and how the report and any resulting resolution should be released publicly. In terms of the release of closed resolutions and reports, four general categories can be identified:

- Category 1 Recommendations and/or reports that are referred to an open meeting for consideration;
- Category 2 Resolutions and/or reports that are decided in a closed meeting and then referred to an open meeting for information;

referred to an open meeting for information;

Category 3 Resolutions and/or reports for which a specific release strategy cannot be determined at the time of consideration – these become subject to a quarterly review to determine whether the need for confidentiality has passed; and

Category 4 Resolutions and/or reports which are not anticipated to be released.

For clarity, matters that are referred to an open meeting for consideration ("category 1" recommendations and/or reports) would continue to follow the same process as at present, which is, that a resolution is adopted at the closed meeting to forward the matter to the open meeting that is scheduled for later that same day. The matter is then debated and voted upon at the open meeting. Alternatively, Council may direct that the item appear on the next open meeting agenda in order to allow an opportunity for advance notice of the item through the publication of the next agenda on the City website.

For matters that are decided upon in a closed meeting and then referred to an open meeting for information ("category 2" items), the suggested process will be slightly different in that such resolutions and/or reports will appear as an item on the *Consent Agenda* portion of the next regular open Council agenda (usually two weeks after the adoption of a resolution to release). This would allow for a more *meaningful* level of disclosure since the information would appear on the open Council agenda, both physically and on the City website in advance of the meeting.

"Category 3 items" - resolutions and/or reports for which a specific release strategy could not be determined at the time of consideration — will be reviewed by staff on a quarterly basis to determine whether the requirement for confidentiality has indeed passed. If it has, then these items will also be brought forward to a closed Council meeting with a recommendation that they be released in whole or in part. As described above, "Category 3 items" which have been released would also appear as an item on the *Consent Agenda* portion of the *next* regular open Council agenda, to allow full publication in the agenda package and on the City website.

Financial Impact

None.

Conclusion

The adoption and implementation of the proposed policy on the *Routine Release of Closed Resolutions and Reports* will result in a greater degree of openness and transparency while the addition of a consent agenda as part of the regular Council agenda will allow for greater efficiency in dealing with the most routine administrative matters that come before Council.

File Ref: ひ	Routine Release of Closed Resolutions and Reports	

Policy O:

It is Council policy that:

- 1. Resolutions and/or reports considered at closed Council and closed Committee meetings will be made routinely available to the public once the requirement for confidentiality has passed.
- 2. Wherever possible, matters considered at closed meetings will be made publicly available by Council or Committee as follows:
 - a. By referring a recommendation and/or report to an open meeting for consideration; or
 - b. By directing, through resolution, that a closed decision and/or report be announced or otherwise publicly released.
- 3. If the public disclosure of a closed resolution and/or report cannot be determined at the time of consideration, then such matters are to be routinely reviewed by staff and brought forward to closed Council with a recommendation on disclosure once the requirement for confidentiality has passed.
- 4. In order to make closed information publicly available in a timely manner, the disclosure of information from a closed report that is to be released will be made public by:
 - a. Releasing the report in its entirety,
 - b. Releasing the report in a severed form consistent with records that are processed under the *Freedom of Information and Protection of Privacy Act*, or
 - c. Releasing the information in the form of a separate backgrounder document that is based upon the content of the closed report (always indicating that the backgrounder is a different document from the one that was considered by Council).

It is acknowledged that this policy does not limit a person's right of access to records under the Freedom of Information and Protection of Privacy Act.
