

## **City of Richmond**

## **Report to Committee**

**To:** Planning Committee                           **Date:** January 30, 2003  
**From:** Terry Crowe                               **File:** 0100-20-ACEN1-01  
Manager, Policy Planning  
**Re:** ADVISORY COMMITTEE ON THE ENVIRONMENT (ACE) 2002 ANNUAL  
REPORT AND 2003 WORK PROGRAM

## **Staff Recommendation**

That Council approve the ACE 2003 work program subject to the City's budget review process.

  
Terry Crowe  
Manager, Policy Planning

Att.

**FOR ORIGINATING DIVISION USE ONLY**

---

**CONCURRENCE OF GENERAL MANAGER**

## **Staff Report**

### **Origin**

Pursuant to the Terms of Reference for Council's Advisory Committee on the Environment (ACE), this report provides:

- an annual report on the Committee's activities for 2002, and;
- a proposed 2003 work program which is submitted for Council's review and approval.

### **Findings Of Fact**

Attached to this report is a covering memo from the ACE co-chairs for 2002 who have highlighted the Committee's work over the past year in fulfilling its advisory role and responsibilities to Council (**Attachment 1**). Also attached is a summary table highlighting the accomplishments of ACE as it undertook its 2002 work program which was approved by Council in February 2002 (**Attachment 2**). The Committee's Terms of Reference require that ACE's proposed work program for 2003 be reviewed and approved by Council subject to the City's 2003 budget process (**Attachment 3**).

### **Financial Impact**

For 2002:

ACE undertook its 2002 work program within its budget allocation for the year:

- \$2,500.00 for ongoing committee operations and administration

For 2003:

The City's proposed 2003 Budget provides financial resources in the amount of \$2,000 to support ACE's ongoing operation and administration.

### **Conclusion**

ACE continues to provide a valuable advisory role to both Council and staff. The Committee's work program and activities continue to support the City's environmental management policy and program goals and objectives. The City has benefited greatly from the many hours of volunteer commitment, dedication and effort of ACE's members who share a wide range of professional, technical and community expertise and interest in environmental issues. Staff recommend that Council approve the 2003 ACE Work Program and give favourable consideration to the proposed 2003 budget.

Rob Innes  
Planner

**To:** Mayor and Council  
**From:** 2002 Co-Chairs  
Advisory Committee on the Environment

**Date:** January 10, 2003  
**File:** 0100-20-ACEN1-01

---

**Re:** **ACE Progress Report- 2002 and Proposed Work Program-2003**

**ACE Progress Report-2002**

Attached please find our progress report on work undertaken this year. We are grateful to Rob Innes and other members of staff for their professional efforts and personal interest throughout the year that has made much of this work possible.

The most significant item is the update to Richmond's State of the Environment Report (SOE) which was issued in December 2001. ACE continues to analyse this report and use it as the basis of our outreach program to the community. We hope that Council takes its findings into consideration in their overall planning for Richmond, and in any revisions to the Official Community Plan (OCP).

The other item of most interest to ACE members is Shady Island (Steveston Island) and our hopes that Richmond may acquire all or parts of that island by free crown grant for municipal parks purposes. This would do much to protect the important fish and bird habitat on the island for future generations.

ACE provided advice on a range of issues that included the Agricultural Viability Study, the environmental considerations of drainage ditches and sloughs, the Kyoto Protocol and contaminated material disposal.

**ACE Proposed Work Program-2003**

We are pleased to offer our proposed work program for 2003 which has been developed by our Committee as a whole and in consultation with staff. We look forward to being able to provide Council with comments and advice on these and any other environmental issues that may arise.

*Priorities:* In addition to working towards protection of Shady Island, we want to give priority to analysis of results of the last SOE update. The trends detailed therein may be extrapolated to 2004 and 2007 to obtain a picture of what Richmond's environment will be like (good and bad) if present environmental and other practices are continued. We hope this will provide Council with ideas for strategic interventions to maintain and /or increase Richmond's livability, and perhaps save money.

A significant difference between the program for 2003 and that put forward for 2002 is the increased focus on task value and deliverables. We have an excellent team on the committee this year with a wide variety of technical and scientific skills, along with detailed knowledge of the environmental needs of our community. ACE members take a deep interest in environmental matters and will speak with knowledge on issues and provide advice as requested.

Gordon Kibble, Co Chair

Eric Sykes, Co Chair
