Re: Application by Rav Bains for Rezoning at 5631 Walton Road from
Single-Family Housing District, Subdivision Area E (R1/E) to Single-Family
Housing District, Subdivision Area B (R1/B)

Staff Recommendation

That Bylaw No. 8188, for the rezoning of 5631 Walton Road from "Single-Family Housing District, Subdivision Area E (R1/E)" to "Single-Family Housing District, Subdivision Area B (R1/B)", be introduced and given first reading.

Staff Report

Origin

Rav Bains has applied to the City of Richmond for permission to rezone 5631 Walton Road (**Attachment 1**) from Single-Family Housing District, Subdivision Area E (R1/E) to Single-Family Housing District, Subdivision Area B (R1/B) in order to permit the property to be subdivided into two (2) new single-family residential lots.

Findings of Fact

A Development Application Data Sheet providing details about the development proposal is attached (**Attachment 2**).

Surrounding Development

The subject property is located on the northeast corner of Walton Road and Dover Road in an established residential neighbourhood consisting predominantly of lots zoned Single-Family Housing District, Subdivision Area E (R1/E). Since the late 1980's, several lots zoned Single-Family Housing District, Subdivision Area E (R1/E) on the north and south side of Walton Road have been rezoned and subdivided to Single-Family Housing District, Subdivision Area B (R1/B) in accordance with the Lot Size Policy for this area.

- To the north and east of the subject property are residential lots zoned Single-Family Housing District, Subdivision Area E (R1/E);
- To the south is a residential lot zoned Single-Family Housing District, Subdivision Area E (R1/E) located adjacent to a lot zoned Single-Family Housing District, Subdivision Area B (R1/B) to the west; and
- To the west of the subject property, across Dover Road, is a residential lot zoned Single-Family Housing District, Subdivision Area E (R1/E).

Related Policies & Studies

OCP Designation

There is no Area Plan for this area. The Official Community Plan's Generalized Land Use Map designation for this property is *Neighbourhood Residential*, and the Specific Land Use Map designation is *Low-Density Residential*. This redevelopment proposal is consistent with these designations.

OCP Aircraft Noise Policy

The subject property is located within Area 4 – Aircraft Noise Notification Area in which all land uses may be considered. This rezoning application may be considered because it is supported by Single-Family Lot Size Policy 5419 (as discussed below). As a condition of rezoning approval, an aircraft noise covenant is required to be registered on title.

Lot Size Policy 5419

The subject property is located within the area covered by Single-Family Lot Size Policy 5419 (adopted by Council in 1989, and amended in 2003)(**Attachment 3**). This Policy permits rezoning and subdivision to Single-Family Housing District, Subdivision Area B (R1/B). This redevelopment proposal would allow for the creation of two (2) lots that comply with the minimum lot size requirements of Single-Family Housing District, Subdivision Area B (R1/B), in accordance with the Lot Size Policy.

Staff Comments

Trees

A tree survey has been submitted by the applicant indicating that no bylaw-sized trees exist on the subject property or on adjacent properties along common property lines (**Attachment 4**). To enhance the future lots, the applicant has agreed to plant four (4) trees, two (2) per lot (minimum 5 cm calliper).

Site Servicing

There are no servicing concerns or charges with rezoning. Prior to final adoption of the rezoning bylaw, the developer is required to dedicate a 4 m x 4 m corner cut for future road improvements.

At future subdivision stage, the developer will be required to:

- Pay Development Cost Charges (City and GVS&DD), School Site Acquisition Charge, Address Assignment Fee, and Servicing Costs; and
- Enter into a Servicing Agreement for the design and construction of off-site improvements along the entire frontage of Walton Road and Dover Road. Improvements are to include: curb and gutter, pavement widening, grass boulevard complete with street trees at 9 m spacing, 1.5 m concrete sidewalk, and street lighting. Note: Design should include water, storm and sanitary connections for both lots.

Flood Management

In accordance with the Interim Flood Protection Management Strategy, the applicant is required to register a flood indemnity covenant on title prior to final adoption of the rezoning bylaw.

Analysis

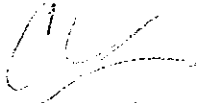

The subject property is located within an established residential neighbourhood which, in recent years, has seen some redevelopment to Single-Family Housing District, Subdivision Area B (R1/B) from original lots zoned Single-Family Housing District, Subdivision Area E (R1/E) in accordance with the Lot Size Policy for this area. This rezoning application is consistent with similar applications already undertaken in the surrounding area.

Financial Impact or Economic Impact

None.

Conclusion

This rezoning application to permit subdivision of an existing large lot into two (2) smaller lots complies with all applicable land use designations and policies, and is consistent with the direction of redevelopment undertaken in the surrounding area. On this basis, staff support the application.
