Staff Report

Origin

Rocky Sethi has applied to the City of Richmond for permission (**Attachment 1 & 2**):

- to discharge Land Use Contract 048 from 11031 King Road and rezone the front portion to Single-Family Housing District, Subdivision Area E (R1/E) (minimum width of 18m or 59 ft) in order to retain the existing house and rezone the rear portion to Single-Family Housing District, Subdivision Area B (R1/B) (minimum width 12m or 39 feet) in order to create a new lot in conjunction with 11051 King Road; and
- to rezone the rear portion of 11051 King Road from Single-Family Housing District, Subdivision Area E (R1/E) to Single-Family Housing District, Subdivision Area B (R1/B) in order to retain the existing house and create a new lot in conjunction with 11031 King Road.

Surrounding Development

The neighbourhood is comprised primarily of older single family homes with some multifamily in the northern portion of the quarter section. One letter was received (**Attachment 3**) from a neighbour who is not opposed to the proposal but would like to see the house at 11031 King Road retained, which is what the applicant is proposing.

Related Policies & Studies

Lot Size Policy

Lot Size Policy 5409 (**Attachment 4**) was adopted by Council in 1989, again in 1995 and then again in 2001. The policy restricts subdivision for most of the area however it designates the subject site for the creation of one R1/B size lot.

Staff Comments

Zoning

11031 King Road was included as part of Land Use Contract 048 which covers quite a number of single family properties to the north of the subject property. There is no issue with rezoning just one of the lots in the Land Use Contract as the contracts are with individual property owners, and the rest of the area will maintain the existing Land Use Contract zoning.

Retention of Existing Houses

The surveyor's plan (**Attachment 5**) shows that the existing houses will meet the 6m (20 foot) rear yard setback requirement of the R1 zone.

Engineering

There are no conditions for final reading of the rezoning. At the subdivision stage the developer is to enter into a standard Servicing Agreement to extend the curb and gutter to the east property line of 11051 King Road, remove the asphalt lighting strip replacing it with a 1.2m grass boulevard across both frontages and to extend the sidewalk.

Analysis

Staff is supportive of the proposal for the following reasons:

- The proposal is consistent with the Lot Size Policy;
- The new lot that is created will fit in nicely beside a row of lots along Kingcome that are also 12m (40 feet) wide;
- impact on the neighbourhood is minimal given that the existing houses on these properties will be retained;
- there are no issues with removing the Land Use Contract from this one lot only; and
- the homes that are being retained will conform to the R1 zone after the land at the back of the properties is used for a new lot.

Financial Impact

None.

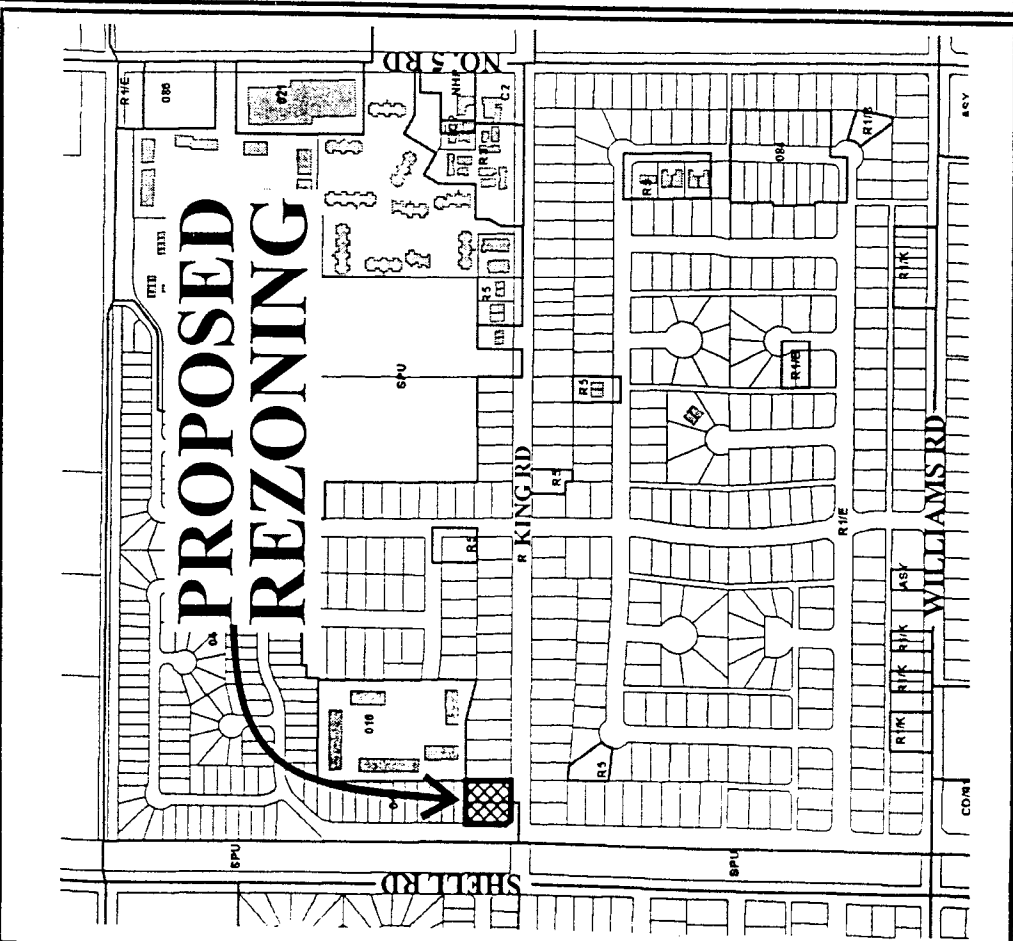

Conclusion

The proposal is to create a new lot on Kingcome Avenue using the rear portions of two lots fronting on King Road. Staff is supportive of the proposal as the existing houses will be retained, the new lot will be similar in size to the other lots fronting Kingcome, there should be minimal impact on the neighbourhood, there are no zoning issues and the proposal is consistent with the Lot Size Policy.

Re: RZ 03-222841 11031-11051 King Road

Dear Sir,

I understand from the signage that you have a proposal to consolidate two large lots on the corner of King/Shell and create three single family dwellings.

As a nearby homeowner (across the street) I am not opposed in principle to infill proposals, including this one. However, any such proposal should result in a net benefit to the community.

The critical fact is that 11031 King Road is a key landmark in the community and the most attractive house on the entire street. Its excellent landscaping, and traditional design (quasi-Tudor) set a standard.

Loss of this house and replacement by the conventional stock plan homes would represent a net loss to the community, and would indicate that staff and Council are indifferent to the quality of our neighbourhood, especially since a competent architect could either preserve the existing home or replace with new units of a traditional design.

Sincerely,

Mark Bostwick
