Staff Report

Origin

A Local Improvement Petition was successfully circulated for Basic Ditch Elimination on Regina Avenue and Kilby Street Area as shown on the attached sketch (Attachment 2).

The *Local Government Act* requires that Council adopt a report outlining the expected life of the local improvement and cost-sharing for it, prior to adopting the Local Improvement Construction Bylaw for the work. This report satisfies those requirements of the *Local Government Act*.

Analysis

In support of the Local Improvement Construction Bylaw and as required under Section 635 of the *Local Government Act*, this report confirms that:

1. The lifetime of the work is 20 years;
2. The estimated cost of the work is \$112,080.00;
3. The estimated share or proportion of the total cost which will be specially charged against the parcels benefiting from, or abutting on the work, is \$74,720.00 and the estimated share to be borne by the City is \$37,360.00;
4. The charge per taxable front metre against the various parcels is estimated to be \$811.65;
5. The number of instalments by which the special charges shall be made payable are 15.

Financial Impact

In the approved 2003 Capital Budget \$750,000.00 was provided for the City's share of the Local Improvement Projects. The amount of \$112,080.00 would be funded from that source. The estimated balance left in this account after funding this project will be \$637,920.00.

Conclusion

We recommend that this project proceed because financing is in place and the benefiting residents have approved the work by petition in accordance with the *Local Government Act*.
