NEXT COMMITTEE MEETING DATE

2. The next meeting of the Committee will be on Wednesday, May 22, 2002, at 3:00 p.m. in the Anderson Room.

DELEGATIONS

3. Monica Stefansson, President, Strata Plan LMS 4084, regarding vehicular access to "The Monaco and Sonterra at the Palms".(6455-01)

Planning Committee

Tuesday, May 7, 2002

Ms. Stefansson thanked the Committee for allowing the presentation. A current site plan was distributed. With the aid of a diagram, Ms. Stefansson brought to the attention of the Committee the concerns of the Strata Plan owners and residents with respect to the single access, from St. Albans Road, to their property. The access, situated across the street from an access for three neighbouring complexes and an access to a busy strip mall, was reported to be a bottleneck at times, a circumstance further hampered by the proximity of the security gate for one of the buildings, the Monaco, to the access. A request for a 'right in/right out only' access from Granville Avenue was put forth to the Committee. A petition containing the signatures of the owners/residents of the Strata Plan was submitted, a copy of which is on file in the City Clerks Office.

A discussion then ensued on the matter which resulted in the following **referral** motion:

It was moved and seconded

That access to 7080 and 7088 St. Albans Road, and 8433 Bennett Road, be referred to Transportation staff:

- 1. in order that the traffic volumes at the access and the adjacent intersections be monitored; and*
- 2. to determine whether an additional access from Granville Avenue to the site would alleviate the traffic volume on St. Albans.*

Prior to the question being called the Manager, Transportation, Victor Wei, in response to questions, said that traffic counters would be put in place by the week's end and that a report to the Public Works and Transportation Committee, which would include consultation with the traffic consultant retained by the Strata Plan, would be made in June. Direction was then given to staff that the impact of the security gate of the Monaco be included in the report. The question on the referral motion was then called and it was **CARRIED**.
