## Staff Report

### Origin

Wedgewood Construction Ltd. has applied to the City of Richmond for permission to rezone 8300 Ash Street (**Attachment 1**) from Single-Family Housing District, Subdivision Area B (R1/B) (12m or 39.37 feet minimum width) to Single-Family Housing District, Subdivision Area K (R1/K) (10m or 32.8 feet minimum width), in order to permit a two lot single-family residential subdivision.

### Findings of Fact

Item	Existing	Proposed
Owner	Jeanette and Ronald Lemieux	To be determined
Applicant	Gordon Epp	No change
Site Size	836 m <sup>2</sup> (8999 ft <sup>2</sup> )	Two lots each 418 m <sup>2</sup> (4499 ft <sup>2</sup> )
Land Uses	One large single family lot	Two small single family lots
OCP and Ash Street Area Plan Designation	Low Density Residential	No change
Zoning	R1/B	R1/K

### Surrounding Development

The Ash Street area is a mix of small and medium sized single family lots and townhouses. The housing stock is a mix of newer and older homes and there are ditches still lining some of the streets. The homes surrounding the subject properties are generally older homes and some lots have similar development potential to the subject applications.

### Related Policies & Studies

#### Ash Street Sub Area Plan

There is no Lot Size Policy in this area that provides a guide for single-family subdivision. However, the quarter section is governed by the Ash Street Sub-Area Plan which was written primarily to guide the development of specified infill sites throughout the quarter section. The Sub-Area Plan provides only the following direction with regard to the subject applications:

*“Permit the use and development of lands outside of the “infill” sites shown on the Land Use Map to be governed by the City’s normal development application process”.*

### Staff Comments

There are no requirements for this rezoning.

**Analysis**

A number of similar applications in the neighbourhood have already been approved as shown on **Attachment 2**. Thirteen larger lots have been approved to subdivide to create 26 new smaller lots. Approximately 65 lots in total would be able to subdivide under R1/K zoning in the western part of the quarter section. To date, 20% of those lots with potential have now applied to rezone their properties.

This neighbourhood could change to some degree if all lots with potential did redevelop. However, given that the majority of the lots in the area are small already and/or have relatively new housing, the character of the neighbourhood should not change dramatically. Also, Council has set a precedent with the other sites in the area to enable similar sized, small lot subdivisions.

**Financial Impact**

None.

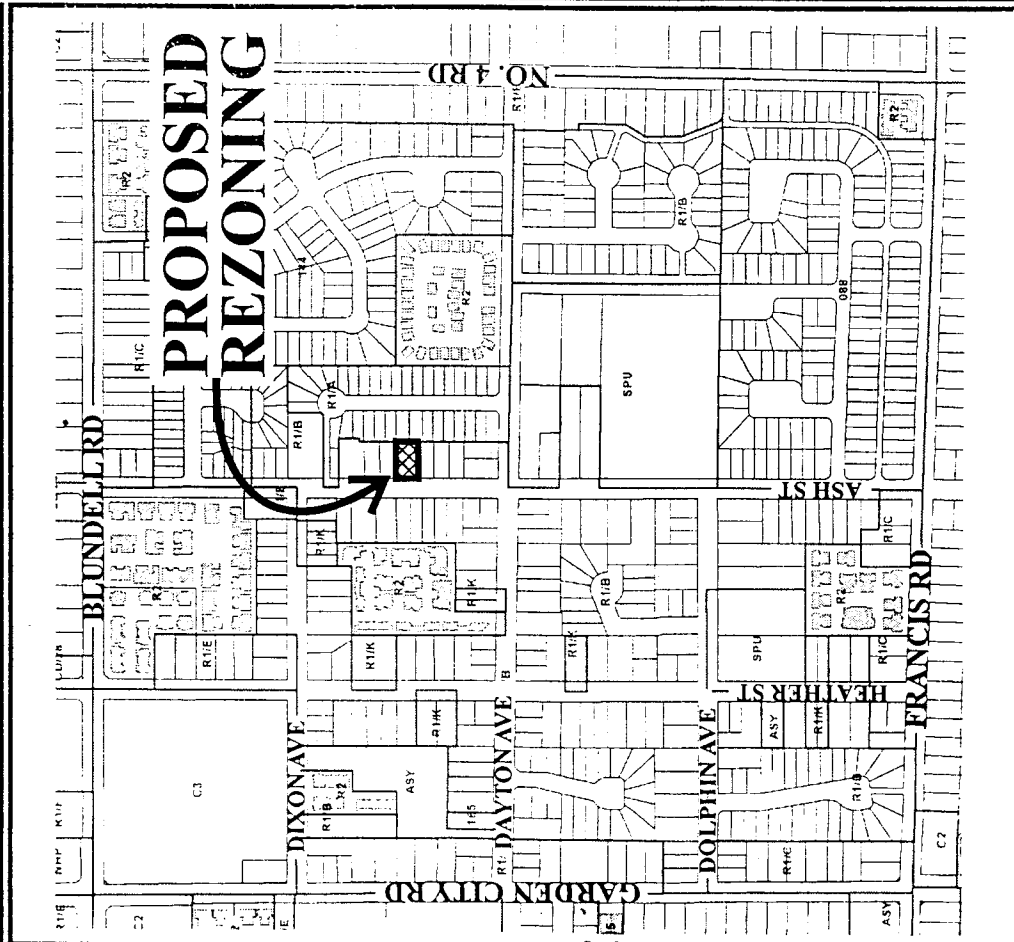

**Conclusion**

This is a straightforward rezoning to subdivide a lot on Ash Street. The area is already comprised of smaller lot R1/B (40 feet wide) lots and 13 lots have also recently rezoned to R1/K (33 feet wide). There are no requirement for the application and no issues have been identify therefore staff recommend support of the application.
