Staff Report

Origin

At the May 9th, 2005 Council meeting there was the following referral to staff:

“That Parts (1), (2), (3) and (4) of Resolution No. R05/9-6, relating to the Property Maintenance & Repair Bylaw No. 7897 be referred to staff to consider the inclusion in Bylaw 7897 of an appeal process in relation to the assessments imposed for return to Council as quickly as possible to meet the proposed effective date of July 1st, 2005”

Analysis

This report deals primarily with the amendments to the Bylaw to include the appeal procedure identified by Council in their referral. Parts ((2), (3) and (4)) of Resolution No. R05/9-6 were as follows:

- (2) That staff develop a communication and education strategy, including the preparation of notices for insertion with the 2005 property tax bills.
- (3) That letters be sent to the Richmond Members of Parliament and to the Federal and Provincial Solicitor Generals regarding the possibility of funds resulting from the seizure of the proceeds of crime being remitted to the City.
- (4) That staff:
 - (a) review and report on funding and cost implications which could result from the adoption of Bylaw No. 7897; and
 - (b) examine and report on the feasibility of (i) creating an additional “green team” and the cost of such implementation; and/or (ii) other community safety strategies.

There is a team of City staff working to further the communication strategy that will accompany this Bylaw. The basic ingredients of the plan were contained in the memo of May 9th from the Acting Manager, Communication & Corporate Programs to Mayor and Councillors. Letters to the parliamentarians referred to in Part (3) will be prepared subsequent to the adoption of this Bylaw. The expected revenues from this Bylaw are based on the number of grow operations handled by the police reduced by the number of landlords that have, in compliance with the Bylaw, advised the City of a grow op in their rented building. Only the RCMP knows the historical data, which would provide some indication of expected revenue. Previously there has been no requirement to gather this information and some study is required before this data is available to Committee.

The additional “green team” would be the cost of an additional RCMP member estimated at \$129,000 per member. If, as expected, there are a large number of grow operations throughout the City, additional police officers would generate more searches and thus more revenue but at some future point there would be fewer grow operations and revenues would decrease. It should also be noted that this bylaw does not impose additional work for the RCMP but it does increase

the number of inspections that would have to be carried out by the Building Inspections Department and consideration should be given to the impact of this Bylaw on their resources.

The appeal process has been incorporated into the Bylaw in Section 3.1.2, it states that the party receiving an invoice demanding payment may be heard by Council. Council may confirm, cancel or reduce the fee to be paid as it deems appropriate.

There was discussion of delegating this authority to the Community Safety Committee to "finally determine if the fee or service fee should be paid". This would be the first delegation of its kind to a Standing Committee of Council. As it is now, Standing Committees only make recommendations to Council and have no final decision-making authority. If the authority to make a final decision was delegated to Committee, it would mean that Council members not serving on the Community Safety Committee would not have a voice in these matters, nor would the right of an appellant to have their matter heard by all of Council be satisfied.

However, in the event that Council wishes to further consider the delegation of this matter to a Standing Committee, the following could be substituted for Section 3.1.2:

"Every person required to pay any fee or **service fee** under this bylaw may within 30 days of receipt of an invoice demanding payment appeal the amount of the invoice by notifying the **Director, City Clerk's** Office in writing. The person shall be afforded the opportunity to be heard by the Community Safety Committee or its successor which is delegated the authority of Council to finally determine if the fee or **service fee** should be paid."

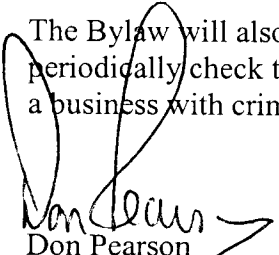

Financial Impact

The inclusion of the appeal process does not significantly impact the revenue this Bylaw will generate. There will be a future report dealing specifically with this aspect of the Bylaw under one of the other referrals.

Conclusion

The adoption of Bylaw No. 7897 will provide another means of working towards the eventual elimination of controlled substances and businesses on properties within the City. The Bylaw also allows for the recovery of specified actual costs associated with this unlawful activity.

The Bylaw will also serve to make landlords more acutely aware of their responsibilities to periodically check their properties and will make Richmond less attractive as a location to set up a business with criminal activities.
