Related Policies & Studies

Bridgeport Area Plan

The subject property is located within the Bridgeport Area Plan, Schedule 2.12 of the Official Community Plan (OCP). The proposal complies with the objectives and policies listed in the Bridgeport Area Plan, as well as those specifically pertaining to the Tait neighbourhood.

Lot Size Policy 5448

The subject property also falls within the area covered by Single-Family Lot Size Policy 5448 (**Attachment 3**). This Policy was adopted in 1991 and permits subdivision of lots fronting an internal street to a Single-Family Housing District, Subdivision Area B (R1/B) (minimum 12 m or 39.4 ft. wide).

Staff Comments

Trees

A tree survey was submitted as part of this application and indicates four (4) trees existing within the subject property (**Attachment 4**). The applicant agreed to preserve all trees on site. Tree protection barriers will be installed prior to final adoption of the rezoning bylaw or demolition of the existing buildings on site.

The tree survey also indicates that a large Maple tree is located on the adjacent property to the east (10291 Gilmore Crescent) and the drip-line of this tree encroaches into the subject property. This large Maple tree is identified on the City's Significant Tree Inventory. The applicants who also own 10291 Gilmore Crescent have agreed to protect this significant tree during construction. A protection fence will be placed outside of the drip-line of the Silver Maple tree over the subject property prior to issuance of any demolition permits and no fill be allowed to be placed within the protection area. The applicant will provide a security of \$3,000 ensure this tree is not damaged during construction and the City will hold the security until one (1) year after the Final Inspection for the new dwelling has been issued.

Other Requirements

An Aircraft Noise Covenant is required prior to final adoption of the rezoning bylaw. At subdivision, the developer is to pay a Neighbourhood Improvement Charge (NIC).

Analysis

The applicants understand that three (3) R1/B lots can be created from the two (2) R1/D lots (10271 & 10291 Gilmore Crescent) under current City policies. The applicants are planning to stay in the adjacent property but want to keep the option of redeveloping the larger lot in the future. Therefore, as the first step of their development plan, the applicants are proposing to rezone a portion of the subject property to create one (1) R1/B lot and consolidate the remnant parcel to the adjacent property to create a larger lot under the current zone (R1/D). The applicants will apply to rezone and subdivide the large R1/D parcel into two (2) R1/B lots when they are ready to move on. Staff will assess tree protection/preservation requirements on the

adjacent property to the east (10291 Gilmore Crescent) including retention of the significant tree, as part of such a subsequent rezoning and subdivision applications.

The proposal to rezone and subdivide a portion of the subject property is consistent with all applicable land use designation guiding development in this block. Staff have no objection to the proposal.

Financial Impact or Economic Impact

None.

Conclusion

The rezoning application complies with all policies and land use designations contained within the Official Community Plan (OCP) and is consistent with the direction of redevelopment currently ongoing in the surrounding area. On this basis, staff support the application.
