## Staff Report

### Origin

It has come to the attention of the writer that a congregation which has in good faith leased accommodation in the City Centre is being threatened with expulsion by their landlord on the basis that the use is not currently permitted under the Zoning Bylaw.

### Findings Of Fact

The Downtown Commercial District (C7) allows the widest range of uses of any zoning category under our current zoning bylaw. Although "Assembly" uses are permitted, there is a specific exclusion of "places of worship". This could mean that a congregation could have classrooms, meeting rooms and all of the facilities associated with a church or temple provided that it does not include a sanctuary.

### Analysis

The City Centre has been planned to accommodate a wide range of uses in order that a accessible high density, pedestrian environment with all of the requisite services an individual might need are within reasonable proximity. The exclusion of "places of worship" is not consistent with this vision of our City Centre. This use should not have a negative impact on the City Centre as demonstrated in other longer established centres (i.e. Vancouver, New Westminster), in fact these sites are often appropriate for a variety of social and community programs that are necessary in the City Centre.

### Financial Impact

No budgetary impact.

### Conclusion

The inclusion of "Places of Worship" as a permitted use in the City Centre is advisable given the vision of this neighbourhood as the most accessible to the widest range of services.
