Related Policies & Studies

The Official Community Plan (OCP) has two Agriculture objectives: “*continue to protect all farmlands in the Agricultural Land Reserve*” and “*maintain and enhance agricultural viability and productivity in Richmond.*” In support of these objectives, Council has adopted an OCP policy to “*limit the subdivision of farmland and investigate ways to encourage the consolidation of lots in the ALR, for example in the McLennan agricultural area.*”

The goal of the McLennan Sub-Area Plan is “*to preserve the agricultural lands in the East Richmond McLennan Sub-Area, and to minimize urban/rural conflicts.*” To achieve this goal, the Plan has as one of its objectives “*to enhance the agricultural viability of the area east of No. 4 Road in the short term.*” The McLennan Sub-Area Plan also has the following policies: “*retain the East Richmond McLennan Sub-Area in the Agricultural Land Reserve.*” and “*approve rezoning applications that conform to Attachment 1*” (the Land Use map which does not currently contain any Residential designated lands).

The recently approved Richmond Agricultural Viability Strategy reinforces these plans with the following guiding principles: “*subdivision in the ALR will be minimized, except where it supports agricultural viability (e.g. diversification, expansion, etc.)*” and “*urban development in the ALR will be minimized*”. The Strategy goes on to recommend in the McLennan area to “*discourage non-farm uses of the ALR land*” and “*maximize the agricultural land available in McLennan 2 for future agricultural uses ... including the possibility of replotting the land and/or limited access*”. The Strategy also recommends to “*maximize the agricultural land available for agricultural uses: a) review the feasibility of amalgamating smaller lots to larger ones wherever possible ... c) establish guidelines for parcel sizes suitable for farming, including options for smaller parcels of 2 acres or less ...*”.

Staff Comments

Staff have consistently recommended that the proposal by the Dha’s to subdivide 7931 McLennan Avenue be denied (see the attached chronology of applications on this property). The reasons staff cannot support the current application are that:

1. It is contrary to the Official Community Plan, McLennan Sub-Area Plan and Richmond Agricultural Viability Strategy.
2. Approving this application could set a precedent for other rezoning and subdivision requests in the ALR, as there are numerous similarly sized parcels with road access in the McLennan Sub-Area that could apply for a two (2) lot subdivision (see **Attachment 3**).

Analysis

Arguments in favour of approving this application include:

1. The Land Reserve Commission has approved the proposed two (2) lot subdivision.
2. Council and the Development Permit Panel have approved a Development Variance Permit (DV 00-179925) to not extend McLennan Avenue to the northern property line of 7931 McLennan Avenue and to not require McLennan Avenue to be built to full City standards (so as not to open up the lots to the north for development).
3. The applicant has argued that the subject property is not viable for agriculture and demonstrated that a septic field could be accommodated on the proposed new lot.

Financial Impact

None to the City.

Conclusion

Bob Ransford has applied on behalf of Inderjeet and Gurdial Dha to rezone 7931 McLennan Avenue from Agricultural District (AG1) to Single-Family Housing District, Subdivision Area F (R1/F) in order to permit a two (2) lot residential subdivision. Staff are recommending that this application be denied because it is contrary to the Official Community Plan, McLennan Sub-Area Plan and Richmond Agricultural Viability Strategy and because they are concerned that approving this application would set a precedent for other rezoning and subdivision applications in the ALR, particularly the McLennan Sub-Area. However, Council in the past has been nearly equally divided in favour of and in opposition to the various requests to subdivide the Dha property.

- October 25, 1990** - Planning and Development Services Committee resolves that the Public Works and Services Committee be asked to consider if they are willing to make any changes, in light of the Dha's case, to Council's policies with respect to not permitting the extension of roads and services, other than to a bona fide farm property containing a minimum of 5 acres, unless the area is serviced by a sanitary sewer system and not to allow a lot which does not have improved frontage to be used as the site of a dwelling.
- October 16, 1990** - Memo from Paul Kendrick advising that whether or not the Dhas are allowed to subdivide should be based on planning and engineering grounds and be divorced from the law suit (in which the Dhas were awarded \$220,000 due to differential settlement of the house they built on the property in 1986-87).
