| Staff Comments | <p><u>Background</u></p> <ul style="list-style-type: none"> <li>A Development Application Data Sheet providing details of the redevelopment proposal is attached (<b>Attachment 3</b>).</li> </ul> <p><u>Trees &amp; Landscaping</u></p> <ul style="list-style-type: none"> <li>A Tree Survey submitted by the applicant indicates the location of nine (9) trees (<b>Attachment 4</b>):             <ul style="list-style-type: none"> <li>seven (7) bylaw-sized trees are located on the subject property; and</li> <li>two (2) undersized street trees are located on City property fronting Williams Road.</li> </ul> </li> <li>The applicant proposes to remove all trees from the subject property. The undersized street trees located on City property are to be protected.</li> <li>A Certified Arborist's Report has been submitted by the applicant in support of tree removal (<b>Attachment 5</b>). The Report identifies tree species and provides recommendations on tree retention and removal relative to tree condition and proposed development plans.</li> <li>The City's Tree Preservation Coordinator has reviewed and concurred with the Arborist's recommendations for tree removal on the basis of tree condition and conflict with proposed development plans.</li> <li>Based on the OCP's tree replacement ratio goal of 2:1, and the size requirements for replacement trees in the City's Tree Protection Bylaw, 14 replacement trees are required to be planted and maintained.</li> <li>Due to the difficulty of accommodating all replacement trees on-site, the applicant proposes to plant and maintain eight (8) trees [four (4) per future lot], with the following minimum calliper sizes:             <ul style="list-style-type: none"> <li>two (2) trees of 11 cm;</li> <li>two (2) trees of 10 cm;</li> <li>two (2) trees of 9 cm; and</li> <li>two (2) trees of 6 cm.</li> </ul> </li> <li>A voluntary contribution of \$3,000 to the City's Tree Compensation Fund is proposed in-lieu of planting the remaining six (6) replacement trees (\$500/tree).</li> </ul> |
|----------------|--|

|                                |   |
|--------------------------------|---|
| <p>Staff Comments (cont'd)</p> | <ul style="list-style-type: none"> <li>• As a condition of rezoning, the applicant must submit a Landscape Plan, prepared by a Registered Landscape Architect, along with a Landscaping Security (100% of the cost estimate provided by the landscape architect) to ensure that the replacement trees will be planted and the front yards of the future lots enhanced.</li> <li>• As a condition of rezoning, or prior to demolition of the existing dwelling on the subject property (whichever occurs first), tree protection barriers must be installed to City standards around the street trees on City property. Tree protection barriers must remain in place until construction of the future dwellings on the site is complete.</li> </ul> <p><u>Vehicle Access &amp; Site Servicing</u></p> <ul style="list-style-type: none"> <li>• Vehicular access to the site at future development stage is not permitted to/from Williams Road as per Bylaw No. 7222. Access is to be from the existing rear lane and will not affect the City's street trees.</li> <li>• There are no servicing concerns or requirements with rezoning.</li> <li>• At future subdivision stage, the developer will be required to pay Development Cost Charges (City and GVS &amp; DD), Neighbourhood Improvement Charges (for future lane improvements), School Site Acquisition Charge, Address Assignment Fee, and Servicing Costs.</li> </ul> <p><u>Flood Protection</u></p> <ul style="list-style-type: none"> <li>• In accordance with the Interim Flood Protection Management Strategy, the applicant is required to register a flood indemnity covenant on title prior to final adoption of the rezoning bylaw.</li> </ul> |
| <p>Analysis</p>                | <ul style="list-style-type: none"> <li>• This rezoning application complies with the City's Lane Establishment and Arterial Road Redevelopment Policies since it is a single-family residential redevelopment proposal with access to an existing operational rear lane.</li> <li>• The future lots will have vehicle access to the lane, with no access being permitted to or from Williams Road.</li> </ul>   |
| <p>Attachments</p>             | <p><b>Attachment 1</b> – Location Map/Aerial Photo<br/> <b>Attachment 2</b> – Lot Size Policy 5434<br/> <b>Attachment 3</b> – Development Application Data Sheet<br/> <b>Attachment 4</b> – Tree Survey<br/> <b>Attachment 5</b> – Certified Arborist's Report</p>  |

|                |  |
|----------------|--|
| Recommendation | This rezoning application to permit subdivision of an existing large lot into two (2) smaller lots complies with all policies and land use designations contained within the OCP and is consistent with the direction of redevelopment currently on-going in the surrounding area. On this basis, staff support the application. |
|----------------|--|

Cynthia Lussier  
Planning Assistant  
(Local 4108)

CL:sl

The following items are to be dealt with prior to final adoption:

1. Submission of a Landscape Plan, prepared by a Registered Landscape Architect, to the satisfaction of the Direction of Development, and deposit of a Landscaping Security based on 100% of the cost estimate provided by the landscape architect. The landscape plan should comply with the guidelines of the Official Community Plan's (OCP's) Arterial Road Redevelopment Policy, and should include eight (8) replacement trees [four (4) per future lot] with the following minimum calliper sizes:
  - two (2) trees of 11 cm;
  - two (2) trees of 10 cm;
  - two (2) trees of 9 cm; and,
  - two (2) trees of 6 cm.
2. The City's acceptance of the applicant's offer to provide a voluntary contribution of \$3,000 to the City's Tree Compensation Fund in-lieu of planting six (6) replacement trees (\$500/tree).
3. Installation of tree protection barriers around the drip lines of the street trees on City property. Tree protection barriers must be installed to the satisfaction of the City's Tree Preservation Official prior to final adoption of the rezoning bylaw, or prior to demolition of the existing dwelling on the subject property (whichever occurs first). Tree protection barriers must remain in place until construction of the future dwellings on the site is complete.
4. Registration of a flood indemnity covenant on title.

SINGLE-FAMILY LOT SIZE POLICY IN QUARTER-SECTION 36-4-6

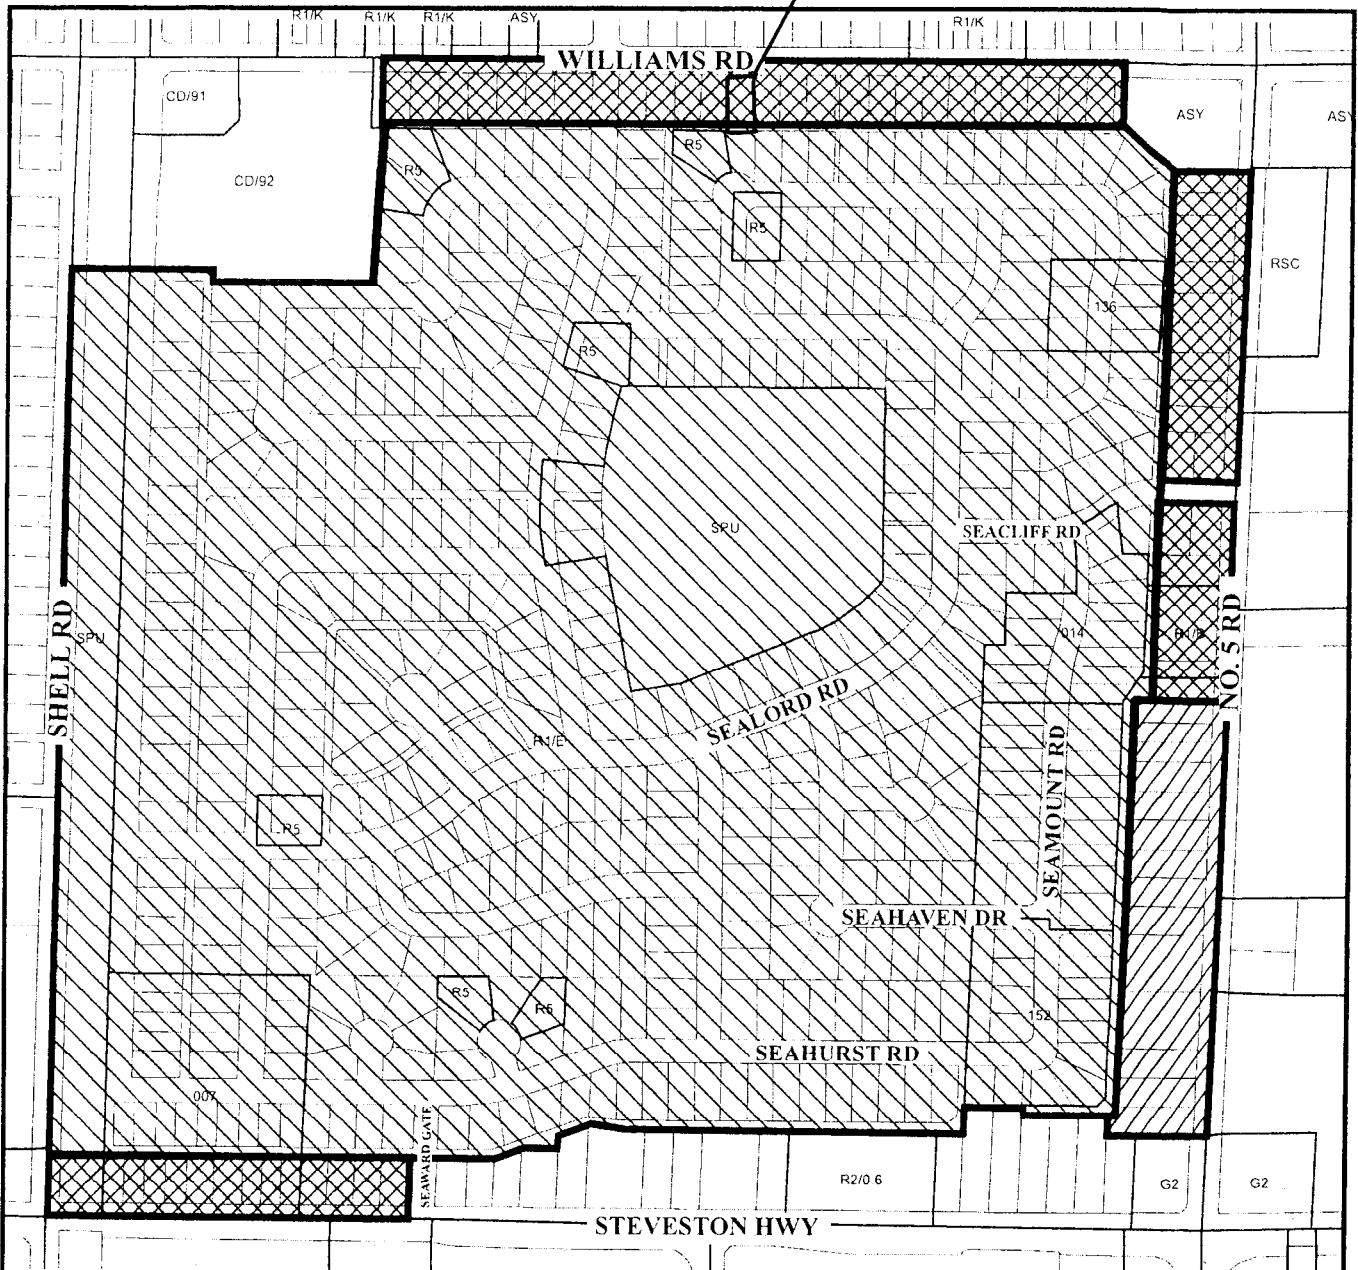

**POLICY 5434:**

The following policy establishes lot sizes in a portion of Section 36-4-6, within the area bounded by **Steveston Highway, Shell Road, No. 5 Road, and Williams Road**:

1. That properties within the area bounded by Shell Road, Williams Road, No. 5 Road, and Steveston Highway, in a portion of Section 36-4-6, be permitted to subdivide in accordance with the provisions of Single-Family Housing District (R1/E), with the exception that:
  - a) Properties fronting on Williams Road from Shell Road to No. 5 Road, properties fronting on Steveston Highway from Seaward Gate to Shell Road, and properties fronting on No. 5 Road from Williams Road to approximately 135 m south of Seacliff Road to rezone and subdivide in accordance with the provisions of Single-Family Housing District (R1-0.6) or Coach House District (R/9) provided that vehicle accesses are to the existing rear laneway only. Multiple-family residential development shall not be permitted in these areas.
  - b) Properties fronting on No. 5 Road from Steveston Highway to approximately 135 m south of Seacliff Road be permitted to subdivide in accordance with the provisions of Single-Family Housing District, Subdivision Area B (R1/B) provided that vehicle accesses are to the existing rear laneway only.
2. This policy, as shown on the accompanying plan, is to be used to determine the disposition of future rezoning applications in this area, for a period of not less than five years, unless changed by the amending procedures contained in the Zoning and Development Bylaw.

SUBJECT PROPERTY

Subdivision permitted as per **R1/E** (18 m wide lots)

Subdivision permitted as per **R1-0.6** or **R/9**  
(access to lane only) (No Multiple-family residential development is permitted.)

Subdivision permitted as per **R1/B**

Other: Tree replacement compensation required for loss of bylaw-sized trees.

April 27, 2007

**RE: Arborist Report for Paul Rhandawa, 11500 Williams Road, Richmond, BC**

**Arborist Notes:** This site was inspected on April 26, 2007. The conditions of four trees were assessed, and for the purpose of this report will be numbered 1 - 4.

**#1) *Acer sp.* (Maple)**

**Height:** 22ft

**Spread:** 16ft

**Age:** Mature

**DBH:** 56cm combined

**Location on property:** Adjacent to south side property line.

This tree is co-dominant at approximately 8ft. It has been continually pruned to provide clearance for the hydro line. It has a very unbalanced canopy that leans significantly to the north. It is covered in ivy. This tree is beyond restorative pruning and should be removed. If any new trees are to be planted along the south property line, consideration should be given o a species of tree that will Not become large enough to grow into the hydro line.

**#2) *Thuja plicata sp.* (Cedar)**

**Height:** 16ft

**Spread:** 40ft

**Age:** Mature

**DBH:** range from 14 - 30cm

**Location on property:** Adjacent to west side property line.

This cedar hedge consists of 19 trees, only 4 of which are permit size. The west side of the hedge has been trimmed back too hard and has no foliage. This hedge has not been properly maintained, it has become too large and trimming it back hard would not encourage new growth. It had grown into the servie drop wires to the existing house and has been trimmed to accomodate for this. The hedge should be removed and something else should be planted upon completion of the development.

**#3) *Thuja plicata sp.* (Cedar)**

**Height:** 40ft

**Spread:** 14ft

**Age:** Mature

**DBH:** 62cm combined

**Location on property:** Adjacent to west side property line, north of Hege #2.

This tree is co-dominant at 1ft; there is slight bark inclusion. The canopy is very unbalanced; the east side has been raised very high to provide clear the roof of the house. Tunk taper is not great, likely due to its sheltered location and the canopy having been raised too high. It is not an ideal location for this tree and it will be too close the proposed building envelope, and should be considered for removal for this reason.

**#4) *Cornus sp.* (Dogwood)**

**Height:** 12ft

**Spread:** 10ft

**Age:** Mature

**DBH:** 50cm combined

**Location on property:** Adjacent to east side property line.

This is a multi-stemmed specimen with no apparent defects. It will be within close proximity of the proposed building envelope, and will impede the pathway that is to run along the east side property line; therefore, removal of this tree is required. A new tree should be planted upon completion of the development.

This report is based on a visual assessment, from the ground only. No core or tissue samples were taken, no root crown excavations were performed. This report provides no undertakings regarding the future condition or behavior of the trees reviewed in it. Tree hazards and conditions do change overtime, and the evaluation period for this report is valid for the day on which it was performed only. No responsibility is assumed for any legal matters as a result of this report. The consultant shall not be required to give *testimony or attend court by reason of this report unless subsequent contractual arrangements are made, including payment of additional fees for such services.* Loss or alteration of any part of this report invalidates the entire report. Possession of this report or a copy thereof does not imply right of publication or use for any purpose by any other than the person to whom it is addressed, without verbal or written consent of the consultant. No part of this report shall be conveyed by anyone to the public by any means without prior written consent of the consultant.
