Staff Report

Origin and Analysis

Council approval is required to discharge a right of way as it is considered a disposition. The property at 7571 Alderbridge Way (see Attachment #1) has three underground rights of way for public utilities that are no longer utilized by the City. Specifically, rights of way are being reconfigured during redevelopment of the site. New rights of way have been negotiated and have been registered as part of the Development Permit for the City's utility works to be established on site. These discharges were not included in the approved Report to Council for the Re-zoning and Subdivision application, and therefore staff are now requesting such approval.

Conclusion
