PANEL REPORT

The Development Permit Panel considered two development permits at its meeting held on June 13, 2001. One of these permits has already been issued by Council, now the second is ready for Council consideration.

DP 00-184308 – MATTHEW CHENG – 9011 DOUGLAS STREET

The proposal to construct a small warehouse at the corner of Douglas and Smith Streets did not generate any public comment. The proposed variances allow an improved orientation to the streets and the parking provided at the rear of the building should adequately accommodate loading needs.

The Panel recommends that the permit be issued.
