Staff Report

Origin

Steve Ewert on behalf of Vero Construction Ltd. has applied to the City of Richmond for permission to rezone 7371 and 7391 Lindsay Road (**Attachment 1**) from Single-Family Housing District, Subdivision Area H (R1/H) to Single-Family Housing District, Subdivision Area B (R1/B) in order to consolidate the two properties and subdivide them into three new residential lots (**Attachment 2**).

Related Policies & Studies

Single Family Lot Size Policy

Lot Size Policy 5463 (**Attachment 3**), which was adopted in 1996, permits the subdivision of lots along Lindsay Road to R1/B.

Staff Comments

There are some substantial trees at the front of the subject properties that are situated within the current road right-of-way. Parks staff have conducted a site visit and have determined that while the trees are substantial in size, they are not the healthiest of specimens. Therefore, staff are recommending that the trees be removed in favour of planting new street trees in front of the subject properties.

With the future subdivision, the developer is required to design and construct, via our standard Servicing Agreement, full road frontage upgrading at their sole cost. Works include, but are not limited to, benkleman beam test, road widening, curb and gutter, storm sewer, a minimum 2m wide grass and treed boulevard, street lighting and establishment of a 1.5m sidewalk.

Analysis

The application is consistent with the Lot Size Policy for the area in which the area residents supported smaller lots for the properties along Lindsay Road. While there has been some redevelopment activity in the neighbourhood over the past few years, this application is the first to take advantage of the Lot Size Policy to introduce smaller lots.

Financial Impact

None.

Conclusion

This is a simple application to consolidate two properties and re-subdivide into three smaller single family lots. The application is consistent with the Lot Size Policy for the neighbourhood. The main impact with the redevelopment will be the loss of some mature vegetation in order to complete the street upgrades.
