Staff Report

Origin

A Local Improvement Petition was successfully circulated for Basic Ditch Elimination on 3320, 3340 and 3346 Georgia Street as shown on the attached sketch (Attachment 1).

The *Local Government Act* requires that Council adopt a report outlining the expected life of the local improvement and cost-sharing for it prior to adopting the Local Improvement Construction Bylaw for the work. This report satisfies those requirements of the *Local Government Act*.

Analysis

In support of the Local Improvement Construction Bylaw and as required under Section 635 of the *Local Government Act*, this report confirms that:

1. The lifetime of the work is 20 years;
2. The estimated cost of the work is \$25,560.75;
3. The estimated share or proportion of the total cost which will be specially charged against the parcels benefiting from or abutting on the work is \$15,617.15 and the estimated share to be borne by the City is \$9,943.60;
4. The charge per taxable front metre against the various parcels is estimated to be \$776.20;
5. The number of instalments by which the special charges shall be made payable are 15.

Financial Impact

In the 2002 budget an estimated amount of \$560,010.00 is remaining for the City's share of the Local Improvement Projects. The amount of \$25,560.75 would be funded from that source. The estimated balance left in this account after funding this project will be \$534,449.25.

Conclusion

We recommend that this project proceed because financing is in place and the benefiting residents have approved the work by petition in accordance with the *Local Government Act*.
