STAFF REPORT

ORIGIN

This project is part of the 2001 Capital Works Program.

Scope of Work

This project will replace the existing old asbestos cement and steel watermain on Westminster Highway between No. 5 Road and No. 6 Road. The portion of watermain in the Highway 99 interchange was replaced approximately 10 years ago and therefore does not require replacement.

Construction is expected to start in August and be completed by the end of September, subject to weather and other uncontrollable delays.

A sketch of the limits of work on Westminster Highway is attached.

Tender Results

The City received two tenders for this project, and these were reviewed by the City's Engineering staff. Tenders were as follows:

TENDERER	TOTAL TENDERED AMOUNTS
City Staff Pre-Tender Estimate	\$ 451,200.00
Hexcel Construction Ltd.	\$ 421,208.00
Progressive Contracting (Delta) Ltd.	\$ 342,822.00

ANALYSIS

All tenders were checked for legal or mathematical errors. The low bidder for contract T.1527 is Progressive Contracting (Delta) Ltd. This contractor has successfully completed similar project in the past and is therefore acceptable to staff.

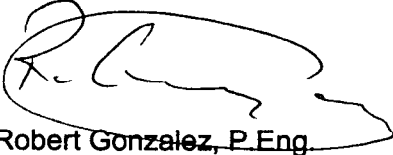

FINANCIAL IMPACT

Funding details are shown in APPENDIX A.

Current Funding Available	\$ 520,000.00
Funding Required	<u>\$ 509,550.00</u>
Remaining Balance	<u>\$ 10,450.00</u>

CONCLUSION

The tender being recommended for award is the lowest of the tenders received. The tender from Progressive Contracting (Delta) Ltd. has been reviewed and is in order. It is therefore recommended that the project be awarded to Progressive Contracting (Delta) Ltd.
