Comments:

Attn City Clerk

8060-20-7498

I own a business on moncton street and I also live in the town of a Steveston. I am strongly against the rezoning of 12160 1st Avenue. Steveston is a small old village and that is the way it should be. The town is a historic village which is what attracts so many tourists and movie businesses to film here. The residents of Steveston should be able to enjoy living in their small town of Steveston the way it is. There should not be major changes made to this town such as building a 3 story building in this little village. This village is historic and all the buildings should remain as is. Building a 3 storey building at that location will disrupt the scenery of Steveston and the general atmosphere since the building will be so out of place in this small town. I strongly think this rezoning should not be allowed. Please keep Steveston the way it is. Thank you.
