

PLEASE HELP US SAVE OUR NEIGHBOURHOOD

In March of this year, the city was preparing to approve a **townhouse development on Steveston Highway (11511 to 11591)** provided that the proposed development had no access to the existing lanes behind Seahurst Road and Seamount Road. Access to those lanes and the interior streets would mean potentially 200 to 250 cars, spread through 120 townhouse units, using the lane behind Seahurst Road and Seamount Road as their primary access. This would mean up to 250 cars pouring into the lane and the interior of the neighbourhood, with all of the associated safety issues, traffic issues and parking problems.

In May, the City of Richmond Planning Committee of Council, without consulting the community, turned the proposal back to staff to have them incorporate "appropriate vehicular access to the lane", with the objective of restricting the Steveston Highway access.

The developer has presented a proposal that restricts access to the lane.

City Planning Staff support it.

Please help us convince the City Planning Committee.

The Ironwood Community Plan, the Arterial Road Policy and the Lane Access Policy allow Council to do this. The Planning Committee of Council has chosen not to listen to the community.

PLEASE HELP US SUPPORT THIS DEVELOPMENT PROPOSAL, WITHOUT LANE ACCESS:

- Please:
- 1) Sign this and drop it off at 11631 Seahurst Road, or
 - 2) Fax your copy to 604 272 3444, or
 - 3) E-mail your support to richmondplanning@hotmail.com.

If you want more information about the proposal, please phone either:

Carol Day at 604 271 7761 or Bob King at 604 274 0450.

I / WE SUPPORT THE STEVESTON HIGHWAY DEVELOPMENT PROPOSAL, PROVIDED THERE IS NO LANE ACCESS.

Signed: 

Name: TONY CHUDIEN

Address: 11651 STEVESTON Hwy

Date: July 15/04

PLEASE HELP US SAVE OUR NEIGHBOURHOOD

In March of this year, the city was preparing to approve a **townhouse development on Steveston Highway (11511 to 11591)** provided that the proposed development had no access to the existing lanes behind Seahurst Road and Seamount Road. Access to those lanes and the interior streets would mean potentially 200 to 250 cars, spread through 120 townhouse units, using the lane behind Seahurst Road and Seamount Road as their primary access. This would mean up to 250 cars pouring into the lane and the interior of the neighbourhood, with all of the associated safety issues, traffic issues and parking problems.

In May, the City of Richmond Planning Committee of Council, without consulting the community, turned the proposal back to staff to have them incorporate "appropriate vehicular access to the lane", with the objective of restricting the Steveston Highway access.

The developer has presented a proposal that restricts access to the lane.

City Planning Staff support it.

Please help us convince the City Planning Committee.

The Ironwood Community Plan, the Arterial Road Policy and the Lane Access Policy allow Council to do this. The Planning Committee of Council has chosen not to listen to the community.

PLEASE HELP US SUPPORT THIS DEVELOPMENT PROPOSAL, WITHOUT LANE ACCESS:

PROVIDED THERE IS NO LANE ACCESS.**

Name : J. Zahate

Address: 10440 SHELL RD

Date: JUL 17 / 04

PLEASE HELP US SAVE OUR NEIGHBOURHOOD

In March of this year, the city was preparing to approve a **townhouse development on Steveston Highway (11511 to 11591)** provided that the proposed development had no access to the existing lanes behind Seahurst Road and Seamount Road. Access to those lanes and the interior streets would mean potentially 200 to 250 cars, spread through 120 townhouse units, using the lane behind Seahurst Road and Seamount Road as their primary access. This would mean up to 250 cars pouring into the lane and the interior of the neighbourhood, with all of the associated safety issues, traffic issues and parking problems.

In May, the City of Richmond Planning Committee of Council, without consulting the community, turned the proposal back to staff to have them incorporate "appropriate vehicular access to the lane", with the objective of restricting the Steveston Highway access.

The developer has presented a proposal that restricts access to the lane.

City Planning Staff support it.

Please help us convince the City Planning Committee.

The Ironwood Community Plan, the Arterial Road Policy and the Lane Access Policy allow Council to do this. The Planning Committee of Council has chosen not to listen to the community.

PLEASE HELP US SUPPORT THIS DEVELOPMENT PROPOSAL, WITHOUT LANE ACCESS:

Please: 1) Sign this and drop it off at 11631 Seahurst Road, or
2) Fax your copy to 604 272 3444, or

* The other townhouse development (Queensgate) @ shell + Williams has already created excess, speeding traffic down Shell, as well as cars parked on both sides and a ton of garbage thrown from the cars. I have already been working with the city @

own all of these problems. They have
been a few things to help, but much more
needs to be done. The LAST thing this
neighbourhood needs is 250 more
cars racing thru the lanes + streets.

Someone is going to be run over.

This is a neighbourhood where people
walk alot, with their dogs or kids
and currently the lanes have become
the only safe place to walk - - - -
and now they plan to take that
away too!! Why? So a

developer can have an easier
time selling his units. The
developer will make his money,
walk away and we will be left
with all the problems. Remember
this - - - If we lived on the west
side of the city this would not
be happening.

In March of this year, the city was preparing to approve a townhouse development on Steveston Highway (11511 to 11591) provided that the proposed development had no access to the existing lanes behind Seahurst Road and Seamount Road. Access to those lanes and the interior streets would mean potentially 200 to 250 cars, spread through 120 townhouse units, using the lane behind Seahurst Road and Seamount Road as their primary access. This would mean up to 250 cars pouring into the lane and the interior of the neighbourhood, with all of the associated safety issues, traffic issues and parking problems.

In May, the City of Richmond Planning Committee of Council, without consulting the community, turned the proposal back to staff to have them incorporate "appropriate vehicular access to the lane", with the objective of restricting the Steveston Highway access.

The developer has presented a proposal that restricts access to the lane.

City Planning Staff support it.

Please help us convince the City Planning Committee.

The Ironwood Community Plan, the Arterial Road Policy and the Lane Access Policy allow Council to do this. The Planning Committee of Council has chosen not to listen to the community.

PLEASE HELP US SUPPORT THIS DEVELOPMENT PROPOSAL, WITHOUT LANE ACCESS:

PLEASE HELP US SAVE OUR NEIGHBOURHOOD

In March of this year, the city was preparing to approve a **townhouse development on Steveston Highway (11511 to 11591)** provided that the proposed development had no access to the existing lanes behind Seahurst Road and Seamount Road. Access to those lanes and the interior streets would mean potentially 200 to 250 cars, spread through 120 townhouse units, using the lane behind Seahurst Road and Seamount Road as their primary access. This would mean up to 250 cars pouring into the lane and the interior of the neighbourhood, with all of the associated safety issues, traffic issues and parking problems.

In May, the City of Richmond Planning Committee of Council, without consulting the community, turned the proposal back to staff to have them incorporate "appropriate vehicular access to the lane", with the objective of restricting the Steveston Highway access.

The developer has presented a proposal that restricts access to the lane.

City Planning Staff support it.

Please help us convince the City Planning Committee.

The Ironwood Community Plan, the Arterial Road Policy and the Lane Access Policy allow Council to do this. The Planning Committee of Council has chosen not to listen to the community.

PLEASE HELP US SUPPORT THIS DEVELOPMENT PROPOSAL, WITHOUT LANE ACCESS:

Please: 1) Sign this and drop it off at 11631 Seahurst Road, or
2) Fax your copy to 604 272 3444, or
3) E-mail your support to richmondplanning@hotmail.com .

If you want more information about the proposal, please phone either:

Carol Day at 604 271 7761 or Bob King at 604 274 0450.

Save our
Neighbourhood.....

Well we have busy here in Shellmont collecting petitions against Lane access for the townhouses to be built on Steveston Hwy. The interest in this problem has been totally overwhelming.

03-232158

We will be attending the planning committee meeting on July 20th at 4:00pm to hopefully see the committe support our position on **NO LANE ACCESS** for townhouse traffic. We are ready to support Option 1.

I would very much like to talk to any interested board members. If you can't get ahold of me this weekend you can call Suhk Sahl 275 4423.

Thank you Carol Day

In March of this year, the city was preparing to approve a **townhouse development on Steveston Highway (11511 to 11591)** provided that the proposed development had no access to the existing lanes behind Seahurst Road and Seamount Road. Access to those lanes and the interior streets would mean potentially 200 to 250 cars, spread through 120 townhouse units, using the lane behind Seahurst Road and Seamount Road as their primary access. This would mean up to 250 cars pouring into the lane and the interior of the neighbourhood, with all of the associated safety issues, traffic issues and parking problems.

In May, the City of Richmond Planning Committee of Council, without consulting the community, turned the proposal back to staff to have them incorporate "appropriate vehicular access to the lane", with the objective of restricting the Steveston Highway access.

The developer has presented a proposal that restricts access to the lane.

City Planning Staff support it.

Please help us convince the City Planning Committee.

The Ironwood Community Plan, the Arterial Road Policy and the Lane Access Policy allow Council to do this. The Planning Committee of Council has chosen not to listen to the community.

PLEASE HELP US SUPPORT THIS DEVELOPMENT PROPOSAL, WITHOUT LANE ACCESS:

Please: Phone 604 271 7761, or 604 274 0450.

We will bring you a copy or pick up your copy.

Fax your copy to 604 272 3444.

E-mail your support to richmondplanning@hotmail.com.

If you want more information about the proposal, please phone either:

PLEASE HELP US SAVE OUR NEIGHBOURHOOD

In March of this year, the city was preparing to approve a townhouse development on Steveston Highway (11511 to 11591) provided that the proposed development had no access to the existing lanes behind Seahurst Road and Seamount Road. Access to those lanes and the interior streets would mean potentially 200 to 250 cars, spread through 120 townhouse units, using the lane behind Seahurst Road and Seamount Road as their primary access. This would mean up to 250 cars pouring into the lane and the interior of the neighbourhood, with all of the associated safety issues, traffic issues and parking problems.

In May, the City of Richmond Planning Committee of Council, without consulting the community, turned the proposal back to staff to have them incorporate "appropriate vehicular access to the lane", with the objective of restricting the Steveston Highway access.

The developer has presented a proposal that restricts access to the lane.

City Planning Staff support it.

Please help us convince the City Planning Committee.

The Ironwood Community Plan, the Arterial Road Policy and the Lane Access Policy allow Council to do this. The Planning Committee of Council has chosen not to listen to the community.

PLEASE HELP US SUPPORT THIS DEVELOPMENT PROPOSAL, WITHOUT LANE ACCESS:

- Please:
- 1) Sign this and drop it off at 11631 Seahurst Road, or
 - 2) Fax your copy to 604 272 3444, or
 - 3) E-mail your support to richmondplanning@hotmail.com.

If you want more information about the proposal, please phone either:

Carol Day at 604 271 7761 or Bob King at 604 274 0450.

I / WE SUPPORT THE STEVESTON HIGHWAY DEVELOPMENT PROPOSAL, PROVIDED THERE IS NO LANE ACCESS.

Name : Lera Lucas

Address: 11580 Seahurst Rd.

Date: July 12/2008

drop off : 11631 Seahurst Rd 375

PLEASE HELP US SAVE OUR NEIGHBOURHOOD

In March of this year, the city was preparing to approve a **townhouse development on Steveston Highway (11511 to 11591)** provided that the proposed development had no access to the existing lanes behind Seahurst Road and Seamount Road. Access to those lanes and the interior streets would mean potentially 200 to 250 cars, spread through 120 townhouse units, using the lane behind Seahurst Road and Seamount Road as their primary access. This would mean up to 250 cars pouring into the lane and the interior of the neighbourhood, with all of the associated safety issues, traffic issues and parking problems.

In May, the City of Richmond Planning Committee of Council, without consulting the community, turned the proposal back to staff to have them incorporate "appropriate vehicular access to the lane", with the objective of restricting the Steveston Highway access.

The developer has presented a proposal that restricts access to the lane.

City Planning Staff support it.

Please help us convince the City Planning Committee.

The Ironwood Community Plan, the Arterial Road Policy and the Lane Access Policy allow Council to do this. The Planning Committee of Council has chosen not to listen to the community.

PLEASE HELP US SUPPORT THIS DEVELOPMENT PROPOSAL, WITHOUT LANE ACCESS:

- Please:
- 1) Sign this and drop it off at 11631 Seahurst Road, or
 - 2) Fax your copy to 604 272 3444, or
 - 3) E-mail your support to richmondplanning@hotmail.com.

If you want more information about the proposal, please phone either:

Carol Day at 604 271 7761 or Bob King at 604 274 0450.
