I request to speak at the meeting on Aug 29/05 in re: to No. 8 Rd Truck traffic. No RCMP able to deal with it, they informed me that they don't have enough staff to deal with this so another option needs to be done. If there is to be no further options then the speed bump in front of the house 6220 No, 8 rd must be removed.

Yes, I think that you were given incorrect schedule information earlier - no harm done - I'll schedule you for the Public Works and Transportation Committee on August 31st (4PM in the Anderson Room at City Hall) and we will contact you to confirm this closer to the date once the agenda has been finalized.

Thanks for getting back to me to clarify.

Yours truly,

David Weber

Mr. Weber

The meeting on the 31st sounds like the one I need to talk at. I am just going on what the person emailed me told me.

Dee Gilmore

Dear Ms. Gilmore,

We are in receipt of your August 11, 2005 request to speak at the meeting on August 29, 2005 regarding No.8 Road truck traffic.

The previous times you spoke at a Committee meeting, you attended the Public Works and Transportation Committee meeting, which is indeed the most appropriate Committee given this topic. The next scheduled meeting of the Public Works and Transportation Committee is August 31st at 4 PM in the Anderson Room at City Hall. The meeting which you referenced on August 29th is the General Purposes Committee meeting.

08/17/2005

Please advise whether your intention was to speak to the Public Works and Transportation Committee and whether you are able to attend on August 31st. I apologize for any inconvenience if you were provided with incorrect information regarding the upcoming meeting schedule.

Thank you,

David Weber

Hello

I am writing you because the issue of no. 8rd is not resolved. The truck traffic is still bad the truckers do not care that they are not to be on this road and say who is going to stop me. The RCMP is to under staffed to be able to come out here regular and police this road in a unmarked car. The problem is not going away and I will be addressing the council again about it. I am tired of being blown off like this problem is not that important and I can just live with it. So I will see you at the next meeting that I can discuss what you plan on doing to stop truck traffic on No. 8 Rd.

Dee Gilimore
