Re; Enno's property

To Planning - Aug. 21/01

I, Enno Lepnurm, former owner of waterfront property of 8051 River Road Richmond over 30 years are asking City of Richmond to compensate part of my losses I suffered in process of selling my property. Details of my concerns are explained in recorded messages of two meetings I had with City officials. One 9th November 1999 and second 25th June 2001. Copys of recordings have been delivered to City Hall. City lawjer Paul Kendrick is aware of them. In order to settle this matter I am asking a formal meeting with City officials to debate over my concerns.
