Manager, Customer Services
Re: Ironwood Pub, 11000 No. 5 Road
New Liquor-Primary Licence Application

Date: September 12, 2005
File: 12-8275-30-023/Vol 01

Staff Recommendation

1. That the application by 717229 BC Ltd, doing business as "Ironwood Pub", for a new Liquor-Primary licence at 11000 No. 5 Road, be supported (for the reasons outlined in the staff report dated September 12, 2005 from the Manager, Customer Services).
2. That a copy of the resolution be forwarded to the Liquor Control & Licensing Branch in accordance with the legislative requirements.

Anne Stevens
Manager, Customer Services

Staff Report

Origin

The provincial Liquor Control and Licensing Branch (LCLB) issues licences in accordance with the Liquor Control and Licensing Act and Regulations.

The LCLB notifies local government to give them the opportunity to provide comments and recommendations to the LCLB on certain liquor licence applications and amendments.

On June 23, 2005, the City of Richmond received the application summary from the LCLB for the new Ironwood Pub (Attachment 1). For all NEW licences, the LCLB process requires that Council provide a resolution based on the following eight review criteria outlined in the provincial legislation:

- Location of the establishment,
- Proximity of the establishment to other social or recreational facilities and public buildings,
- The person capacity and hours of liquor service,
- The number and market focus or clientele of Liquor-Primary licensed establishments within a reasonable distance of the proposed location,
- Traffic, noise, parking and zoning,
- Population, population density and population trends,
- Relevant socio-economic information, and,
- The impact on the community.

Council must also consider the views of nearby residents/businesses and provide the LCLB with the method by which views were gathered.

The City's public consultation process for liquor licence applications is clearly outlined in the Development Application Fees Bylaw 7276 Part 1.9. In this case, the City also required the applicant to conduct a neighbourhood survey and hold a public meeting intended to collect additional public opinion on the proposed pub operations only. This requirement originated from motions approved at the Public Hearing held February 21, 2005, and at the regular Council meeting held February 28, 2005, on the rezoning application for the property.

The first section of this report deals with the application by 717229 BC Ltd, doing business as "Ironwood Pub", for a new Liquor-Primary licence at 11000 No. 5 Road (previously 12000 Steveston Hwy). This section describes staff comments based on the legislated review criteria and illustrates results from the public consultation process as outlined in the City's bylaw.

The second section of this report discusses the results of the additional public consultation on the proposed pub operations.

Analysis

Zoning & surrounding land uses

The proposed Ironwood Pub is located at the southerly portion of 11000 No. 5 Road on the southeast corner of Steveston Hwy and No. 5 Road, and is zoned Comprehensive Development District 161 (C/D 161). The zoning permits a Neighbourhood Public House as well as Commercial Entertainment. The use proposed by the applicant is consistent with the zoning for this property.

The surrounding area is a mix of commercial, business park industrial, agricultural, and residential. To the north of the property is Fantasy Garden World, with agricultural and assembly uses immediately beyond that. To the south of the property are mainly business parks, with agricultural/residential properties immediately beyond that. To the west is Ironwood Plaza shopping centre, with mainly business parks further southwest. A single-family residential sector begins northwest of the property, with two proposed residential townhouse complexes

Proposed pub operations

The applicant's intent is to operate an upper end neighbourhood pub/bistro, which will service the large, and growing local business and residential community. The pub will be used for socializing and entertaining, and local businesses may use the establishment for business meetings and staff functions. The applicant has also requested a licensed patio and designated smoking room, which is not permitted based on the Public Health and Protection Bylaw 6989.

The proposed hours of liquor service are Sundays through Thursdays from 11:00 am to midnight, and Fridays and Saturdays from 11:00 am to 1:00 am, which is in line with the City policy for Pub Hours.

The proposed person capacity of the establishment is 135 persons inside and 20 persons outside for a total of 155 persons.

Summary of Liquor Licence Application & Comments on the Review Criteria

Item	Details
Application	New
Type	Liquor-Primary Licence
Location	11000 No. 5 Rd
Zoning	C/D 161
Hours of Sale	11:00 am to midnight Sundays through Thursdays, 11:00 am to 1:00 am Fridays and Saturdays.
Business Owner	717229 BC Ltd
Date Received	June 23, 2005
Date sign posted	August 8, 2005
Ads in newspaper	August 10, 13, 17, 2005
Letters to residents	August 17, 2005
Closing Date for Comments	September 9, 2005

In accordance with the provincial requirements, the City's review process requires the applicant to notify the public and to request their comments on the application. This includes:

- the posting of a sign on the subject site for a minimum of 30 days,
- the placement of three ads in the local newspaper, and,
- letters sent to businesses, residents and property owners within 100 metres of the establishment.

The public notification period for this application ended on September 9, 2005.

Views of nearby residents, businesses, and property owners

There are 21 properties located within the public notification area. Letters were sent to 114 residents, businesses, and property owners associated with such properties to gather their views on the application. Twenty-one letters were returned undeliverable, which is approximately 18%. The results from the public consultation process on the Liquor-Primary licence application are presented below. The level of response from the community either for or against the application is significant.

There are two types of responses received from the community:

- Letters
- Petitions

The City received over 100 letters, 8 of which opposed the application and over 90 of which supported the application (note: letters from more than 1 person in the same household were counted as one letter). Copies of the letters opposing and supporting the application are provided in Attachments 2 & 3 respectively. Of the letters received in support of the application, approximately 30 letters originated from invalid addresses (Attachment 4). These letters were not considered in the review process.

A map (Attachment 5) illustrating the origin of letters shows that the majority of letters received in support of the application originated from outside the public notification area, yet are part of the Richmond community at large.

Reasons sighted by the public in opposition to the application are listed in Attachment 6, while reasons sighted in support of the application are listed in Attachment 7. Although the number of responses from those opposed to the application is much lower than the number of responses from those in favour, the reasons provided by the former group is more extensive. Those who support the application do not provide extensive reasoning behind their comments. It also appears that these letters are similar in nature indicating the possibility that a variety of Form Letters were used.

In addition to the letters provided by individual community members, the City also received one petition with 47 signatures opposing the application (Attachment 8), and one petition with 784 signatures supporting the application (Attachment 9). Staff choose to disregard the petitions

because the LCLB does not consider petitions in their review process. Section 3.3.15 of the LCLB policy manual states:

“Petitions will generally not be considered in ascertaining the residents' views about an application.”

The LCLB guideline for local government also states:

“to avoid the perception of bias, it is very important that neither the applicant, nor a group opposed to the application, be involved in the collection of residents' views.”

The signatures obtained on the petition opposing the application were solicited by a business that is opposed to the application, and therefore cannot be considered by the City. Similarly, the signatures obtained on the petition supporting the application were solicited by an unknown source that supports the application, and therefore cannot be considered.

Location of the establishment

The proposed Ironwood Pub is located at the southerly portion of 11000 No. 5 Road on the southeast corner of Steveston Hwy and No. 5 Road (prior to the land consolidation the property was previously known as 12000 Steveston Hwy). The proposed pub will be one part of a larger commercial development on the site.

The site is located at the main intersection of Steveston Hwy and No. 5 Rd, and is in close proximity to Hwy 99 and the George Massey tunnel. The application summary states that a LCLB Inspector observed the intersection to be very busy and that the tunnel is known for accidents.

From the letters received indicating opposition to the application, it is primarily the location of the establishment that seems to be the main issue of concern due to the potential for increased traffic, the safety and number of non-patrons travelling by the site, and the likelihood of drinking and driving in close proximity to such a high traffic area, Hwy 99 and the tunnel.

As indicated previously, the area surrounding the proposed pub is a mix of commercial, business park industrial, agricultural, and residential. The plans proposed for the commercial development on the site are consistent with the type of services offered at Ironwood Plaza to the west, e.g. retail services and amenities. The marketplace will determine whether there is a demand for like services at the proposed commercial site.

Proximity to social, recreational, and public facilities

The proposed pub is located across the street from the Ironwood Branch of the Richmond Public Library. Hours of operation for the library are 10:00 am – 10:00 pm Mondays through Fridays, and 10:00 am – 5:00 pm Saturdays and Sundays. The library's clientele includes local residents, children, students, and businesses in the area. Although this public facility is in close proximity to the proposed pub, the Library administration does not see the potential for negative impacts assuming the pub is run responsibly.

Other social and recreational facilities in the area include The River Club located at 11111 Horseshoe Way, which is within 100 metres of the proposed pub. The River Club is an athletic club offering tennis, racquetball, squash & fitness programs. This facility has a Liquor-Primary licence with a capacity of 50 persons. The market served by this facility is club members, local residents, and businesses from the industrial parks. This establishment has an entirely different client focus than that of the proposed pub and staff have no concerns with the proximity between these two establishments.

Person capacity and hours of liquor service

The proposed person capacity will be 135 persons inside and 20 persons outside for a total of 155 persons. If the application were approved, the applicant would be required to apply for an occupant load review for the inside and outside person capacity through the City's Building Approvals department.

The proposed hours of liquor service are Sundays through Thursdays from 11:00 am to midnight, and Fridays and Saturdays from 11:00 am to 1:00 am. The proposed hours are consistent with the City's Policy 9302 on Neighbourhood Pubs – Hours of Operation.

Other Liquor-Primary licensed establishments in the area

As indicated previously, The River Club is located 0.2 km from the proposed pub and has a capacity of 50 persons. The hours of liquor service are from 11:00 am to 1:00 am Mondays through Saturdays, and until midnight on Sundays. Again, the market served by this establishment is entirely different than that proposed by the applicant.

The Kingswood Arms Pub is located at unit 10 – 9371 No. 5 Road, which is at the corner of No. 5 Road and King Rd. This is 1.4 km from the proposed pub. The total capacity of the pub is 173 persons. The hours of liquor service are from 10:00 am to midnight Mondays through Thursdays, from 11:00 am to 1:00 am Fridays and Saturdays, and from 9:30 am to 11:00 pm on Sundays. The market served by this establishment is neighbourhood residents and businesses.

The Pioneer's Pub is located at unit 200 – 10111 No. 3 Rd, which is at the corner of No. 3 Road and Williams Rd. This is approximately 3 km from the proposed pub. The total capacity of the pub is 140 persons. The hours of liquor service are from 10:00 am to midnight Mondays through Thursdays, from 11:00 am to 1:00 am Fridays and Saturdays, and from 11:00 am to midnight on Sundays. The market served by this establishment is neighbourhood residents and businesses.

There is no potential for patrons to travel from one pub to another after closing time because the hours of operation of all pubs in Richmond are consistent.

With respect to the potential economic impact of the proposed pub on other licensees in the area, the LCLB guideline states:

“local government must be careful not to consider irrelevant factors such as concerns from existing licensees about potential

negative impacts on their businesses. The courts have concluded these are not relevant considerations, as neither the Act nor regulation sets out a need to consider economic impact of an application on existing licensees.”

Responses received from the public in opposition to the application indicated that another main issue of concern is the number of establishments serving liquor in the area. It should be noted that the number of Food-Primary licensed establishments cannot be considered in this review. Given the three other Liquor-Primary licensed establishments mentioned above, staff feel that the marketplace will determine whether there is an excess of such establishments in the area.

Traffic, noise and parking

The proposed pub is situated in an area already impacted by ambient noise from surrounding uses. Some additional noise is anticipated with the proposed pub entertainment and outdoor patio. It is not clear how this noise will impact the residential sector to the northwest of the site, as a noise study was not conducted. The potential for increased noise at later hours resulting from pub operations is not likely since the proposed hours of liquor service do not exceed midnight during the week and 1:00 a.m. on weekends. Any noise concerns originating from the proposed pub in future would be dealt with in accordance with the City's regular methods of enforcement.

It is understood that this area is presently impacted by traffic congestion at peak times. It is anticipated that the proposed pub and commercial development will bring a slight increase in traffic to the area. The applicant was requested to introduce two new driveways into the development, and that the number of patrons not negatively impact the traffic in the area more than at present. A copy of the traffic study is attached (Attachment 10).

The City's Transportation department and Development Applications department are currently working with the applicant on transportation and on-site parking requirements as part of the development permit and servicing agreement.

Population factors and trends

The table below shows data provided by BC Stats and Statistics Canada, which indicates a growth rate of 11 % within a half-mile of the proposed pub, and a growth rate of 40% within one mile from 1996 to 2001. Richmond's overall population increased by 10.4% during the same period. The growth rate in the area and in Richmond overall supports the growth in the number of licensed establishments.

Year	Pop. within 0.5 miles	Pop. within 1 mile	Overall Pop.
1996	625	5,490	148, 867
2001	695	7,681	164, 345
	+ 11%	+ 40%	+ 10.4%

Socio-economic factors

Since 2003, the LCLB has not identified any proven contraventions associated with any Liquor-Primary licensed establishments within a 2-block radius of the proposed pub. The absence of any contravention history indicates that there does not seem to be a problem with an over-proliferation of licensed establishments in the area, assuming these business's are operated properly, and follow the regulations in the City and the Province.

Data provided by BC Stats as of September 2004 indicates that Richmond has an unemployment and income assistance rate that is lower than the provincial average, and has a growing number of businesses. Major industries in Richmond include retail trade, accommodation and food services, transportation and warehousing, and manufacturing. These trends support the addition of licensed establishments in the community, and staff feel that the marketplace will determine the success factor of such establishments.

Impact on the community

The potential for negative impacts on the community associated with liquor consumption are understood. In the absence of any contravention history in the area, an assessment of any additional potential negative impacts from the proposed pub is not possible. Any contraventions or instances of non-compliant activity in future would be dealt with in accordance with the City's regular methods of enforcement.

Summary of Neighbourhood Survey and Public Meeting

As indicated previously, the City also required the applicant to conduct a neighbourhood survey and hold a public meeting intended to collect additional public opinion on the operational details of the proposed pub only. This requirement originated from motions approved at the Public Hearing held February 21, 2005, and at the regular Council meeting held February 28, 2005, on the rezoning application for the property. A summary of the public meeting and survey results is provided in this section.

The public meeting was held on Tuesday August 23, 2005 from 7:00 pm to 9:00 pm at Watermania, 14300 Entertainment Blvd. There were 41 people in attendance. The question posed was to get their comments on the operations only. There did not appear to be any discussion on the operations but rather on the traffic issue. One gentleman was very concerned about the location of the patio, yet the architect had met the requirements set out by Development application.

The neighbourhood survey was conducted by an independent market research company at the sole cost of the applicant. The market research company retained by the applicant to conduct the survey and host the public meeting was Synovate. The survey and public meeting notification area is the same as the rezoning notification area and is shown in Attachment 11. The results of the survey is provided in a report prepared by Synovate (Attachment 12).

The survey was designed to measure public reaction to the following operational details of the proposed pub:

- proposed hours of operation;
- proposed seating capacity, both indoors and outdoors;
- the type of menu items to be served;
- the type of entertainment to be provided;
- the preference for indoors vs. outdoors smoking area.

The method used to conduct the survey was a self-administered questionnaire and introduction letter that was mailed out to residents/businesses within the notification area. The response rate for the survey was 16%. The timeframe for the survey was 2 weeks beginning August 12, 2005 and ending August 29, 2005

The results from the survey are summarized below:

Operational Detail				
Hours of Operation	Too Short 2%	About Right 46%	Too Large 51%	Don't Know 1%
Seating Capacity: Indoors	Not Enough 2%	About Right 44%	Too Many 54%	
Seating Capacity: Outdoors	Not Enough 21%	About Right 38%	Too Many 41%	
Menu Items	Casual Dishes 69%	Snacks/Appetizers 66%	Full Dinner/Lunch 54% / 53%	Buffet 30%
Entertainment	Big Screen TV 80%	2-3 piece Live Band 61%	Lottery gaming 18%	Video gaming 12%
Smoking	Support Indoor Area 17%	Support Outdoor Area 83%		

The survey results indicate preferences for the type of licensed establishment that respondents would like in their neighbourhood.

The respondents are almost equally divided in terms of the proposed hours of operation. Just under half feel the proposed hours are just right, too short, or unsure, while just over half feel they are too long. The hours proposed by the applicant are consistent with the City's policy on neighbourhood pubs.

There is a difference in opinion between residents over seating capacity indoors vs. outdoors. The respondents are almost equally divided in their opinions on indoor seating. Just under half feel that the proposed indoor capacity is just right, while just over half feel it is too much. In terms of outdoor capacity, there is a wider distribution of opinions, with 21% feeling the outdoor seating capacity is insufficient, 38% feeling it is just right, and 41% feeling it is too much.

There is a wider set of opinions among respondents on menu items and entertainment, while there is clearly a higher percentage of respondents that prefer an outdoor smoking area.

Financial Impact

None.

Conclusion

Staff have completed the review of this application. The process outlined by the City requires that letters be sent to residents who live within 100 metres of the site for comment and also accept comment from individuals who live in the Richmond community.

Letters were sent to 114 residents, businesses, and property owners associated with such properties to gather their views on the application. Twenty-one letters were returned undeliverable, which is approximately 18%.

Over 100 letters were received, 90 of which supported the application. It also appears that these letters are similar in nature indicating the possibility that a variety of form letters were used.

Of the letters received in support of the application, approximately 30 letters originated from invalid addresses. These letters were not considered in the review process.

There were eight letters (8) opposing the application. As this would not be considered a majority of residents opposed to the application, staff feel the application should be supported.

2 APPLICANT SUITABILITY INFORMATION (Fit and Proper)

Applicant has met the eligibility and suitability requirements of the Liquor Control and Licensing Act

3 LOCATION/SITE FACTORS

The following sections are compiled from information provided by the applicant except where indicated otherwise

The following PID numbers make up a large parcel of vacant land that is currently being consolidated for the new development

- | | |
|---------------|---------------|
| • 003-484-203 | • 007-986-092 |
| • 004-211-057 | • 001-431-083 |
| • 013-063-171 | • 024-665-282 |

The proposed site of the liquor primary establishment is currently associated with PID #024-665-282

Note Upon completion of the land consolidation a new PID number will be assigned. The new PID number pertaining to the liquor primary establishment must be forwarded to the LCLB and reflected in all documents prior to final licensing approval*

Staff from the City of Richmond has indicated that the liquor primary application will not be considered by Council until the land consolidation for the development is completed

The proposed Liquor Primary Licence establishment, Ironwood Pub is to provide an upper end Pub/Bistro to fulfill a need and service the large and growing local business/residential community. The Pub/Bistro environment will be used for socializing, entertaining and the local business may use the establishment for business meetings and staff functions.

The proposed site will be part of commercial development, which may also include a Liquor Retail Store and other retail sites.

A LCLB Inspector has noted that the development is at the corner of Steveston Hwy and No. 5 Road and the proposed site for the liquor primary establishment is at the southerly end of the development. The intersection is very busy and is located at the foot of the Massey Tunnel, which is known for accidents.

The LCLB has received correspondence from several concerned citizens about the proposed site location. The concerns raised were the increase of traffic, pedestrian safety, and patrons leaving the establishment and driving while under the influence of alcohol in high traffic areas.

4 PUBLIC INTEREST

In providing the resolution on the proposed Liquor Primary Licence application, Local Government or First Nation must consider and comment on each of the regulatory criteria indicated below

The written comments must be provided to the general manager by way of a resolution within 90 days after the Local Government or First Nation receives notice of the application, or any further period authorized by the General Manager, Liquor Control and Licensing Branch, in writing

Regulatory criteria Local Government or First Nation must consider and comment on

- a) the location of the establishment,
- (b) the proximity of the establishment to other social or recreational facilities and public buildings,
- (c) the person capacity and hours of liquor service of the establishment,
- (d) the number and market focus or clientele of Liquor Primary and Liquor Primary - Club licensed establishments within a reasonable distance of the proposed location,
- (e) traffic, noise, parking and zoning,
- (f) population, population density and population trends,
- (g) relevant socio-economic information, and
- (h) the impact on the community if the application is approved

The Local Government or First Nation must gather the views of residents* in accordance with section 11.1(2)(c) of the Act and include in the resolution

- (i) the views of the residents*,
- (ii) the method used to gather the views of the residents*, and
- (iii) comments and recommendations respecting the views of the residents*,

* Note "residents" includes business owners

For use by Liquor Control and Licensing Branch

5 REGULATORY CONSIDERATIONS

Liquor Control and Licensing Act, sections 11, 16 and 18
Liquor Control and Licensing Regulations sections 4, 5, 6, 8, 10

6 POLICY CONSIDERATIONS

Class of Licence
Applicant Eligibility Assessment
Site and Community Assessment
Building Assessment and Issue of a Licence

Target Market

We feel there is a demand for service to many of the 11,000 households with a population of over 36,000 people and growing, located in a 4k radius from this location

We will also service many of the 7000 people that are employed in the Ironwood Plaza and Riverside Business Park located just 2 blocks away

Our target market will also be a portion of the drive by traffic of over 35,000 cars per day running east and west on Steveston Hwy and 12,000 cars running north and south on No 5 per day commuting past this establishment

We would also be catering to customers and visitors accessing the businesses within the business parks and Ironwood Plaza over 7500 cars daily running north and 5300 south on CopperSmith Place

We will be catering to the lunchtime and dinner crowd and we may draw a portion of tourist traffic to and from Fantasy Gardens, Steveston Village etc

Benefits to the Community

We feel that this Pub/Bistro will fulfill a need and demand at this location to service the large and growing local business/residential community and will provide a convenient upper end Pub/Bistro for socializing, entertaining, lunchtime meetings and staff functions

Commercial/Residential Light or Heavy Industrial Neighborhoods

Within a 4k radius of our location there are over 9000 houses and 1800 apartments with a population of over 36,000 and a growth rate of 2.78% over the past decade. Within 2 blocks in the Riverside business park there are over 600 businesses employing over 7000 people

Existing Liquor Primaries in neighboring communities**Ladner/Tsawwassen**

Population 43,360

9-liquor primaries

1-liquor primary per 4840 people**White Rock/South Surrey**

Population 72,490

9-liquor primaries

1-liquor primary per 8054 people**Langley City**

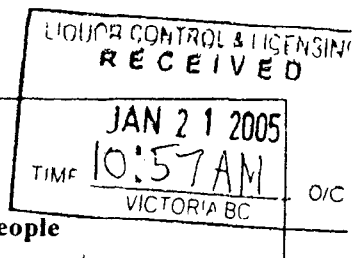

Population 23,643

5-liquor primaries

1-liquor primary per 4729 people**Aldergrove**

Population 11,600

3-liquor primaries

1-liquor primary per 3867 people**Ironwood Area within a 4k radius**

Population 36,147

Plus over 7000 employees within the businesses located in Ironwood Plaza and Riverside Industrial Park**2-liquor primaries****Currently only 1-liquor primary per 18,073 people**

Comparing to neighboring communities the Ironwood Area with its recent rapid growth is under serviced in relation to the population and liquor primaries per person

We believe that there is a large demand and this area will easily support a new Pub/Bistro at this location, with little or no impact to any of the existing liquor primaries - Kingswood Arms Pub and Pioneer Pub

Liquor-Primary

1 Target Market

Our target market is primarily the white-collar worker, specialized warehouse employee, office worker, clerical staff, retail salesperson and mid to upper level management. Located within the immediate neighborhood businesses in the Ironwood Plaza or one of the many offices, warehouses, industrial buildings and small businesses located in the Riverside business park within 2 blocks, where over 7000 people are employed.

We also expect patronage from many of the 11,000 households and growing number of multi-family homes located with a population of over 36,000 people in a 4k radius.

Our target market will also be a portion of the drive by traffic of over 35,000 cars per day running east and west on Steveston Hwy and 12,000 cars per day running north and south on No 5 commuting past this establishment. We would also be catering to customers and visitors accessing the businesses within the business parks and Ironwood Plaza with over 7500 cars running north and 5300 cars running south per day on Coppersmith Place.

We will be catering to the lunchtime and dinner crowd within this area and we will draw a portion of tourist traffic to and from Fantasy Gardens, Steveston Village etc. This target market would be between 25-60 years of age, with an average yearly income between \$50,000 and \$100,000.

2 Hospitality/Tourism Development Factor

We believe that we will draw a portion of tourist traffic from Fantasy Gardens, traffic to Steveston Village etc and traffic passing through the busy intersection at No 5 and Steveston Hwy.

3 Benefits to the Community

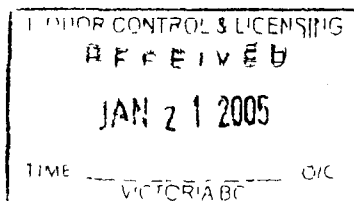

The benefits to the large and growing local business/residential community will be to provide a convenient upper end Pub/Bistro for socializing, entertaining, lunchtime meetings and staff functions. We will provide an extensive food menu with a comfortable setting with a south facing outdoor patio area.

4 Social Facilities and Public Buildings

There is a Public Library located in the Mall across the street from this establishment. There are no other public or social facilities located near this establishment.

5 Traffic in the Vicinity

It is anticipated that this establishment will bring little increase in traffic to the area and have a minimal impact on the traffic flow. There will be little or no impact on the local residents or those driving through the area.

6 Noise in the Community

This establishment is bordered by the highway 99 freeway and located in a primarily commercial and business park area with three residential homes within 250 meters. The noise if any will not affect any businesses or residents.

7. Parking

There will be onsite parking provided as required by the City of Richmond. The premises are in a free standing building in a new commercial development. The city of Richmond has designed and approved access and egress to the premises.

8 Commercial/Residential Light or Heavy Industrial Neighborhoods

Within a 4k radius of our location there are over 9000 houses and 1800 apartments and a population of over 36,000 with a growth rate of 2.78% over the past decade. Within 2 blocks in the Riverside business park there are over 600 businesses employing over 7000 people. These businesses include offices, warehouses, manufacturing, industrial buildings and small and large commercial businesses.

9. Other Licensed Establishments

Kingswood Arms Pub is located 1.4k away north on No 5 road at #9-9371 No 5 Road and the Pioneer Pub is located at #200-1011 No 3 Road 4.0k away northwest.

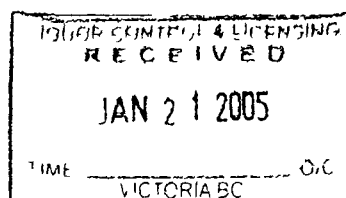

The Kingwood Arms Pub caters to primarily blue-collar local residents.
Pioneer Pub caters to the local community and businesses.

10. Natural or Manmade Barriers

This Pub/Bistro will be located near the corner on No 5 road and Steveston Hwy. Located directly East is the Highway 99 Freeway, West is the Ironwood mall, South is 2 blocks of industrial park then the Fraser river, and North is No 5 road-a major thoroughfare.

11. Other Factors

We feel that this Pub/Bistro will fulfill a need at this location that will cater to the local business people and employees (over 7000 people) within 2-block radius and the 11,000 homes nearby with little or no impact to any other existing liquor primaries. **See Summary Page**

ATTACHMENT 2

Sample Resolution Template for a Liquor-Primary or Liquor-Primary Club Licence Application

General Manager,
Liquor Control and Licensing Branch

RE Application for a liquor-primary licence at (address of proposed establishment)

At the (council/board) meeting held on (date), the (council/board) passed the following resolution with respect to the application for the above named liquor licence

"Be it resolved that

1 The (council/board) (recommends/does not recommend) the issuance of the licence for the following reasons (detail and explain reasons for recommendation)

2 The (council's/board's) comments on the prescribed considerations are as follows (see the following page for sample comments for each criterion – a comment on each must be included in the resolution Where a staff report has been prepared that addresses the criteria this can be used to provide Council's comments provided the staff report is referenced in the resolution and there is a clear statement that Council endorsed the comments in the report)

- (a) The location of the establishment (provide comments)
- (b) The proximity of the establishment to other social or recreational facilities and public buildings (provide comments)
- (c) The person capacity and hours of liquor service of the establishment (provide comments)
- (d) The number and market focus or clientele of liquor-primary licence establishments within a reasonable distance of the proposed location (provide comments)
- (e) Traffic, noise, parking and zoning (provide comments)
- (f) Population, population density and population trends (provide comments)
- (g) Relevant socio-economic information (provide comments)
- (h) The impact on the community if the application is approved (provide comments)

3 The (council's/board's) comments on the views of residents are as follows (describe the views of residents, the method used to gather the views and provide comments and recommendations with respect to the views If the views of residents were not gathered, provide reasons)

The undersigned hereby certifies the above resolution to be a true copy of the resolution passed by the (council/board) of (local government/First Nation) on (date)

Sincerely,

(signature)

(name and title of official)

(local government/First Nation)

Note

- All of the items outlined above in points 1, 2(a) through (h) and 3 must be addressed in the resolution in order for the resolution to comply with section 10 of the Liquor Control and Licensing Regulation
- Any report presented by an advisory body or sub-committee to the council or board may be attached to the resolution

ATTACHMENT 3

Sample Resolution Comments for a Liquor-Primary Licence Application

The following are examples that illustrate the type of comments that local government and First Nations might provide to demonstrate they have taken into consideration each of the criterion in reaching their final recommendation. Comments may be a mix of positive, negative and neutral observations relevant to each criterion. The final recommendation is the result of balancing these 'pros and cons'.

The list is not intended to illustrate every possible comment as the variations are endless, given the wide range of applications and local circumstances.

It is important that the resolution include the comment and not refer to a staff report, as the general manager cannot suppose that the local government considered all the criteria unless comment on each criterion is specifically addressed in the resolution itself.

Local government or First Nation staff may wish to contact the Liquor Control and Licensing Branch for assistance on drafting the content of a resolution before it is presented to local government or First Nation to avoid resolutions that do not comply with the regulations.

(a) The location of the establishment

The location is in a commercial area that is removed from nearby residences and is suitable for a late night entertainment venue where some street noise at closing time can be anticipated.

(b) The proximity of the establishment to other social or recreational facilities and public buildings

The only nearby social, recreational and public buildings do not conflict with the operation of a late night entertainment venue

– or –

The proposed location is across a lane from a church with an attached retirement facility and church hall routinely used for youth group gatherings. The proximity of the proposed establishment is not considered compatible with the existing facilities.

(c) The person capacity and hours of liquor service of the establishment

The maximum person capacity of 250 with closing hours of 2:00 a.m. Tuesday through Saturday and midnight on Sunday is acceptable. A larger capacity or later hours is not supported given the few number of police on duty at that time.

(d) The number and market focus or clientele of liquor-primary licence establishments within a reasonable distance of the proposed location

The existing establishments are large public house establishments that focus on exotic entertainment or are nightclubs that attract patrons 19 to 25 years of age. The proposed establishment is a small local pub style facility with an extensive menu and is designed to appeal to couples wanting a quiet adult venue for socializing in their community. There are no other (or few other) facilities with a similar focus.

(e) Traffic, noise, parking and zoning

The establishment is not expected to negatively affect traffic patterns and noise is not expected to be an issue because [of the small size and early hours] – or – [the applicant has agreed to various noise baffling strategies to ensure the neighbours are not disturbed by late night music] The applicant has met the requirements of the zoning bylaw with regard to road access and parking Council has passed a bylaw rezoning the property and a Development Permit permitting the use

(f) Population, population density and population trends

The population for the community at 25,000 and 15,000 within a mile of the establishment with a growth rate of 3% supports the growth in the number of licensed establishments

(g) Relevant socio-economic information

The contravention rates for surrounding establishments is less than the provincial average and does not indicate a problem with over-proliferation of licensed establishments in the community The community has an unemployment and income assistance rate that is lower than the provincial average and a growing tourism industry based on expanding hunting and skiing lodges in the area and an increase in scheduled bus tours through the mountain passes

(h) The impact on the community if the application is approved

If the application is approved, the impact is expected to be positive in that it will support the growth in tourism and offer a new social venue for residents

The Council's comments on the views of residents are as follows

The views of residents within a half mile* of the proposed establishment were gathered by way of *written comments that were received in response to a public notice posted at the site and newspaper advertisements placed in two consecutive editions of the local newspaper Residents were given 30 days from the date of the first newspaper advertisement to provide their written views Residents were also given an opportunity to provide comments at the public meeting of Council held on March 18, 200X

A total of 63 responses were received from businesses and residents Of the responses received, 21 were in support of the application citing the creation of additional jobs and a new entertainment venue for the area as their primary reasons A total of 42 letters were received in opposition to the application The primary reason cited by those in opposition was the proposed closing hours of 4 am A number of business residents in the area also cited the lack of parking as an area of concern

The following three examples illustrate ways Council may complete their comments on the views of residents based upon the preceding fact pattern

- 1 Council agrees that a 4 am closing time for this establishment would not be appropriate and therefore recommends that the establishment have a closing time of 2 am to be consistent with the other licensed establishments in the area. Council does not agree with the parking concerns raised by some of the local businesses as the proposed establishment's peak operating hours will be after the surrounding businesses have closed.

Council recommends that a liquor licence be issued with hours of operation ceasing at 2 am. Council believes that the majority of residents in the area support the issuance of the licence provided the closing hours are no later than 2 am. The establishment will create new jobs and provide a new entertainment venue that is needed in this area.

- or -

- 2 There are 6450 residents within the half mile radius of the proposed establishment. Notwithstanding that there is a two to one ratio of opposed residents to residents that support the application, Council is of the view that the 42 residents who are in opposition represent a small proportion of the overall population that may be affected by this establishment. Council also notes that frequently only residents who oppose a proposal are the ones that respond, consequently Council is of the view that the rest of the residents are not opposed to issuance of a liquor licence for this establishment.

Council recommends that a liquor licence be issued with hours of operation ceasing at 4 am. Council believes that the majority of residents in the area support the issuance of the licence. The establishment will create new jobs and provide a new entertainment venue that is needed in this area.

- or -

- 3 Based upon the input received by residents within a half mile of the proposed establishment, there is a two to one ratio of opposed residents to residents that support the application. The opposition to this establishment comes from both homeowners and businesses. Council is of the view that with both the residential and business communities' opposition to this proposed establishment, the issuance of a licence for this establishment would be contrary to the community standard for this area.

Despite the potential creation of additional jobs and a new entertainment venue for the area, Council is unable to support the issuance of a liquor licence for this establishment. Council recommends that a licence not be issued.

* The local government or First Nation determines the appropriate area to be included and the method for gathering those views.

LETTERS OPPOSING THE APPLICATION

August 29, 2005

To: City of Richmond
Permits Section
Liquor Licence Applications

Dear Sir,

We, the undersigned, are employees at the Richmond office of the publicly listed Ascalade Communications Inc. (ACG: TSX), at 12051 Riverside Way, Richmond, BC., V6W 1K7.

We are writing to express our strong objection to the new liquor licence application of the proposed Ironwood Pub at 11000 No.5 Road (your file: 12-8275-30-023/Vol01).

We believe the extra traffic generated by the patrons of the Ironwood Pub will seriously exasperate the already crowded intersection at No. 5 Road and Steveston Highway.

We are also very concerned with having a drinking establishment in such a traffic-congested area. Even small amounts of alcohol can degrade a driver's decision-making ability. Our safety will be affected by having to travel home from work past this proposed Pub. This is the wrong location to approve this type of establishment.

We earnestly appeal to the Council to reject the liquor licence application.

Yours very truly,
Ascalade Communications Inc.

Dr. Edmund K. Ho
President and CEO

Encl: Petition signatures from the employees of Ascalade Communications Inc.

Sept. 5/05

Liquor license application reviewers:

I am responding to the notice that was printed in one of our local newspapers. It has to do with the application from 717229 BC Ltd, to operate a pub at 12000 Steveston Hwy. I am writing in total opposition to a new liquor license being issued to operate a pub at the aforementioned address. I own and reside in a house with my wife and family in the area near the proposed pub. I have a number of reasons for being opposed to a pub at this location. One of the most important reasons is the closeness of this pub to Hwy. 99, the George Massey tunnel, Steveston Hwy. and #5 road. All are main arteries with a large volume of traffic during the days and a quite a bit of traffic during the night time hours. To have a person(s) who has been drinking at this pub be able to get into a vehicle and drive away from the pub with access to anyone of these roadways, especially Hwy. 99 and the tunnel where the speed limit is 90km/hr. is far to dangerous and puts the rest of the driving public at an increased risk. You would have to be totally naive to think that this would not happen. I am not opposed to another liquor establishment being opened in our area, even though there are already quite a number of them in close proximity to this proposed one, but the **location** of this new pub is and will be disastrous. With the present roadway configurations (islands) access to and egress from the pub will be a traffic problem. My last comment is directed mostly to the mayor and council of the city of Richmond about the way the rezoning, no public hearing, liquor licensing application for this pub has been dealt with. The pub issue has been forced on the residence of Richmond regardless of our concerns that we have as a community.

RICHMOND, B.C. V6Y 2C1

SIRS:

RE: PROPOSED PUB - CORNER OF #5 ROAD
AND STEVESTON HWY.

I HAVE WRITTEN LETTERS TO COUNCIL ON THIS ISSUE, AND
RECEIVED NO RESPONSE.

THERE IS NO NEED FOR A PUB / BEER AND WINE STORE AT THAT
LOCATION - THERE ARE OTHER ESTABLISHMENTS VERY NEARBY AT
WHICH LIQUOR MAY BE CONSUMED, AND THERE IS ALSO A
GOVERNMENT LIQUOR STORE PLUS A WINE STORE.

COUNCIL OBVIOUSLY WANTED TO SELL THAT PIECE OF LAND
AND SOMEHOW THE PUB BECAME PART OF THE REZONING.
HAVING DONE THAT, COUNCIL SUDDENLY DECIDED THAT RESIDENTS
OF THE NEIGHBOURHOOD WOULD HAVE NO OPPORTUNITY TO SAY
"YES" OR "NO" TO A PUB ON THAT CORNER. TOTALLY INAPPROPRIATE
AND UNFAIR.

PLEASE REJECT THIS APPLICATION.

YOURS TRULY
E. R. Arning

Subject: Ironwood Pub & Liquor store

RE: LIQUOR/PRIMARY LICENCE APPLICATION -
IRONWOOD PUB - 12000 STEVESTON HWY.

TO:
Licencing Dept.
City Councillors
Mayor's office
cc: BC Liquor Control and Licencing Branch

I have an issue with the proposal to place a pub & liquor store in the Ironwood area at No. 5 Rd. and Steveston Hwy. First of all, this property was zoned to allow a pub without any consultation with the neighbourhood whatsoever. This goes against what the city council policies have been in the past. The information meeting regarding pub operations only was a complete waste of everyone's time, including that of city staff. It was simply an attempt to appear as if public consultation has been sought by the council when the reality is that the public wishes have never been considered.

I oppose the granting of a liquor license for the Ironwood Pub and Liquor Store because there already is a pub and liquor store only 1.5 km north of the location at Steveston Hwy. and No. 5 Rd. There is no reason to have another pub so close to an already existing one. There is also another pub at No. 3 Rd and Williams Rd. which is also only a few kilometers from the Ironwood location.

It will also contribute to an increase in traffic congestion at the intersection of No. 5 and Steveston Hwy. Traffic volume alone is not the problem -- the bigger problem is the configuration of access to the subject property. The driveway to the pub will be right across No. 5 Rd from the access to Ironwood Plaza. This creates a very dangerous situation, especially when there is traffic travelling north and south on No. 5 Rd. at peak times. Cars trying to get into the pub parking lot from the north will create a back-up of traffic right into the intersection at No. 5 and Steveston and any cars trying to cross No. 5 Rd to get from Ironwood plaza to the pub or vice-versa will create a very dangerous situation as well. This is exactly the same scenario as Coppersmith Pl. between Save-On Foods and Canadian Tire. There are many close calls there on a regular basis -- and that's without the amount of traffic that No. 5 Rd usually has.

Another reason that I oppose the granting of a liquor licence to the Ironwood Pub and Liquor store is that the public consultation process has been completely ignored in this case in favor of the principals of the Ironwood Pub.

We simply do not want another pub in our neighbourhood.

Respectfully submitted,
Edward Kroeker

Dear Sir or madam:-

Re:- Development permit DPO5-292236

We the under signed are not in favor of the development
DPO5-292236.

Reasons:-

- The traffic at #5 road + Steveston Hwy. is congested enough during rush hour and off periods.
- If with the development of a Pub etc., it can cause more accidents during rush hours.
- Steveston & #5 roads are not wide enough to allow more lanes of traffic.
- We have been residents of the community for 23 odd years and feel that we should be able to voice our objection on this matter at this time.

Mary Friesen

To City of Richmond
Permits Section
Liquor Licence Applications 6911 No 3rd
Richmond B.C.
V6Y 2C1

August 23rd.2005

I am strongly apposed to the liquor licence for # 717229 BC Ltd. Ironwood Pub at 12000 Steveston hwy.

I am also apposed to the liquor store licence at the same address...

The public process was not properly conducted and I have attached a letter outlining the issues I feel are relevant to this application. I am asking City Council to start over again and do a proper neighbourhood survey asking if they support the pub, not just asking what size etc..

The traffic and safety issues have not been addressed. The close proximity to Hwy 99 has not been addressed. The moral issue of some councillors supporting an application which has strong opposition and refusing to hear the public out cry is very troubling.

The attached letter will be served to the city of Richmond in the form of an affidavit by lawyers, along with many other letters from concerned citizens and business owners.

I highly recommend that you deny this application before the situation becomes a not only a public bombshell but a election nightmare.

Thank you for your hard work I do not envy you or your position.

City of Richmond

August 23, 2005

Richmond, B.C.

To Richmond City Council and Mayor

Mar 17, 2005

HAND DELIVERED

I am writing to request the following item be included as new business in the agenda of the Tuesday March 29th, 2005 Council Meeting.

My name is Carol Day and I live at 11631 Seahurst Rd. , Richmond B.C. V7A 4K1
telephone 604 271 7761.

**Regarding the Bylaw 7884 (RZ 04-286494)
(11000, 11020, 11040, 11080, 11100 No 5 road and 12000 Steveston Hwy;
Applicant Sandhill Holdings Ltd. and J.A.B. Enterprises Ltd.) and Resolution
(ph05/2-20) amended by Resolution R05/2-5**

I would like the approval of the Bylaw and the ammendmant of the survey to be **reconsidered** due lack of due process and to insufficient information at the Feb 21, 2005 public hearing and the Feb 28th regular council meeting.. Following are the points I feel are relevant.

(1) That the submissions from the public where not given due consideration. I recieved all the submissions from the clerks office and there where

23 Residential letters against the pub , 3 Residential letters for the pub these are important voices

From the business community in the Ironwood area , (many on form letters) there where 4 votes against the pub and 35 for the pub. There was also 31 businesses from the Bridgeport area that supported the pub. This is an important consideration which was missed due to the confusion that evening. The Yes votes for the pub from the Ironwood and Bridgeport area's where on form letters that the developer had encouraged , these where not recognized as being clearly self serving by the developer.

Verbal submissions on Feb 21st. from the public: **7 where against the pub and 3 for the pub.** There where others who where concerned about the pub and how it would affect other situations.

(2) **The Traffic study** was not available to Council and this information is critical in order to make an informed decision. I have also discovered that the traffic study was incomplete and clearly biased for the applicant. According to city staff the traffic study suggests only a 2% increase in addition cars per peak hour. This is impossible for a development of this size 29,924 sq ft with 125 parking stalls. **The report actually states there will be a 6% increase in traffic, inbound.** Hamilton & Associates the firm that Mr. Sandhu hired to do the traffic study also clearly stated their position in their letter stating " We trust that this letter will assist in the development **approval** process". I feel that the City of Richmond should have hired an independent firm, which would be unbiased.

(3) **The pub policies where recinded** even through the new policies are due to be finished April 1, 2005. This in effect ,disabled the entire process. The bylaws where in place to protect the publics rights. Council could have delayed their decision until the new pub policies where available and the proper

process was completed.

(4) In the past a public survey has been done to fully understand the views of the residents in the area. In this application the survey was not done before rezoning once again this is insufficient. Council cannot make an informed decision on this issue with out that crucial information.

(5) The ammendment to the survey that was approved at the Council meeting on Feb 28th, 2005 rendered the future survey redundant. The change in wording from a choice of yes or no to approval of the pub, to **"Opinion survey be conducted in relation to pub operations only"** is a obscene abuse of councils power. This is unacceptable not only to Shellmont residents but to all citizens of Richmond. If this survey was done fairly and honestly it would have been a helpful tool in making a decision in wether or not to support a pub application when dealing with the Ministry of Liquor Control and Licencing .

(6) Ms. Tina Gleason had a **petition with 213 signatures from residents in the area opposed to the pub** and this petition was not taken into evidence by the clerks and distributed to the council members .Ms Gleason presented this information at the Feb 21st ,2005 public hearing but it was not given true consideration. This alone is sufficient to warrant a delay in proceedings, until further investigation could be done

(7)The plans for the complex do not pass the Neighbourhood Pubs policy manual # 9301 . **The bylaw states that "another pub cannot be within 1 mile of another pub** (Kingswood pub is .8 km's away.) **The new pub cannot be within one half mile of a main or secondary highway"**, this pub is with yards of a highway.

Also the 3,915 sq ft liquor store is with in yards of the B.C. Liquor store at Ironwood and the 2,959 sq ft. pub is far too large for the area when there are 7 pubs or bars in the area.

(8) *The land use for this property is not appropriate and I feel, if asked the R.C.M.P. would strongly agree. The input needed from the **R.C.M.P.** is also very important to this decision making process.*

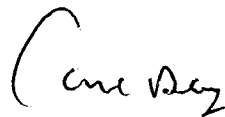

(9) The public has spoken out through stories and editorials in the local and other newspapers. The residents have sent letters ,emails and spoke at the public hearing, and they have said no to this pub land use rezoning. There is sufficient interest in this rezoning and survey ammendment, to deserve another look.

Please listen to the public and take the time to reexamine this application, Richmond is an example to other communities and the manner in which we deal with this liquor application and rezoning could be a very bad example to other cities and municiplaities across British Columbia. The way the process has been rushed will no doubt force the province to reevaluate the current process and possibly take away the power it has currently given to the cities and municipalities. I think council made a mistake rushing this application through and the right thing to do is to go back and make it right.

Thank you for your time and consideration.....

Dear Ms. Day:

Re: Bylaw 7884

This is to acknowledge your letter of March 17, 2005 in connection with the above matter. Unfortunately the letter, which was received in this office on March 17, 2005, was received after the Public Hearing on Bylaw 7884 and legal precedent precludes the circulation of any such correspondence to Council members afterwards.

Your letter will, however, be forwarded to Raul Allueva, Director of Development and to Joe Ereeg, General Manager, Urban Development, for reply to the technical concerns and questions you have raised.

If you have questions or concerns regarding the Council or Public Hearing process, please call me at 604-276-4098.

Yours truly,

David Weber
Manager, Legislative Services

Dear madam

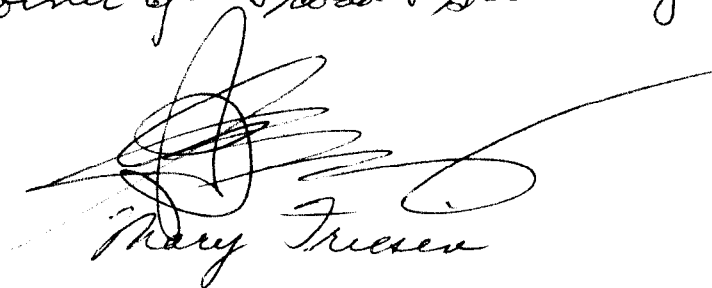

- Re application of a Pub licence
DPOS-292236

We are opposed to the application of a Pub licence
and Liquor Store, at Corner of #5 road and
Steveston Hwy

- #5 road and Steveston Hwy can not handle the ^{with} increase of traffic the Pub Liquor Store will generate.
- There is a Liquor Store 2 Blks away in the mall, and Pub 10 Blks away.
- no one can make a left turn into the Pub going south on #5 road due to the Centre Island
- With mall traffic making a left turn going north out of mall on #5 road.
- This will generate more traffic and Carnage at the corner of #5 road & Steveston Hwy.

May 26, 2005

Neil and Mary Friesen
10711 Seamount Road
Richmond BC V7A 4P5

Dear Neil and Mary Friesen:

Your letter of March 16, 2005, to the general manager regarding the proposed pub at No. 5 Road and Steveston Highway has been referred to me for reply.

I wish to assure you that there has been no decision reached to date on the liquor licence application. The issue that went before Richmond council recently involves zoning, as applicants must secure zoning as part of the application process. Zoning is a municipal matter, and only one aspect of a liquor licence application.

The process to obtain a liquor-primary (pub) licence from the Liquor Control and Licensing Branch involves four stages: application, applicant suitability, site and community assessment, and building assessment. At the site and community assessment stage, local government must gather the views of residents and advise the Liquor Control and Licensing Branch of whether they support the application. Local governments can decide **how** they want to use to gather input, **whether** by referendum, public forum, survey, etc. Local residents **will** have an opportunity to comment when the application in question reaches this stage. It will likely be some time yet before we get to the site and community input stage, however, as the application has only recently been received.

Thank you for writing.

Yours sincerely,

Dear Sir or Madam;

Re: The Ironwood Pub, 12000 Steveston Highway

We are strongly opposed to this pub because we feel it is located in a corner that is very congested with all types of vehicles especially when there has been an accident on the No.99 or in the tunnel and on long-weekend Fridays. It is not uncommon, but rather regular, to have traffic lined up to Shell and further west on Steveston Highway and on No.5 it will be backed up to Seaclyff Gate and further. It is impossible at these times to enter our driveway with a left hand turn because even if a driver in the center lane allows us to start our turn we are unable to cross the curb lane into the driveway because the cars won't let us through. If the Buddist statue is allowed, at 161 feet, traffic will become even more caotic.

We also feel very strongly that this pub is located much too closely to the No.99. You cannot convince us that 155 patrons will be walk-ins. Even if there are two people to each car that will still produce over 75 cars with drivers who have been drinking and most vehicles will only contain the driver so in fact there will be much more than 75 vehicles leaving this establishment. As the citizens of this area have already tried to explain to City Hall there are enough drinking establishments in this area, all of which are within walking distance for the majority of us. Businesses in this area, not outside of this area, have also expressed their opposition to this liquor licence being issued.

There are a lot of people in this neighbourhood, both dwellers and business people, who have voiced strong opposition to this project and it is about time that City Hall started listening to the people who pay the taxes that help to keep Richmond. For once please listen to us. It seems that this corner of Richmond has become a target and no one is listening to us when we say we don't want to play the game.

Sincerely,

Harry and Daphne Keith

**717229 BC Ltd
12000 Steveston Highway**

The people of Richmond have expressed their opposition to the above business being granted to operate a Pub. The City of Richmond is greedy and has caused Richmond to become a nightmare to live in. Their blatant disregard for its citizens is mind-boggling and again the above business should not be given a license because Richmond does not need another drinking hole.

The City of Richmond should not be granting licenses to drinking and gambling businesses. It already takes too much of our taxes for very little returns on our dollars, perhaps if it was not building such an unnecessary Ice Arena things would be different but I highly doubt it.

Sincerely,

T.P.D'Aguiar

Re: 717229 B.C. Ltd – operating Ironwood Pub located at 12000 Steveston Hwy.

Dear Sir or Madam:

This letter is written in response to the public meeting held at Watermania, August 23, 2005.

My wife and I attended that meeting and we herewith express our opinion in favor of the designated purpose and hours of operation proposed for this site.

While the impression left with the City official was that traffic issues were the major concern, the pub patronage was secondary with views expressed for the site usage and its contribution to increased traffic flow.

It is ironic that it is generally the same vocal minority who express negative views toward development of any kind and who now hypocritically patronize the merchants at Ironwood Mall to the exclusion of their former service providers.

Those who spoke at the Watermania meeting do not represent the views of the majority.

Sincerely,

Dennis & Judy MacNeill

Re: Notice of New Liquor Licence – Steveston & No. 5 Rd

I wonder if Councillor Harold Steves would step up to the plate, so to speak, to counter-act a possible hair salon that was to be built down the street from our salon. There are two, three and sometimes four salons on one block. What does Councillor Steves say about grocery stores, drug stores and restaurants which are on every corner as well? I can see fighting Wal-Mart and the like but another pub, come on – how silly is this? The pub in question is in a commercial area and out of the way of residential. I cannot see it hurting anyone or anything!!

We all know Randy Craig, the owner of Kingswood Pub is fearful that it will take away from his business. However, his clientele is likely from the local neighbourhood and ~~probably~~ won't cross over to this new one anyway. Are we not all responsible as business owners to gather up our own clientele and "do our business" rather than trying to get councillors to protect only a few that may not be able to successfully sustain their business. This just does not make

sense to me.

Does Councillor Steves understand that we could all come to him with our plea to halt construction of business that is the same as ours in order for us to monopolize the market? What ever happened to free enterprise in Richmond? Is this such a small place that we cannot have more services to accommodate the rapid growth that is upon us. Richmond is growing and so is the whole of British Columbia in leaps and bounds and to squelch any type of service seems to be less than constructive.

I question the motives of Councillor Harold Steves and pub owner Randy Craig. May we please be heard as business owners in Richmond and may construction go ahead – this is a wonderful city with lots of opportunity for all – every ethnic background!! To be fearful of our business neighbours is to be negatively charged. Let the show go on and let us all do business to provide the services the community needs and deserves.

Sincerely,

Richmond BC
V6Y 2C1

Dear Sir or Madam:

I have no objections to the application received from 717229 BC Ltd operating Ironwood Pub, located at 1200 Steveston Hwy. More specifically, I have no objections to the proposed hours of operation or 155 persons capacity.

Sincerely,

Navreet Gill

Re: Ironwood Pub, 12000 Steveston Hwy

Dear Sir or Madam:

I am resident of Richmond City, and would like to give my views about Pub:

- ✓ Location is Ok.
- ✓ Capacity is right
- ✓ Hours of operation are short
- ✓ Seats are enough
- ✓ Smoking room is not good idea

Regards,

RICHMOND *Plant City, A Vision*

Origin of Letters Received - Ironwood Pub Public Consultation

Reasons Sighted by the Public in Opposition to the Application

Situational Concerns

- wrong location for this type of establishment.
- the location of this new pub is and will be disastrous.
- no need for a pub at this location.
- there are other establishments where liquor is served nearby.
- Richmond does not need another drinking hole.
- another pub is already located 1.5 km north.
- concerns over proximity to Hwy 99 and the George Massey tunnel.

Traffic Concerns

- increased traffic will be generated at an intersection that is already congested by traffic during rush hour and off periods.
- it is not uncommon, but rather regular, to have traffic lined up to Shell Rd and further west on Steveston Hwy and on No. 5 Rd.
- all roads are main arteries with a large volume of traffic during the days and quite a bit of traffic during the night time hours.
- 155 persons will not be walk-ins, will produce over 75 cars with drivers who have been drinking.
- increased accidents during rush hour.
- roadway configuration at this intersection will hinder access to/egress from the pub and will create additional traffic problems.
- can't make a left turn into the pub going south on No. 5 Rd due to centre island.
- feel that the traffic study for the rezoning was incomplete and biased.

Safety Concerns

- drinking and driving in close proximity to such a traffic-congested area and to Hwy 99/tunnel.
- concerns over the safety of non-patrons travelling past the proposed establishment.
- puts rest of the driving public at increased risk.
- will generate more carnage at this intersection.

Concerns with Public Consultation Process for the Rezoning and the Pub Operations

- upset with the way in which the rezoning for this pub has been dealt with.
- feel the public consultation process was inappropriate, insufficient, and inequitable.
- feel the process has been completely ignored in favour of the applicant.
- feel the process is inconsistent with City policies in place in the past.
- suggest starting public consultation process over again to obtain residents views on whether they support the pub not just the operational details of the pub.
- feel that Council is not listening to the public.
- that submissions from the public on the rezoning were not given due consideration.
- public meeting regarding pub operations was a complete waste of time.
- upset that petitions showing opposition to the pub were not taken into consideration during the rezoning.
- the process has been rushed.
- blatant disregard for citizens.

Reasons Sighted by the Public in Support of the Application

Overall Comments

- the pub in question is in a commercial area and out of the way of residential.
- can't see it hurting anyone or anything.
- what ever happened to free enterprise in Richmond? business owners are responsible for gathering their own clientele rather than trying to protect only a few that may not be able to successfully sustain their business.
- to be fearful of our business neighbours is to be negatively charged...let us all do business to provide the services the community needs and deserves.
- attended the public meeting and are in favour of the designated purpose and hours of operation proposed for this site...traffic issues were the major concern at the meeting while pub patronage was secondary.
- it is the vocal minority that express negative views toward development of any kind.
- like the idea of having a pub at this location, especially because no school is around the location.
- like the idea of having a pub at this location, but not Ok with smoking room.
- it needs more hours.
- it will bring more business to Richmond.
- good to have a new sports pub in Richmond.
- as a business owner in Richmond, I fully support the pub at this address.

Pub Operations

- location is Ok.
- capacity is right.
- hours of operation are short.
- seats are enough.
- good location, good capacity, good idea for ventilated smoking area.
- no objections to the application, to the proposed hours, or capacity.
- Ok with capacity inside the pub, but do not agree with the outside's patio.

Dear Mr. Sandhu:

**RE: TRAFFIC REVIEW FOR THE PROPOSED COMMERCIAL DEVELOPMENT AT
STEVESTON HIGHWAY AND NO. 5 ROAD, RICHMOND, BC**

We are pleased to forward this letter report, summarizing the results of our review of the revised land use for the commercial development along Steveston Highway and No. 5 Road. This letter should be read in conjunction with our October 2004 draft report titled Traffic Review for the Proposed Commercial Development at Steveston Highway and No. 5 Road.

The new commercial development being proposed in the City of Richmond has been revised to include a neighbourhood pub. As part of the revised rezoning application (RZ-286494), the City of Richmond has requested that the original traffic impact assessment be reviewed to determine the potential impacts of the revised land use concept. According to the information provided, the neighbourhood pub will occupy a total of 3,000 square feet within the ground floor of the main building and will not affect the development's overall gross floor area.

The relevant trip generation rates from the Trip Generation Manual, 7th Edition (Institute of Transportation Engineers (ITE), 2003) and the Trip Generation and Parking Manual (British Columbia Ministry of Transportation (MoT), 1996) were reviewed. The ITE's land use of Drinking Place was used. The revised traffic volumes expected to be generated by the proposed development are summarized in TABLE 1.

The analysis indicated the addition of a neighbourhood pub will generate approximately 2 percent more traffic to the surrounding road network. This change is considered negligible, and is well within the margin of uncertainty associated with traffic forecasts. The findings, conclusions, and recommendations of our October 2004 report therefore remain unchanged.

TABLE 1 SUMMARY OF TRIP GENERATION (AFTERNOON PEAK PERIOD)

LOCATION / LANDUSE	SOURCE	TRAFFIC GENERATED (VEHICLES PER HOUR)		
		INBOUND	OUTBOUND	2 - WAY
Main Building – Ground floor (Commercial)	MoT - Neighbourhood Commercial	68	67	135
	ITE - Land use 936 (Drinking Place)	22	12	34
Main Building – Second floor (Office)	MoT – General Office	4	19	23
Second Building (Restaurant connected to main building)	ITE - Land use 939 (fast-food Restaurant w/ drive through)	48	45	93
TOTAL (with Neighbourhood Pub)		142	143	285
TOTAL (without Neighbourhood Pub)*		134	146	280
Hourly Difference with the Pub		+8	-4	+5
Percentage Difference with the Pub		+6%	-3%	+2%

* The generated traffic volumes without the neighbourhood pub are documented in the draft report titled Traffic Review for the Proposed Commercial Development at Steveston Highway and No. 5 Road (Hamilton Associates, October 2004).

We trust that this letter report will assist in the development approval process. Please do not hesitate to contact us if you have any questions.

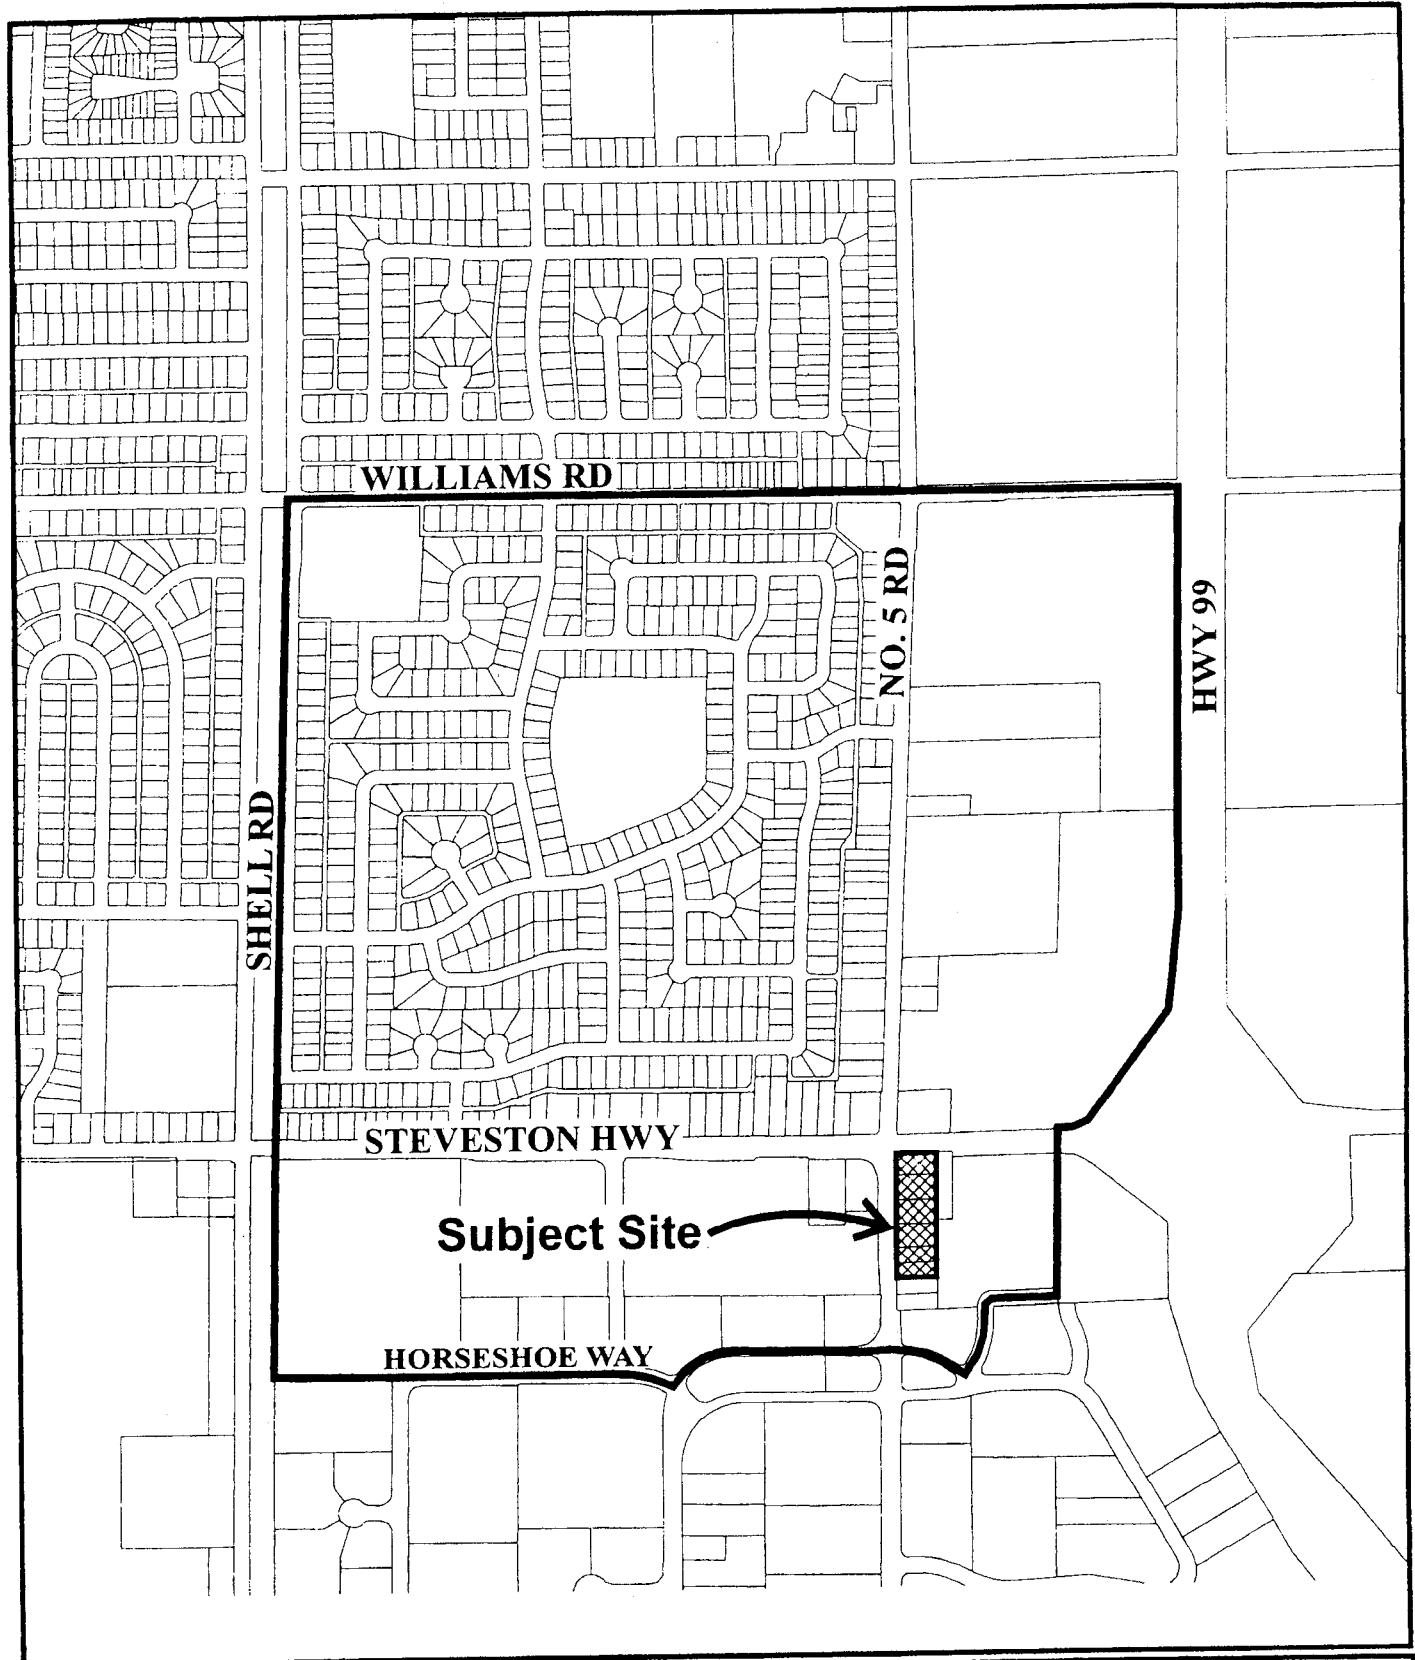

Yours truly,

G.D. HAMILTON ASSOCIATES CONSULTING LTD.

BACKGROUND AND OBJECTIVES

717229 BC Ltd (dba Ironwood Pub) has made an application to the City of Richmond and the Liquor Control and Licensing Branch to operate a neighbourhood pub at 12000 Steveston Highway, Richmond, BC.

The City of Richmond has directed Ironwood Pub to conduct an operations study to gather feedback from residents and businesses in the neighbourhood. As such, Ironwood Pub contracted Synovate to conduct the survey.

The objectives of the study are as follows:

- To measure reaction to the proposed hours of operation and proposed seating capacity, both indoors and outdoors;
- To gather feedback on the types of menu items that residents/businesses feel the pub should offer
- To gather feedback on the type of entertainment that residents/businesses feel the pub should have
- To determine whether there is preference for having a smoking area indoors versus outdoors

The results of the survey are presented in this report.

SURVEY METHODOLOGY

A self-administered mail-out survey was used to collect the information. Synovate designed a questionnaire and an introduction letter that was mailed to all addresses in the survey area. The survey area is bordered by Williams on the North, just past Steveston Highway on the South, Shell Road on the west and No. 5 Road on the east. The City of Richmond provided a list of all addresses within the area. A total of 972 survey packages were sent out on Friday, August 12, 2005. Of these, 62 were returned undeliverable.

Respondents were instructed to complete and return their surveys by Monday, August 29th, 2005. A postage-paid self-addressed envelope was provided for survey return. All surveys postmarked on or before August 29th were tabulated. At the time of reporting, 143 surveys were returned for tabulation. Of these, 23 were returned incomplete and therefore, not tabulated. Based on 910 deliverable packages, 143 returns represents a 16% response rate. At the time of reporting, 3 surveys were returned late.

Of the surveys returned, the respondent profile is as follows:

Resident	92%
Business	6%
Both	2%
Own	91%
Rent	9%
Male	41%
Female	48%
Household response	11%

SUMMARY OF RESULTS

The neighbourhood appears to be split in terms of the proposed hours of operation. About half feel the proposed hours are either too short or about right, while the remainder feel the proposed hours are too long.

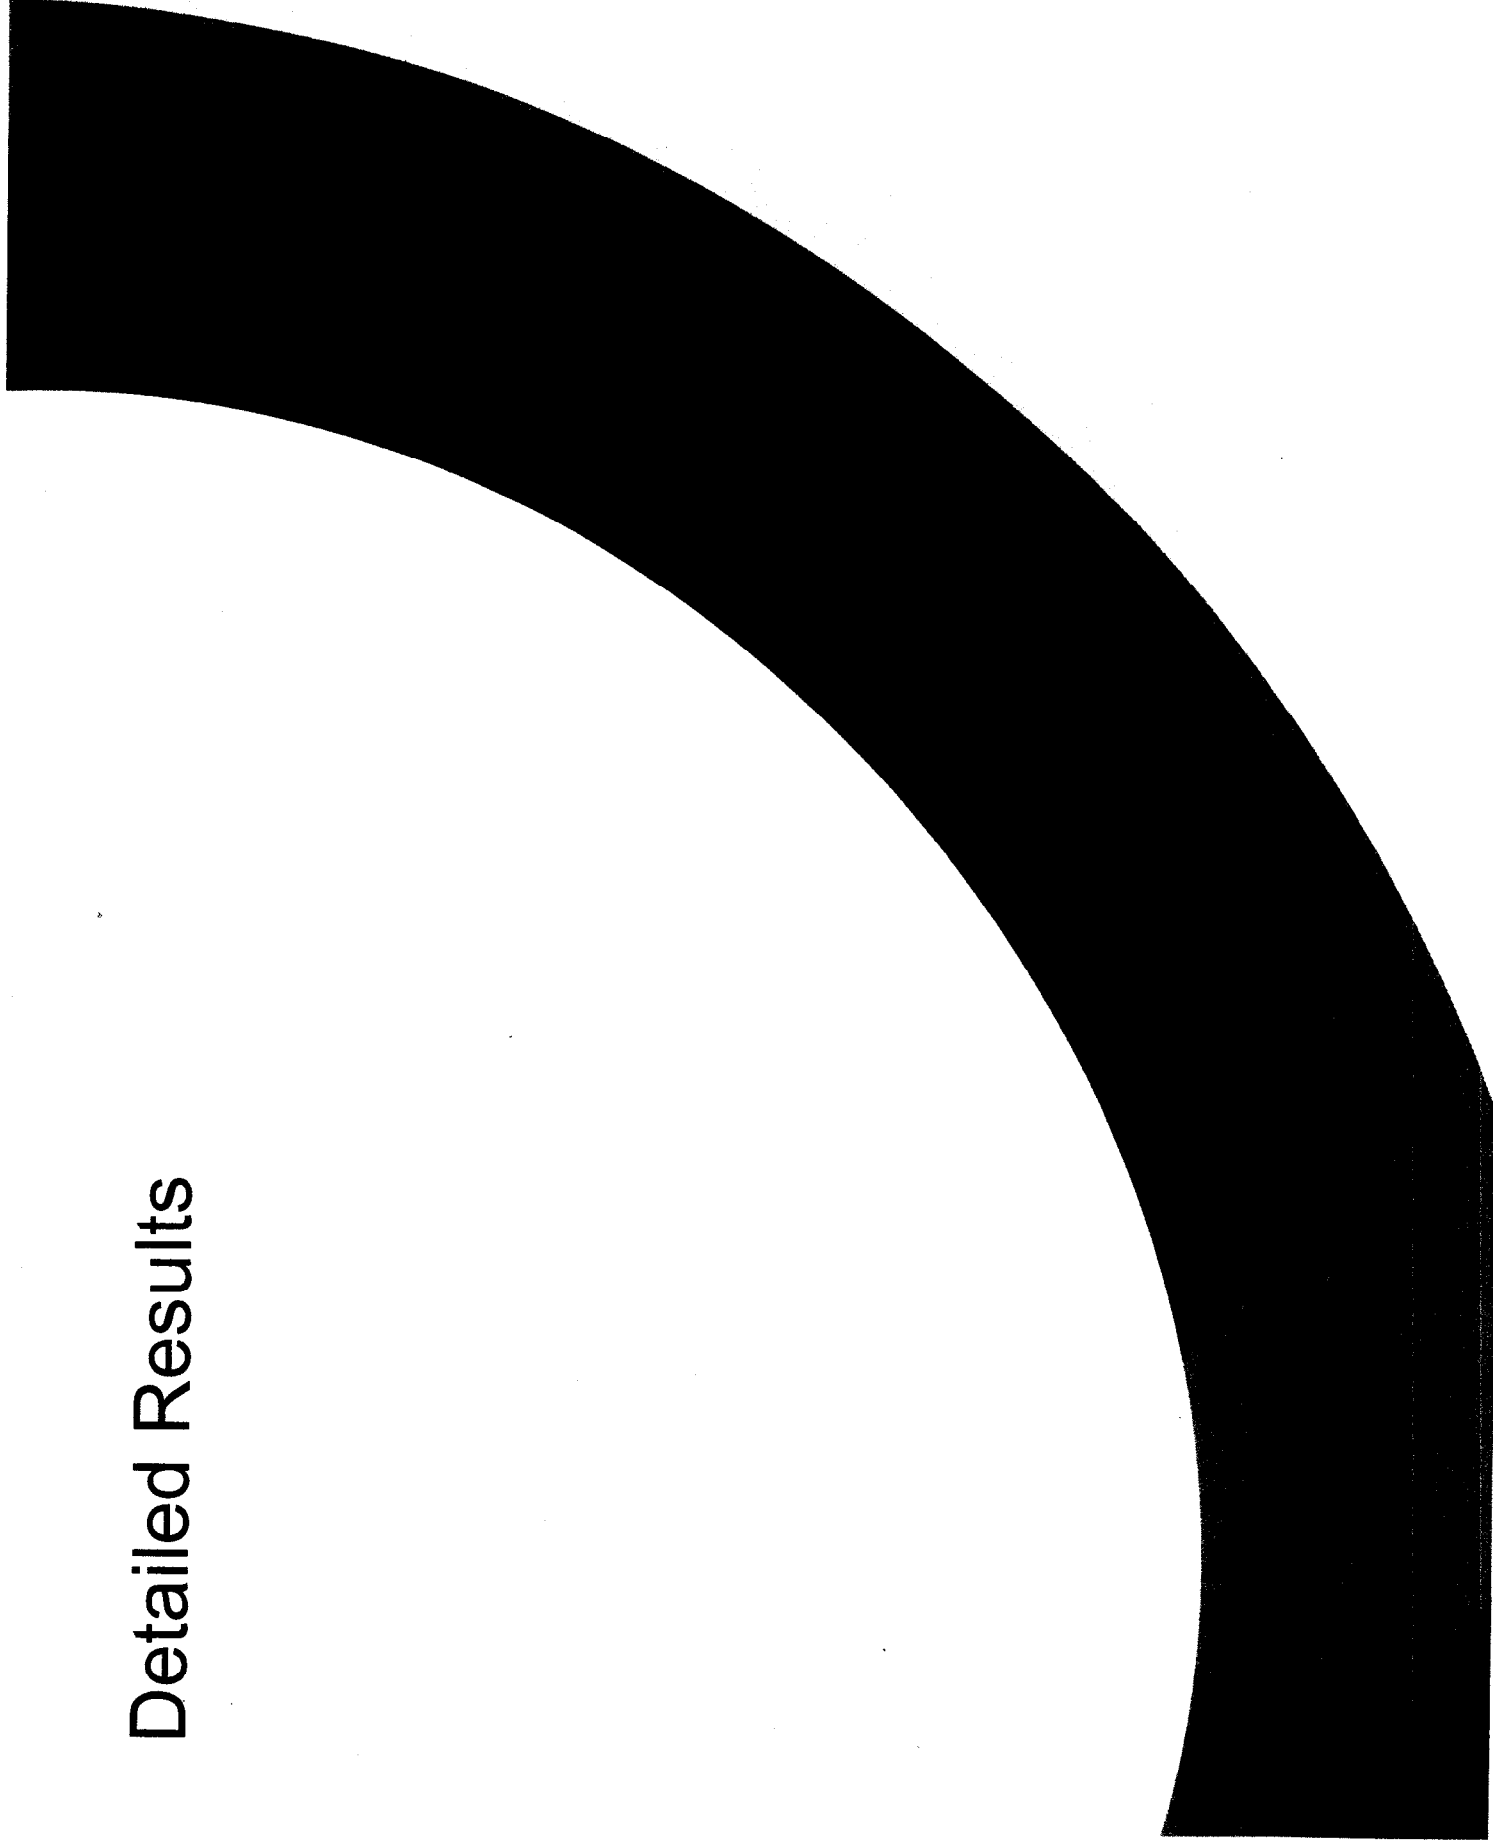

In terms of seating, there is a difference in opinion between the number of seats inside versus outside. The neighbourhood is almost evenly split in opinion on the number of indoor seats (46% not enough/about right vs. 54% too many). However, the proposed 20 seats in an outdoor patio results in significantly more neighbours saying this is "not enough" (21%). Taking into account the 38% who feel 20 patio seats is about right, only 41% feel this is too many.

When it comes to food, casual dishes and snack and appetizers are the most chosen types of food that two-thirds of neighbours would like to see the pub offer. Just over one-half would also like the pub to offer full dinner and full lunch entrees. Only three in ten are interested in a buffet.

As for entertainment, a big screen TV is the most popular choice as indicated by eight in ten neighbours, followed by small, 2-3 piece live bands from time to time. Few support having gaming available, whether in the form of lotteries or video gaming.

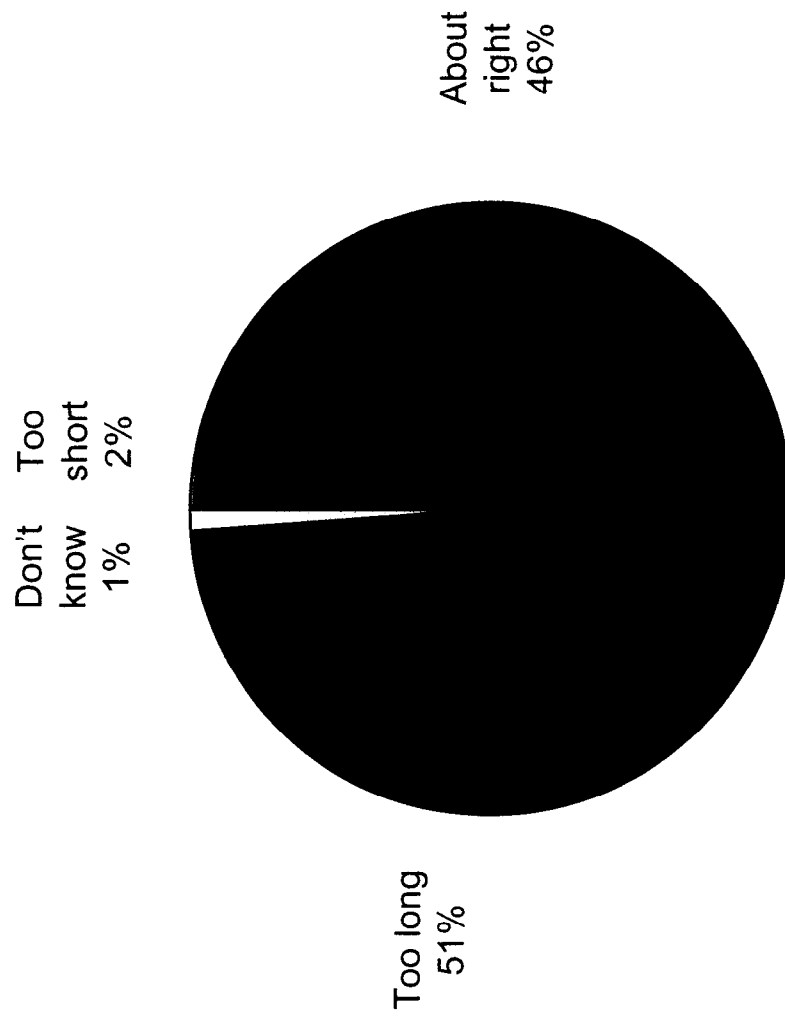

Lastly, eight in ten do not support having a smoking area inside the pub and suggest smokers simply go outside to smoke.

Detailed Results

REACTION TO PROPOSED HOURS

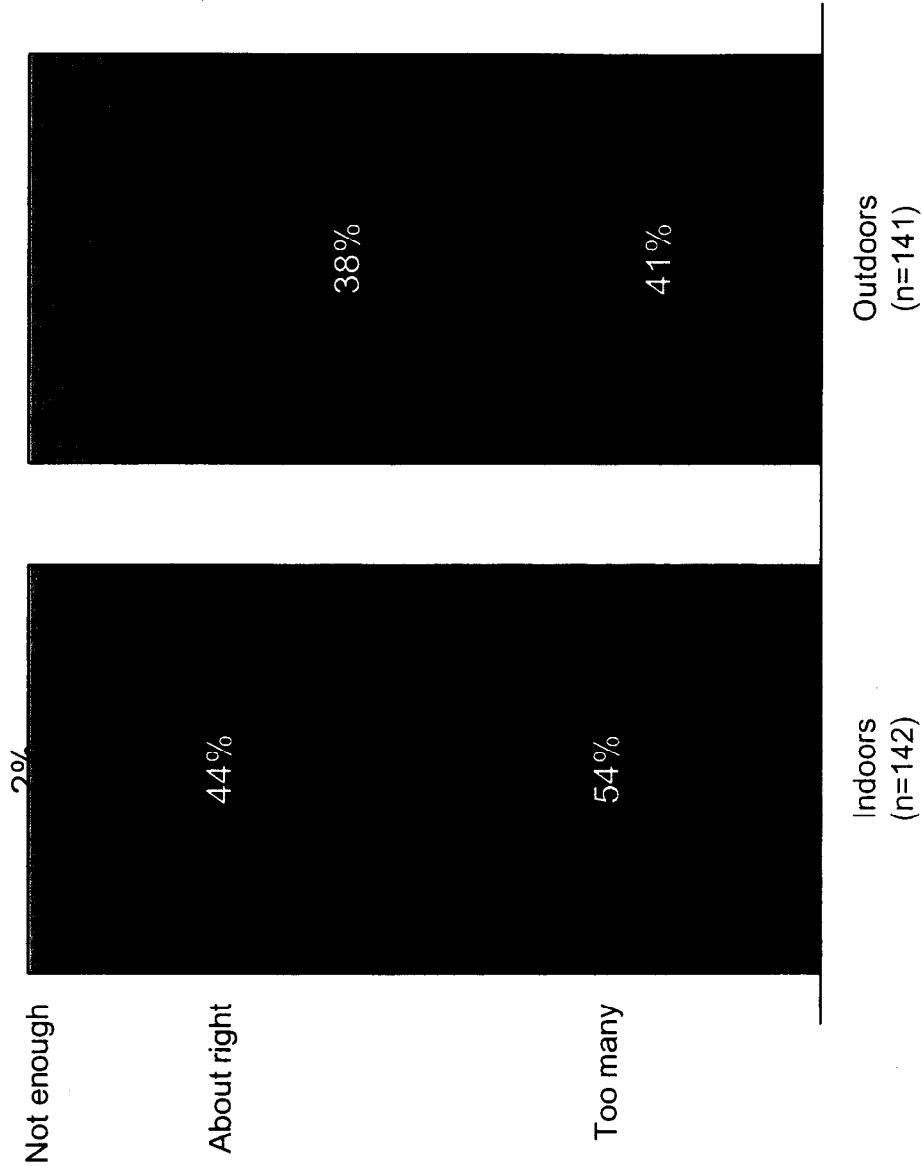

1. The proposed pub will be open Sundays through Thursdays from 11:00 am to midnight, and on Fridays and Saturdays, from 11:00 am to 1:00 am. Do you feel these hours are about right, too short or too long?

n=142

REACTION TO PROPOSED NUMBER OF SEATS

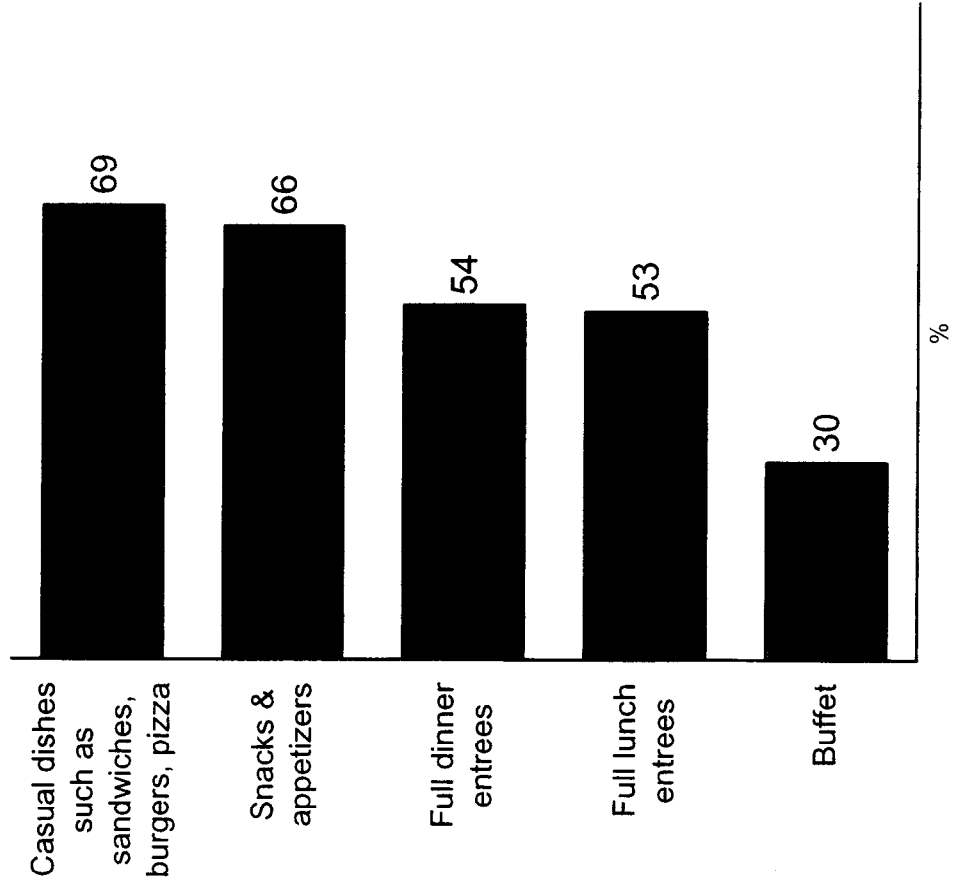

- 2a. There will be 135 seats inside the pub. Do you feel this is about right, too many or not enough?
2b. There will be 20 seats in an outdoor patio. Do you feel this is about right, too many or not enough?

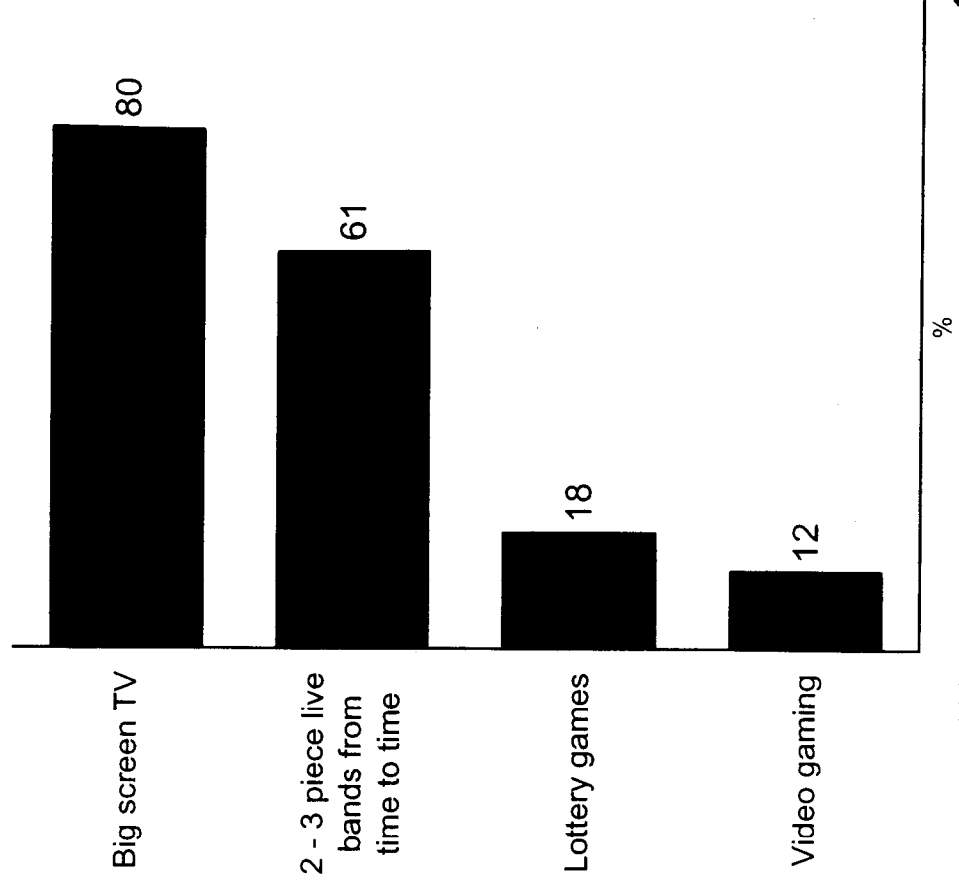

PREFERRED FOOD AND ENTERTAINMENT OFFERINGS

3. Which of the following types of food would you like to see the pub offer?
4. Which of the following types of entertainment would you like to see the pub offer?

FOOD

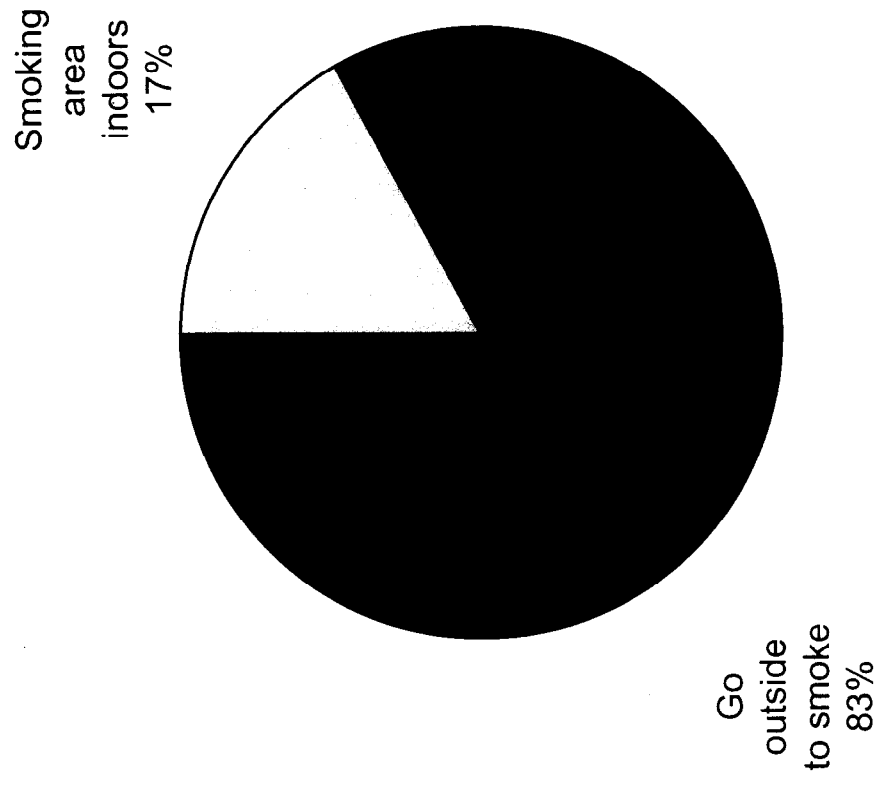

ENTERTAINMENT

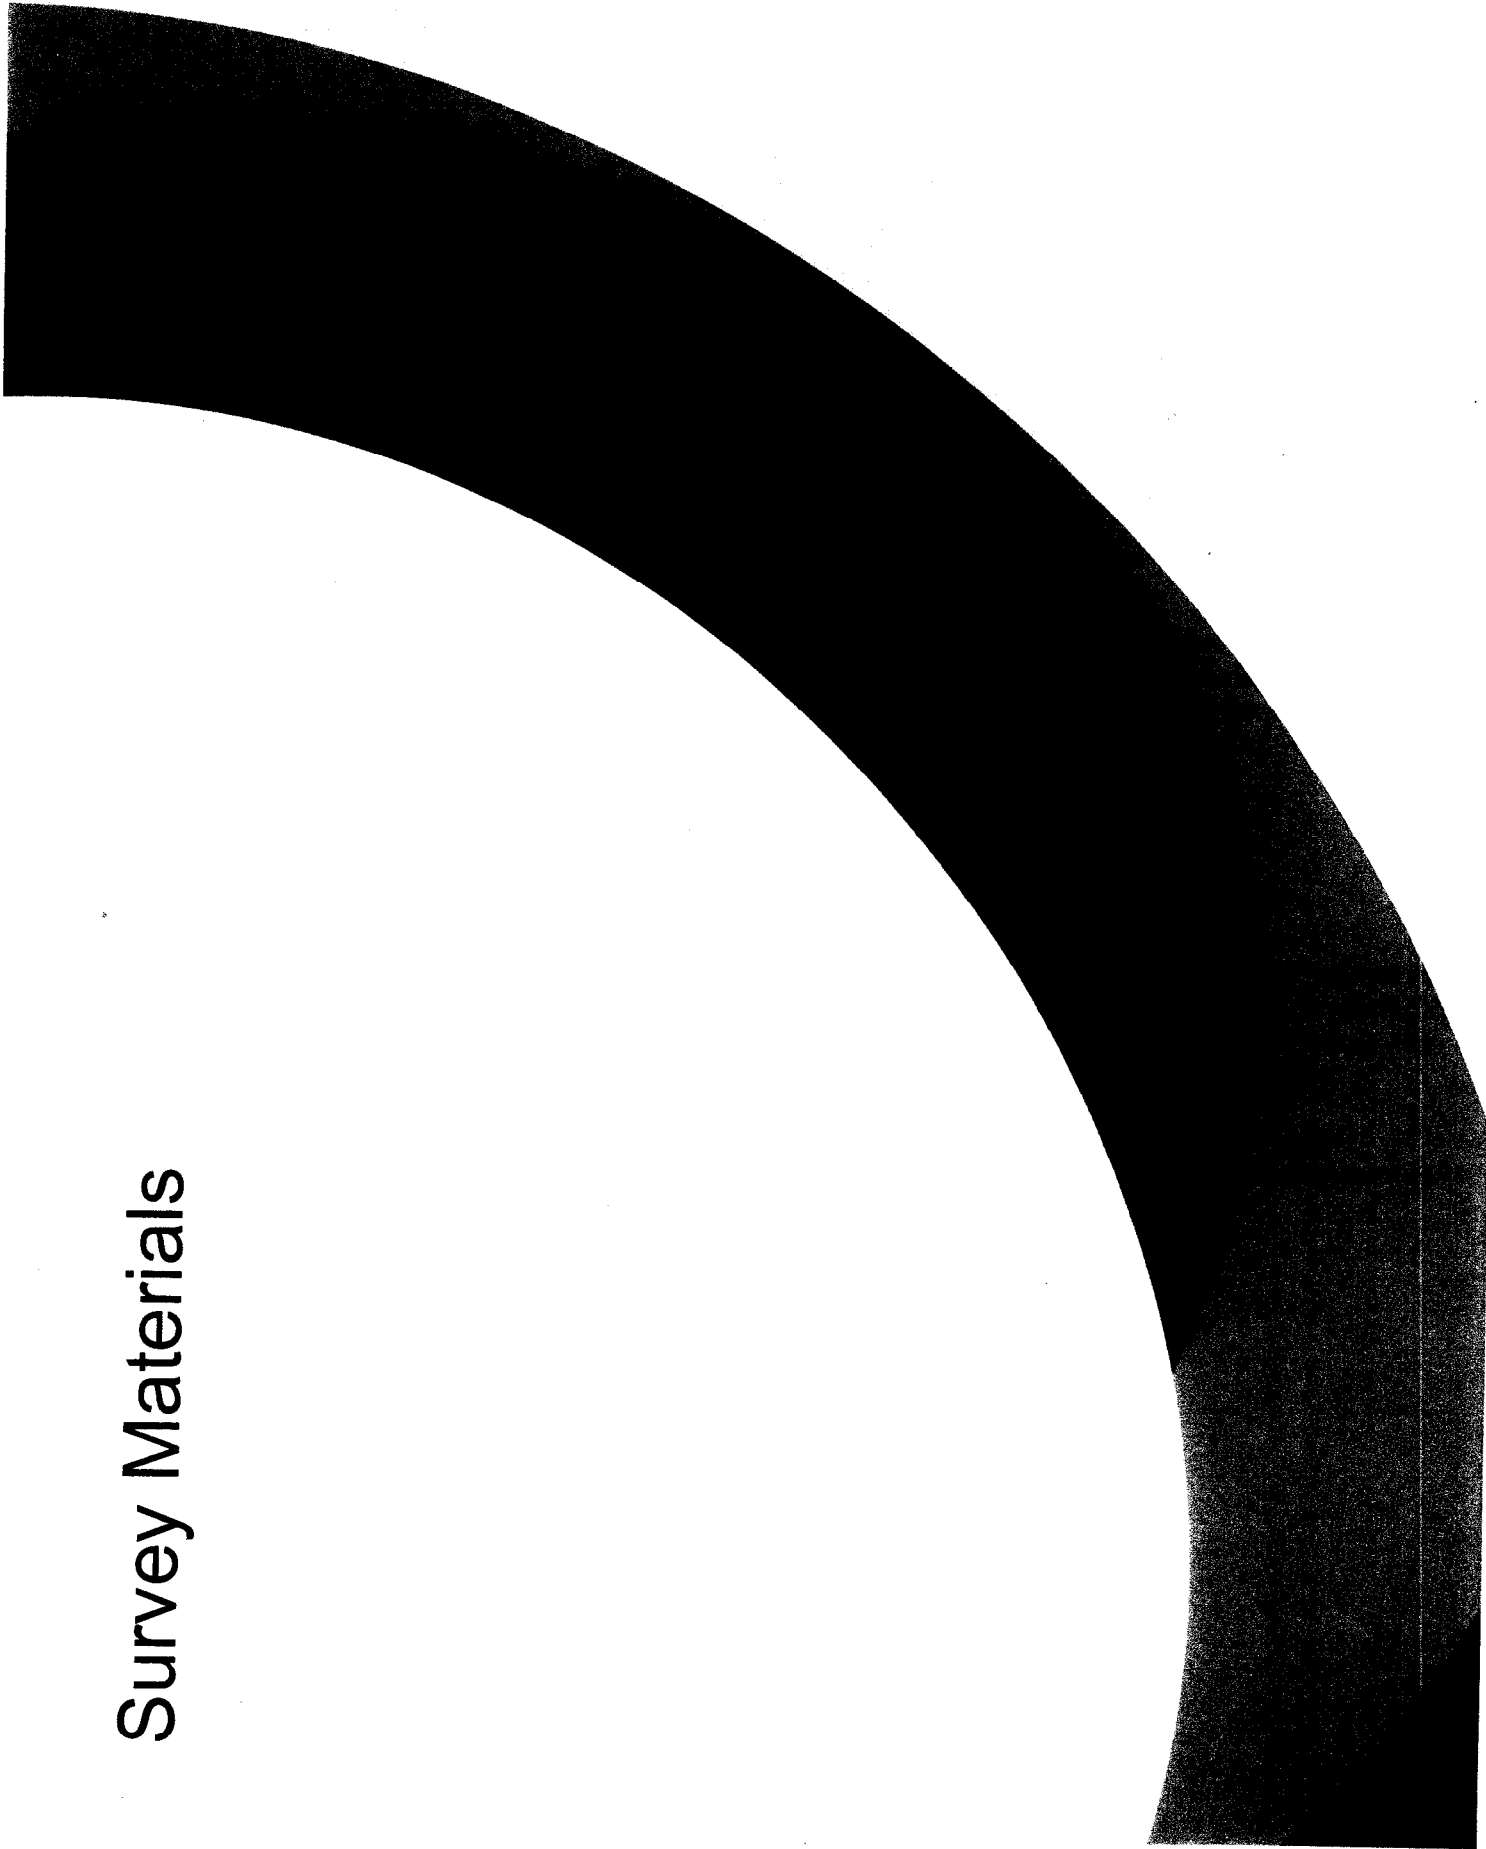

PREFERRED SMOKING AREA

5. Should there be a ventilated smoking area indoors or should people have to go outside to smoke?

August 12, 2005

Dear Occupant:

Re: Notice of Public Information Meeting
Regarding a New Liquor License Application in Your Neighbourhood

This notice serves to advise you of an application received from 717229 BC Ltd (dba Ironwood Pub) to operate Ironwood Pub, located at 12000 Steveston Highway. On July 25th, 2005, Council approved the zoning for this pub and asked the applicant to gather feedback from the neighbourhood regarding the operations of the pub.

You are receiving this notice because you reside or operate a business near the proposed establishment. The purpose of this letter is to invite you to attend an Information Session to allow you to see what is being proposed for the pub and to answer any questions you may have regarding the operations of the pub. This session will be held on Tuesday, August 23rd, 2005 from 7pm to 9pm at:

Watermania
14300 Entertainment Blvd.
Richmond, BC

Additionally, City Council has requested that the applicant survey the neighbours to gather their feedback regarding its proposed operations. As such, enclosed is a survey to be completed by an adult aged 19 or over who is a permanent resident of this household. For businesses, the survey should be completed by the owner or manager who is 19 years of age or older.

Please complete the survey and return it in the enclosed postage-paid business reply envelope. In order for your opinions to be counted, please ensure your survey is postmarked no later than August 29th, 2005.

If you have any questions, please don't hesitate to give me a call.

Yours sincerely,

Lorraine Macdonald
Vice President
