2. **BC FERRIES INQUIRY**
(Report: Oct. 2/01, File No.: 6530-02) (REDMS No. 516805)

The Director of Transportation, Gordon Chan, reviewed the report with emphasis on three major issues:

- the need for a more integrated approach to connecting ferry transportation to ground transportation;
- whether continued growth in vehicle traffic would render the BC Ferry service unsustainable;
- the choice of Richmond should a third mainland terminal be required.

Discussion then ensued that resulted in the request that the report be amended to indicate that the City does not support having a ferry terminal on its land.

The General Manager, Urban Development, David McLellan said that he would attempt to obtain a copy of the study BC Ferries commissioned approximately eight years ago on this issue.

It was moved and seconded

That the City staff's comments and recommendations on the fast ferry project and the management of BC Ferry Corporation, (as presented in the report dated October 2nd, 2001, from the Director, Transportation), be endorsed and submitted to the BC Ferries Inquiry for consideration in the preparation of its report for the Ministry of Transportation.

The Director of Transportation, Gordon Chan, reviewed the report. In response to questions, the General Manager, Engineering and Public Works, Jeff Day said that provision had been made to purchase bleachers for the event and that the sound system had been improved.
