Staff Report

Origin

Development in the North McLennan is progressing rapidly in the north-west section of the area, between Ferndale Road and Alberta Road. The southerly portion of the new Katsura Road is being constructed over a City-owned lot, and BC Hydro and Telus have been laying works that are required by the new developments.

Analysis

In order to protect works that are in place, a right of way over a portion of City land at 9260 Hemlock Road is required. The right of way is for Telus and Hydro underground works. The right of way area is 2.0 metres wide, per the attached copy of the right of way survey plan.

9260 Hemlock is a left-over parcel from the registration of the road dedication plan over 9251 Alberta Road. In due course, the City will dispose of the land by requiring it to be purchased by an adjacent developer who will consolidate it into a larger site.

Financial Impact

BC Hydro will pay for any associated costs such as the survey plan, registration of the right of way. The City will pay to advertise the disposition of land (granting the right of way).

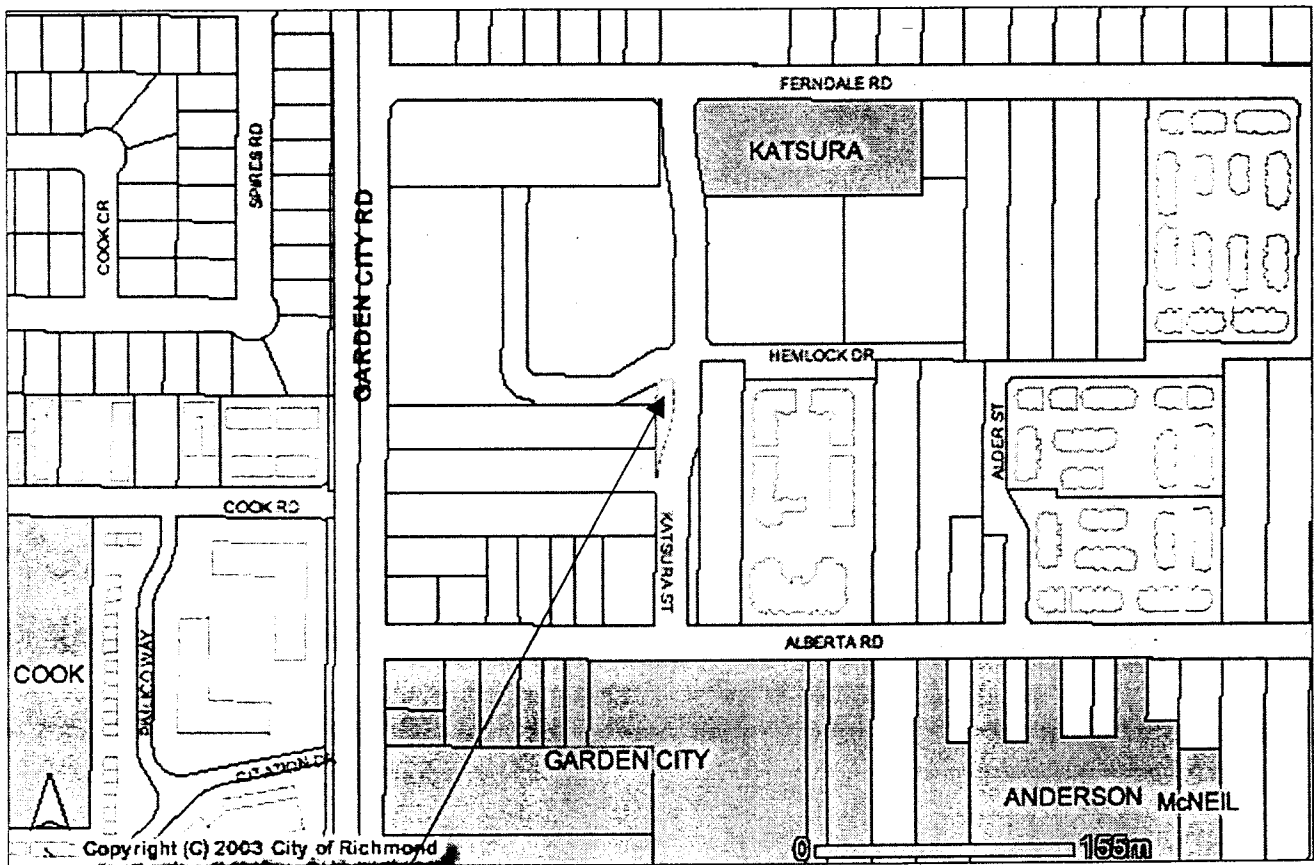

Conclusion

Council approval is required to grant the joint right of way to BC Hydro and Telus.
