STAFF REPORT

ORIGIN

Staff has received applications for the establishment of video arcades ( amusement centres ) at:

Game Station Entertainment Ltd. #160 – 8611 Alexandra Road. ( 50 machines );

Heavy Metal Professional Gaming. #1036 – 8300 Capstan Way. ( 24 machines );

The Seige Holding Ltd. #115 – 4231 Hazelbridge Way. ( 30 machines.);

Time Square. #2182 – 3779 Sexsmith Road. ( 10 machines ); and

Richmond Hack Internet Café. 8291 Westminster Highway. ( 20 machines.)

Video arcades are currently restricted to locations specified in Schedule A of the Business Regulation Bylaw No 7148. The proposed sites are not identified in the Bylaw.

ANALYSIS

Three of the properties listed are currently zoned Automobile – Oriented Commercial District (C6), one is currently zoned Downtown Commercial District (C7), and one is currently zoned Comprehensive Development District (CD/39). Classifications which permit, among other uses, commercial entertainment.

Video arcades fall within the ambit of commercial entertainment.

Until recently, the “conventional” arcade has used standard amusement machines for playing games, and the City has imposed strict operating hours within which arcades would be permitted to operate.

Over the last couple of months businesses have opened up as “Internet Cafes”, where a coffee shop operates, complete with computers for customers to go on the internet, for a fee, while having coffee and snacks.

However, site visits by staff have identified that these establishments are in fact operating the computers as game playing amusement machines, for a fee.

By operating on the pretext of an “internet café”, these establishments felt they could operate without any hours of operation restrictions or any need to adhere to the Amusement Centre regulations in the Business Regulation Bylaw.

Staff have taken the position that they are indeed arcades, and that they would require Council approval to operate. At the October 9<sup>th</sup>. 2001 Council meeting, Council approved the locations for nine such establishments, and this report is for an additional five locations, which have made application to the City to be considered a Video Arcade and to comply with all the requirements in the Business Regulation Bylaw.

FINANCIAL IMPACT

Nil.

CONCLUSION

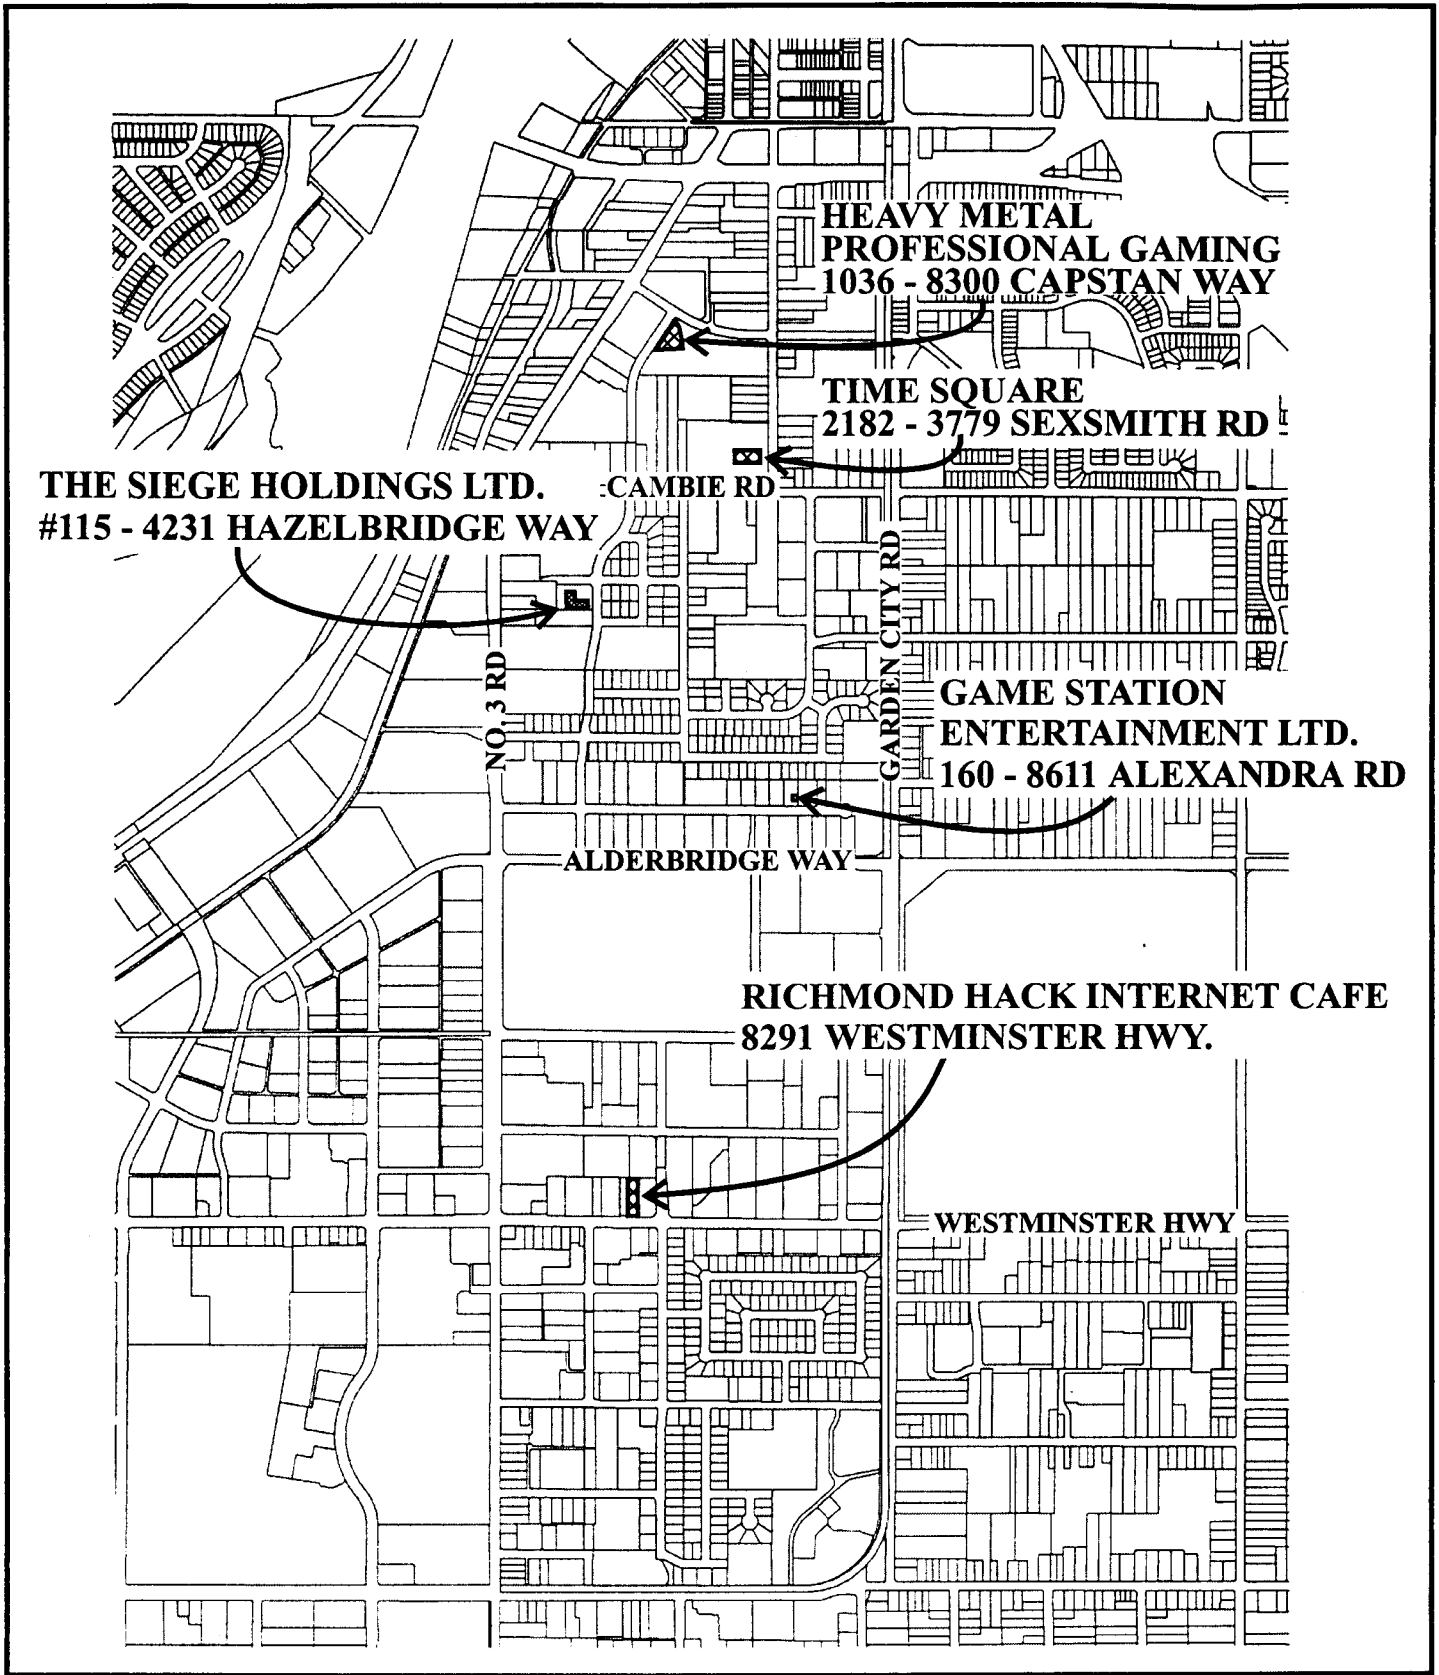

The concept of the "internet café" is fairly new, and is growing in popularity, as the nine previously approved locations, and these five requests can attest, and is expected to continue.

Staff feel that such establishments should be regulated in the same manner as the conventional arcades to create a level playing field and to control the hours of operation, and can offer no reason why the five applications presented to operate video arcades should not be favourably considered.
