## Report to Committee

**To:** Finance Committee  
**From:** Ivy Wong, CPA, CMA  
Acting Director, Finance  
**Date:** February 9, 2021  
**File:** 03-0970-01/2021-Vol  
01  
**Re:** Additional Information on the 2021 Proposed Capital Budget

### Staff Recommendation

1. That the staff report titled "Additional Information on the 2021 Capital Budget" from the Acting Director, Finance dated February 9, 2021 be received for information; and
2. That the 2021 Proposed Capital Budget as presented in Appendix 3 of the staff report titled "2021 Proposed Capital Budget" from the Acting Director, Finance dated January 15, 2021 in Attachment 2 totalling \$99,832,779 be approved; and
3. That the 2021 Proposed Capital Budget totalling \$99,832,779 and the 2022-2025 Capital Projects be included in the Consolidated 5 Year Financial Plan (2021-2025).

Ivy Wong, CPA, CMA  
Acting Director, Finance

APPROVED BY CAO 	

## Staff Report

### Origin

At the Finance Committee Meeting on February 1, 2021, the 2021 Proposed Capital Budget from the Acting Director, Finance dated January 15, 2021 was presented and the following referral motion was carried:

- That the staff report titled “2021 Proposed Capital Budget” be referred back to staff:*
- (a) for further analysis and identification of alternate funding sources of the capital projects that are recommended but have insufficient funding, as noted in Appendix 4;*
  - (b) to compile a list and provide more information on capital projects undertaken by external vendors and those that are undertaken by City staff; and*
  - (c) to review and provide more information on the projects as part of the Information Technology Equipment Program from pages FIN 118-123; and report back.*

The following report addresses the above referral items.

### Analysis

Council Policy 3707 Long Term Financial Management Strategy (LTFMS), item 5 concerning Capital Plan states the following: “Ensure that long term capital funding for infrastructure (e.g. parks, trails, facilities, roads etc.) is in place in order to maintain community liveability and generate economic development.” Annually staff submit capital project requests, which are thoroughly reviewed, ranked and prioritized before being included in the capital budget. Staff follow the above LTFMS policy and ensure that funding is available before a project is included. This ensures that there is long term sustainable funding in place and that the budget is balanced. Staff also adhere to subsection 189(1) of the *Community Charter* which states that the respective reserve, is only used for the purpose for which the fund was established. For example, the Capstan Station Capital Reserve Fund Bylaw states that monies in this reserve can only be utilized towards costs with respect to the Capstan Station.

The LTFMS policy includes an annual increase of 1% transfer to reserves to fund community infrastructure replacement needs. The Capital Building and Infrastructure (CBI) reserve funds the replacement of buildings, such as Fire Hall 1, which opened in 2018 and the Minoru Centre for Active Living, which is operational in 2020 with limited programming due to public health restrictions. In 2018, Council approved Major Facilities Phase 2, which includes two future facilities which require funding: the Steveston Community Centre and Branch Library and the Hugh Boyd Soccer Field House.

This reserve fund is also largely utilized to fund major repairs for all City owned buildings to ensure community buildings remain safe and operational. The City’s owned and leased facilities inventory consists of over 165 buildings with a total building area of approximately 2,200,000 sq. ft. The City’s operating budget includes the Infrastructure Replacement and Building Improvement program, which is for repair and preventative maintenance, but is insufficient to fund major capital improvements. Additional capital funding is always required to complete

major repairs and replacements for critical building components, such as roofs, boilers and elevators.

On March 16, 2020, the Attorney General ordered the temporary closure of all gambling facilities in British Columbia in consultation with and on the advice of the Provincial Health Officer. This closure included the River Rock Casino in Richmond. The closure resulted in a reduction of funding towards the City's reserves along with the grants program, funding for four RCMP officers and the annual debt repayment. The impact to the annual funding of the reserves was a reduction of \$6.3 million.

## **2021 Capital Process**

The Capital Review Team (CRT), which is comprised of directors from each division, reviewed and ranked each project submission. To ensure consistent application of the established ranking criteria, the CRT prioritizes the submissions based on Council's strategic plans, policies, priorities and funding availability. The ranked projects were presented to the CAO and the Senior Management Team (SMT) for review and endorsement. The final recommendation is consolidated to form the 2021 Capital Budget presented to the Finance Committee for review, approval and inclusion in the Consolidated 5 Year Financial Plan (2021-2025).

All capital submissions have gone through a rigorous process of review and evaluation completed by the managers, directors, Senior Management Team and the CAO before the 2021 Capital Budget is presented to the Finance Committee for review and approval.

Due to the effects of the Pandemic, the City only received \$2.7M of the budgeted \$14.5M of gaming revenues in 2020 and does not expect to receive any in 2021 due to the temporary closure of the River Rock Casino. As a result, some capital projects were not recommended to be included in the 2021 Capital Budget due to insufficient funding. These projects have been reviewed and assessed by staff as less critical projects that can be deferred and will be brought forward to the 2022 budget process for consideration. However, should any of these projects fail in 2021, the City has an annual maintenance budget to cover repairs to ensure minimal or no disruption to service levels.

Table 1 summarizes the prioritization of these projects from the Capital Review Team. All capital submissions are important, however in any year and especially in a year when funding has been reduced, fiscal prudence must be practiced.

Community Safety Building Emergency Power and Interior Upgrades and Hamilton Community Centre – HVAC Replacement projects were ranked the highest due to the severity of the system issues and its frequent breakdown. If there was a failure that requires an emergency repair, staff could utilize temporary funding through the Project Development and/or Facility Maintenance budget or an existing capital project until the 5 Year Financial Plan is amended. Citywide Sidewalk and Street Light Replacement Program is ranked next as certain critical components could be addressed within existing budget but may cause delay to the annual program. There are previously approved City Sidewalk and Street Light projects so the most critical areas will be attended to. City Hall Mechanical Renewal is a Phase 3 project and is ranked next. The Bridge

Rehabilitation Program is ranked the lowest due to the nature of the project being mainly assessment in nature and is not critical.

**Table 1: Projects Recommended but Insufficient Funding and Not Recommended**

Priority	Project	Cost	Operating Budget Impact
Recommended but Insufficient Funding			
1	Community Safety Building Emergency Power and Interior Upgrades	890,000	
2	Hamilton Community Centre - HVAC Replacement	500,000	
3	Citywide Sidewalk and Street Light Replacement Program	500,000	
4	City Hall Mechanical Renewals	1,770,000	
5	Street Light LED Upgrade Program	490,000	(\$30,000)
6	Bridge Rehabilitation Program	\$300,000	
<b>Total Recommended but Insufficient Funding</b>		<b>\$4,450,000</b>	<b>(\$30,000)</b>

Referral Item (a) – Alternate Funding Sources of the Capital Projects that are recommended but have insufficient funding

Most of the capital projects are funded through Development Cost Charges and/or reserves which are restricted based on the bylaw and on the scope and nature of the capital projects. Annually the City faces the same financial challenge of funding important capital projects that do not have a dedicated funding source or have insufficient funding as itemized in Table 1. The Capital Review Team prioritizes all capital submission based on Council strategic goals and corporate priorities within the budgetary constraints.

In previous years' capital budgets, Council has approved staff to utilize Rate Stabilization Account (RSA) to fund capital projects. However, staff do not recommend utilizing RSA this year to fund capital projects since the City is expecting minimal surplus in 2020 and 2021 to be transferred to RSA and funding might be required for other Council priorities.

Should Council decide to fund the projects with insufficient funding, the following alternate funding sources could be considered:

**Table 2: Alternate Funding Sources**

Alternate Funding Source	Projected Funding Availability (in \$'000s)
Emergency Response Fuel Facility	\$8,424
Gaming Revenue Provision	\$1,922
Council Community Initiatives Account	\$746
Council Provision	\$245

Referral Item (b) - Information on capital projects undertaken by external vendors and those that are undertaken by City staff

City Forces have demonstrated the skill to successfully undertake infrastructure replacement and upgrade capital projects. This City Forces capability provides an opportunity for the City to:

- Maintain and enhance construction skills essential for day-to-day operations and emergency situations;
- Maintain a competitive and value positive alternative to private sector contracting;
- Provide cost certainty in the capital program;
- Build interdepartmental cooperation.

Each year, staff review the proposed Capital Budget to seek opportunities to maximize the amount of work than can be done by City Forces, while providing the best overall value to the City.

A separate memorandum is provided to Council on information on capital projects undertaken by external vendors and those that are undertaken by City staff.

Referral Item (c) – Review and provide more information on the projects as part of the Information Technology Equipment Program from pages FIN 118-123; and report back

The City's Information Technology (IT) plays a vital role in delivering programs and services to Richmond residents and businesses by continuously improving customer service and experience. The City's IT Department is the centralized resource for providing computers, internet and telecom. It actively supports the network infrastructure and securing all of the City's critical data and financial records.

Information Technology played a critical role at the onset of the COVID-19 pandemic and continues to do so. Due the City's foresight to invest in IT, there were solutions which allowed employees to continue to work effectively and efficiently and avoided disruption to City services while adhering to public health orders. If not for the City's advanced technology, Richmond would not have been able to respond to the pandemic as well as it did and avoid potential layoffs.

Refer to attachment 1 for additional information on the Information Technology projects.

### **Financial Impact**

The 2021 Capital Budget with a total value of \$99,832,779 will enable the City to maintain and advance the asset inventory that continues to provide necessities and benefits to the community.

February 9, 2021

- 6 -

## Conclusion

The recommended Capital budget for 2021 is \$99,832,779 which ensures the City's infrastructure and services are maintained.

Mike Ching, CPA, CMA  
Acting Manager, Financial Planning and Analysis

Att. 1: Information Technology Capital Projects

Att. 2: 2021 Proposed Capital Budget dated January 15, 2021

## Information Technology Capital Projects

### Item (a) Annual Hardware Refresh

The Information Technology department refreshes Corporate desktop, laptop and mobile device computers (smartphones and iPads) using a planned evergreen model based on a five-year lifecycle. Corporate desktops and laptops have a three year warranty and reach end of life after five years. The assets are capitalized and amortized over that five year period and are responsibly recycled using environmentally aware practices. Refreshing equipment provides the capability of ensuring staff are able to be productive in performing their job duties and are not disrupted through unplanned failures or outages to their equipment.

Information Technology has adopted this best practice for over the past ten years and has successfully managed and maintained service levels and productivity for the City.

If this project is not get approved, the annual hardware refresh program will fall behind and some users will have to utilize equipment that may not be adaptable to current operating systems and software's, therefore possible disruptions to services may occur.

### Item (b) Business Continuity Transition to Laptops

During the COVID-19 pandemic, City staff continued to provide essential services. A large number of staff continued to work as usual by relocating City computing equipment from their office location to their homes. Information Technology provided remote secure technologies that enabled staff to be able to connect from home and operate as if they were working in the office.

As part of the analysis of how we performed in reacting to this pandemic crisis, it is recommended that we retool the organization and provide mobile laptop based computers.. Mobile laptops will provide the flexibility to easily move from one location to the other. This transition also allows the City to plan for emergency responses.

If this project is not get approved,, some staff will be required to continue using older computer hardware which will not be effectively transitioned into work from home rotation work plan in light of the continued COVID-19 pandemic.

### Item (c) Field Devices

As part of the City's Digital Strategy, a pillar of focus is on enabling mobility for staff. We have been successful in supporting a number of City functions to become productive on site or in the outdoor work space. In 2018, we enabled the building inspectors to be able to perform inspections for permitting and provide immediate response to customers in real time. Data entry and update is facilitated directly using an iPhone and mobile app with the ability to update the City permitting system Amanda directly. In addition, we successfully rolled out the public works mobile pilot in 2020, which enables work crews to perform inspections, track and action work orders, and respond to public service requests. This pilot has led the way to where we are now beginning to roll this out to all work crews in public works. This creates efficiencies by eliminating manual data entry and streamlining business processes.

During the COVID-19 pandemic, other work groups were identified including bylaws and business license inspectors that could be fully enabled to be productive in the field if they were provisioned with equipment that would support that initiative. This project identifies all the work areas and functions and properly enables their productivity to negate any requirement work in the office environment. This also provides a benefit, which reduces the densification and enables social distancing within City facilities such as City Hall.

If this project is not approved, staff will continue working as is and will not be as efficient as it could be given the COVID-19 safety measures.

#### *Item (d) Network Load Balancer Refresh*

In order to ensure as minimal disruption of services to staff and the public, Information Technology designs its systems using a concept known as “active/active” high availability. We operate two geographically distant data centres, one within City Hall and the other at the Works Yard. These data centres are connected through dedicated, high speed fibre optics.

City applications and data that is deemed critical or highly important to the organization are deployed in a manner where users are able to connect to services at either location, transparently. One of the key components that enables the ability to direct and connect to either location is a technology known as a network load balancer. This project is to request funding which will facilitate the refresh of end of life equipment and implement a new technology for load balancing services. Critical applications include finance, human resources, payroll, public works, taxation and utilities to name a few.

#### *Item (e) Network Refresh for City Facilities (Phase II)*

As part of our strategy to ensure that the City does not introduce significant risk to its operations, Information Technology looks to update and refresh key technology components in a planned evergreen / refresh cycle. Desktops and laptops are refreshed after five years of use. Smartphones and iPads are refreshed after three years. Data Centre servers are refreshed after seven to eight years and network infrastructure is replaced after nine to ten years.

In 2019, we submitted a three year plan that would look to refresh all network components, including public Wi-Fi services at all City facilities. In order to fund this in a responsible fiscal manner, we have recommended doing this over three years.

In 2020, we successfully updated all network infrastructure at the Works Yard and have tremendously stabilized the environment for staff. We are continuing the deployment for City Hall, West Richmond Community Centre, Steveston Community Centre and Firehall #2 as part of our 2020 plan. Phase II for 2021 is the continued rollout, in priority to other City facilities, including Community Centres and Firehalls.

*Item (f) Oracle RAC Enterprise and Solaris SPARC Server*

As mentioned, in order to ensure continuous high availability of services, Information Technology deploys in a manner where services are redundant at both data centres. One of the critical technologies is the database service required for the operation of all City applications.

Critical applications such as PeopleSoft Finance, PeopleSoft HCM, Infor Public Sector (IPS), Amanda, etc. rely on an Oracle database backend to function. The City has utilized a technology from Oracle known as RAC (Real Application Clustering) which facilitates the data to operate and be seamlessly serviced by one of two critical servers, at City Hall and Works Yard. This has proven to be a very successful strategy as we have experienced server and component failures at both locations, at different times but have been able to continue having the applications function without interruption of service level degradations.

In 2019/2020, Oracle Corporation has announced that in order to continue to run RAC, customers must upgrade to their Enterprise Edition licensing.

This project is to request funding to perform a hardware update / refresh of the critical Oracle database servers as well as to implement new Enterprise Edition licensing which would ensure the service levels remain. Not funding this would require that highly available services be disabled which would result in business impacting outages in the events of failures. This could be devastating during critical times such as financial year end operations, payroll runs or during tax collection periods.

# City of Richmond

## Report to Committee

**To:** Finance Committee  
**From:** Ivy Wong, CPA, CMA  
 Acting Director, Finance  
**Re:** **2021 Proposed Capital Budget**

**Date:** January 15, 2021  
**File:** 03-0970-25-2021-  
 01/2020-Vol 01

### Staff Recommendation

1. That the 2021 Proposed Capital Budget as presented in Appendix 3 totalling \$99,832,779 be approved; and
2. That the 2021 Proposed Capital Budget as approved be included in the Consolidated 5 Year Financial Plan (2021-2025).

Ivy Wong, CPA, CMA  
 Acting Director, Finance  
 (604-276-4046)

REPORT CONCURRENCE	
CONCURRENCE OF GENERAL MANAGER	
REVIEWED BY SMT	INITIALS:
APPROVED BY CAO	

### Executive Summary

The City of Richmond is responsible for providing and maintaining capital asset and infrastructure to serve its residents and businesses. The City is focused on making investment decisions that align with Council's strategic plans, policies and priorities. The 2021 Proposed Capital Budget totaling \$99.8M includes significant investment in infrastructure renewal to maintain community viability as summarized in Table 1. The complete list of recommended projects is included in Appendix 3.

**Table 1 – 2021 Proposed Capital Budget (in millions)**

Program Description	Amount
<b>Infrastructure</b> program includes dikes, roads, drainage and sanitary pump stations, drainage, water, and sanitary mains.	\$46.4M
<b>Building</b> program includes major building renovation projects as well as minor facility upgrades.	\$7.4M
<b>Parks</b> program includes development of parks and parkland acquisition.	\$12.8M
<b>Public Art</b> program supports the initiatives expressed in the Richmond Art Strategy 2019 - 2024, which was approved by Council in July 2019.	\$0.1M
<b>Land</b> program includes funding for land acquisition. This amount is to ensure funding is in place to act on opportunities as they arise with Council approval required for each specific acquisition.	\$10.0M
<b>Affordable Housing</b> program is to address housing affordability concerns in partnership with senior governments, the private sector, and non-profit organizations.	\$0.6M
<b>Equipment</b> program includes information technology hardware and software, fleet and equipment, as well as fire vehicle and equipment replacement.	\$7.7M
<b>Child Care</b> program provides funding for grants and other childcare initiatives funded by statutory reserves and do not necessarily result in City-owned capital infrastructure.	\$0.2M
<b>Contingent External Contributions</b> is an estimate of external grants that may be received throughout the year for various projects.	\$10.0M
<b>Internal Transfers and Debt Repayment</b> program relates to the use of capital funding for repayment of capital funds borrowed from other internal sources of funding.	\$4.6M
<b>2021 Recommended Projects Total</b>	<b>\$99.8M</b>

The 2021 Capital Budget with a total value of \$99,832,779 will enable the City to maintain and advance the asset inventory that continues to provide necessities and benefits to the community. The preliminary operating budget impact associated with these projects is \$698,101 and the amount was recommended to be phased into the 2021-2025 5YFP.

## Staff Report

### Origin

Subsection 165(1) of the *Community Charter* requires the City to adopt a 5 Year Financial Plan (5YFP) Bylaw. The 5YFP Bylaw includes operating, utility and capital budgets for year 2021 and provides estimates for the remaining years of the five-year program. The Consolidated 5YFP (2021-2025) Bylaw provides the City with the authority to proceed with spending as outlined in the Bylaw. The 5YFP must be balanced and therefore includes proposed funding sources. The 5YFP provides authorization for the use of certain funding sources such as Development Cost Charges (DCCs) and Statutory Reserves.

The Capital Budget is one of the main components of the 5YFP. The budget includes all expenditures that improve, replace and extend the useful life of the City's asset inventory, which currently has a net book value of \$2.4 billion as of December 31, 2019. It also includes items, which are non-capital in nature (i.e. childcare, affordable housing) and are required to be included in the 5YFP since the programs are funded from the reserves. The Capital Budget allows the City to sustain existing civic infrastructure, while also adding new assets and services to serve the growing community.

The Long Term Financial Management Strategy (LTFMS - Policy 3707) is a set of principles created by Council to guide the financial planning process. As per item 5, it is Council policy and a key component of the LTFMS to “*ensure that long term capital funding for infrastructure (e.g. parks, trails, facilities, roads, etc.) is in place in order to maintain community liveability and generate economic development.*”

This report supports Council's Strategic Plan 2018-2022 Strategy #5 Sound Financial Management:

*Accountable, transparent, and responsible financial management that supports the needs of the community into the future.*

- 5.1. Maintain a strong and robust financial position.*
- 5.2. Clear accountability through transparent budgeting practices and effective public communication.*
- 5.3. Decision-making focuses on sustainability and considers circular economic principles.*
- 5.4. Work cooperatively and respectfully with all levels of government and stakeholders while advocating for the best interests of Richmond.*

**Analysis**

This report presents the proposed 2021 Capital Budget and seeks Council review and approval on 2021 recommended projects and the operating budget impacts (OBI) associated with each respective project.

This report also presents the projects currently planned for years 2022-2025 as required; however, the projects will be subject to final approval in each subsequent year.

The City's Capital Budget ensures appropriate planning for required projects and their related funding to demonstrate the complete impact of major multi-year projects. Capital requirements are driven by many factors including growth, maintenance of current ageing infrastructure and ensuring that the City is consistently meeting industry standards as well as legislated, regulatory and safety requirements.

The City continues to see sustained population and economic growth. Significant additional growth is projected through 2041 under the Official Community Plan. This new growth requires expansion of City infrastructure in order to maintain the high level of civic services expected by new and current residents and businesses. As the City continues to mature, some of the existing infrastructure is nearing the end of its lifespan and/or capacity. Continuous, ongoing investment in replacement and maintenance of ageing infrastructure is required to maintain service levels and protect civic assets. Capital investment allows the City to take advantage of new technology and building practices to improve operational efficiency and accrue environmental benefits from the use of more sustainable building practices and equipment.

**2021 Capital Process**

Each division sets priorities specific to their area of expertise. A project submission is completed detailing the scope of work, review of alternatives, financial impact, and proposed funding sources. In addition, the submission is self-ranked using established criteria summarized in Appendix 1. The process behind the 2021-2025 Capital Budget is illustrated in Appendix 2.

The Capital Review Team (CRT), which is comprised of directors from each division, reviewed and ranked each project submission. To ensure consistent application of the established ranking criteria, the CRT determines the final ranking for each submission giving consideration to Council's strategic plans, policies and priorities.

The ranked projects are consolidated and are recommended based on funding availability. The CAO and the Senior Management Team (SMT) then reviewed project funding recommendations. The final recommendation is consolidated to form the 2021 Capital Budget presented to the Finance Committee for review, approval and inclusion in the 5YFP (2021-2025).

**2021 Proposed Capital Budget**

The proposed capital budget for 2021 is \$99.8M and 46.5 per cent of the budget will be invested in the City's infrastructure program for roads, drainage and sanitary pump stations, storm drainage, water, and sanitary sewer. Parks is the next major capital program for 2021 and the City is proposing to use 12.8 per cent of budget for the program. The following is an overview of the recommended capital projects by program.

**Figure 1 – 2021 Recommended Projects by Program**

The following is a highlight of the recommended capital projects from the 2021 capital program:

**Table 2 – 2021 Capital Projects Highlights**

Program Type	Capital Project
Infrastructure	Burkeville Utility Improvements Drainage
Infrastructure	Disaster Mitigation and Adaptation Fund Infrastructure Upgrades
Infrastructure	No 2 Road Multi-Use Pathway, Steveston Highway to Williams Road
Infrastructure	Water Metering Program (Multi-Family)
Infrastructure	Watermain Replacement Upgrades Program
Parks	King George Artificial Turf Field Replacement
Parks	Playground Improvement Program
Parks	South Arm Park Renewal
Building	Minoru Arenas - Mechanical & Life Safety System Renewals
Building	Thompson Community Centre & Hall Infrastructure Renewals
Building	West Richmond Community Centre - HVAC and Mechanical renewals

The 2021 capital budget includes other items which are non-capital in nature (i.e. affordable housing and childcare programs). It also includes contingent external contributions which is an estimate of external grants that may be received throughout the year for various projects and internal transfer and debt repayments.

The 2021 recommended capital projects are listed in Appendix 3. At the discretion of the Finance Committee, any capital project recommended for funding may be removed from the recommended list. In addition, any capital project that is recommended but have insufficient funding or not recommended may be reconsidered for recommendation, subject to funding availability.

### 2021 Capital Projects Recommended but Insufficient Funding

Council's Long Term Financial Management Strategy (LTFMS) policy is to increase 1% transfer to reserves to fund community infrastructure replacement needs. The 1.00% transfer to reserves (\$2.3M) was cancelled in 2020 and it was reduced by 0.50% in 2019 (\$1.1M).

There are six capital projects totalling \$4.45M that were recommended by the CRT and endorsed by the CAO and SMT. However, these projects are not included in the 2021 proposed capital budget due to insufficient funding. The list of projects, which were recommended but could not be included in the proposed capital budget due to insufficient funding, is summarized in Appendix 4 with project details in Appendix 10. Capital projects that are not recommended are summarized in Appendix 5 with project details in Appendix 11.

### 2021 Capital Budget Funding Sources

The 2021 capital budget uses a variety of funding sources, which include:

- Development Cost Charges (DCCs) – These fees are collected through development and are used for growth related projects.
- External Sources – These include grants awarded from Provincial and Federal Governments, developer contributions (other than DCCs) and other non-City related sources.
- Reserves – These are funds established by bylaws for specific purposes and are funded primarily by budgeted contributions from the Operating and Utility Budgets and developer contributions plus interest earned on fund balances.
- Appropriated Surplus – These are funds set aside for future commitments.

**Table 3 – 2021 Capital Program by Funding Source (in millions)**

Program	Reserves	DCCs	Appropriated Surplus	External Sources	Total
Infrastructure	\$25.0	\$10.4	\$6.6	\$4.4	<b>\$46.4</b>
Building	5.6	-	1.7	0.1	<b>7.4</b>
Parks	2.4	10.4	-	-	<b>12.8</b>
Public Art	0.1	-	-	-	<b>0.1</b>
Land	10.0	-	-	-	<b>10.0</b>
Affordable Housing	0.6	-	-	-	<b>0.6</b>
Equipment	3.7	-	4.0	-	<b>7.7</b>
Child Care	0.2	-	-	-	<b>0.2</b>
Contingent External Contributions	-	-	-	10.0	<b>10.0</b>
Internal Transfers/Debt Payment	0.7	3.9	-	-	<b>4.6</b>
<b>Total 2021 Funding</b>	<b>\$48.3</b>	<b>\$24.7</b>	<b>\$12.3</b>	<b>\$14.5</b>	<b>\$99.8</b>

For information purposes, Appendix 6 summarizes the projects recommended for funding from the Revolving Fund (Capital Reserve). The Revolving Fund is used to fund a variety of general projects, which do not have dedicated sources of funding, and funds the assist factor for Roads DCC and Parks DCC projects.

Appendix 7 summarizes all the 2021 recommended projects funded by DCCs. Under the *Local Government Act*, the City is required to fund the municipal assist factor portion for growth related projects; therefore, a project cannot be fully funded by DCCs.

Appendix 8 summarizes all the 2021 recommended projects funded by the Capital Building and Infrastructure (CBI) Reserve. The CBI Reserve is comprised of two funds: the Capital Building and Infrastructure General Fund and the Special Sports Fund. The CBI General Fund is used for facility construction and is funded from taxes and gaming revenue. The Special Sports Fund is for construction costs relating to artificial turf fields and is funded from sports field fees and other recoveries.

Funding details of each individual submission are included in Appendix 9.

### **2021 Operating Budget Impact**

Capital projects will include new and replacement assets and upon completion of these capital projects, assets are added to the City's inventory. There are costs associated with maintaining these assets. For example, a new building will require staffing, janitorial services, gas and hydro utility costs; a new park will include annual maintenance and labour costs. Replacement projects may also have costs associated with them due to the requirements to maintain the existing level of service. The ongoing costs are the operating budget impact associated with the new asset and replacement projects.

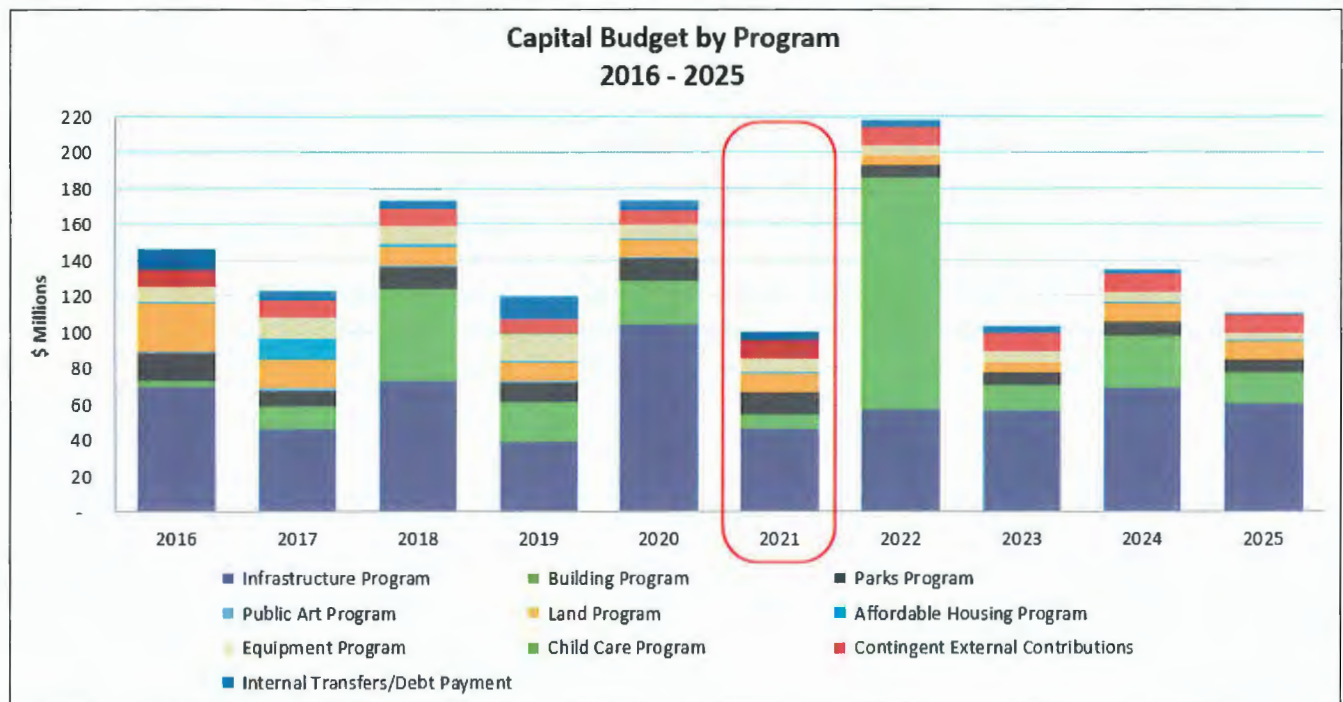

The preliminary total OBI relating to the 2021 recommended projects is \$698,101. Of this amount, \$110,884 is related to utility projects and is included within the infrastructure program. If the respective projects are approved, this amount will be incorporated into the 2022 utility budget and rates. Council previously approved the 2021 utility rates on November 23, 2020. The remaining \$587,217 relate to operating budget projects and it was determined that the amount could be phased in over three years and one-third (\$195,739) was included in the proposed 2021 Operating Budget. As the construction of 2021 capital projects advance and more information is obtained, the operating budget impacts will be reviewed, reassessed and adjusted in future years.

### Proposed 2021 to 2025 Capital Budget and Historical (2016 - 2020) Capital Budget

Figure 2 shows the proposed 2021 to 2025 capital budget and historical capital budgets for comparative purposes. From 2016 to 2020, the average capital budget is \$147.0M. The 2021 proposed capital budget is \$99.8M, which is significantly lower than the average from the last five years. This is mainly due to the timing of the Major Facilities Phase 2 projects.

**Figure 2: Capital Budget by Program (2016 – 2025)**

### Major Facilities Phase 2

Council approved the following projects as part of the Major Facilities Phase 2 Replacement Plan:

- Advanced Planning and Design for Major Facilities Phase 2 (2017: \$2.0M)
- City Centre Community Centre North (2017: Developer Funded)
- Animal Shelter Replacement (2018: \$8.0M)
- Lawn Bowling Clubhouse Replacement (2018: \$4.0M; 2019 \$1.2M)
- Phoenix Net Loft Design and Building Stabilization (2017: \$0.5M; 2018: \$11.5M; 2020 \$7.9M)
- Steveston Community Centre and Branch Library (2022: \$93.5M)
- Hugh Boyd Soccer Field House (2024: \$13.8M)

A summary of the 5 Year Capital Program (2021-2025) is presented in Appendix 12 and the funding sources are presented in Appendix 13. A listing of the 2021-2025 capital projects by program is presented in Appendix 14 with highlights of the 2022-2025 projects summarized in Appendix 15.

**Financial Impact**

The 2021 Proposed Capital Budget with a total value of \$99,832,779 will enable the City to maintain and advance the asset inventory that continues to provide necessities and benefits to the community.

The preliminary operating budget impact associated with these projects is \$698,101 and will be phased into the 2021-2025 5YFP. The OBI will be reviewed, reassessed and adjusted as projects come closer to completion.

**Conclusion**

The recommended Capital budget for 2021 is \$99,832,779. The Capital Review Committee worked closely with the CAO and SMT to represent the interests of all stakeholders to ensure that the 2021 capital program addresses Council's strategic plans, policies and priorities and meets the needs of the community while effectively utilizing available funding.

## Capital Ranking Criteria

Alignment with City Vision	• Does this support Council's Strategic Plan or an approved City strategy?
Risk Management	• Is there a legal or regulatory compliance requirement and/or a risk that needs to be managed?
Social	• Will this enhance social equity, vibrancy and/or health and wellness of the community?
Environmental	• Will this improve environmental conditions or reduce waste?
Economic	• Will there be a payback of capital costs and/or economic benefit to the community?
Innovation & Efficiency	• Is this innovative and does it increase productivity? (applicable only to IT related submissions)

## Infrastructure Program 2021

The City's Infrastructure Program assets include: road, drainage and sanitary pump stations, drainage, water, and sanitary mains.

### 2021 Recommended Infrastructure – Roads Program

#### Table of Contents

Active Transportation Improvement Program .....	32
Annual Asphalt Re-Paving Program - MRN .....	33
Annual Asphalt Re-Paving Program - Non-MRN .....	34
Arterial Roadway Improvement Program .....	35
Citywide Connector Walkways Rehabilitation Program .....	36
Lansdowne Road Off-road Cycling Facility, Gilbert Road to Pearson Way .....	37
LED Street Name Sign Program .....	38
Neighbourhood Walkway Program .....	39
No 2 Road Multi-Use Pathway, Steveston Highway to Williams Road .....	40
Special Crosswalk Program .....	41
Top 20 Collision Prone Intersections- Implementation of Medium-/Long-term Improvements .....	42
Traffic Calming Program .....	43
Traffic Signal Power Backup System (UPS) .....	44
Traffic Signal Program .....	45
Traffic Video and Communication Program .....	46
Transit-Related Amenity Improvement Program .....	47
Transit-Related Roadway Improvement Program .....	48
Transportation Planning, Functional and Preliminary Design .....	49
West Richmond Sidewalk Rehabilitation Program - Phase 2 .....	50

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Roads
<b>Project Name:</b>	Active Transportation Improvement Program		<b>Submission ID:</b>	5890
<b>Location:</b>	Various Locations			
<b>Cost:</b>	\$700,000		<b>OBI:</b>	\$12,175
<b>Funding Sources:</b>	Roads DCC: \$658,350 Roads City Assist: \$41,650			
<b>Scope:</b>	<p>Implement cycling and rolling (e.g., wheelchairs and scooters) improvements to support: 1) the expansion of on-street cycling routes and off-street multi-use pathways; and 2) cycling and rolling initiatives and on-going enhancements to existing infrastructure.</p> <p>Major Cost Components: New on-street cycling facilities, off-street multi-use pathways for transportation purposes, bike racks, pavement markings and signage, and associated road geometric improvements.</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>The list of improvements currently planned for 2021 is:</p> <ol style="list-style-type: none"><li>1. Browngate Road (No. 3 Road-Hazelbridge Way): re-allocation of road space to create a 2-way protected cycle track on the south side. The project will complete a gap between the western end of the Odlin Road Bike Route and No. 3 Road, and provide improved cycling access to the Aberdeen Canada Line station from the east.</li><li>2. Cycling Connection between Steveston Hwy MUP (Phase 1) and Williams Road: in parallel with the Phase 1 MUP on Steveston Hwy, establish a cycling connection via Mortfield Gate-Mortfield Road-upgraded of off-street pathways through South Arm Park-Severn Drive to Williams Rd</li><li>3. Upgrade of existing painted on-street bike lanes with physical protection from adjacent vehicle lane</li></ol>			

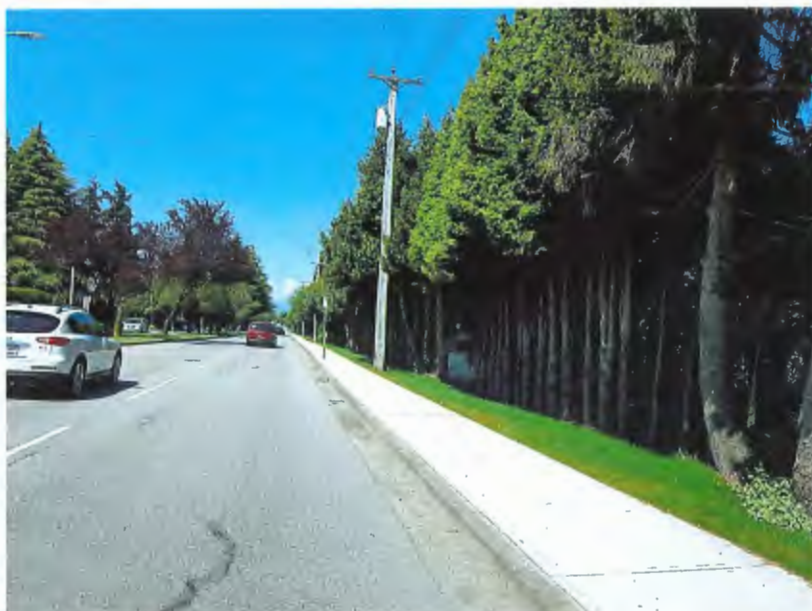

<b>Program:</b>	<b>Infrastructure Program</b>	<b>Sub-program:</b>	<b>Roads</b>
<b>Project Name:</b>	<b>Annual Asphalt Re-Paving Program - MRN</b>	<b>Submission ID:</b>	<b>5917</b>
<b>Location:</b>	Various Location		
<b>Cost:</b>	\$1,589,211	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Other: \$1,589,211		
<b>Scope:</b>	<p>To re-pave MRN roads in alignment with the City's Ageing Infrastructure Report and Pavement Management Plan prepared by WSP Consultants.</p> <p>The project costs include any associated ancillary work, including but not limited to, curb and gutter repairs, road base repair, asphalt parking re-paving, manhole and valve box adjustments, line painting and staff inspection time.</p> <p>The project includes the pavement component of other water, sanitary and drainage upgrades in the Capital Program that are co-ordinated by the Engineering department as well as consultant/contractor fees related to bridge upgrades and the Pavement Management Plan.</p>		
			

Program:	Infrastructure Program	Sub-program:	Roads
Project Name:	Annual Asphalt Re-Paving Program - Non-MRN	Submission ID:	5918
Location:	City Wide		
Cost:	\$3,344,160	OBI:	\$ -
Funding Sources:	Other: \$3,344,160		
Scope:	<p>To re-pave City owned Non-MRN roads (major &amp; minor roads and lanes) in alignment with the City's Ageing Infrastructure Report and Pavement Management Plan prepared by WSP.</p> <p>The project could also include the costs associated with ancillary work, including but not limited to, curb and gutter repairs, road base repair, asphalt parking re-paving, manhole and valve box adjustments, line painting, staff inspection time and similar.</p> <p>The project includes the pavement component of other water, sanitary and drainage upgrades in the Capital Program that are co-ordinated by the Engineering department as well as consultant/contractor fees related to bridge upgrades and the Pavement Management Plan.</p>		
			

Program:	Infrastructure Program	Sub-program:	Roads
Project Name:	Arterial Roadway Improvement Program	Submission ID:	5891
Location:	Various Locations		
Cost:	\$1,000,000	OBI:	\$37,886
Funding Sources:	Roads DCC: \$940,500 Roads City Assist: \$59,500		
Scope:	<p>Implement pedestrian and traffic safety improvements along arterial roads and at arterial road intersections to address issues including those identified through requests from the public and/or Council.</p> <p>Major Cost Components: New and/or enhancement of turn lanes, channelization, traffic signage, pedestrian safety measures enhancements and new/upgrade sidewalks/walkways.</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>Locations for improvements are prioritized based on traffic safety / collision risks and level of pedestrian activities (i.e., schools, neighbourhood service centres, bus stops, recreational service centres, shopping/retail centres, etc.).</p> <p>The list of improvements currently planned for 2021 is:</p> <ol style="list-style-type: none"><li>1. Construct an asphalt walkway c/w physical barrier along east side of Garden City Road and south side of Westminster Highway fronting 9120 Westminster Highway.</li><li>2. Remove channelized right-turn islands and reconstruct curb returns at Cooney Road-Granville Avenue (northwest corner) and St Edwards Drive-Cambie Road (northeast corner) intersections.</li></ol>		
			

Program:	Infrastructure Program	Sub-program:	Roads
Project Name:	Citywide Connector Walkways Rehabilitation Program	Submission ID:	6765
Location:	Various Locations		
Cost:	\$250,000	OBI:	\$ -
Funding Sources:	Capital Revolving: \$250,000		
Scope:	<p>This project involves the replacement or rehabilitation of connector walkways located in various neighbourhoods around Richmond. The assessments conducted confirm that the walkway surface conditions have deteriorated over time due to tree root ingress, asphalt cracking, etc. The project cost could include, but is not limited to, costs associated with tree root pruning, asphalt re-paving and other ancillary work.</p> <p>Connector walkways are heavily used by pedestrians and their current condition in certain areas may pose a tripping hazard for the users. This project would allow the City to mitigate potential risks to public safety and promote eco-friendly modes of transportation, such as walking and biking.</p>		
			

Program:	Infrastructure Program	Sub-program:	Roads
Project Name:	Lansdowne Road Off-road Cycling Facility, Gilbert Road to Pearson Way	Submission ID:	6922
Location:	North side of Lansdowne Road from Gilbert Road to Pearson Way		
Cost:	\$300,000	OBI:	\$2,384
Funding Sources:	Roads DCC: \$282,150 Roads City Assist: \$17,850		
Scope:	<p>Provision of a 2.5m (minimum) to 3.0m (preferred) wide paved multi-use pathway (MUP), along north side of Lansdowne Rd from Gilbert Rd to Pearson Way.</p> <p>Upon completion, this project will provide a westward extension of the existing cycling facility along Lansdowne Rd from Minoru Blvd to Gilbert Rd and a direct link from the Canada Line Lansdowne Station to Olympic Oval once proposed/future development related road improvements are implemented along the remaining sections of Lansdowne Rd and Hollybridge Way.</p> <p>Major Cost Components: removal of existing sidewalk &amp; boulevard, multi-use pathway, modifying existing driveway &amp; letdowns, removal &amp; relocation of trees offsite, pavement markings and signage, pedestrian crossing enhancements, adjustment/relocation of at-grade infrastructure.</p> <p>Funding: Roads DCC program and TransLink and ICBC (potential)</p>		

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Roads
<b>Project Name:</b>	LED Street Name Sign Program		<b>Submission ID:</b>	6155
<b>Location:</b>	Various Locations			
<b>Cost:</b>	\$300,000		<b>OBI:</b>	\$5,623
<b>Funding Sources:</b>	Roads DCC: \$282,150 Roads City Assist: \$17,850			
<b>Scope:</b>	<p>Installation of overhead LED street name signs at various signalized intersections to enhance visibility and legibility for drivers. . It is anticipated that the remaining signalized intersections (63 out of 180) can be upgraded over the next 3-5 years (i.e. 15-20 per year).</p> <p>Major Cost Components: LED street name sign, mounting hardware and electrical wiring.</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>Locations are prioritized based on major, gateway and high-volume intersections and in tourist areas.</p> <p>The preliminary list for 2021 includes the following 20 locations:</p> <ol style="list-style-type: none"> <li>1. No 1 Rd and Blundell Rd</li> <li>2. No 1 Rd and Granville Ave</li> <li>3. No 1 Rd and Westminster Hwy</li> <li>4. Railway Ave and Moncton St</li> <li>5. Elmbridge Way and Westminster Hwy</li> <li>6. Minoru Blvd and Alderbridge Way</li> <li>7. Alderbridge Way and Westminster Hwy</li> <li>8. Alderbridge Way and Elmbridge Way</li> <li>9. St Albans Rd and Blundell Rd</li> <li>10. Hazelbridge Way and Alexandra Rd</li> <li>11. Hazelbridge Way and Leslie Rd</li> <li>12. Hazelbridge Way and Browngate Rd</li> <li>13. Hazelbridge Way and Cambie Rd</li> <li>14. Sexsmith Rd and Cambie Rd</li> <li>15. Great Canadian Way and River Rd</li> <li>16. Garden City Rd and Blundell Rd</li> <li>17. Garden City Rd and Francis Rd</li> <li>18. Garden City Rd and Williams Rd</li> <li>19. Garden City Rd and Cook Rd</li> <li>20. Garden City Rd and Odlin Rd</li> </ol>			

<b>Program:</b>	<b>Infrastructure Program</b>	<b>Sub-program:</b>	<b>Roads</b>
<b>Project Name:</b>	<b>Neighbourhood Walkway Program</b>	<b>Submission ID:</b>	<b>5893</b>
<b>Location:</b>	Various Locations		
<b>Cost:</b>	\$750,000	<b>OBI:</b>	\$46,547
<b>Funding Sources:</b>	Roads DCC:	\$705,375	
	Roads City Assist:	\$44,625	
<b>Scope:</b>	<p>Construction of new and/or enhancement of existing neighbourhood walkways/sidewalks.</p> <p>Major Cost Components: Construction of new or upgrade of existing sidewalks, pathways, wheelchair ramps, minor curb cuts, and boulevard modifications.</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>Locations are prioritized based on level of pedestrian activities (i.e., proximity to schools, bus stops, recreational centres, parks, shopping/retail centres, etc.), traffic safety/collision risks, and requests from Council and the public.</p> <p>For 2021, locations are to be determined. In previous years, locations were typically identified in the year of the program. For example, in 2020 constructed sidewalk along west side of Viking Way from Cambie Road to Bridgeport Road.</p>		

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Roads
<b>Project Name:</b>	No 2 Road Multi-Use Pathway, Steveston Highway to Williams Road		<b>Submission ID:</b>	6921
<b>Location:</b>	East side of No 2 Road from Steveston Highway to Williams Road			
<b>Cost:</b>	\$2,400,000		<b>OBI:</b>	\$8,252
<b>Funding Sources:</b>	Roads DCC: \$1,128,600 Roads City Assist: \$71,400 Grant: \$1,200,000			
<b>Scope:</b>	<p>Provision of a 2.5m (minimum) to 3.0m (preferred) wide paved multi-use pathway (MUP) along the east side of No. 2 Road from Steveston Highway to Williams Road. The detail design (2020 project approved by Council) will commence in 2020/2021. This project relies on external funding for implementation.</p> <p>Upon completion, this project will provide a northward extension of the recently constructed MUP along No. 2 Road from Steveston Highway to Dyke Road and connect to the existing bike lane along Williams Road, the proposed MUP along Steveston Highway from Mortfield Gate to No. 2 Road (2020 project approved by Council), and the future MUP along Steveston Highway from No. 2 Road to Railway Avenue (Capital Submission 6923).</p> <p>Major Cost Components: Lane narrowing, realignment of curb and gutter &amp; sidewalk, multi-use pathways, physical barriers, pavement markings and signage, pedestrian crossing enhancements, lighting, relocation of above ground infrastructure (i.e., streetlight poles, hydrants, power poles, traffic signals, etc.), bus stops, removal &amp; replacement of trees &amp; hedges, modifications to private property (i.e., re-grade driveways, landscaping, etc.) and land acquisition as necessary.</p> <p>Funding: Roads DCC program and TransLink and ICBC (potentially)</p>			
				

Program:	Infrastructure Program	Sub-program:	Roads
Project Name:	Special Crosswalk Program	Submission ID:	5894

Location:	Various Locations		
Cost:	\$200,000	OBI:	\$3,921
Funding Sources:	Roads DCC:	\$188,100	
	Roads City Assist:	\$11,900	
Scope:	<p>Upgrade of existing crosswalks on arterial roads (typically four-lane) to new traffic control standards that have been endorsed by Council.</p> <p>Major Cost Components: Illuminated overhead crosswalk signs with amber flashers, strobe lights, poles, pole bases, underground conduit, junction boxes, pole-mount cabinet, controller, hydro service panel, Accessible Pedestrian Signal (APS) push buttons, pavement markings, and site restoration.</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>The preliminary list for 2021 includes the following 2 locations:</p> <ol style="list-style-type: none"><li>1. 4131 Williams Rd</li><li>2. Francis Rd and Minler Rd</li></ol>		

Program:	Infrastructure Program		Sub-program:	Roads
Project Name:	Top 20 Collision Prone Intersections- Implementation of Medium-/Long-term Improvements		Submission ID:	6633
Location:	Various Locations			
Cost:	\$3,000,000		OBI:	\$75,316
Funding Sources:	Roads DCC: \$1,763,437 Roads City Assist: \$111,563 Grant: \$1,125,000			
Scope:	<p>Implement safety improvements determined through the preliminary design for the top 20 collision prone intersections as approved by Council. It is anticipated that 2 to 3 locations will be completed per year subject to TransLink funding and scope of works; otherwise 1 to 2 locations will be completed per year.</p> <p>Major Cost Components: Road geometry changes such as road widening, addition or lengthening of left-turn lanes, addition or realigning of right-turn lanes, redesign of existing channelized right-turn lanes, widening sidewalks and wheelchair ramps, completion of pedestrian and cycling connections, upgrade streetlighting, traffic signal modifications (i.e., added left-turn phase), relocation of driveways and land acquisition.</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>Subject to availability of external funding, the list of improvements planned for 2021 are as follows:</p> <ol style="list-style-type: none"><li>1. Cambie Rd and No 4 Rd intersection (#13) - re-construct the intersection to accommodate dedicated left-turn lanes on all four legs. The project cost is \$1.7M</li><li>2. No 2 Rd and Westminster Hwy (#3) - removal/modification of intersection geometry, access management, traffic signal modification, removal of channelized island at the northwest corner, increase size of pedestrian refuse area at all 4 corners, etc. The exact project cost will need verified once the design is completed.</li></ol> <p>In addition to safety considerations, the locations were selected based on past public complaints, extent of determined scope of works, as well as those that are readily implementable, i.e., within City jurisdiction, minimal property acquisition, etc.</p>			
				

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Roads
<b>Project Name:</b>	Traffic Calming Program		<b>Submission ID:</b>	5895
<b>Location:</b>	Various Locations			
<b>Cost:</b>	\$300,000		<b>OBI:</b>	\$25,783
<b>Funding Sources:</b>	Roads DCC: \$282,150 Roads City Assist: \$17,850			
<b>Scope:</b>	<p>Retrofitting existing local roads with traffic calming measures to enhance safety for road users and livability for residents by reducing speed and deterring short-cutting traffic within neighbourhoods.</p> <p>Major Cost Components: Road works to construct traffic calming measures such as curb bulges, curb ramps, traffic circles, speed humps, delineated walkways, traffic signage, pavement marking, and streetscape features (i.e., trees and/or other landscaping improvements).</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>Locations will be prioritized based on Council and/or public request. In previous years, locations were typically identified in the year of the program. For example, in 2020 the following were completed:</p> <ol style="list-style-type: none"><li>1. Pedestrian zone markers at Blair Elementary School and General Currie Elementary School</li><li>2. Speed Humps on McLean Ave</li><li>3. Stop sign &amp; bars on Pacemore Avenue and at two subdivisions in the Shellmont Area</li></ol>			
				

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Roads
<b>Project Name:</b>	Traffic Signal Power Backup System (UPS)		<b>Submission ID:</b>	6445
<b>Location:</b>	Various Locations			
<b>Cost:</b>	\$200,000		<b>OBI:</b>	\$3,264
<b>Funding Sources:</b>	Roads DCC: \$188,100 Roads City Assist: \$11,900			
<b>Scope:</b>	<p>Installation of Uninterruptible Power Supply (UPS) system at signalized intersections to provide continual power during disruption. UPS protects electronic hardware from power surges. It is anticipated that the remaining signalized intersections (108 out of 180) can be upgraded over the next 10-15 years (i.e., 7-11 per year).</p> <p>Major Cost Components: UPS cabinet and base, controller, batteries, underground conduit, and site restoration</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>The preliminary list for 2021 includes 8 locations as follows:</p> <ol style="list-style-type: none"><li>1. Gilbert Rd and Lansdowne Rd</li><li>2. No 2 Rd and Westminster Hwy</li><li>3. No 3 Rd and Granville Ave</li><li>4. No 4 Rd and Cambie Rd</li><li>5. Garden City Rd and Blundell Rd</li><li>6. No 1 Rd and Steveston Hwy</li><li>7. Gilbert Rd and Blundell Rd</li><li>8. No 1 Rd and Francis Rd</li></ol>			
				

Program:	Infrastructure Program	Sub-program:	Roads
Project Name:	Traffic Signal Program	Submission ID:	5896

Location:	Various Locations		
Cost:	\$700,000	OBI:	\$11,323
Funding Sources:	Roads DCC: \$658,350 Roads City Assist: \$41,650		
Scope:	<p>Installation of new/upgrade of existing traffic signals to accommodate traffic growth, respond to public requests, improve traffic management &amp; movement of all road users, and address traffic safety concerns.</p> <p>Major Cost Components: Traffic controller, cabinet, poles, bases, junction boxes, underground conduit, in ground and camera video detection, enhanced accessible pedestrian signals, traffic signal heads, electrical wiring, traffic signal communications, LED street name signs, pavement markings, minor corner property acquisition, minor curb cuts, boulevard modifications, and site restoration.</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>The preliminary list for 2021 includes the following 1 location:</p> <p>1. No 6 Rd and Vulcan Way - requires coordination with CN Railway and installation of railway gates, flashing lights and bells.</p>		

<b>Program:</b>	<b>Infrastructure Program</b>		<b>Sub-program:</b>	<b>Roads</b>
<b>Project Name:</b>	<b>Traffic Video and Communication Program</b>		<b>Submission ID:</b>	<b>5905</b>
<b>Location:</b>	Various Locations			
<b>Cost:</b>	\$400,000		<b>OBI:</b>	\$2,096
<b>Funding Sources:</b>	Roads DCC: \$376,200 Roads City Assist: \$23,800			
<b>Scope:</b>	<p>1. Install video detection cameras at signalized intersections to enhance cyclist and vehicle detection, optimize traffic operations, measure traffic speed, provide real time video of traffic conditions to the Traffic Management Centre (TMC) for observing and enhancing operations and provide photos (in one minute intervals) of approach traffic conditions for public access on the City website. This program is separate from the Richmond RCMP security camera program. By the end of 2020, there will be 60 out 180 signalized intersections remaining, which require build out of the fibre communications network prior to camera installation. Therefore, majority of the program will focus on expanding the fibre communications network.</p> <p>2. Upgrade conduit and cable infrastructure to install higher capacity fibre optic cable and electronics for Ethernet (computer networking technology) to communicate with multiple remote programmable devices at traffic signals. It is anticipated that the entire city can be upgraded over the next 15-20 years based on the current level of funding.</p> <p>Major Cost Components: Video detection camera hardware and installation, fibre optic cable, fibre splicing and underground enclosures and fibre network switches required to communicate to the TMC.</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>The preliminary list for 2021 includes 10 locations as follows:</p> <p>Traffic Video Camera</p> <ol style="list-style-type: none"> <li>1. No 5 Rd and Williams Rd</li> <li>2. No 5 Rd and Blundell Rd</li> <li>3. Graybar Rd and Westminster Hwy</li> <li>4. Fraserwood Pl and Westminster Hwy</li> <li>5. No 8 Rd and Westminster Hwy</li> <li>6. No 5 Rd and Westminster Hwy</li> </ol> <p>Fibre communications cable and conduit installation/cleaning/upgrades</p> <ol style="list-style-type: none"> <li>7. No 5 Rd (Blundell Rd-Westminster Hwy)</li> <li>8. Hazelbridge Way (Cambie Rd-Alderbridge Way)</li> <li>9. Williams Rd (Shell Rd-No 5 Rd)</li> <li>10. Westminster Hwy (Fraserwood Pl-Fire Hall)</li> </ol>			

<b>Program:</b>	<b>Infrastructure Program</b>	<b>Sub-program:</b>	<b>Roads</b>
<b>Project Name:</b>	<b>Transit-Related Amenity Improvement Program</b>	<b>Submission ID:</b>	<b>5897</b>

**Location:** Various Locations

**Cost:** \$25,000

**OBI:** \$1,422

**Funding Sources:** Roads DCC: \$23,512  
Roads City Assist: \$1,488

**Scope:** Transit-related amenity improvements within the road right-of-way to support transit service and infrastructure.

Major Cost Components: Non-advertising transit shelters and benches and other supplementary amenity improvements to facilitate transit passengers.

Funding: Roads DCC program; potential from TransLink, ICBC and development.

Locations for bus stop shelters are prioritized based on boarding activity, customer requests and availability of right-of-way.

For 2021, approximately 15-20 locations are proposed for upgrade. The actual locations will be determined in early 2021 in consultation with Pattison Outdoor, the City's street furniture contractor.

Program:	Infrastructure Program	Sub-program:	Roads
Project Name:	Transit-Related Roadway Improvement Program	Submission ID:	5898
Location:	Various Locations		
Cost:	\$500,000	OBI:	\$13,201
Funding Sources:	Roads DCC: \$376,200 Roads City Assist: \$23,800 Grant: \$100,000		
Scope:	<p>Road and traffic improvements to support transit service improvements and existing transit infrastructure. Currently, approximately 82 % of 723 existing bus stops are accessible.</p> <p>Major Cost Components: Bus stop landing pads and ramps for wheelchair accessibility, intersection geometric/corner improvements, sidewalk/walkway construction connecting to bus stops, etc. to facilitate transit passengers.</p> <p>Funding: Roads DCC program; potential from TransLink, ICBC and development.</p> <p>Locations for bus stop accessibility improvements are prioritized based on boarding/alighting activity, customer requests and availability of right-of-way.</p> <p>For 2021, approximately 10-15 locations are proposed for upgrade, subject to TransLink funding. The actual locations will be determined in early 2021 in consultation with Coast Mountain Bus Company (CMBC) and through public feedback.</p>		

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Roads
<b>Project Name:</b>	Transportation Planning, Functional and Preliminary Design		<b>Submission ID:</b>	5892
<b>Location:</b>	Various			
<b>Cost:</b>	\$260,000	<b>OBI:</b>	\$ -	
<b>Funding Sources:</b>	Roads DCC: \$244,530 Roads City Assist: \$15,470			
<b>Scope:</b>	<p>1. Project design - prepare functional/preliminary designs and cost estimates required for transportation capital projects identified within the Capital Program. Design to identify road elements, horizontal alignment, cross-section, property impacts, etc. and high level cost estimates to carry out further detailed engineering design.</p> <p>2. Project planning and coordination - Assist in the development, leading, coordinating and administering the planning, engineering, and design work on transportation capital projects approved as part of the Capital Program and off-site improvements for new developments.</p> <p>Cost based on 5% of the cost estimate of capital projects included within annual capital programs that require functional designs; design funds for projects with more significant scope are included separately within those projects.</p> <p>Major Cost Components: Consultant and/or staff costs for Project design and staff costs for Project planning and coordination.</p>			

<b>Program:</b>	Infrastructure Program	<b>Sub-program:</b>	Roads
<b>Project Name:</b>	West Richmond Sidewalk Rehabilitation Program - Phase 2	<b>Submission ID:</b>	6742
<b>Location:</b>	Various Locations		
<b>Cost:</b>	\$300,000	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Capital Revolving: \$300,000		
<b>Scope:</b>	<p>This project involves the replacement or rehabilitation of sidewalks in the West Richmond area that have deteriorated over time due to tree root ingress or settlement. The project cost could include, but is not limited to, costs associated with sidewalk panel replacement, tree removal and replacement, root pruning, curb and gutter repairs and other ancillary work.</p> <p>The current condition of sidewalks in certain areas may pose a tripping hazard for pedestrians and make them inaccessible. This project would allow the City to address these issues and mitigate potential risks to public safety.</p>		
			

## Drainage Program 2021

The City's Drainage and Diking Program supports critical improvements for drainage and flood protection infrastructure. In addition to replacing ageing infrastructure, these projects include drainage and diking upgrades to proactively address climate change - induced impacts such as higher intensity storms and sea level rise. Consistent with Council's Strategic Plan, completion of these projects will help the City become safer and more resilient to climate change.

### 2021 Recommended Infrastructure – Drainage Program

#### Table of Contents

Box Culvert Repair .....	52
Burkeville Utility Improvements Drainage .....	53
Canal Stabilization and Drainage & Irrigation Upgrades.....	54
Development Coordinated Works - Drainage .....	55
Disaster Mitigation and Adaptation Fund Infrastructure Upgrades .....	56
Drainage Network Ecological Enhancement.....	57
Drainage Pump Station Rehabilitation and Generator Upgrade .....	58
Flood Protection & Dike Improvements.....	59
Habitat Offsetting Requirements: Monitoring and Reporting .....	60
Laneway Drainage Upgrade.....	61
SCADA System Improvements .....	62
Storm Main Drainage Upgrade.....	63
Watercourse Crossing Rehabilitation & Replacement .....	64

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Drainage
<b>Project Name:</b>	Box Culvert Repair		<b>Submission ID:</b>	6931
<b>Location:</b>	City Wide			
<b>Cost:</b>	\$1,450,000		<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Drainage Utility:		\$1,450,000	
<b>Scope:</b>	<p>The City of Richmond's Box Culvert Inspection Program identifies locations where settlement, cracking and infiltration occur due to failing box culverts.</p> <p>The scope of work for this project includes the repair and rehabilitation of concrete storm box culverts throughout Richmond. Repair work will include, but is not limited to, patching, grouting, and structural lining. Additionally, this funding will be used to perform point repairs as identified by the City Box Culvert Inspection Program throughout the year.</p>			
				

<b>Program:</b>	<b>Infrastructure Program</b>	<b>Sub-program:</b>	<b>Drainage</b>
<b>Project Name:</b>	<b>Burkeville Utility Improvements Drainage</b>	<b>Submission ID:</b>	<b>5600</b>

**Location:** Burkeville Area

**Cost:** \$2,026,000

**OBI:** \$26,000

**Funding Sources:**

Drainage Utility:	\$1,000,000
Water Utility:	\$491,000
Sanitary Utility:	\$535,000

**Scope:** Burkeville's drainage system was designed using shallow ditches and small diameter road cross culverts. As the area is redeveloped, ditch infills are becoming common. Ditch infills change the nature of the drainage system in a way that may cause storm water flooding. A new and larger drainage system is therefore needed to accommodate these changes.

In addition, sanitary and water infrastructure will be upgraded where the scope overlaps with the upgrade of the drainage infrastructure.

The current gravity sanitary sewer system is made up of vitrified clay and approaching the end of its service life. Replacing it at the same time as the drainage system upgrade will be more cost-effective for the City. This project will also coordinate the installation of 399 metres of 200mm diameter watermain to replace or rehabilitate existing ageing infrastructure.

Engineering and construction efficiencies will be achieved, and public disruptions will be minimized by coordinating the utility improvements.

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Drainage
<b>Project Name:</b>	Canal Stabilization and Drainage & Irrigation Upgrades		<b>Submission ID:</b>	5882
<b>Location:</b>	City Wide			
<b>Cost:</b>	\$1,300,000		<b>OBI:</b>	\$14,000
<b>Funding Sources:</b>	Drainage Utility: \$1,300,000			
<b>Scope:</b>	This project will accommodate canal stabilization and drainage and irrigation upgrades throughout Richmond. Upgrades include, but are not limited to, culvert upsizing, culvert lowering, headwall replacement, canal re-grading, flap gate and sensor installations and canal bank stabilization works. This project will also allow staff to conduct required assessments and investigations that will further enhance the City's drainage and irrigation network.			
				

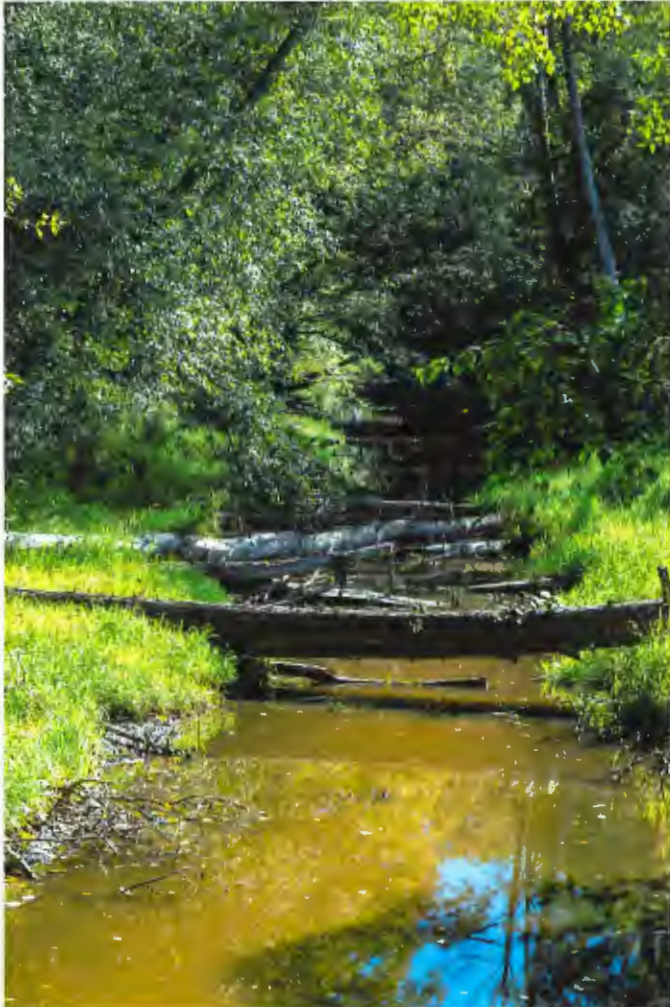

<b>Program:</b>	<b>Infrastructure Program</b>	<b>Sub-program:</b>	<b>Drainage</b>
<b>Project Name:</b>	<b>Development Coordinated Works - Drainage</b>	<b>Submission ID:</b>	<b>5914</b>
<b>Location:</b>	City Wide		
<b>Cost:</b>	\$250,000	<b>OBI:</b>	\$11,000
<b>Funding Sources:</b>	Drainage Utility: \$250,000		
<b>Scope:</b>	<p>This project will enable the City to leverage development over the next year to design and construct drainage infrastructure outside of what would be required as part of their development.</p> <p>These are upgrades and replacement of ageing infrastructure that the City would complete separately, but economic and engineering efficiencies can be achieved by having the developer complete this work at the same time the development takes place.</p>		
			

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Drainage
<b>Project Name:</b>	Disaster Mitigation and Adaptation Fund Infrastructure Upgrades		<b>Submission ID:</b>	6701
<b>Location:</b>	Various locations			
<b>Cost:</b>	\$5,000,000		<b>OBI:</b>	\$31,000
<b>Funding Sources:</b>	Drainage Utility: \$1,464,075 Drainage DCC: \$1,520,565 Drainage City Assist: \$15,360 Grant: \$2,000,000			
<b>Scope:</b>	<p>The City of Richmond invests in major disaster mitigation infrastructure to contribute to the Province of British Columbia and Canada's economic growth, public safety and ability to build a community more resilient to climate change.</p> <p>This project includes the design and construction of drainage pump station upgrades and perimeter dike raising included in the Disaster Mitigation and Adaptation Fund grant. The project will be completed in phases over the next five years. The initial phases of the project will primarily include dike upgrades.</p>			

Program:	Infrastructure Program	Sub-program:	Drainage
Project Name:	Drainage Network Ecological Enhancement	Submission ID:	6708
Location:	City Wide		
Cost:	\$100,000	OBI:	\$ -
Funding Sources:	Drainage Utility: \$100,000		
Scope:	<p>The objective of this project is to assess, monitor, enhance and protect the Ecological Network including the City's foreshore and riparian areas by identifying opportunities to improve ecosystem services on City-owned land. This project aims to increase the environmental resiliency and quality of the City's Ecological Network Management Strategy, the Integrated Rainwater Resource Management Plan, Riparian Response Strategy and various pollution prevention stewardship, enhancement and education opportunities.</p>		
			

Program:	Infrastructure Program	Sub-program:	Drainage
Project Name:	Drainage Pump Station Rehabilitation and Generator Upgrade	Submission ID:	6707
Location:	City Wide		
Cost:	\$250,000	OBI:	\$11,000
Funding Sources:	Drainage Utility: \$250,000		
Scope:	<p>The hardware of some drainage pump stations is at the end of its life expectancy and continually has numerous breakdowns. This project will improve the reliability and efficiency of the City's drainage pump stations.</p> <p>The scope of work for this project includes rehabilitation upgrades at the Gilbert Road South and No 8 Road North Drainage Pump Stations.</p> <p>Rehabilitation at the Gilbert Road South Drainage Pump Station will include, but is not limited to, the purchase and installation of one fully automated irrigation gate. The irrigation gate will enhance the City's irrigation supply, while permitting drainage of the Gilbert Road canal.</p> <p>Rehabilitation at the No 8 Road North Drainage Pump Station will include, but is not limited to, the purchase and installation of one fully automated actuator. The new actuator will control the existing irrigation gate at the No 8 Road North Drainage Pump Station, replacing the existing actuator that has reached the end of its service life.</p>		
			

Program:	Infrastructure Program	Sub-program:	Drainage
Project Name:	Flood Protection & Dike Improvements	Submission ID:	5910

Location:	City Wide		
Cost:	\$1,300,000	OBI:	\$16,000
Funding Sources:	Drainage Utility:	\$1,300,000	
Scope:	<p>The City has 49km of perimeter dike and 39 drainage pump stations that provide the City with flood protection from ocean storm surges and freshets. This project will include drainage and dike improvements at priority locations that maintain or increase current flood protection service levels.</p> <p>Dike improvements are required to meet medium to long-term flood protection requirements and to accommodate local area needs such as the provision of basic recreation trails. Dike construction work includes, but is not limited to, dike raising, structural rehabilitation, re-grading, vegetation/critter management, tree removal and replacement, environmental compensation and dike re-armouring at priority locations.</p>		

Program:	Infrastructure Program	Sub-program:	Drainage
Project Name:	Habitat Offsetting Requirements: Monitoring and Reporting	Submission ID:	6935
Location:	City Wide		
Cost:	\$100,000	OBI:	\$ -
Funding Sources:	Drainage Utility: \$100,000		
Scope:	<p>Capital projects located near or within sensitive environmental features such as the Fraser River often require Provincial and Federal environmental permits. Permit conditions typically require ecological restoration to improve or maintain ecological function, including maintenance terms that can exceed project closure by up to five years.</p> <p>This project will ensure that resources are available to fulfill environmental permit requirements that exceed capital project duration, thereby allowing capital accounts to be closed at project completion. In addition, this project will provide opportunities for habitat enhancements that may be used to offset environmental impacts from future capital projects.</p>		
			

Program:	Infrastructure Program	Sub-program:	Drainage
Project Name:	Laneway Drainage Upgrade	Submission ID:	6656
Location:	Various Locations		
Cost:	\$800,000	OBI:	\$16,000
Funding Sources:	Drainage Utility: \$800,000		
Scope:	<p>The scope of work for this project includes installation of drainage infrastructure in the following areas:</p> <ul style="list-style-type: none"><li>- 280m of laneway drainage between 7420 Reeder Road and 9671 Herbert Road; and</li><li>- 230m of laneway drainage between 10680 Railway Avenue and 5020 Hollymount Gate.</li></ul> <p>This project does not include the addition of street lighting, curbs or gutters.</p>		
			

<b>Program:</b>	<b>Infrastructure Program</b>	<b>Sub-program:</b>	<b>Drainage</b>
<b>Project Name:</b>	<b>SCADA System Improvements</b>	<b>Submission ID:</b>	<b>6934</b>

**Location:** Various Locations

**Cost:** \$350,000

**OBI:** \$ -

**Funding Sources:** Drainage Utility: \$200,000  
Sanitary Utility: \$150,000

**Scope:** Through its supervisory control and data acquisition (SCADA) system, the City monitors and controls various equipment over the sanitary sewer, drainage, and water network. This project involves rehabilitating, upgrading, and installing computers, instruments, and electrical systems throughout the SCADA system. This project will maintain and improve the sanitary sewer, drainage, and water network operation, as well as maintain system security and technological viability.

Failure to complete the work will result in increased risk of sanitary, drainage and water system failure, thereby reducing service levels and increasing cost and disruption of unplanned maintenance and emergency repairs.

Program:	Infrastructure Program	Sub-program:	Drainage
Project Name:	Storm Main Drainage Upgrade	Submission ID:	6501
Location:	City Wide		
Cost:	\$950,000	OBI:	\$11,000
Funding Sources:	Drainage Utility:	\$871,703	
	NIC:	\$78,297	
Scope:	<p>This project will upgrade storm sewers throughout the City to improve drainage system capacity and performance during higher intensity storm events. Upgrades include, but are not limited to, upsizing existing storm sewers and culverts and installing new drainage pipes.</p> <p>Specific areas include, but are not limited to, the intersection of Steveston Highway and Gilbert Road, the Aztec, Woodhead and Montego neighbourhoods, the Barmond and Kirkmond neighbourhoods and the Finn Road Right-of-Way between No 3 Road and Gilbert Road.</p>		
			

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Drainage
<b>Project Name:</b>	Watercourse Crossing Rehabilitation & Replacement		<b>Submission ID:</b>	6933
<b>Location:</b>	City Wide			
<b>Cost:</b>	\$350,000		<b>OBI:</b>	\$11,000
<b>Funding Sources:</b>	Drainage Utility: \$350,000			
<b>Scope:</b>	<p>This project will repair and replace watercourse crossings throughout Richmond that pose safety risks to vehicles and pedestrians. Rehabilitation and replacement work includes, but is not limited to, replacing failed headwalls and culvert crossings.</p> <p>Additionally, this project includes infilling of non-Riparian Management Area watercourses, extending lengths of existing ditch infills that pose safety risks to the public and assessing and replacing ageing wood stave culverts.</p>			
				

2021 Recommended Infrastructure – Water Program

Table of Contents

Development Coordinated Works - Water .....66

Water Metering Program .....67

Watermain Replacement Upgrades Program .....68

Watermain Tie-in and Restoration .....69

Program:	Infrastructure Program	Sub-program:	Water
Project Name:	Development Coordinated Works - Water	Submission ID:	5866

Location:	City Wide		
Cost:	\$250,000	OBI:	\$20,000
Funding Sources:	Water Utility: \$250,000		
Scope:	<p>This project will enable the City to leverage development over the next year to design and construct water infrastructure outside of what would be required as part of their development. Work may include watermain replacement and site restoration.</p> <p>These are upgrades and replacement of ageing infrastructure that the City would complete separately but economic and engineering efficiencies can be achieved by having the developer complete this work at the same time the development takes place.</p>		

Program:	Infrastructure Program	Sub-program:	Water
Project Name:	Water Metering Program	Submission ID:	6094

Location:	City Wide		
Cost:	\$1,286,000	OBI:	\$25,000
Funding Sources:	Water Metering Provision: \$1,286,000		
Scope:	<p>Water metering enhances user equity by allowing customers to pay for the water and sewer that they use. All single-family and industrial, commercial and institutional (ICI) properties in Richmond are now metered. This project involves the implementation of an advanced volunteer multi-family water meter program.</p> <p>The advanced volunteer multi-family water meter program will target the last sector that is not metered for water. As part of the program, the City offers a subsidy for the actual installation cost of water meters up to the greater of \$1,200 per unit or \$100,000 per complex, as well as a five-year guarantee for water charges for existing multi-family complexes. The program will also involve active outreach by the City to complexes that will benefit from the water meter program.</p>		

<b>Program:</b>	<b>Infrastructure Program</b>	<b>Sub-program:</b>	<b>Water</b>
<b>Project Name:</b>	<b>Watermain Replacement Upgrades Program</b>	<b>Submission ID:</b>	<b>5656</b>

**Location:** City Wide

**Cost:** \$6,196,000

**OBI:** \$ -

**Funding Sources:**

Water Utility:	\$5,832,151
Water DCC:	\$360,211
Water City Assist:	\$3,638

**Scope:** This project replaces ageing watermain that are at the end of their service life and is in alignment with the City's Ageing Infrastructure Replacement Strategy. Watermain replacement minimizes unplanned maintenance and improves fire protection.

This project includes installation of 4,542 metres of 200mm diameter watermain, 1,167 metres of 300mm diameter watermain, and 1,510 metres of large diameter watermain fill to replace and abandon existing ageing infrastructure.

The watermain replacement program is informed by watermain age, material and break history.

<b>Program:</b>	<b>Infrastructure Program</b>	<b>Sub-program:</b>	<b>Water</b>
<b>Project Name:</b>	<b>Watermain Tie-in and Restoration</b>	<b>Submission ID:</b>	<b>5863</b>

**Location:** Various

**Cost:** \$200,000

**OBI:** \$ -

**Funding Sources:** Water Utility: \$200,000

**Scope:** This project involves tie-in and restoration work for watermain and water service installations, including restoration for watermain replacements completed as part of prior years' capital programs and restoration of water utility cuts.

<b>Location:</b>	City Wide			
<b>Cost:</b>	\$250,000		<b>OBI:</b>	\$10,041
<b>Funding Sources:</b>	Sanitary Utility: \$250,000			
<b>Scope:</b>	<p>This project will enable the City to leverage development over the next year to design and construct sanitary infrastructure outside of what would be required as part of their development. Work may include sanitary main replacement, pump station upgrades, and site restoration.</p> <p>These are upgrades and replacement of ageing infrastructure that the City would complete separately but economic and engineering efficiencies can be achieved by having the developer complete this work at the same time the development takes place.</p>			
				

Program:	Infrastructure Program	Sub-program:	Sanitary Sewer
Project Name:	Gravity Sewer Rehabilitation and Upgrades	Submission ID:	5861
Location:	Various Locations		
Cost:	\$2,400,000	OBI:	\$20,075
Funding Sources:	Sanitary Utility: \$2,400,000		
Scope:	<p>This is a recurring project to rehabilitate and upgrade the City's gravity sewer system as determined by ageing infrastructure, condition assessments, and servicing plans. The work may include full main replacement, pipe lining, service tie-ins, and restoration. The areas that are a part of this phase include the Richmond Park and Steveston sanitary catchments.</p>		

<b>Program:</b>	Infrastructure Program	<b>Sub-program:</b>	Sanitary Sewer
<b>Project Name:</b>	Manhole and Inspection Chamber Replacement Program	<b>Submission ID:</b>	6085
<b>Location:</b>	Various Locations		
<b>Cost:</b>	\$100,000	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Sanitary Utility: \$100,000		
<b>Scope:</b>	This project is part of a 10-year program for replacing or repairing damaged inspection chambers and manholes throughout the City. The program aims to inspect and repair or replace approximately 250 sanitary manholes or inspection chambers each year.		

<b>Program:</b>	Infrastructure Program		<b>Sub-program:</b>	Sanitary Sewer
<b>Project Name:</b>	Sanitary Pump Station Assessment, Rehabilitation and Upgrades		<b>Submission ID:</b>	5874
<b>Location:</b>	Various Locations			
<b>Cost:</b>	\$500,000		<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Sanitary Utility:		\$500,000	
<b>Scope:</b>	This project involves the assessment and rehabilitation of existing sanitary pump stations. Scope of work includes tasks such as: condition assessments, electrical kiosk replacement, power supply upgrade, new motor control center (MCC) installation, pump rewinding, and concrete slab and aluminum hatch installation.			

Program:	Infrastructure Program	Sub-program:	Sanitary Sewer
Project Name:	Sanitary Sewer Assessment and Upgrades	Submission ID:	5876

Location:	Various Locations		
Cost:	\$600,000	OBI:	\$ -
Funding Sources:	Sanitary Utility: \$600,000		
Scope:	<p>This project will assess and improve access to the City's sanitary forcemain system. Installation of valves on sanitary forcemains will allow for better isolation and control of forcemains in the event of breaks or tie-ins. Valve installation will also simplify regular inspections of this critical infrastructure to inform the City's maintenance program and capital upgrade planning.</p> <p>This project includes the purchase of bypass equipment, installation of access and valves, dewatering, other activities related to sanitary system condition assessment, and the development of neighbourhood servicing strategies. These assessments also address Metro Vancouver's reporting requirements. Areas of work include Riverside, Horseshoe, and Richmond Park sanitary catchments.</p>		

<b>Program:</b>	Infrastructure Program	<b>Sub-program:</b>	Sanitary Sewer
<b>Project Name:</b>	Sanitary Sewer Tie-in and Restoration	<b>Submission ID:</b>	6107

<b>Cost:</b>	\$350,000		<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Solid Waste and Recycling: \$350,000			
<b>Scope:</b>	<p>To provide for Recycling Depot general site maintenance or repairs, expansion projects and funding for streetscape recycling containers in public spaces.</p> <p>To provide equipment/vehicle as required to support these program expansions as well as collection of overweight/heavy illegally dumped items.</p> <p>This project is used to:</p> <ol style="list-style-type: none"><li>1. Replace our city streetscape recycling containers that lose functionality, become damaged and worn due to exposure to weather conditions. Our goal is to replace on a 3-year cycle.</li><li>2. Undertake repairs or minor upgrades at the Recycling Depot. This could include building or acquiring small sheds, cages, or structures to add material streams. Acquire new containers types, etc. to enable addition of new materials for collection. Undertake improvements to comply with safety — prepare and post signs, install barricades, replace concrete blocks that become damaged from equipment used to move large items as part of regular operations, etc.</li><li>3. Acquire equipment items that may be needed to support operations, including stairs to assist safe drop off of items into taller recycling bins. May also include items to support illegal dumping clean ups and clean up of homeless camps, including carrying aids (dolly's, cutting tools, etc.).</li></ol>			
				

<b>Program:</b>	Infrastructure Program	<b>Sub-program:</b>	Minor Capital
<b>Project Name:</b>	Welding Shop Office Relocation and Equipment Upgrades	<b>Submission ID:</b>	7043
<b>Location:</b>	City Works Yard		
<b>Cost:</b>	\$248,425	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Public Works Equipment:	\$248,425	
<b>Scope:</b>	Relocate current welding shop to provide a properly ventilated mobile office to increase shop space due to the growing demand for space to complete projects and maintenance repairs. Project to be started by June 2021 and completed by December 2021. All Public Works, Facilities, Parks departments will benefit by having these services in house. The demolition of the current welding shop office with the addition of a mobile office located directly outside the current welding shop bay doors will free up shop floor space for a brake press and other required machinery.		

## Building Program 2021

The Building Program includes major building construction and renovation projects as well as minor facility upgrades and repairs. The City's building assets include: arenas, pools, community centres, libraries, heritage buildings, police stations, fire halls and other government facilities.

<b>Project Name:</b>	<b>Capital Buildings Project Development Advanced Design</b>		<b>Submission ID:</b>	<b>6899</b>
<b>Location:</b>	City Wide			
<b>Cost:</b>	\$950,000		<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Building and Infrastructure: \$500,000 Others: \$450,000			
<b>Scope:</b>	This funding will be used to provide feasibility and concept level consulting service required to complete the following:  - Building and feasibility assessments required to develop the 2021 Capital Plan. Staff receive on average approximately 150 projects from User Groups on an annual basis by May of each year that require feasibility level review and costing in time for the Capital project process. Examples for the 2020 program include feasibility and costing for London Farm House Envelope Renewals, Library Cultural Centre Conveyance renewals and the East Richmond Community Hall Envelope and Mechanical system renewals, etc.  - To respond to requests for feasibility and concept level design and costing services added to the 2021 work plan. Throughout the course of 2019 and 2020 there were approximately 36 such requests, examples of which include the Imagine Lab feasibility report, Lot 5 Redevelopment study at the Olympic Oval, Concession upgrades design to the Brighthouse Pavilion and visual upgrade design to the Richmond Ice Centre in prior to the Canadian Adult Recreation Hockey Association (CARHA) hockey competition. The same level of requests are anticipated for 2021.  Without this funding, building improvement and infrastructure replacement projects have to be cancelled and funding reallocated to allow the feasibility and concept level design work to proceed.			

Program:	Building Program	Sub-program:	Building
Project Name:	City Hall Council Chamber Roof Replacement	Submission ID:	6901
Location:	6911 No. 3 Road		
Cost:	\$1,640,000	OBI:	\$ -
Funding Sources:	Building and Infrastructure: \$1,640,000		
Scope:	<p>Envelope (\$1,640,000):</p> <p>The green roof atop Council Chambers has failed and is allowing water to penetrate the building envelope, damaging the structural integrity of Council Chambers. Specifically, the bamboo garden root system has breached all roof component layers down to the membrane itself, as well as grown around the existing root barrier to areas of the roof with no protective membrane.</p> <p>Demand repairs are required 2 - 3 times per year outside the normal maintenance schedule, costing over \$20,000 to date, and water continues to drip into Chambers on the wall near the AV projector. Additionally there is a continuous water flow into the Projection room that had to be mitigated by re-routing the water into the parkade.</p> <p>Continued water ingress is also negatively impacting other assets including: HVAC equipment such as fan coils and electrical controls causing damage and failure; Life safety components such as smoke detectors causing electrical shorts &amp; fire trouble alarms; lighting failures with water entering light fixtures; speaker failure to ceiling speakers, saturated insulation systems; Furniture such as desks, chairs and panels; millwork becoming saturated and warped; and flooring being stained.</p> <p>If water ingress continues and damage to these systems persists throughout Council Chambers and associated assets the estimated cost to repair, replace and refurbish the affected systems is over three times the value of this submission.</p>		
			

<b>Program:</b>	<b>Building Program</b>	<b>Sub-program:</b>	<b>Building</b>
<b>Project Name:</b>	<b>Minor Capital</b>	<b>Submission ID:</b>	<b>7095</b>
<b>Location:</b>	City Wide		
<b>Cost:</b>	\$400,000	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Others: \$400,000		
<b>Scope:</b>	This funding will be used for minor capital projects as necessary and for replacement and renewal of several building systems in various City buildings to minimize the risk of system failure that could impact operation of the facility and in turn service delivery.		

<b>Program:</b>	<b>Building Program</b>	<b>Sub-program:</b>	<b>Building</b>
<b>Project Name:</b>	<b>Minoru Arenas - Mechanical &amp; Life Safety System Renewals</b>	<b>Submission ID:</b>	<b>6900</b>
<b>Location:</b>	7551 Minoru Gate		
<b>Cost:</b>	\$1,280,000	<b>OBI:</b>	\$7,200
<b>Funding Sources:</b>	Building and Infrastructure: \$1,280,000		
<b>Scope:</b>	Mechanical & HVAC (\$980,000):  This facility is at risk of service disruption due to the failure of water storage tank #2 and its associated systems: boilers, piping, circulation pumps, heat exchangers, desuperheater and their connections.  Water Tank 2 (1,250 Gallons) failed, increasing demand on tank 1 (500 Gallons) resulting in constant repair and adjustment. These tanks are 36 years old, original to the building and critical to facility operations. They supply hot water to Zambonis, dressing rooms & showers, as well as multiple HVAC units.  Continued repair and use is not viable due to outdated equipment and compounded wear and tear from consistent use. Not proceeding with replacement will result in further system failures leading to service disruptions and facility shutdowns.  Life/Safety (\$300,000):  The ammonia plant was recently replaced due to growing concerns over health and safety risks to staff and public and we are now looking to upgrade the detection and alarm system. Currently there are 2 ammonia detectors and 2 stack sensors which send alarm signals to our monitoring contractor and chief engineer. These systems will remain in the building and will be supplemented by a multi light system throughout the facility indicating if there is an ammonia leak, fire or automated external defibrillator emergency.  The existing systems notify staff and monitoring software/contractors, it is then up to site staff to notify patrons of the emergency situation thus delaying response time. With the installation of the multi light system, patrons and staff alike will be notified of an emergency situation, increasing response time and reducing the risk of loss of life.  Additionally, the hatch and ladder system is a safety risk for all that use it. This wood structure is perpendicular without gradation, worn and slippery from 36 years of use and forces the user to release their grip to open a heavy hatch. This system will be replaced with a safer structure for staff and contracts to access the roof.		

<b>Program:</b>	<b>Building Program</b>	<b>Sub-program:</b>	<b>Building</b>
<b>Project Name:</b>	<b>Richmond Ice Centre Infrastructure Renewals – Phase 2 Design and associated works</b>	<b>Submission ID:</b>	<b>7099</b>
<b>Location:</b>	14140 Triangle Road		
<b>Cost:</b>	\$850,000	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Building and Infrastructure: \$850,000		
<b>Scope:</b>	<p>This project is estimated at a total of \$13.7M, comprising of \$6.85M expenditure in 2020 as approved by Council, \$850,000 expenditure in 2021 and a further \$6M expenditure in 2022. All of these works are planned to be completed at the same time to maximize saving in schedule and costs for mobilization and demobilization.</p> <p>Advanced Design of phase 2 (\$850,000):</p> <p>These funds will be utilized for design and pre-construction services prior to phase 2 construction implementation.</p> <p>\$13.7 million was approved by Council as part of the 2019 – 2022 Capital Program</p>		
			

<b>Program:</b>	<b>Building Program</b>	<b>Sub-program:</b>	<b>Building</b>
<b>Project Name:</b>	<b>Thompson Community Centre &amp; Hall Infrastructure Renewals</b>	<b>Submission ID:</b>	<b>7093</b>

**Location:** 5151 Granville Ave

**Cost:** \$900,000

**OBI:** \$19,600

**Funding Sources:** Others: \$861,000  
Grant: \$39,000

**Scope:** Multiple building components in these facilities have reached the end of their life expectancy and will be replaced with modern energy efficient systems (where possible). These system renewals will also include associated miscellaneous items that will service to prolong the life of the building and ensure the health and safety of its users / inhabitants.

**Mechanical and HVAC (\$700,000):**

Heating and exhaust units as well as plumbing fixtures and water distribution throughout the community centre and hall are past their anticipated life span and experiencing leaks and breakdowns. These units will be replaced with new, energy efficient ones to meet the centre's growing demands.

Not proceeding with these replacements will result in further equipment failure causing risks to public health and increased cost to perform demand replacements.

**Electrical (\$200,000):**

The electrical controls of the community centre and exterior HID lighting of the hall are past their anticipated life span and will be replaced with new energy efficient units to prolong the life of the facilities.

Not proceeding with these replacements will compromise public and staff safety at these facilities.

<b>Program:</b>	<b>Building Program</b>	<b>Sub-program:</b>	<b>Building</b>
<b>Project Name:</b>	<b>West Richmond Community Centre - HVAC and Mechanical Renewals</b>	<b>Submission ID:</b>	<b>6258</b>
<b>Location:</b>	9180 No 1 road		
<b>Cost:</b>	\$1,330,000	<b>OBI:</b>	\$6,000
<b>Funding Sources:</b>	Building and Infrastructure: \$1,330,000		
<b>Scope:</b>	<p>Multiple systems in this facility have reached the end of their life expectancy and will be replaced with modern energy efficient systems (where possible). These system renewals will also include associated miscellaneous items that will service to prolong the life of the building and ensure the health and safety of its users / inhabitants.</p> <p>HVAC &amp; Mechanical (\$800,000):</p> <p>Numerous air cooling and exhaust units are original to the facility of 1994 and past their anticipated life span. These units will be replaced with new, energy efficient units to meet the centre's growing demands.</p> <p>Not proceeding with these replacement will result in equipment failure causing reduced airflow, risk to public health and increased cost to perform demand replacements.</p> <p>Life / Safety (\$250,000):</p> <p>Fire and Emergency systems in this facility have been renewed and replaced over the years, but a few systems still remain original to the facility. We will replace those remaining systems such as smoke detection, emergency lighting and signage as well as elevator safety systems with new, modern equipment to ensure the health and safety of all occupants.</p> <p>Not proceeding with this work will compromise public and staff safety in the event of an emergency situation.</p> <p>Interior Finishes &amp; Operator Requests (\$280,000):</p> <p>The 2nd level flooring throughout the childcare area is past its anticipated life span and showing significant signs of wear and tear. This will be replaced along with multiple other operator requests for upgrades and small renovations.</p> <p>Not proceeding with these replacements will increase the risk of injury to childcare participants, reduce functionality of the area for site staff and increase maintenance costs.</p>		
			

## Parks Program 2021

Richmond is renowned for its high quality parks, trails, natural areas and its vibrant urban realm. The City's park system consists of 135 parks that total approximately 1,950 acres serving the wellness and recreation needs of a diverse and growing community. More than 70 kilometres of trails support walking, rolling and cycling, bringing people to the city's many iconic parks and waterfront destinations. New parks and trails along with new amenities will ensure that Richmond residents continue to receive excellent service and that Richmond continues to be a regional and tourism destination.

Program:	Parks Program	Sub-program:	Parks
Project Name:	City-Wide Community Gardens	Submission ID:	7031

Location:	Various		
Cost:	\$200,000	OBI:	\$8,666
Funding Sources:	Parks Development DCC: \$188,100 Parks Development City Assist: \$11,900		
Scope:	<p>In March 2019, Council supported the creation of new community garden plots to address the demand by Richmond residents for access to space for food production and gardening. In 2020, two new community gardens were constructed at Cook Park and Riverport. Building on that success, additional gardens are proposed at various sites throughout the City, including in Paulik and Cook Neighbourhood Parks and along the Railway Greenway.</p> <p>The infrastructure for the gardens, including site preparation, a water connection, perimeter fencing and gate, garden shed, pathway surface materials and signage will be provided by the City. The Richmond Food Security Society (RFSS) will administer the community garden sites as well as construct the garden beds, provide soil and garden tools through their own funding efforts.</p> <p>Community gardens are a shared green space with individual and group garden plots which are maintained by community garden members to grow food, flowers, and other plants. The gardens provide low-barrier opportunities for residents of all ages and abilities to not only cultivate plants, but also meet new friends, share knowledge, and build a sense of community. The food, flowers, and other plants grown in each plot belong to the registered gardeners, and cannot be used or sold for any commercial purposes.</p>		

<b>Program:</b>	<b>Parks Program</b>	<b>Sub-program:</b>	<b>Parks</b>
<b>Project Name:</b>	<b>Dog Park Upgrades</b>	<b>Submission ID:</b>	<b>7021</b>
<b>Location:</b>	City Wide		
<b>Cost:</b>	\$200,000	<b>OBI:</b>	\$10,339
<b>Funding Sources:</b>	Parks Development DCC: \$188,100 Parks Development City Assist: \$11,900		
<b>Scope:</b>	<p>This capital request will allow the City to upgrade existing dog off-leash areas, e.g., Steveston Community Park. Anticipated improvements include planting, permanent fencing and gates, addition of a drinking fountain, seating, drainage, and durable surfacing. The City initiated the Dog Off-Leash Program in 1999, and a number of temporary facilities have been created since that time. In recent years there have been many requests from residents to address drainage issues, add seating, and improve the overall quality of existing dog parks. So far these have been addressed with temporary measures, but this funding would allow issues to be rectified on a permanent basis.</p> <p>The OBI for this submission would cover costs for the following scope of work:</p> <ul style="list-style-type: none"><li>- cleaning of and repairs to hardscape, e.g. topping up gravel areas, keeping clean and free of foreign materials, etc.</li><li>- cleaning of and repairs to site furnishings, e.g. pressure washing, replacement of bench/fence timbers, gate hardware replacement and repair, etc.</li><li>- servicing, winterizing, and repair of drinking fountains (plus eventual replacement if needed)</li><li>- servicing of waste and recycling receptacles (plus replacement if needed)</li><li>- maintenance of lawn areas, e.g. mowing, addressing drainage issues, etc.</li><li>- maintenance of shrub beds, e.g. weeding, cleaning, etc.</li><li>- maintenance of trees, e.g. regular pruning, addressing hazardous limbs, etc.</li></ul>		
			

Program:	Parks Program	Sub-program:	Parks
Project Name:	King George Artificial Turf Field Replacement	Submission ID:	6348
Location:	Cambie Road and No. 5 Road		
Cost:	\$850,000	OBI:	\$ -
Funding Sources:	Capital Revolving: \$630,000 Special Sports: \$220,000		
Scope:	<p>The purpose of this project is to replace the artificial turf field surface at King George Park. This field receives a high level of use from both Cambie Secondary and Mitchell Elementary School students and the general public during the evenings and weekends. With our organized sports groups, the field is booked for more than 48 hours per week after school hours during the peak fall/winter season.</p> <p>Synthetic sports fields generally last 8 to 12 years depending on the usage and the maintenance of the fields. Installed in 2008, the King George field is at the end of its expected lifespan and is now failing to meet minimum operating safety standards for shock attenuation (i.e., risk of injury).</p> <p>In addition to replacement of the synthetic surfacing, proposed safety and performance improvements include the installation of an underlayment shock pad and thermoplastic elastomer (TPE) infill to replace the existing crumb rubber infill.</p> <p>Scope of work includes:</p> <ul style="list-style-type: none"><li>\$80,000 Removal and disposal (recycling) of the existing turf layer</li><li>\$385,000 Installation of the new turf layer</li><li>\$150,000 Shock pad installation</li><li>\$25,000 Drainage and sub base preparations</li><li>\$200,000 TPE infill</li><li>\$10,000 Quality Control and Testing</li></ul> <p>Proposed funding for this project is 220K from the Sports Reserve (pay per use) and 630K from Capital Reserve.</p>		
			

Program:	Parks Program	Sub-program:	Parks
Project Name:	Minoru Lakes Renewal: Phase Two	Submission ID:	6660
Location:	Minoru Park		
Cost:	\$4,000,000	OBI:	\$25,082
Funding Sources:	Parks Development DCC: \$3,762,000 Parks Development City Assist: \$238,000		
Scope:	<p>The scope of work for Minoru Lakes Renewal: Phase Two includes a stormwater detention pond to service the lakes, more accommodating trails, a range of seating, more robust bridges, wayfinding, lighting, native and adaptive planting, and irrigation. This phase of construction will build on the first phase, which includes site works (e.g., tree protection, demolition, dewatering, excavation and treatment of hazardous materials) and replacement of lakes infrastructure including the liner, edges, waterfall, weir and mechanical system. Phase Two works are required because the trails, furnishings, lighting and bridges within the Minoru Lakes area are nearing the end of their life cycle and do not meet the current recreational health and wellness needs of the rapidly growing population living within a five minute walking distance (400 meters) of Minoru Park. The new stormwater detention pond will divert stormwater from nearby developments to the lakes and reduce reliance on potable water. Via the Minoru Park Vision Plan process, the community noted that the Minoru Lakes area is challenging to navigate, generally unwelcoming and viewed as unsafe. Renewed trails, seating, wayfinding, lighting, irrigation and planting in the Minoru Lakes area will help to address community concerns, better meet the needs of the surrounding densifying neighbourhood while also reducing maintenance requirements and environmental impacts.</p>		
			

Program:	Parks Program	Sub-program:	Parks
Project Name:	Parks Advance Planning and Design	Submission ID:	5840
Location:	Various Locations		
Cost:	\$700,000	OBI:	\$ -
Funding Sources:	Parks Development DCC: \$658,350 Parks Development City Assist: \$41,650		
Scope:	<p>This annual project submission for Parks Advance Planning and Design will provide resources for planning, research, public and stakeholder consultation, design and project management for a range of purposes, strategic planning projects, reports to City Council, meeting regulatory agency requirements (e.g., Vancouver Coastal Health, Provincial ministries), conceptual park design and technical reports for projects that require particular areas of expertise (e.g., environmental assessments).</p> <p>2021 projects include:</p> <ul style="list-style-type: none"><li>- conceptual park and open space planning for various sites;</li><li>- topographical surveys (engineering site survey pick-up);</li><li>- park resource management planning;</li><li>- park characterization projects;</li><li>- best practices research;</li><li>- review and update the Parks and Open Space Strategy;</li><li>- consultation for a feasibility study for McDonald Beach Park and Boat Launch Facility; and</li><li>- initiate the process for a Parks Asset Management Strategy.</li></ul> <p>The scope of work includes: researching best practices; collecting data, topographical surveys and geographical information; and securing consultation for landscape architectural and engineering services as part of a planning and design process. The design process includes preparing and producing concept designs, reports, presentations and detailed construction drawings for upcoming Major Capital projects. Projects may be community initiated or support a redeveloping area of the City.</p>		
			

Program:	Parks Program	Sub-program:	Parks
Project Name:	Parks Ageing Infrastructure Replacement Program	Submission ID:	5839
Location:	Various Locations		
Cost:	\$150,000	OBI:	\$ -
Funding Sources:	Capital Revolving:	\$150,000	
Scope:	<p>This program targets the replacement of ageing parks and open space infrastructure. The types of infrastructure include waterparks, waterfront assets (e.g., piers, docks, moorage and boat launch facilities), trails and pathways, drainage systems, outdoor sport courts, sports field fencing and equipment (e.g., lighting, bleachers) as well as the replacement of other assets which cannot be funded through the Parks Development Cost Charges program. Assets have been identified that have surpassed their respective life cycles resulting in the loss of structural and/or functional integrity due to wear and age and may present public safety issues. If not addressed these issues may lead to closure of some parks or park amenities, and an increase in service requests to address safety concerns from the public and sports groups.</p> <p>At the July 24, 2017, Council Meeting, the Parks Ageing Infrastructure Plan 2017 Update Report was presented. The report outlined the high priority assets that require immediate attention and proposed the development of an Infrastructure Replacement Strategy and Financial Plan, which is underway. The recommendations of the report were endorsed by Council.</p> <p>2021 Projects include:</p> <ul style="list-style-type: none"><li>- sandfield upgrades;</li><li>- sport court surfacing repairs (tennis, basketball, lacrosse, etc.);</li><li>- fencing replacement; and</li><li>- drainage system replacement.</li></ul>		
			

Program:	Parks Program	Sub-program:	Parks
Project Name:	Parks General Development	Submission ID:	5838
Location:	Various Locations		
Cost:	\$550,000	OBI:	\$9,037
Funding Sources:	Parks Development DCC: \$517,275 Parks Development City Assist: \$32,725		
Scope:	<p>Upgrades to existing parks are required to respond to emergency requests and ongoing growth in the community. This program funds improvements of existing park amenities and facilities which are not part of other park capital programs, yet are required to support the increased use as a result of an increasing resident population. This funding allows the City the ability to be responsive to Council direction and appropriate public requests which align with existing strategic plans. These discrete, site-specific park enhancements will address our community's needs for ongoing park improvements to infrastructure, equipment and landscape amenities.</p> <p>Examples of projects that have been funded by the General Development program include walkways and pathways, new community gardens, community gathering spaces, new dogs off-leash areas, benches and other park furnishing, new drainage systems, drinking fountains and sport amenities.</p> <p>The OBI is to ensure that ongoing maintenance for new assets is completed. This includes cleaning and repairs to cracks and depressions on pathways, pressure washing and patching of asphalt surfaces such as for pathways and sport courts, servicing irrigation components, maintaining timber borders in community gardens, surfacing and fence repairs in dog parks, repairs and replacing components to benches and picnic tables as required, and the servicing and winterization of new drinking fountains.</p>		
			

<b>Program:</b>	<b>Parks Program</b>	<b>Sub-program:</b>	<b>Parks</b>
<b>Project Name:</b>	<b>Parks Interpretive Signage Program - Phase 1</b>	<b>Submission ID:</b>	<b>6675</b>
<b>Location:</b>	City Wide		
<b>Cost:</b>	\$100,000	<b>OBI:</b>	\$12,537
<b>Funding Sources:</b>	Parks Development DCC: \$94,050 Parks Development City Assist: \$5,950		
<b>Scope:</b>	<p>The purpose of this submission is to update existing interpretation signage and develop new interpretation signage in underserved parks, trail and waterfront areas. There are gaps in the existing Parks and Trails interpretation program and this Capital request seeks to close those gaps, enhance the existing interpretation program and provide relevant, active engagement through education and site interpretation of our natural, cultural and historic landscapes. Most of the existing signage has been in place for a minimum of 10 to 15 years and has been without significant updates. The Parks Identification and Wayfinding Signage program provides the design framework for refreshing the existing site signage and adding new interpretation opportunities with graphically rich content and engaging information about our natural, cultural and historic landscapes.</p> <p>This phase of the project includes up to 10 new interpretation sites and updating 8 existing interpretation sign installations. The new design for the interpretation signage program takes its design cues from the Parks Identification and Wayfinding Signage program and will become part of a larger family of visual identity for Parks.</p> <p>The scope of work includes:</p> <ul style="list-style-type: none"><li>- Designing and completing an analysis per interpretation site (natural, cultural and historic);</li><li>- Developing site plans for interpretation signage deployment;</li><li>- Coordinating with signage vendor and/or in-house services for the fabrications of the signs;</li><li>- Coordinating installation deployment of Phase 1 with in-house services, and</li></ul> <p>The OBI for this submission is to ensure that the ongoing maintenance for the repair and replacement of interpretive signs is completed. When information on the signs requires an update, the sign has experienced vandalism, or is simply deteriorating due to wear and tear, the timber and aluminum components require upkeep and/or replacement.</p>		
			

<b>Program:</b>	<b>Parks Program</b>	<b>Sub-program:</b>	<b>Parks</b>
<b>Project Name:</b>	<b>Playground Improvement Program</b>	<b>Submission ID:</b>	<b>5590</b>

**Location:** Various Locations

**Cost:** \$400,000

**OBI:** \$5,595

**Funding Sources:** Capital Revolving: \$400,000

**Scope:** This capital program addresses playgrounds that are at the end of their useful life and do not meet the current safety guidelines (according to the industry standard, the Canadian Standards Association's "Children's Playspaces and Equipment"), or can no longer be maintained to meet the guidelines due to obsolescence or vandalism. The program is directed towards replacing all or part of a playground and includes replacement of playground equipment, playground infrastructure (e.g., resilient surfacing, borders, drainage) and landscape features.

Replacement of the playgrounds at Odlin Neighbourhood Park and Kilgour Neighbourhood School Parks are a priority in 2021.

<b>Program:</b>	<b>Parks Program</b>	<b>Sub-program:</b>	<b>Parks</b>
<b>Project Name:</b>	<b>Safety and Environmental Enhancements to Richmond High Turf Field Warranty Repair</b>	<b>Submission ID:</b>	<b>7034</b>
<b>Location:</b>	Richmond High Neighbourhood Park		
<b>Cost:</b>	\$350,000	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Capital Revolving: \$350,000		
<b>Scope:</b>	<p>Replacement of the artificial turf field was first completed in 2016 following 11 years of use since its construction in 2005. Normally, synthetic turf fields last 8 to 12 years depending on field usage hours and types of sport involved. In 2018 however, due to product deficiencies identified by City crews, the turf prematurely signalled product failure. The field product was confirmed to be defective and the vendor has committed to replacing the synthetic turf under warranty at no cost to the City.</p> <p>Staff have identified opportunities to improve the safety, performance and play experience of the field through implementing non-warranty related improvements, such as a new underlayment shock pad and thermoplastic elastomter (TPE) infill. Coinciding these improvements with the warranty provides greater value to the City, as some activities will already be performed under warranty at no additional cost. Furthermore the proposed TPE infill does not off-gas or emit odours, and is a 100% recyclable material and does not leach or contain any polluting substances.</p> <p>This field receives a high level of use from both Richmond High and from the general public. With our organized sports groups, the field is booked for more than 48 hours per week after school hours during peak seasons.</p>		
			

Program:	Parks Program	Sub-program:	Parks
Project Name:	South Arm Park Renewal	Submission ID:	7024
Location:	South Arm Park		
Cost:	\$300,000	OBI:	\$7,329
Funding Sources:	Parks Development DCC: \$282,150 Parks Development City Assist: \$17,850		
Scope:	<p>South Arm Park Renewal scope of work includes demolition, site preparation (sub-base preparation and drainage), enhanced trail connections, a plaza with park shelter, expanded picnic areas, shade trees and new furnishings (benches, picnic tables and ping pong tables). These park enhancements will be located near the renewed playground, establishing a community hub within the park.</p> <p>This scope of work is being initiated in response to:</p> <ul style="list-style-type: none"><li>- the need to replace deteriorated trails and furnishings at this popular park destination;</li><li>- increased park use as a result of COVID-19 restrictions and surrounding neighbourhood growth and densification and commesurate need for additional outdoor gathering space and recreational opportunities;</li><li>- input received during the South Arm Park playground public engagement process; and</li><li>- feedback from the South Arm Community Association.</li></ul>		
			

2021 Recommended Parks – Parkland Program

Table of Contents

Parkland Acquisition.....	105
---------------------------	-----

<b>Program:</b>	<b>Parks Program</b>	<b>Sub-program:</b>	<b>Parkland</b>
<b>Project Name:</b>	<b>Parkland Acquisition</b>	<b>Submission ID:</b>	<b>5963</b>
<b>Location:</b>	As per Parks DCC Land Acquisition Plan		
<b>Cost:</b>	\$5,000,000	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Parks Acquisition DCC: \$4,702,500 Parks Acquisition City Assist: \$297,500		
<b>Scope:</b>	<p>The purpose of the Parkland Acquisition program is to acquire land for park requirements to address development and population growth. The program is based on the City's population projections as per the OCP with the objective of maintaining the parks provision standard of 7.66 acres per 1,000 population. The program is funded through Parkland Acquisition Developer Cost Charges (DCCs) and is guided by the Council approved 2009 Park Land Acquisition Strategy which provides the criteria for evaluating proposed acquisitions. Funding is required each year to allow the City to be strategic and responsive as properties become available thus avoiding the need to borrow the funding from other City sources or pass bylaws to release the funds for each acquisition.</p>		
			

Public Art Program 2021

The Public Art Program is a self-sustaining project funded by private development contributions to the Public Art Reserve. Council approved the updated policy (Policy 8703, adopted July 27, 2010). The Program is supported by a Council appointed Public Art Advisory Committee. The Public Art Program also supports the initiatives expressed in the Richmond Art Strategy 2019 - 2024, which was approved by Council in July 2019. The above proposal assists in its annual implementation, which is necessary to its success. Private sector, private donations and community contributions are successfully sought and received.

The Public Art Program contributes to Council’s Strategic Plan 2018 – 2022. It supports One Community Together: Vibrant and diverse arts and cultural activities and opportunities for community engagement and connection. It also supports An Active and Thriving Richmond: An active and thriving community characterized by diverse social and wellness programs, services and spaces that foster health and well-being for all.

2021 Recommended Public Art Program

Public Art Program ..... 107

<b>Program:</b>	<b>Public Art Program</b>	<b>Sub-program:</b>	<b>Public Art</b>
<b>Project Name:</b>	<b>Public Art Program</b>	<b>Submission ID:</b>	<b>5931</b>
<b>Location:</b>	Various locations		
<b>Cost:</b>	\$150,000	<b>OBI:</b>	\$10,000
<b>Funding Sources:</b>	Public Art Program: \$150,000		
<b>Scope:</b>	<p>The scope of work consists of a variety of public art projects. The following are proposed projects (with estimated costs) which may change during the project's duration based on the Public Art Program's consideration of public art opportunities and priorities and private development funding.</p> <p>Contributions by private developers, totalling \$150,000, have been deposited to the Public Art Reserve and allocated as follows:</p> <p>Community public art projects: \$30,000</p> <ul style="list-style-type: none"><li>- No. 3 Road art columns</li><li>- Art Wraps</li><li>- Capture Photography Festival</li><li>- Children's Art Festival</li></ul> <p>Community education and promotion of the public art program: \$20,000</p> <ul style="list-style-type: none"><li>- Culture Days</li><li>- Virtual art programs</li><li>- Public Art Tours</li><li>- Art at Work Workshop Series</li></ul> <p>Collaboration on educational opportunities with other City cultural facilities and programs, such as the Richmond Art Gallery, Media Lab, Cultural Centre and Richmond Museum: \$20,000</p> <p>Engaging Artists in Community Program: \$30,000</p> <p>Community Mural Program: \$30,000</p> <p>Youth Mentorship Public Art Program: \$20,000</p> <p>Through the Private Development Program, developer contributions were received and deposited to the Public Art Reserve for implementation of projects integrated with new development, on either private lands or City-controlled land, with the expectation that the majority will be on City-controlled sites (parks, streets, greenways) in the city centre.</p>		
			

Land Program 2021

The land acquisition program relates to the acquisition and disposition of real property for the City, as approved by Council.

2021 Recommended Land – Land Acquisition Program

Table of Contents

Strategic Land Acquisition..... 109

<b>Program:</b>	Land Program	<b>Sub-program:</b>	Land
<b>Project Name:</b>	Strategic Land Acquisition	<b>Submission ID:</b>	5862
<b>Location:</b>	Various		
<b>Cost:</b>	\$10,000,000	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Capital Industrial: \$10,000,000		
<b>Scope:</b>	<p>Funds for land acquisition to meet the Council Approved Strategic Real Estate Investment Plan, other than DCC and other special reserve funded projects, are set aside in the Capital Reserve under the Industrial Use Fund. This capital budget submission is to use land acquisition monies from this fund as well as additional general funds approved by Council.</p> <p>\$10 million to be invested in investment class real estate.</p>		
			

## Affordable Housing Program 2021

The City recognizes that a diverse range of housing choices for individuals and families of different incomes and circumstances is essential in creating a liveable community in Richmond. The purpose of the City's Affordable Housing program is to address housing affordability concerns in partnership with senior governments, the private sector, and non-profit organizations. Through various programs and policies, the City has been successful in securing over 1,400 affordable housing units, including the following highlighted developments:

- The Kiwanis Towers, which provides 296 affordable rental units for low-income seniors;
- The Storeys, which provides 129 affordable rental units for Richmond residents at risk of homelessness; and
- The Alderbridge Support Housing project, which provides 40 supportive housing units for residents experiencing homelessness.

Between 2021 and 2025, an additional 800 units secured through City housing programs will be completed and made available to Richmond households with low and moderate incomes.

### 2021 Recommended Affordable Housing Program

#### Table of Contents

Affordable Housing Operating Initiatives .....	1
Bridgeport Supportive Housing .....	102

<b>Program:</b>	<b>Affordable Housing Project</b>		<b>Sub-program:</b>	<b>Affordable Housing</b>
<b>Project Name:</b>	<b>Affordable Housing Operating Initiatives</b>		<b>Submission ID:</b>	<b>6871</b>
<b>Location:</b>	City Wide			
<b>Cost:</b>	\$400,000		<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Affordable Housing: \$400,000			
<b>Scope:</b>	<p>The City's Affordable Housing Strategy 2017-2027 and Homelessness Strategy 2019-2029 guide the City's actions regarding affordable housing and homelessness service provision. Six operating areas have been identified to provide staff with the necessary resources to advance the implementation of these strategies. Examples include administration costs, and consulting services related to research, public engagement, and economic analysis.</p> <p>1. Homelessness Support (\$15,000) - Continue supporting homelessness initiatives in the community.</p> <p>2. Strategy Administration (\$250,000) - Support the implementation of short-term actions identified in the Council-adopted Affordable Housing Strategy and Homelessness Strategy.</p> <p>3. Legal Fees (\$50,000) - Offset costs associated with legal services required with respect to affordable housing developments. All external legal services will be at the direction of the City's Law Department.</p> <p>4. Printing, Publication, Media and Advertising (\$15,000) - Offset costs associated with education regarding affordable housing and homelessness, including meeting traditional and social media needs as they arise.</p> <p>5. Economic Analysis (\$50,000) – To supplement staff expertise to provide economic analysis regarding affordable housing policies and development project.</p> <p>6. Communications and Public Engagement (\$20,000) - Support communications and community engagement (i.e., translation, professional facilitation, engagement consultants) for projects that require extensive and complex engagement and education.</p>			
				

<b>Program:</b>	Affordable Housing Project		<b>Sub-program:</b>	Affordable Housing	
<b>Project Name:</b>	Bridgeport Supportive Housing		<b>Submission ID:</b>	7026	
<b>Location:</b>	Bridgeport				
<b>Cost:</b>	\$250,000		<b>OBI:</b>	\$ -	
<b>Funding Sources:</b>	Affordable Housing: \$250,000				
<b>Scope:</b>	<p>The City of Richmond is partnering with BC Housing to support the development of the Bridgeport Supportive Housing, which will provide 40 self-contained homes with support services for people experiencing homelessness or at risk of homelessness in Richmond. The purpose of this funding is to allocate a maximum contribution of \$250,000 for building permit fees, utility rates and servicing cost charges associated with the Bridgeport Supportive Housing project.</p> <p>The Bridgeport Supportive Housing is an important component of the City's Homelessness Strategy 2019-2029. The City's funding contribution is intended to enable significant, additional sources of funding from BC Housing.</p>				
					

Equipment Program 2021

The equipment program includes machinery and vehicles for Public Works (PW), Fire Rescue Services, City Hall computer hardware, software, and other miscellaneous equipment.

2021 Recommended Equipment – Vehicle Program

Vehicle and Equipment Reserve Purchases (Public Works and Corporate Fleet) ..... 104

<b>Program:</b>	<b>Equipment Program</b>	<b>Sub-program:</b>	<b>Vehicle</b>
<b>Project Name:</b>	<b>Vehicle and Equipment Reserve Purchases (Public Works and Corporate Fleet)</b>	<b>Submission ID:</b>	<b>5999</b>
<b>Location:</b>	Works Yard and Various City Departments		
<b>Cost:</b>	\$2,948,979	<b>OBI:</b>	\$35,101
<b>Funding Sources:</b>	Public Works Equipment: \$2,298,979 Sewer Levy: \$150,000 Water Levy: \$500,000		
<b>Scope:</b>	<p>Annual replacement of vehicles eligible due to age and condition in accordance with Sustainable Green Fleet Policy 2020.</p> <p>The process for replacing ageing fleet is to establish needs and develop specifications for vehicles and equipment replacements.</p> <p>Steps include: sending bid information out to the marketplace, evaluating submissions and awarding accordingly.</p> <p>The project involves replacement of the following:</p> <ul style="list-style-type: none"> <li>- 7 pieces of small equipment,</li> <li>- 3 trailers,</li> <li>- 8 vans,</li> <li>- 19 cars,</li> <li>- 8 pickups,</li> <li>- 1 bus,</li> <li>- 1 excavator,</li> <li>- 1 mower,</li> <li>- 2 tractor gang mowers</li> <li>- 1 heavy duty van</li> </ul> <p>plus an unallocated amount for currency exchange, inflation, accidents, COVID compliance, etc..</p> <p>Equipment Replacement:</p> <ul style="list-style-type: none"> <li>- Welding Equipment - Plasma Cutter</li> <li>- Auto Idle Setting</li> <li>- Steam Pressure Washer</li> <li>- Parts Washer</li> <li>- Sand Blaster</li> <li>- Portable UV to disinfect surfaces</li> </ul>

<b>Project Name:</b>	Fire Vehicle Replacement Reserve Purchases	<b>Submission ID:</b>	6247
<b>Location:</b>	Fire-Rescue		
<b>Cost:</b>	\$1,185,516	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Fire Equipment: \$1,185,516		
<b>Scope:</b>	<p>Front line Fire apparatus replacement follows a life cycle replacement schedule based on best practices and industry standards. In addition a condition inspection is conducted annually to evaluate the mechanical status of the vehicles to determine replacement need. To ensure we are able to provide fire services to the community. RFR has a designated "Vehicle &amp; Equipment Reserve". The replacement plan for all apparatus is funded through the reserve.</p> <p>This replacement plan for 2021 includes a front line pumper budgeted at \$1,185,516.</p>		

2021 Recommended Information Technology Program

Table of Contents

Annual Hardware Refresh .....108

Business Continuity Transition to Laptops .....109

Field Devices .....110

Network Loadbalancer Refresh (2021) .....111

Network Refresh for City Facilities (Phase 2 of 3) .....112

Oracle RAC Enterprise and Solaris SPARC Server Upgrades.....113

<b>Program:</b>	<b>Equipment Program</b>	<b>Sub-program:</b>	<b>Information Technology</b>
<b>Project Name:</b>	<b>Annual Hardware Refresh</b>	<b>Submission ID:</b>	<b>5979</b>
<b>Location:</b>	City Hall		
<b>Cost:</b>	\$531,385	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Others:		\$531,385
<b>Scope:</b>	In order to ensure continuous service with minimal disruption of services to the City, we have adopted best practices in regards to lifecycle management of City infrastructure, such as servers and desktop based computers. The desktop environment has a five-year useful life with 20% of the fleet refreshed each year. This provides an achievable refresh target with a responsible approach to financial management. The scope of this refresh is for desktops, laptops and mobile devices such as iPads and smartphones.		

<b>Program:</b>	<b>Equipment Program</b>	<b>Sub-program:</b>	<b>Information Technology</b>
<b>Project Name:</b>	<b>Business Continuity Transition to Laptops</b>	<b>Submission ID:</b>	<b>7098</b>
<b>Location:</b>	City Wide		
<b>Cost:</b>	\$365,378	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Others: \$365,378		
<b>Scope:</b>	With the COVID19 pandemic, the City has committed to social-distancing practices that health officials say will help slow the transmission of COVID-19 by implementing remote work technologies and equipment for some staff to work away from the office. To further invest in the technical infrastructure to support more staff working remotely, it is recommended to submit a one-time expenditure or capital request through the budget process to cover the incremental costs to support staff by providing laptop computers and peripherals and to also confirm whether Provincial funding that may be available to offset these proposed costs.		

<b>Program:</b>	Equipment Program	<b>Sub-program:</b>	Information Technology
<b>Project Name:</b>	Field Devices	<b>Submission ID:</b>	7052
<b>Location:</b>	City Hall		
<b>Cost:</b>	\$281,400	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Others:	\$281,400	
<b>Scope:</b>	With the COVID-19 pandemic there is a need to utilize technology that will enable field workers to travel to various sites throughout the City, with devices to interface with and update key Enterprise systems, such as Tempest, Amanda, REDMS (City Document and Records Management System) and IPS (Infor Public Sector). The scope of work includes the purchase and set up of devices with LTE capability, so that field workers can access and update City systems while on the road.		

<b>Program:</b>	Equipment Program	<b>Sub-program:</b>	Information Technology
<b>Project Name:</b>	Network Loadbalancer Refresh (2021)	<b>Submission ID:</b>	7038
<b>Location:</b>	City Hall		
<b>Cost:</b>	\$163,000	<b>OBI:</b>	\$24,000
<b>Funding Sources:</b>	Hardware Upgrade:		\$163,000
<b>Scope:</b>	Our critical services and applications are implemented a dual data centres. The primary is located at City Hall with the secondary being at Works Yard. A key infrastructure component is known as a load balancer which will direct users to one or both of the data centres in order to connect to City applications. In the event of any failure, the load balancers will direct to the alternate site ensuring minimal disruption for users. This project will update the technology and refresh the hardware which is over eight years old.		
			

<b>Program:</b>	<b>Equipment Program</b>	<b>Sub-program:</b>	<b>Information Technology</b>
<b>Project Name:</b>	<b>Network Refresh for City Facilities (Phase 2 of 3)</b>	<b>Submission ID:</b>	<b>6671</b>
<b>Location:</b>	All City Buildings and Facilities		
<b>Cost:</b>	\$620,700	<b>OBI:</b>	\$20,306
<b>Funding Sources:</b>	Hardware Upgrade: \$620,700		
<b>Scope:</b>	The network refresh will replace the legacy / end of life network equipment including wireless infrastructure at all City facilities. The new infrastructure will ensure continuous service and improved reliability for wireless networks including the @richmondnc public network.		

2021 Recommended Equipment Program

Table of Contents

City Hall and Community Safety Building Lighting Upgrade ..... 115

Fire Equipment Replacement from Reserve ..... 116

Program:	Equipment Program	Sub-program:	Equipment
Project Name:	City Hall and Community Safety Building Lighting Upgrade	Submission ID:	6124
Location:	various locations		
Cost:	\$550,000	OBI:	(\$31,000)
Funding Sources:	Enterprise: \$215,000 Gas Tax: \$335,000		
Scope:	<p>To reduce the energy used at City assets, through conversion of the older fluorescent lighting to the new LED technology at the City Hall and the Community Safety Building. The upgrade will reduce the lighting electricity load by approximately 50%. The addition of newer lighting controls will allow both occupancy sensing and daylight sensing to dim the lighting when either there is natural daylight available or if the areas are vacant. Any additional funding will be used for the energy and lighting study.</p> <p>Because of the much longer life of the newer LED products, electrical maintenance costs will be reduced in addition to the estimated electricity savings.</p>		
			

Program:	Equipment Program	Sub-program:	Equipment
Project Name:	Fire Equipment Replacement from Reserve	Submission ID:	5942
Location:	Various Fire Halls		
Cost:	\$228,990	OBI:	\$ -
Funding Sources:	Fire Equipment: \$228,990		
Scope:	<p>Richmond Fire Rescue (RFR) Self Contained Breathing Apparatus (SCBA) program equipment upgrades and replacement are planned and funded by the Fire Equipment Reserve.</p> <p>Standards exist for the replacement of the Self Contained Breathing Apparatus (SCBA). Depending on the type of SCBA components, the life span is varied. Therefore, Fire-Rescue has established a life cycle schedule to phase in replacement of this inventory.</p> <p>RFR maintains an inventory of fire hose. Fire Hose is replaced annually using a multi-faceted consideration criterion. The age of the hose, the use of the hose as well as testing results are used to determine the replacement of deteriorating fire hose. Hose Replacement planned and funded by the Fire Equipment Reserve for 2021 is 30 lengths of hose. The objective is to maintain an adequate inventory of fire hose to effectively maintain the services. RFR expects to continue with replacing 30 lengths of hose per year to maintain the hose inventory.</p>		
			

## Child Care Program 2021

Child care is an important service for Richmond residents and an essential need for many parents. The 2017-2022 Richmond Child Care Needs Assessment and Strategy was adopted by City Council on July 24, 2017 and outlines the City's commitment to child care through the establishment and maintenance of a comprehensive child care system to help children and families thrive and to address the need for quality, affordable, accessible child care spaces in Richmond.

The City supports the creation of child care spaces by accepting voluntary contributions from developers in the form of built child care facilities or cash-in-lieu contributions to the Child Care Statutory Reserves. The City manages and maintains ten existing City-owned child care facilities and is in the process of developing one additional City-owned child care facilities and two Early Childhood Development Hubs. Dedicated City staff resources help to develop maintain and support the child care system in Richmond. Child Care grants support the work of non-profit child care providers seeking to improve the quality or capacity of care in their facility, or non-profit societies supporting quality programming and/or providing professional development opportunities for the broader child care community in Richmond.

Child care is an important service for Richmond residents and an essential need for many parents. The 2017-2022 Richmond Child Care Needs Assessment and Strategy was adopted by City Council on July 24, 2017 and outlines the City's commitment to child care through the establishment and maintenance of a comprehensive child care system to help children and families thrive and to address the need for quality, affordable, accessible child care spaces in Richmond.

The City supports the creation of child care spaces by accepting voluntary contributions from developers in the form of built child care facilities or cash-in-lieu contributions to the Child Care Statutory Reserves. The City manages and maintains ten existing City-owned child care facilities and is in the process of developing two Early Childhood Development Hubs and one additional City-owned child care facility. The new developer-contributed facilities include:

- The Sprouts ECD Hub, located in the Capstan Village neighbourhood, is currently under construction. It will be completed in 2021 and will offer 77 spaces of licensed child care operated by the YMCA of Greater Vancouver. This facility will be approximately 15,375 square feet indoors and 9,200 square feet outdoors.
- The Seedlings ECD Hub, located in the Brighthouse Village area, will offer 87 spaces of licensed child care operated by the Richmond Society for Community Living (RSCL). This facility will be approximately 19,000 square feet indoors and 11,300 square feet outdoors. It is also under construction and scheduled for completion in 2021.
- The child care facility, which was secured as a community amenity contribution in the River Green development, has been named Hummingbird Child Care Facility. Construction of this 37 space facility, to be operated by the YMCA of Greater Vancouver, is underway and will be completed in 2022. This facility will be approximately 5,000 square feet indoors and 5,000 square feet outdoors.

Dedicated City staff resources help to develop maintain and support the child care system in Richmond. Child Care grants support the work of non-profit child care providers seeking to improve the quality or capacity of care in their facility, or non-profit societies supporting quality programming and/or providing professional development opportunities for the broader child care community in Richmond.

Child Care - Administration .....	118
Child Care Projects - City-wide (Capital Grants).....	119
Child Care Projects - City-wide Non-Capital Grants .....	120

Program:	Child Care Program	Sub-program:	Child Care
Project Name:	Child Care - Administration	Submission ID:	6867

Location:	City Hall		
Cost:	\$112,200	OBI:	\$ -
Funding Sources:	Child Care Operating:	\$112,200	
Scope:	<p>A source of funding is required to support the City's Child Care section and to assist in the implementation of specific actions adopted by Council in the 2017-2022 Richmond Child Care Needs Assessment and Strategy.</p> <p>The Child Care Planner 1 position, which has existed as an auxillary position since 2017 and then as a regular part-time position since 2020, is funded through the Child Care Operating Reserve and plays an important role in supporting the ongoing work to plan, design and build new child care facilities secured as community amenity contributions. Specific job duties include working with developers, and assisting with regular review of these City facilities to ensure they meet health and safety standards. Further work includes assisting with the planning and development of four new child cares (including two Early Childhood Development Hubs), research, developing and updating City publications and working documents, and responding to requests for information from the community, parents and child care providers.</p> <p>In addition, these funds will be used to pay for costs related to: expenses to support the child care work program; research, production of reports, creation of developer resources, and to support the ongoing development of three new amenities under development including two Early Childhood Development (ECD) Hubs and one child care facility as necessary.</p> <p>The Child Care Operating Reserve is an appropriate source of funding for such expenses. It was established to support grants, conduct research and fund expenses to support the development of quality child care within the City.</p>		

<b>Program:</b>	Child Care Program	<b>Sub-program:</b>	Child Care
<b>Project Name:</b>	Child Care Projects - City-wide (Capital Grants)	<b>Submission ID:</b>	5830
<b>Location:</b>	Various		
<b>Cost:</b>	\$50,000	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Child Care Development Reserve: \$50,000		
<b>Scope:</b>	To provide sufficient funding to administer the City's 2021 Child Care Capital Grants Program. These grants support non-profit child care operators with capital improvements to enhance their child care programs (e.g., minor renovations, outdoor playground upgrades and the purchase of equipment and furnishings).		

<b>Program:</b>	Child Care Program	<b>Sub-program:</b>	Child Care
<b>Project Name:</b>	Child Care Projects - City-wide Non-Capital Grants	<b>Submission ID:</b>	6144
<b>Location:</b>	Various		
<b>Cost:</b>	\$4,000	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Child Care Operating: \$4,000		
<b>Scope:</b>	To ensure there is sufficient funding to support the 2021 Child Care Professional and Program Development Grants (non-capital). Grants are advertised in September 2020 and then with Council approval, awarded in February 2021.		
			

Contingent External Contributions 2021

Contingent external contributions is an estimate of external grants that may be received throughout the year for a variety of approved capital projects.

2021 Recommended Contingent External Contributions

Table of Contents

Contingent External Contribution .....122

<b>Program:</b>	<b>Contingent External Contributions</b>	<b>Sub-program:</b>	<b>Contingent External Contributions</b>
<b>Project Name:</b>	<b>Contingent External Contribution</b>	<b>Submission ID:</b>	<b>6009</b>
<b>Location:</b>	City Wide		
<b>Cost:</b>	\$10,000,000	<b>OBI:</b>	\$ -
<b>Funding Sources:</b>	Grant: \$10,000,000		
<b>Scope:</b>	The Financial Plan includes an estimate for external grants that may be received throughout the year for various projects. Spending will only incur if the funds are confirmed. Including an estimate in the Financial Plan will allow staff to request scope changes to existing projects without having to wait until the Bylaw Amendment, which is typically adopted in the fall.		

Internal Transfers/Debt Payment Program 2021

The internal transfers/debt program relates to the use of capital funding for repayment of capital funds borrowed from other internal sources of funding.

# Infrastructure Program 2021 – Recommended but insufficient funding

The following infrastructure projects are recommended but due to funding constraints and other higher priority projects, it is not included as recommended in the 2021 Capital Budget Report.

## 2021 Recommended but insufficient funding Infrastructure – Roads Program

### Table of Contents

Bridge Rehabilitation Program .....	129
Citywide Sidewalk and Street Light Replacement Program.....	130
Street Light LED Upgrade Program .....	131

Program:	Infrastructure Program	Sub-program:	Roads
Project Name:	Bridge Rehabilitation Program	Submission ID:	6208

Location:	City Wide		
Cost:	\$300,000	OBI:	\$ -
Funding Sources:	Capital Revolving: \$300,000		
Scope:	<p>The City completed inspections on a number of road and pedestrian bridges and identified select bridges that are in need of repair or replacement. The scope of work for this project includes further structural inspections, engineering design, and repair or replacement of bridge structures.</p> <p>Repair or replacement work may include, but not be limited to, culvert installation, utility relocation, restoration, railing improvements, barrier installation, sidewalk repair, signage installation, crack sealing, erosion repair, expansion joint sealing and ancillary works associated with bridge repair or replacement.</p> <p>This project will improve road user and pedestrian safety, and reduce the potential for unplanned maintenance that is unpredictable and costly through proactive management of ageing infrastructure.</p>		

Program:	Infrastructure Program		Sub-program:	Roads
Project Name:	Citywide Sidewalk and Street Light Replacement Program		Submission ID:	6193
Location:	Various Locations			
Cost:	\$500,000		OBI:	\$ -
Funding Sources:	Capital Revolving: \$500,000			
Scope:	<p>Over time, street lighting infrastructure deteriorates and can become a hazard to residents and traffic without proper maintenance and replacement programs. Per the City's ageing infrastructure assessment program, several street lights and street light service panels are at the end of their design life and need to be replaced. Sidewalks that have subsided, are damaged from tree roots, or have become misaligned pose tripping hazards to pedestrians. Replacing these sidewalks will improve pedestrian safety and encourage non-vehicular forms of transportation.</p> <p>This project includes removal and replacement of street light poles, service panels, and luminaires that have reached the end of their service life, retrofit of deteriorated concrete bases and the associated ancillary works, inspection of street lights that are nearing the end of their service life, installation of new street lights to eliminate gaps in the street lighting network and repairing deteriorated sidewalks.</p>			
				

Program:	Infrastructure Program	Sub-program:	Roads
Project Name:	Street Light LED Upgrade Program	Submission ID:	6758
Location:	City Wide		
Cost:	\$490,000	OBI:	(\$30,000)
Funding Sources:	Capital Revolving:		\$490,000
Scope:	<p>The City has 6,100 aged HPS (high pressure sodium) light fixtures that require replacement. Replacing HPS with LEDs (light-emitting diodes) will significantly reduce annual energy consumption. It is estimated that this project will reduce electricity use by 350,000 kWh, which translates to approximately \$30,000 in cost savings.</p> <p>This project will replace approximately 1,000 luminaires with LED lights.</p>		
			

## Building Program 2021 – Recommended but insufficient funding

The following building projects are recommended but due to funding constraints and other higher priority projects, it is not included as recommended in the 2021 Capital Budget Report.

### 2021 Recommended but insufficient funding Building – Building Program

#### Table of Contents

City Hall Mechanical Renewals .....	133
Community Safety Building Emergency Power and Interior Upgrades .....	134
Hamilton Community Centre - HVAC Replacement.....	135

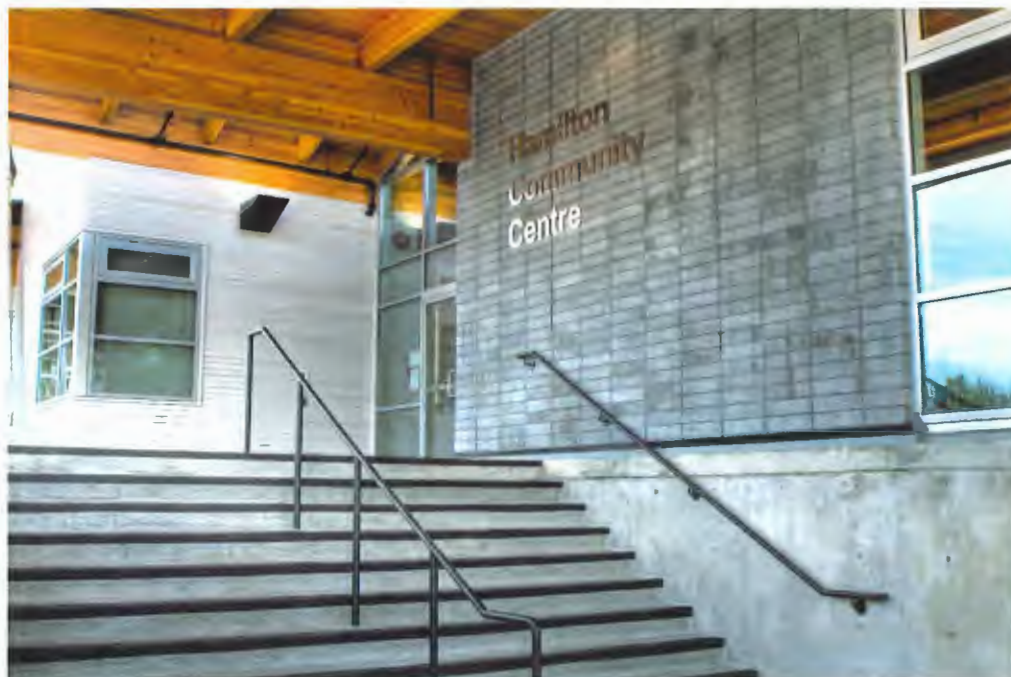

Program:	Building Program	Sub-program:	Building
Project Name:	City Hall Mechanical Renewals	Submission ID:	7079
Location:	6911 No. 3 Road		
Cost:	\$1,770,000	OBI:	\$ -
Funding Sources:	Building and Infrastructure: \$1,770,000		
Scope:	<p>Mechanical (\$1,770,000):</p> <p>The domestic water branch lines are original to the facility and have failed in numerous areas. These pipes have developed leaks and corroded connections throughout the facility as to be expected with 20 year old piping.</p> <p>We will renew all remaining branch lines, thus completing the renewal of all water lines throughout the facility.</p> <p>Not proceeding with this work increases the risk of failure, damage to assets, and loss of service throughout City Hall, as well as increases ongoing maintenance costs.</p>		
			

Program:	Building Program		Sub-program:	Building
Project Name:	Community Safety Building Emergency Power and Interior Upgrades		Submission ID:	6904
Location:	11411 No. 5 Road			
Cost:	\$890,000		OBI:	\$ -
Funding Sources:	Building and Infrastructure: \$890,000			
Scope:	Electrical (\$600,000): <p>The emergency power system in this facility has failed more than eight times in recent years, putting Richmond residents health and safety at undue risk. These failures often occur as a result of hydro power failures which have happened twelve times in 2020 and fifteen times in 2019 and can last up to 3 hours per incident.</p> <p>This system can no longer accommodate the load required by the RCMP and continues to fail during power outages. The electrical grid will be upgraded and existing power supplies will be re-routed as needed to ensure the system can handle the demand placed on it in any situation.</p> Interior Upgrades (\$290,000): <p>Washroom and flooring systems throughout the facility have degraded over time due to demand placed on them by an operation that runs 24/7.</p>			

Program:	Building Program		Sub-program:	Building
Project Name:	Hamilton Community Centre - HVAC Replacement		Submission ID:	7019
Location:	5140 Smith Drive			
Cost:	\$500,000		OBI:	\$ -
Funding Sources:	Building and Infrastructure: \$500,000			
Scope:	HVAC (\$500,000):  The heat pump system in this facility is constantly failing and does not meet the Community Centre's operational needs. Staff are frequently required to attend the site due to numerous complaints from staff and the public.  The new unit will not only providing heating and cooling throughout the facility, but will also recover heat from zones which are cooling and redistribute it to areas in need which provides energy savings.  Failure to replace this system will result in continued service disruptions, increased maintenance costs, and a high risk of complete equipment failure and emergency replacement.			

# Infrastructure Program 2021 – Not Recommended

Due to funding constraints and higher priority projects, the following infrastructure projects are not recommended for funding.

## 2021 Not Recommended Infrastructure – Minor Capital Program

### Table of Contents

Public Works Minor Capital - Roads .....	137
Public Works Minor Capital - Traffic.....	138

Program:	Infrastructure Program	Sub-program:	Minor Capital
Project Name:	Public Works Minor Capital - Roads	Submission ID:	6019

Location:

Cost:

Funding Sources:

Scope:

City Wide

\$400,000

Capital Revolving: \$400,000

This project involves minor work related to road infrastructure, including installation of wheelchair ramps, replacement of uneven sidewalks, curbs and small road sections that may have been damaged through tree root ingress or settlement, repair of street lights, and response to resident complaints that require site specific repairs.

Every year, Engineering and Public Works receives a number of requests for minor projects. The minor capital program allows the department to respond to these requests in a timely and cost effective manner.

Program:	Infrastructure Program	Sub-program:	Minor Capital
Project Name:	Public Works Minor Capital - Traffic	Submission ID:	5005

**Location:** Various Locations

**Cost:** \$250,000

**OBI:** \$8,512

**Funding Sources:** Capital Revolving: \$250,000

**Scope:** Minor work related to traffic operations and traffic signals infrastructure including installation, repairs, or replacement of traffic/parking signage, pavement marking, traffic measure and signal device, upgrades to meet changes in safety requirements, testing of new technologies to improve efficiencies, and response to unforeseen public requests for minor upgrades. These are separate from DCC programs which fund specific projects/locations.

Note: Transportation receives public requests throughout the year for minor transportation projects. The minor capital program allows the department to respond to these requests in a timely and cost effective manner.

Funding: Non-DCC sources (i.e. general revenue); potential from TransLink and ICBC

Equipment Program 2021 – Not Recommended

Due to funding constraints and higher priority projects, the following equipment projects are not recommended for funding.

2021 Not Recommended Equipment – Equipment Program

Table of Contents

Community Services Security Systems ..... 140

Inter-Agency Command Vehicle Replacement ..... 141

Vehicle and Equipment Reserve Purchases (Public Works and Corporate Fleet) ..... 142

Program:	Equipment Program	Sub-program:	Equipment
Project Name:	Community Services Security Systems	Submission ID:	7039

Location:	Various Community Centres/Facilities		
Cost:	\$146,000	OBI:	\$6,000
Funding Sources:	Capital Revolving: \$146,000		
Scope:	<p>The installation of surveillance cameras and systems in various community centres and City owned facilities in Community Services would further enhance safety and crime prevention for Richmond residents. These devices would also assist in the protection of City and partner(s) assets and be a resource for law enforcement.</p> <p>The surveillance systems would include a network video recorder and a network switch at each site, an uninterruptible power supply for backup power to the video system in the event of power failure and to protect the system from surges, a monitor to view the images and retrieve footage, a secured cabinet to house the system and protect the system from tampering, and the cameras, hard wiring and conduit at pre-determined locations within each facility connecting back to the head unit.</p> <p>The surveillance systems would be installed at Richmond Ice Centre, Minoru Arena, South Arm Community Centre, West Richmond Community Centre, Lang Centre, Cambie Community Centre, Hamilton Community Centre, SCC Japanese Cultural Centre, SCC Martial Arts Building, Cultural Centre Annex, Britannia Shipyards, Steveston Museum, Steveston Interurban Tram, Nature Park, and Brighthouse Pavilion.</p>		

Program:	Equipment Program	Sub-program:	Equipment
Project Name:	Inter-Agency Command Vehicle Replacement	Submission ID:	6617

Location:	Various Locations		
Cost:	\$1,197,685	OBI:	\$ -
Funding Sources:	Capital Revolving:	\$1,197,685	
Scope:	<p>An Inter-Agency Command Vehicle is a mobile Incident Command Post for emergency response and support operations for use by Richmond Fire, RCMP, BC Ambulance Service, Public Works, Coast Guard and Emergency Programs.</p> <p>The vehicle operates as both a dispatch centre and a command centre to provide incident commanders with access to multiple communication systems in a fully integrated command centre. This is part of the critical infrastructure required Emergency Response under certain significant events.</p> <p>The City of Richmond utilized a 1997 Inter-Agency Command Vehicle that was years beyond the end of its expected life cycle. The vehicle had cracks in the exterior façade due to the age of the vehicle and exposure to the elements. These cracks were identified in 2014 as the source for the black mould that appeared in the main cabin and since the vehicle was no longer serviceable was ultimately taken out of service.</p> <p>Replacement of this vehicle is urgent as the loss of the Inter-Agency Command Vehicle has impaired the City's ability to respond to emergencies or disasters in a coordinated manner resulting in potentially higher response costs, a poorer response, a loss of reputation and the trust of the community in providing community safety and protection of residents, businesses and stakeholders.</p>		

<b>Program:</b>	Equipment Program		<b>Sub-program:</b>	Vehicle
<b>Project Name:</b>	Vehicle and Equipment Reserve Purchases (Public Works and Corporate Fleet)		<b>Submission ID:</b>	7007
<b>Location:</b>	Works Yard and Various City Departments			
<b>Cost:</b>	\$80,000		<b>OBI:</b>	\$22,150
<b>Funding Sources:</b>	Capital Revolving: \$80,000			
<b>Scope:</b>	Facility Services currently has 8 Building Maintenance Coordinators (BMC) with an additional 2 joining as TFT and 6 vehicles to service approximately 170 buildings. BMC's are required to be at their building sites on a daily basis with appropriate tools and equipment to coordinate maintenance, contractors and respond to emergencies. Without the vehicles requested BMC's will not be able to attend their sites as required.

The following is an overview of the major Capital programs proposed for the years 2022 to 2025.

INFRASTRUCTURE PROGRAM

• Disaster Mitigation and Adaptation Fund Infrastructure Upgrades (2022-2025: \$24,934,000)

The City of Richmond invests in major disaster mitigation infrastructure to contribute to the Province of British Columbia and Canada’s economic growth, public safety and ability to build a community more resilient to climate change.

This project includes the design and construction of drainage pump station upgrades and perimeter dike raising included in the Disaster Mitigation and Adaptation Fund grant. The project will be completed in multiple phases. The initial phases of the project will primarily include dike upgrades.

• No. 3 Road South Pump Station Upgrade (2024: \$9,140,000)

This project includes demolishing the existing pump station at (No. 3 Road South) and rebuilding it to a modern standard. The project will increase pumping capacity, increase station resilience, make local dike upgrades and landscape the construction area. This project is part of a larger strategy to increase the City’s drainage capacity, increase pump station reliability and reduce flooding in order to accommodate climate change and growth as outlined in the City’s Official Community Plan.

The project is estimated to take 12-16 months. Construction will be scheduled for spring 2025.

Major Cost Components:

Civil (65%)	\$5,941,000
Mechanical (19%)	\$1,736,600
Electrical (16%)	\$1,462,400
Total	<u>\$9,140,000</u>

• Van Horne Pump Station Replacement (2024: \$5,300,000)

This project involves replacement of the Van Horne sanitary sewer pump station and upgrades to the surrounding sanitary system. The existing pump station will not have adequate capacity to service the growing population within the catchment area. The new pump station will be designed to service the projected 2041 OCP population in the catchment area, which is currently undergoing high-density redevelopment. The requirement for the Van Horne pump station upgrade was identified by the 2041 OCP Sanitary Modelling project.

This project involves construction of a new pump station to replace the existing, including construction of a new wet well, variable frequency drive (VFD) pumps, electrical kiosk, 50 meters of 650 mm diameter gravity pipe and 320 meters of 400 mm diameter forcemain. This project will require land acquisition.

• Bennett West Pump Station Replacement (2025: \$6,000,000)

The Bennett West sanitary pump station is at the end of its service life and requires replacement. This project involves the construction of a new sanitary pump station complete with wet well, variable frequency drive (VFD) pumps, kiosk, back-up generator, antenna, valve chamber, and BC Hydro transformer to replace the existing station. Construction of the pump station will be coordinated with adjacent developments.

**BUILDING PROGRAM**

- **Richmond Ice Centre Infrastructure Renewals (2022 - 2024: \$11,400,000)**

Multiple systems in the Richmond Ice Centre facility, constructed in 1994, have reached the end of their life expectancy and will be replaced with modern energy efficient systems (where possible). These system renewals will also include associated miscellaneous items that will serve to prolong the life of the building and ensure the health and safety of its users/inhabitants.

**Interior:**

The interior flooring systems will be replaced to prevent a tripping hazard and ensure safe mobility for all occupants throughout the facility. Washroom accessories have all exceeded their serviceable life span and will be replaced/renewed as needed.

**Envelope:**

The exterior paint and window seals have reached the end of their serviceable life span and will be renewed/replaced as needed.

**Mechanical:**

The boilers, dehumidifiers, bay heaters and water distribution system have reached the end of their serviceable life span and will be replaced/renewed as needed. Potential risk of no hot water as well as temperature controls are at risk.

**Electrical:**

Main electrical service systems throughout the facility have reached the end of their serviceable life cycle and require renewal. If units are not replaced, there is potential for unit failure causing fire/electrocution/power failure.

- **Works Yard Infrastructure Renewals (2022 - 2024: \$28,600,000)**

Multiple systems in multiple buildings at the works yard complex constructed in 1980 have reached the end of their life expectancy and will be replaced with modern energy efficient systems (where possible). These system renewals will also include associated miscellaneous items that will serve to prolong the life of the building and ensure the health and safety of its users. All of these works are planned to be completed at the same time to maximize savings in schedule and costs for mobilization and demobilization.

**Interior:**

Flooring, lighting, wall and restroom systems throughout the administration, garage workshop, stores, sanitation office, survey and dispersal buildings have all reached the end of their serviceable life span and will be renewed or replaced as needed.

**Envelope:**

Roofing systems inclusive of hatches, skylights and access ladders; as well as aluminum framed glass wall/window systems at the administration, garage workshop, stores, sanitation office, survey and dispersal building have all reached the end of their serviceable life span and will be replaced.

**Mechanical:**

Heating/cooling, water distribution, exhaust ventilation, and gas supply systems throughout the administration, garage workshop, stores, sanitation office, survey and dispersal buildings have all reached the end of their serviceable life span and will be renewed or replaced as needed.

- **Steveston Community Centre and Branch Library (2022: \$93,500,000)**

Site location selection for the new Steveston Community Centre and Branch Library was approved by Council on December 15, 2020. Next step will be concept design development. This submission will be revised accordingly in the Consolidated 5 Year Financial Plan (2022-2026).

## PARKS PROGRAM

- **Garden City Lands Phase 4 to 6 (2022 - 2025: \$1,500,000)**

The continuation of the development of the Garden City Lands will increase public access to the site and add a greater diversity of activities and experiences. Boardwalks and interpretive signage are planned to provide greater access and opportunities for interaction with the bog ecosystem while a network of trails, community gardens and gathering areas are planned to allow more people to access the western side of the site along with expansion of farm related uses and programs. All planned works will be subject to Council and Agricultural Land Commission approval and are consistent with the Council approved Legacy Landscape Plan.

- Phase 4 will focus on the construction of a washroom facility and parking lots, associated site and landscape improvements, and the further development of park-wide infrastructure.
- Phase 5 is the continuation of the construction of community facilities including amenities such as boardwalks through the bog conservation area and directional and interpretive signage.
- Phase 6 is the continuation of the construction of community facilities including amenities such as a site observation tower, interpretive signage and public art.

- **Lulu Island Park Design and Site Remediation (2024: \$2,000,000)**

This capital request follows the master planning phase in 2023, and will allow the City to begin to secure funding for the design and construction phase for Lulu Island Park. 2024 will see the commencement of design, detailed design, and preparation of a five-year budget. The leases for the City-owned industrial properties will expire in 2024, at which point demolition is tentatively scheduled to begin.

The concept for Lulu Island Park was approved by Council in 2007 and incorporated in the City Centre Area Plan in 2009. Lulu Island Park is envisioned as the City's premier downtown park and a crucial part of its waterfront, supporting formal and informal recreation, cultural events, enhanced ecological values, and heritage interpretation. Sustained population growth in the City Centre demonstrates the need for this park, which is expected to serve as a catalyst for development in the adjacent commercial zone.

- **Playground Improvement Program (2022 - 2025: \$2,000,000)**

This capital program addresses playgrounds that are at the end of their useful life and do not meet the current safety guidelines (according to the industry standard, the Canadian Standards Association's "Children's Playspaces and Equipment"), or can no longer be maintained to meet the guidelines due to obsolescence or vandalism. The program is directed towards replacing all or part of a playground and includes replacement of playground equipment, playground infrastructure (e.g., resilient surfacing, borders, drainage) and landscape features.

## LAND PROGRAM

- **Strategic Land Acquisition (2022 - 2025: \$30,000,000)**

Funds for land acquisition to meet the Council Approved Strategic Real Estate Investment Plan. Availability of funds in the capital budget provides the ability to act quickly when necessary and avoid costs incurred to repay the Revolving Fund.

## EQUIPMENT PROGRAM

- **Vehicle and Equipment Reserve Purchases (Public Works and Corporate Fleet) (2022-2025: \$13,463,270)**

Annual replacement of vehicles eligible due to age and condition in accordance with Sustainable Green Fleet Policy 2020.

Process for replacement of ageing fleet is to establish needs and develop specifications for vehicle/equipment replacements. Send bid information out to the marketplace, evaluate submissions and award accordingly.
