Staff Report

Origin

At their December 11, 2017 meeting, Council approved the City of Richmond's participation in the BC Petroleum Products Buying Group the ("BCPPBG"). The BCPPBG is a buying consortium for fuel purchases, which allows the City to receive the benefits of economies of scale, process and information for all City fuelling operations (Public Works Yard, Fire halls, etc.).

The City of Vancouver is the lead agency coordinating the competitive bid process on behalf of the BCPPBG. The City of Vancouver issued Request for Proposal No. PS10180305 (Supply and Delivery of Fuels) on March 5, 2018. There were five bid respondents. The City of Vancouver's evaluation team concluded that the proposal submitted by Suncor Energy Products Partnership ("Suncor") best meets the BCPPBG's requirements and provides best overall value. The City of Vancouver followed their standard procurement methods in this tender process. Key criteria considered included technical, sustainability and financial requirements. Richmond staff are in agreement with the methodology applied.

This report recommends that the City of Richmond enter into an agreement with Suncor (the "Supply and Delivery of Fuels Agreement") under the terms and conditions contemplated through the BCPPBG consortium competitive bid process. A copy of the Supply and Delivery of Fuels Agreement is attached as Attachment 1. The City will become party to the Supply and Delivery of Fuels Agreement by executing the letter agreement attached as Schedule D the Supply and Delivery of Fuels Agreement.

This report supports Council's 2014-2018 Term Goal #6 Quality Infrastructure Networks:

Continue diligence towards the development of infrastructure networks that are safe, sustainable, and address the challenges associated with aging systems, population growth, and environmental impact.

6.1. Safe and sustainable infrastructure.

Analysis

Background

The current fuel purchase supplier is Parkland Fuel Corporation ("Parkland") under BCPPBG Contract No. PS11122. The contract with Parkland commenced December 14, 2011 and continues pending 60 days written notice to cancel the contract. This notice will be provided by the City of Vancouver to Parkland once the Supply and Delivery of Fuels Agreement is signed. The planned start date with Suncor is fluid at this time. The City of Richmond is coordinating its efforts to align with that of the City of Vancouver for contract commencement.

Fuel Consumption

The City of Richmond has 10 fueling tanks, located at the City Works Yard and several fire hall stations. These are used for fueling all gasoline and diesel powered City vehicles and equipment.

Fuelling services at the Works Yard are also made available to the Richmond RCMP and Richmond School Board on a cost-recovery basis. Richmond Fire Rescue is also able to fuel at the City Works Yard, if required.

The City uses approximately 1.4 million litres of fuel annually consisting of gasoline and bio-diesel. Of this amount, Richmond Fire Rescue uses approximately 135,000 litres annually. Additionally, approximately 200,000 litres of fuel is purchased to support fuelling services at the Works Yard for the Richmond RCMP and School Board.

BCPPBG Fuel Purchases Contract

Key terms of the Supply and Delivery of Fuels Agreement include:

1. Contract term is five years, with the option to extend for two additional one-year terms.
2. Costing is based on a variable structure which adjusts for variations in fuel pricing, with fixed discounts, i.e.:
 - a. Suncor regional weekly rack rate. The weekly rack rate is the price refineries sell fuel to their various clients, which varies based on fuel commodity market pricing.
 - b. Less a fixed discount for diesel and gasoline products. The discount remains fixed for the entire term of the agreement.
 - c. Plus bridging (delivery fees, etc.). Bridging fees includes items such as freight from the terminal, the terminal cost and delivery. Under the terms of the Supply and Delivery of Fuels Agreement, the bridging fee will be fixed for three years after which it is subject to adjustments.

Expected savings to the City under the Supply and Delivery of Fuels Agreement compared to what consumers would pay at fuelling stations vary depending on commodity pricing, but are generally between 4%-6%. Rates vary due to the weekly rack rate changes, which are subject to the commodity price.

Financial Impact

Annual costs for fuel vary based on commodity pricing and consumption. Fuel expenditures in 2018 were approximately \$1,500,000 for City operations and \$175,000 for Richmond Fire Rescue, for a total of \$1,675,000.

Under the terms of the Supply and Delivery of Fuels Agreement, approximate savings of 2% over current rates paid by the City are expected due to the applicable discount. Given the volatility of fuel pricing (i.e. weekly rack rate), annual budget estimates are developed based on average fuel pricing for average yearly costs.

Conclusion

The BCPPBG consortium approach for gasoline and diesel fuel purchased achieves economies of scale through a large-scale purchasing approach, thereby representing best value. The proposal by Suncor represents best value, as determined through the competitive bid process administered by the City of Vancouver on behalf of BCPPBG participants.

This report recommends that the City enter into the Supply and Delivery of Fuels Agreement with Suncor under the terms and conditions contemplated under City of Vancouver Request for Proposals No. PS20180305 Supply and Delivery of Fuels.
