Hate Crimes and Incidents

Table 2 presents the number of hate crimes and hate incidents reported between January 1, 2018 and May 31, 2021. A “hate crime” refers to any criminal offence targeting an identifiable group. The criteria for an offence to be considered a hate crime as per the *Criminal Code* carries a higher threshold and usually involves one or more criminal offences. A “hate incident” may be motivated by the same factors as a hate crime, but does not reach the threshold of being a criminal offence. Most of the events reported this month were related to the use of racial slurs, anti-Semitic comments and homophobic remarks. One incident involved a man spitting at a person at a political protest.

2018	19	4	23
2019	11	9	20
2020	21	13	34

Crime Trends Across Jurisdictions

In recent months, there has been an increase in gang-related homicides and public shootings in the Lower Mainland. In response to these incidents, local policing agencies have been working collaboratively to provide a coordinated response to combat gang-related violence. On May 21, 2021, police officers in the Combined Forces Special Enforcement Unit (CFSEU-BC) were conducting proactive enforcement patrols in Richmond.² These efforts resulted in the arrest of a gang-involved male and female who were in the possession of a loaded handgun. Richmond RCMP officers provided assistance in taking the suspects into custody.

Data on crime rates is presented in Figure 1.³ In May 2021, out of the four largest municipalities policed by the RCMP in the Lower Mainland District (LMD), Richmond had the lowest violent crime rate and the second lowest property crime rate.

² CFSEU-BC is the Provincial Integrated Anti-Gang Agency

³ Crime rate is calculated per 1,000 people.

Auxiliary Program

In May 2021, the Richmond RCMP Detachment had a complement of 30 Auxiliaries.⁴ Due to COVID-19 safety protocols, volunteer activities have been significantly reduced. Auxiliaries provided a total of 138 volunteer hours during the month of May. On June 24, 2021, the Province of British Columbia provided written correspondence to RCMP E-Division Headquarters advising that the Auxiliary Program and all related activities immediately must cease and all Auxiliary officer appointments rescinded. With this direction, the OIC of Richmond RCMP has stopped local Auxiliary programs and rescinded appointments. Negotiations between the Province of British Columbia and National RCMP Headquarters remain ongoing with the intention that they will result in a revised and viable program in the near future.

Figure 2 compares the monthly hours of service provided from 2017 to 2021.

⁴ Previously referred to as Auxiliary Constables.

Due to the COVID-19 pandemic, all three community police stations have been closed to the public since March 2020. Volunteer deployments resumed in June 2020, in accordance with the guidelines established by RCMP "E" Division's Crime Prevention Services; however, the scope of volunteer activities has been limited. City staff and volunteers continue to pursue safety initiatives to enhance crime prevention program awareness, community engagement and police accessibility.

MAY 2021 STATISTICS

RICHMOND RCMP

This chart identifies the monthly totals for founded Criminal Code incidents, excluding traffic-related Criminal Code incidents. Based on Uniform Crime Reporting (UCR) scoring, there are three categories: (1) Violent Crime, (2) Property Crime, and (3) Other Criminal Code. Within each category, particular offence types are highlighted in this chart. In addition, monthly totals for Controlled Drugs and Substances Act (CDSA) incidents and MHA-related calls for service are included. Individual UCR codes are indicated below the specific crime type.

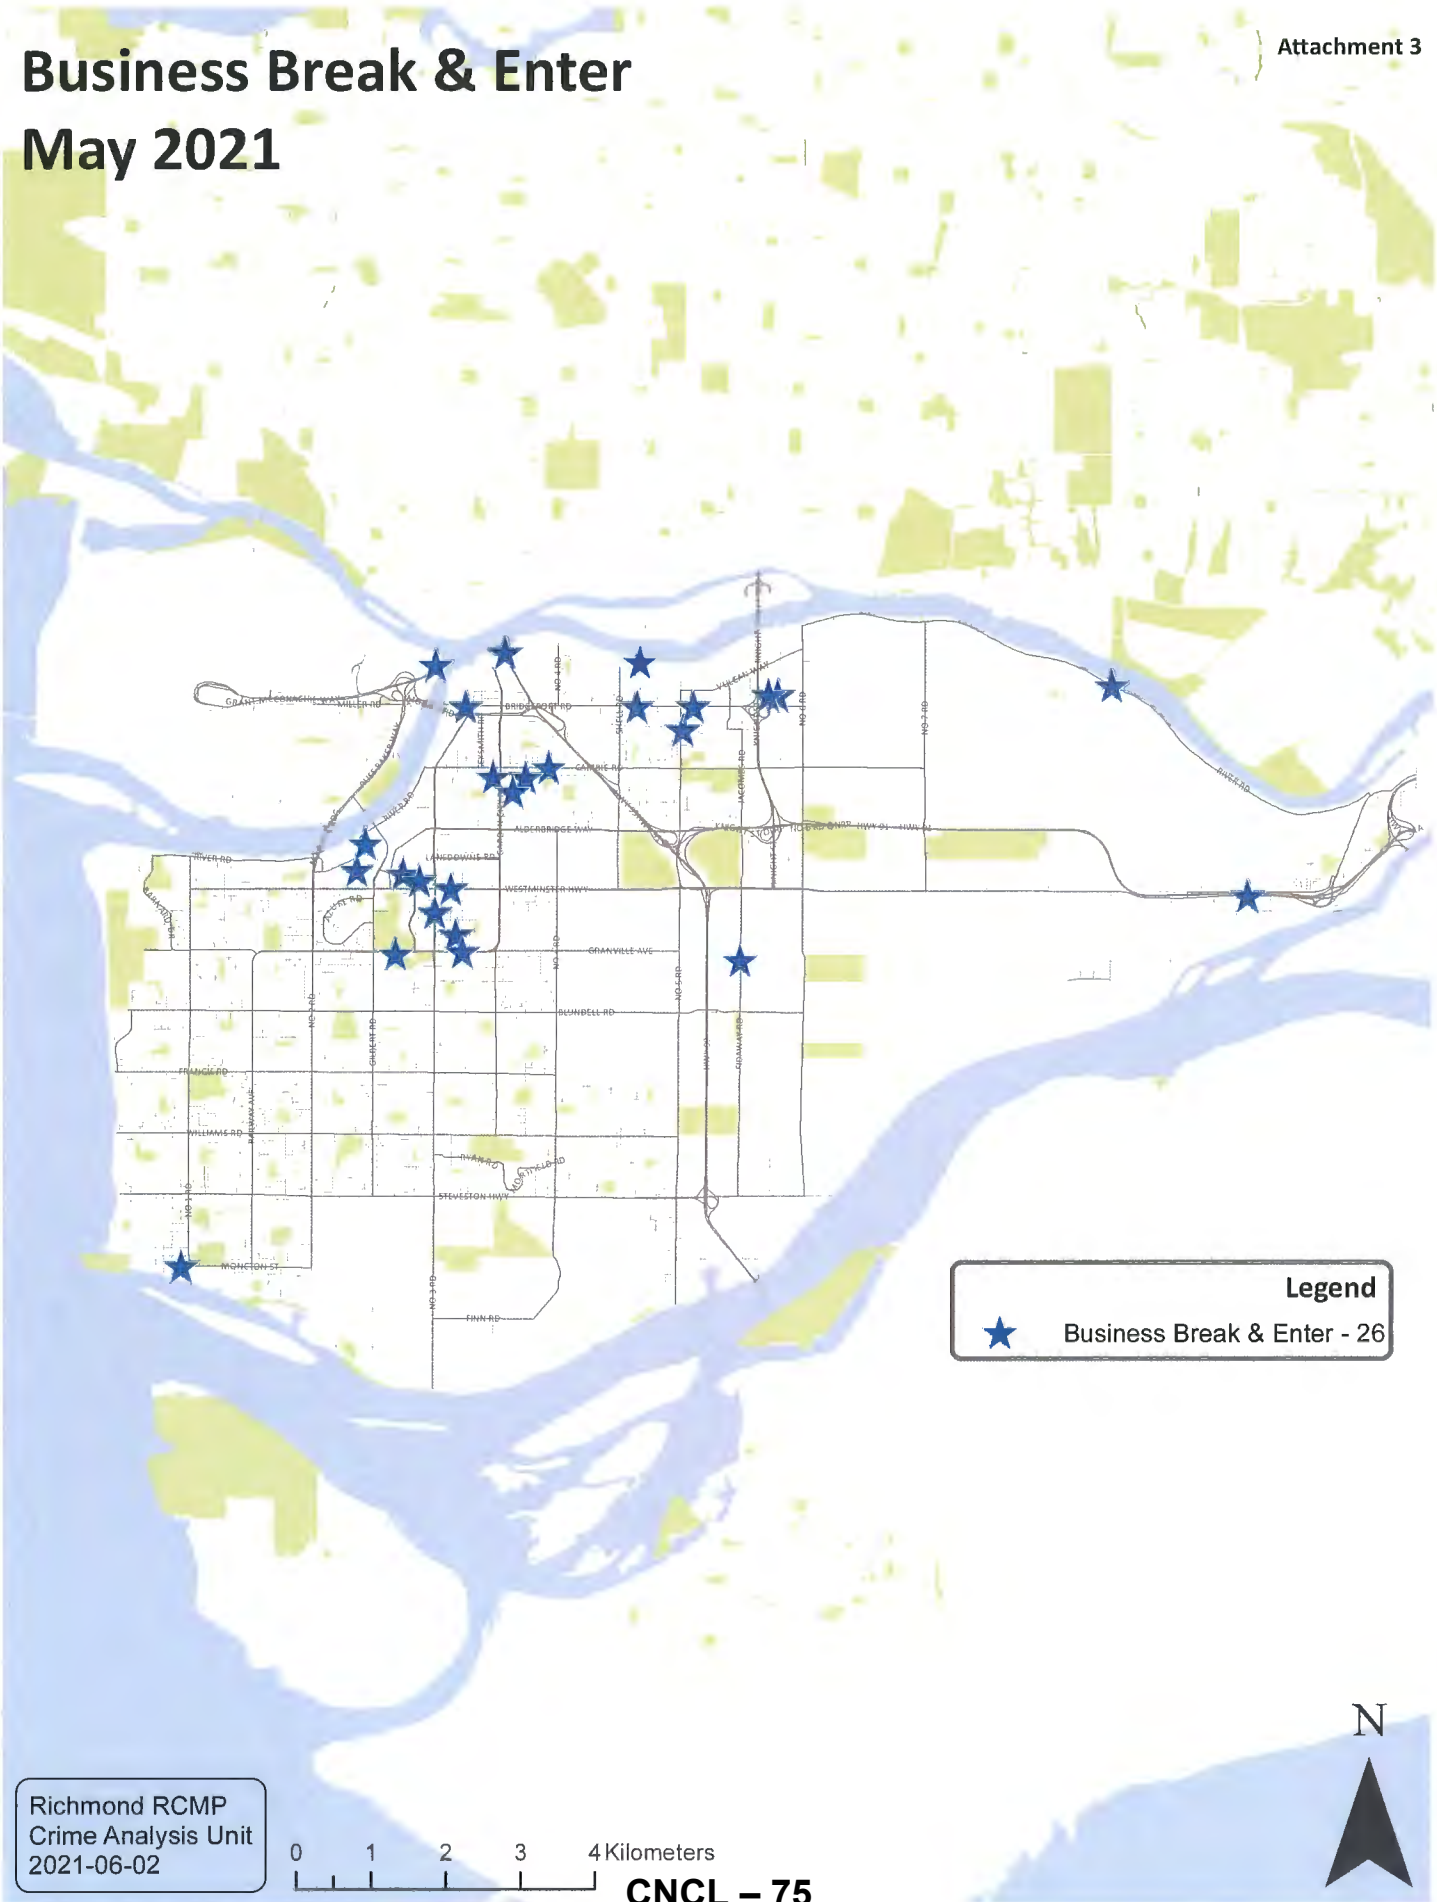

In 2019, changes were implemented regarding the collection of UCR data. The new standards provide much more stringent criteria to classify a file as unfounded. As a result, there will be an increase in many crime statistics, and clearance rates will conversely decline. This creates numerous challenges when comparing previous years' data. Full details on the Uniform Crime Reporting Survey are available at Statistics Canada: <https://www150.statcan.gc.ca/n1/pub/85-002-x/2018001/article/54973-eng.htm>. For more information, contact Richmond Crime Analysts.

The 5 year average range data is based on activity within a single month over the past 5 years. If the current monthly total for an offence is above the expected average range (using one standard deviation) due to crime trends, patterns, or spikes, it will be noted in **red**. If the current monthly total for an offence is above the expected average range due to primarily non-operational reasons such as the new UCR standards or other scoring issues, the total will be noted in **purple**. Below expected numbers will be noted in **blue**.
