## Staff Report

### Origin

Capital Development Ltd. has applied to the City of Richmond for permission to rezone 3731/3733 Lockhart road (**Attachment 1**) from Single-Family Housing District, Subdivision Area E (R1/E) to Single-Family Housing District, Subdivision Area B (R1/B) to permit the property to be subdivided into two (2) single-family residential lots. There is currently a non-conforming duplex on the subject property.

### Findings of Fact

A Development Application Data Sheet providing details about the development proposal is attached (**Attachment 2**).

### Surrounding Development

The area is an established residential neighbourhood containing a mix of older and new dwellings on lots zoned Single-Family Housing District, Subdivision Area E (R1/E) or Subdivision Area B (R1/B), and a number of older duplex lots that are either non-conforming or zoned Two-Family Housing District (R5).

To the north, there are two (2) dwellings fronting Granville Avenue on lots zoned Single-Family Housing District, Subdivision Area E (R1/E).

To the east, there are two (2) new dwellings nearing completion on lots recently zoned Single-Family Housing District, Subdivision Area B (R1/B).

To the south, across Lockhart Road, there is an older dwelling on a lot zoned Single-Family Housing District, Subdivision Area E (R1/E), with no redevelopment potential on its own under the existing Lot Size Policy.

To the west, there are two (2) newer dwellings on lots zoned Single-Family Housing District, Subdivision Area B (R1/B).

### Related Policies & Studies

#### OCP Designation

There is no Area Plan for this area. The Official Community Plan's (OCP) Generalized Land Use Map designation for this property is *Neighbourhood Residential*, and the Specific Lands Use Map designation is *Low-Density Residential*. This redevelopment proposal is consistent with these designations.

#### Lot Size Policy 5447

The subject property is located within the area covered by Single Family Lot Size Policy 5447 (adopted by Council in 1991, and amended in 1998) (**Attachment 3**). This Policy permits rezoning and subdivision of lots along Lockhart Road to Single-Family Housing District, Subdivision Area B (R1/B). This redevelopment proposal would allow for the creation of two (2) lots, each approximately 12.2 m wide, which is consistent with the Lot Size Policy.

## Staff Comments

### Background

Since the early 1990's, numerous similar applications to rezone and subdivide nearby properties along Lockhart Road to Single-family Housing District, Subdivision Area B (R1/B) have either been approved or are the subject of active applications.

### Trees & Landscaping

A Tree Survey submitted by the applicant indicates the location of ten (10) trees

#### **(Attachment 4):**

- seven (7) bylaw-sized trees are located on the subject property;
- two (2) bylaw-sized trees are located along the south property line straddling the City boulevard; and
- one (1) bylaw-sized tree is located on the adjacent property just outside the east property line at 3751 Lockhart Road.

A Certified Arborist Report has been submitted by the applicant. The report identifies tree species, assesses the condition of trees, and provides recommendations on tree retention and removal relative to the proposed development. The report recommends removal of all trees from the subject property due to poor condition. The report also recommends that tree protection fencing be installed around the drip line of the tree located on the adjacent property to the east (3751 Lockhart Road) that encroaches onto the subject property.

The City's Tree Preservation Coordinator has reviewed the Arborist Report and:

- concurs with the protection of the Birch tree (Tree A) located on the adjacent property to the east (3751 Lockhart Road);
- concurs with the removal of six (6) trees from the subject property; but,
- recommends that the two (2) Norway Maples (Trees # 540 & 541) and the Portuguese Laurel (Tree # 542) be retained because they are in good condition and are outside the building envelope.

Tree protection fencing must be installed around the drip line of the two (2) Norway Maples at a minimum of 2 m out from the base of the trees, and around the drip line of the Portuguese Laurel at a minimum of 1.8 m out from the base of the tree. Tree protection fencing must also be installed around the drip line of the off-site Birch in accordance with the recommendations in the Arborist's report (5.3 m x 11.5 m west of the east property line). Tree protection fencing must be installed, to City standards, as a condition of rezoning or prior to demolition of the existing dwelling on the subject property (whichever occurs first), and must remain in place until construction of the future dwellings on the site is complete. Any work that is conducted within the drip line of retained trees, such as tree pruning, excavation of existing driveways, or installation of perimeter drainage must be supervised by a Certified Arborist.

Based on the Official Community Plan's (OCP) tree replacement goal of 2:1, a total of 12 trees are required to be planted and maintained. Considering the effort to be taken by the applicant, and as an incentive to retaining existing mature trees on-site, staff recommend only eight (8) replacement trees be planted and maintained [four (4) per future lot]. Based on the size requirements for replacement trees in the City's Tree Protection Bylaw, the replacement trees must have the following minimum calliper sizes/heights:

# Replacement Trees	Min. Calliper of Deciduous Tree		Min. Height of Coniferous Tree
2	9 cm	or	5 m
4	10 cm		5.5 m
2	11 cm		6 m

To ensure that the replacement trees are planted and maintained, the applicant is required to submit a Landscaping Security to the City in the amount of \$4,000 (\$500/tree) prior to final adoption of the rezoning bylaw. In addition, to ensure the survival of the retained trees on-site, the applicant is required to submit a security to the City in the amount of \$3,000 (\$1,000/tree) prior to final adoption of the rezoning bylaw.

#### Affordable Housing

Council adopted an Interim Affordable Housing Strategy for Single-Family Developments on April 28, 2008. This interim strategy applies to in-stream single-family rezoning applications received after July 1, 2007, until a revised Richmond Affordable Housing Strategy related to single-family rezoning applications is approved. The interim strategy requires a suite on 50% of new lots or a cash-in-lieu contribution of \$1.00/ft<sup>2</sup> of total building area toward the Affordable Housing Reserve.

In order to help meet the City's targets for affordable subsidized rental housing, the applicant has agreed to provide a voluntary cash contribution towards the Affordable Housing Reserve based on \$1.00 per square foot of total building area of the single-family developments (i.e. \$6,856).

#### Site Servicing & Vehicle Access

There are no servicing concerns or requirements with rezoning. In order to retain the two (2) Norway Maples in the front yards of the future lots, proposed vehicle access to the site should remain at approximately the same location as they are currently, while observing the recommended Tree Protection Zone of 2 m from the base of each tree.

#### Flood Management

In accordance with the Interim Flood Protection Management Strategy, registration of a Flood Indemnity Covenant on title is required prior to final adoption of the rezoning bylaw.

#### Subdivision

At future development stage, the developer will be required to pay Neighbourhood Improvement Charges (for future road improvements) and Servicing costs.

**Analysis**

The subject property is located within an established residential neighbourhood that has a strong presence of lots zoned Single-Family Housing District, Subdivision Area B (R1/B), created from larger lot sizes. Of the remaining lots zoned Single-Family Housing District, Subdivision Area B (R1/B) and Two-Family Housing District (R5) on Lockhart Road, most have the potential to rezone and subdivide.

**Financial Impact or Economic Impact**

None.

**Conclusion**

This rezoning application to permit subdivision of an existing large lot into two (2) smaller lots complies with Lot Size Policy 5447, complies with all applicable policies and land use designations contained within the OCP, and is consistent with the established subdivision pattern in the surrounding area. On this basis, staff support the application.

# Policy Manual

Page 1 of 2	Adopted by Council: September 16, 1991 Amended by Council: July 20, 1998 Amended by Council: October 20 <sup>th</sup> , 2003	POLICY 5447
File Ref: 4430-00	SINGLE-FAMILY LOT SIZE POLICY IN QUARTER-SECTION 15-4-7	

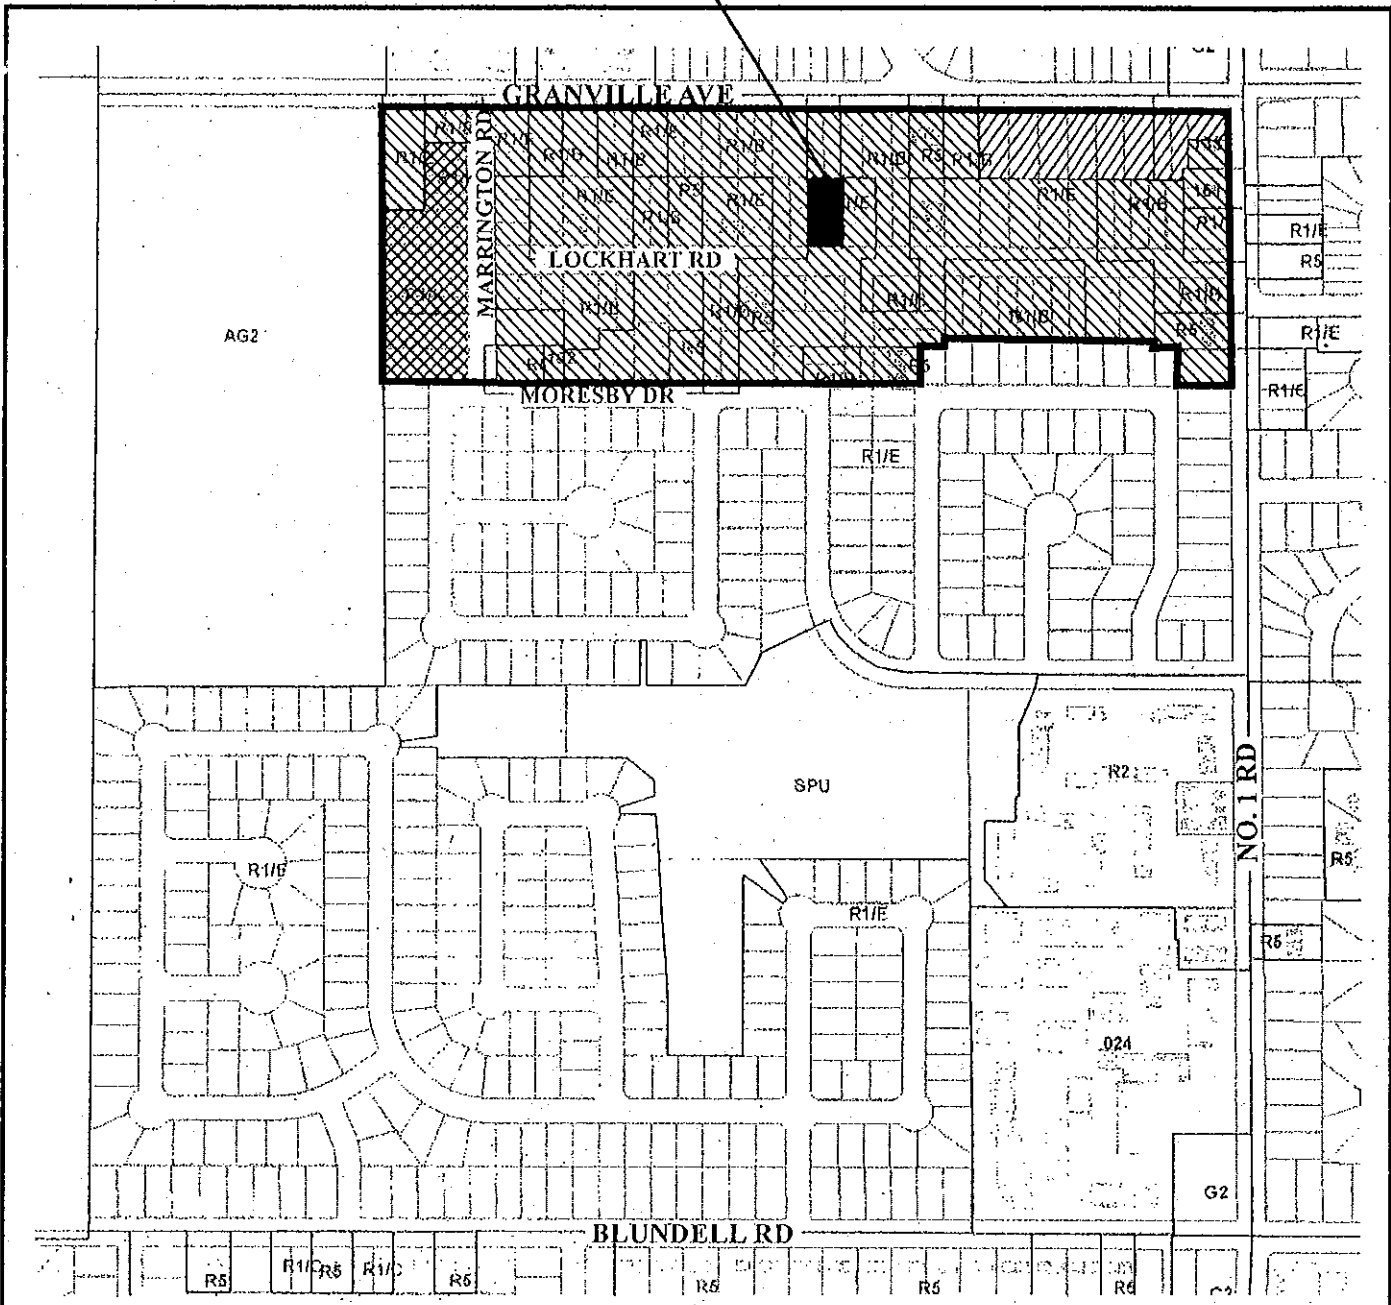

## POLICY 5447:

The following policy establishes lot sizes in a portion of Section 15-4-7, located generally between the **south side of Granville Avenue, the west side of Marrington Road, the north side of Moresby Drive and No. 1 Road:**

That properties within the area generally bounded by the south side of Granville Avenue, the north side of Moresby Drive, the west side of Marrington Road and No. 1 Road, in a portion of Section 15-4-7, be permitted to subdivide in accordance with the provisions of Single-Family Housing District (R1/B) in Zoning and Development Bylaw 5300, with the following provisions:

- a) That properties between and including 3620 and 3780 Granville Avenue be permitted to subdivide as per Single-Family Housing District (R1/C) zoning;
- (b) That properties between and including 7151 and 7031 Marrington Road be permitted to subdivide as per Single-Family Housing District, Subdivision Area K (R1/K) zoning;

and that this policy, as shown on the accompanying plan, be used to determine the disposition of future single-family rezoning applications in this area, for a period of not less than five years, unless changed by the amending procedures contained in the Zoning and Development Bylaw.

Subdivision permitted as per R1/B with the following provisions:  
 1. No. 1 Road R1/E unless there is a lane access then R1/B.

2. Between 3620 and 3780 Granville Avenue R1/C.

3. Between 7151 and 7031 Marrington Road R1/K.

## Rezoning Considerations

**3731/3733 Lockhart Road**  
**RZ 08-403603**

Prior to final adoption of Zoning Amendment Bylaw 8413, the following items are to be dealt with:

1. Installation of tree protection fencing, to City standards:
  - a) around the drip lines of the two (2) Norway Maples (Trees # 540 & 541) at a minimum distance of 2 m from the base of each tree;
  - b) around the drip line of the Portuguese Laurel (Tree # 542) at a minimum distance of 1.8 m from the base of the tree; and
  - c) around the drip line of the off-site Birch (Tree A located at 3751 Lockhart Road) in accordance with the recommendations in the Arborist's report (5.3 m x 11.5 m west of the east property line).

Tree protection fencing must be installed as a condition of rezoning or prior to demolition of the existing dwelling on the subject property (whichever occurs first), and must remain in place until construction of the future dwellings on the site is complete.

2. Submission of a Contract entered into between the applicant and a Certified Arborist for supervision of any on-site works conducted within the drip lines of the two (2) Norway Maples (Trees # 540 & 541), the Portuguese Laurel (Tree # 542), and the off-site Birch (Tree A), which should include a post-impact assessment report (if applicable), to be reviewed by the City.
3. Submission of a Survival Security to the City of Richmond in the amount of \$3,000 (\$1,000/tree) to ensure that the two (2) Norway Maples (Trees # 540 & 541) and the Portuguese Laurel (Tree # 542) are not negatively impacted during and following proposed future development.
4. Submission of a Landscaping Security to the City of Richmond in the amount of \$4,000 for the planting and maintenance of eight (8) replacement trees four (4) per future lot], with the following minimum calliper sizes/heights:

# Replacement Trees	Min. Calliper of Deciduous Tree		Min. Height of Coniferous Tree
2	9 cm	or	5 m
4	10 cm		5.5 m
2	11 cm		6 m

5. The City's acceptance of the applicant's voluntary contribution of \$1.00 per buildable square foot of the single-family developments (i.e. \$6,856) to the City's Affordable Housing reserve.
6. Registration of a flood indemnity covenant on title.
