Subject: Thank you for taking steps - banning sale of dogs in stores
Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

I am very hopeful that this bylaw will come into effect, making Richmond THE leader when it comes to protecting our pets!

Our family has "rescued" three dogs who were homeless through no fault of their own. Each of these dogs was given up by their previous families because the dogs were "too much to care for" and "taking too much time".

When a dog is adopted through a rescue organization there is a more rigorous qualifying process before the pet can be adopted. Unlike stores who simply sell to anyone with the bucks to buy. A dog can be an impulse buy just because it is cute and sweet in the window, and the new owner may have no idea what they have committed to. When that cute little puppy becomes a high-energy four-legged teenager the fun is over – the dog is given up.

There are so many good loving dogs needing homes in shelters across B.C.
There is no need to buy one at a store.

Thank you for taking steps to ensuring dog ownership is more carefully considered by a family and not enabling them to simply buy one on a spur of the moment.

Subject: Puppy Ban.
Categories: UCRS CODE / File Number: 12-8060-20-8663

Mayor and Councillors,

I would like to just say first and foremost thank you all so very much for all the hard work you have put in thus far in regards to banning puppy sales in storefronts. I am proud to be a Richmond resident, but this alone makes it even better. Having been a volunteer at the Richmond SPCA Education and Adoption Centre I have seen many puppy mill dogs and puppies coming through and even though they have been "cleaned up" before they make it to our location a lot of their issues still remain. I believe that by pushing through with this ban we can really make an impact not only on our community but all others that are currently keeping an eye on this issue. I know you all have probably taken a lot of flak from many people, but please remember that these animals can't help themselves and only want to show their new family love.

Thank you all so very much,

Rachell Weist.

Subject: Letter from Canadian Federation of Humane Societies re: pet store ban of sale of dogs
Categories: UCRS CODE / File Number: 12-8060-20-8663

Dear Mayor and Council,

Please find attached a letter from the Canadian Federation of Humane Societies, a national organization which represents SPCAs and other humane organizations across Canada. After meeting with PIJAC representatives at the pet industry's Animal Strategies Meeting in Banff last month, they issued this formal response with respect to Richmond Council's proposed ban on the sale of dogs in pet stores and PIJAC's discussions on a national code of conduct.

I also wanted to let you know that several other municipalities have contacted us, expressing support and interest in Richmond Council's proposed ban and asking for background information for their own regions.

As well, Richmond Council is cited by Langley Township Councillor Jordan Bateman in an article that will appear in the Province newspaper this Sunday in the pet section. As you will be aware, Langley Township councillors recently voted unanimously on a motion directing staff to draft a bylaw regarding the sale of dogs and to bring back the proposed bylaw within eight weeks. In the upcoming Province story Councillor Bateman applauds Richmond Council's leadership and says it has made it "100 times easier for us to do something in our own community".

Best regards,

2 November, 2010

The CFHS wishes to clarify that it opposes the sale of cats and dogs in markets or pet stores, other than animal shelter and/or animal rescue satellite adoption centres. As a member of the National Companion Animal Coalition, we have agreed to contribute to discussions on the development of Codes of Conduct for the pet industry. It is our understanding that such codes would aim to establish some basic principles that would apply to all pet sources with the goal of improving the care of animals as well as providing protection for the public acquiring them. The participation of the CFHS in these discussions is in no way an endorsement or support of the sale of cats and dogs in pet stores. The proposed pet industry Codes of Conduct are specifically intended for the pet industry and may not necessarily reflect the values and principles of the animal welfare sector.

Subject: A letter to the Mayor: support for the ban of puppy-sale in pet's store
Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

To whom it may concern,

I am a BCSPCA volunteer, and I am sending you this e-mail to express my support and opinion about the ban on puppy-sale in pet's store in Richmond.

Many of the puppies sold in Pet's store came from illegal puppy mills where the breeding and caring environment is poor for both the puppies and their parents.

Although many of the related animal welfare programs have already tried to educate the publics about such problems, many people still buy their pets from local pet's store.

Therefore, in order to stop the demand for the puppies from such places (puppy-mills or illegal breeders), I support the law to ban puppy-sale in any one of the pet's stores in Richmond.

Afterall, I think this might be a good way to educate the potential pet's owners and the pet's store owners too.

p.s. On the side notes, although I do support this lawif the ban, it will be nice (and it really should be done) to know that the puppies that are still in pet's store (or suffering in puppy-mill) can find a good home :)

Thank you for your time.

Sincerely,
Pat C

2.) Additional comments:

The puppy mill situation breaks my heart and makes me so angry. It has come to the point that puppy millers will do next to anything to keep their "business" going and people who are sick of the puppy mills are willing to put their own safety at risk just to find these place to shut them down. It has become a dangerous, greedy industry and we need people like you to help put an end to it. Thank you.

Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

Good Morning,

I highly support the bylaw that Richmond City is putting forth. People just don't understand that most pet stores receive their live 'inventory' from puppy mills whose conditions are absolutely deplorable.

We need to ensure these mills are shutdown for good and this is a good start. Less demand, less supply required, less horrific conditions for those animals who are currently 'used' for this demand.

Sincerely,

Miriam Lenting

Subject: Proposed Animal Relations Program - 2.doc - OPEN LETTER TO MAYORS & COUNCILLORS, MEDIA
Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

Dear Mayor & Councillors, Bylaw Managers, Manager Municipal Animal Shelters(Pounds) & Media

The ongoing, largely unabated dilemma experienced across North America can be resolved where the "Political will" exists to do so. Many progressive Municipalities have adopted partial bylaw solutions, by adopting partial Bylaws to govern certain aspects of Animal Welfare/Control but sadly, most stop short of adopting comprehensive long-term solutions for some unknown reason.

We have taken the initiative and now take the liberty to provide you with solutions that have been on our web.site since approximately 1995 or thereabouts. You can read the attached copy or conversely, view our web.site at www.thecouncilclaw.ca 'click' OUR POSITION ON ISSUES and 'scroll' down to reach SECTION 31 ANIMAL RELATION PROGRAM.

In either event the solutions are there to those who wish to resolve the issue, the important thing is to read, understand, act and this can be gradual, using the complete Section 31 (incorporate additional component 'click' Fines & Penalty for recommended fine amounts, etc.) as a 'checklist' to follow. Thus, developing your own legal jargon, that your Bylaw people are more well versed at composing, as we merely, in most cases, outline concept and important components, not necessarily the legalese.

The other important point to realize, it must be a 'regional' approach, such as Greater Vancouver Regional District or Fraser Valley Regional District, several adjacent Municipalities or ideally Province wide, as the problem and its cause is Province wide, thus, the broader & greater attack to remedy, the more likelihood of success. Further, you must have the conviction to do what is needed & right, not be swayed by self-interest groups, such as PIJAC (representing some Retail Stores) or "Professional Dog Breeder Organizations" who include breeders & show dog clientele (most "Professional Breeders" can be excluded from the Bylaws proposed).

The point may be self-explanatory but for example, the City of Richmond recently adopted a "No sale of pets in Pet Stores" which is admirable, in part, to fight puppy (kitten) mills (if only in Richmond, B.C.). Thus, if Richmond stops selling pets in pet stores, the indiscriminate breeder just moves to Delta, or Surrey, etc. But it is an international problem or at least locally, regional in nature. Thus, to have greater impact and effect, all (adjacent) Municipalities need to adopt such a provision, which in itself is but a small part of the overall Animal Relations (let me hasten to add, Richmond has, like some other Municipalities adopted other bylaw components, like spay & neuter, but in each case, just not broad enough to have greatest effect, per the objective our (program), as reading, will attest for you.

It follows, for example, if a retail ban is in effect good but to combat more effectively the "puppy & kitten mill" dilemma, a "Breeder Permit" scheme is needed (breeding for personal use, Breeding for sale), thus, those permitted to breed Animals (dogs or cats) will obtain a "permit" and thus, a "registration number" and then this "number" must appear on all records, advertising of any nature, bill of sale, etc. The "Breeder Permit" when combined with the "Basic Animal Care & Control" bylaw, will set forth acceptable standards of breeding & care. Hence, the puppy & kitten mill can become an injustice & cruelty to Animals, of the past. Facilities of all "Registered Breeders" can be inspected and any un-registered Breeder heavily fined, rendering, for example, a puppy mill as unprofitable.

Another important point to understand is, "fines must be a minimum twice as much as complying", as each is added as a "cost of doing business" (same rationale applies to any infraction, fines must make it unprofitable & unpopular) to have success to create the deterrent factor or subsequent penalty factor. For example, a spay operation of \$ 50.00 must have at least a \$ 100.00 fine for non-compliance.

To my thinking it is a "no brainer" that if elected politicians wish to represent constituents and make their Municipality safe from roaming/vicious dog attacks, animals not breeding prolifically causing mass over-population, strays & feral cats all over, then action must be swift and conclusive.

We have witnessed the 'blip' in media coverage when a vicious attack upon a child, causing severe injury, recently the Horse being attacked, earlier pet Dogs killed or Cat maimed and on and on, just a matter of "when" not "if" as it will happen. But my point, it is clear most (politicians) have elected to "ride out the bad media for a few weeks (unfortunately short attention span prevails)", then it is back to normal, until next time, hopefully in another Municipality. The lack of compassion, indeed perceived indifference is overwhelming and I must profess I do not understand why or why most politicians are perceived negligent, and do not seem to care or take prudent measures to (prevent) harm. For years thousands of Cats were unceremoniously killed as a population measure, an out of sight out of mind, until massive public pressure, notably upon BCSPCA caused measures to change.

So, I will not belabour the matter further, at this time, except to strongly encourage all to read, understand and agree to act along the lines prescribed in our Animal Relations Program. The solutions are mostly evident, quite easy to adopt if the compassion & political will exists but please, consider doing as a major region with your neighbour Municipalities. While at it, look at our "Gallery of Horrors" to gain some additional insight to animal cruelty that prevails and will continue, possibly in your Municipality, until you take progressive steps to remedy. In closing, whether "dangerous or vicious dogs, to unsafe roaming dogs, to prolific cat breeding & steady stream of strays at your door" they will persist (in varying degree of severity or frequency) until you act to protect Animals and responsible Guardians.

Yours truly,

George F. Evens

Subject: Ban the sale of puppies at pet stores
Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

Please help the City of Richmond become a national leader in the fight against puppy mills. Stop the sale of puppies at pet stores. There are many animals waiting at animal shelters that are waiting patiently to go to a loving family. Many of the animals end up here because people see these cute little puppies at a pet store, buy one, and when they grow up and aren't puppies any more give them up to animal shelters. Stop this evil cycle and put a stop to this cycle. Also many of these puppies come from puppy mills that are abusive to their animals. There have been one to many stories about puppy mills and there should be a stop to this. Help protect the animals!

I for one would not puppy from stores and I have actually asked people in stores looking at puppies not to buy from them- some have been in cages for months. My daughter an family work with SPCA and take in different dogs from Richmond SPCA 2-3 times a week and week-ends. STOP THE SELLING OF DOGS AND CATS FROM RETAIL STORES.

RE: Sale of Puppy Ban

Dear Richmond City Council,

May I start off by congratulating the work of council in this matter so far. What you have done marks a landmark in taking action against animal cruelty and unethical business. You truly have set a precedent for others to follow.

I am, very active in the dog community; through rescue, BC Guide Dogs, Canine Search and Rescue and the local Golden Retriever community, and thus have significant experience both with shelters and with dogs bred by reputable breeders. Via myself, several online communities, particularly the Golden Retriever Online Forum, have been following your progress and as result 25 different municipalities across the US, England and Kuwait have initiated a ban on pet store puppy sales as a result of your action.

I have fostered dogs, including ones that have come from puppy mills, backyard breeders and pet stores. I have also been involved in training Seeing-Eye Dogs and I am the proud owner of a purebred Golden Retriever who I am currently training for both Dog Therapy (West Coast Assistance Teams) and Search and Rescue (Surrey Search and Rescue). His registered name with the Canadian Kennel Club is Redgold Prince of Persia ("Cosmo"). His pedigree and other information (including health clearance) on dogs in his line can be seen at K9Data. (<http://www.k9data.com/pedigree.asp?ID=254272> and <http://www.k9data.com/pedigree.asp?ID=216072>). You are welcome to contact Redgold (www.redgold.org), our breeder, at any time to ask about Cosmo and all the dogs in his line, and to visit her breeding dogs. Her dogs are kept inside her home, while others are co-owned with families around BC. Absolutely none live in kennels and all are active in various venues, including show, work or other competition. A copy of our contract and CKC registration is readily available should you wish to view it.

Since at the previous council meetings on this matter no reputable breeders were present I would like to give you some important information of what the dog community considers a "reputable" breeder. I hope this information will provide the necessary information to show that no reputable breeder would under any circumstance sell a puppy or adult dog to a pet store. Thus the claim that pet stores use reputable breeders must be false. Similarly, the idea that in the future the city could enforce the use of reputable breeders for pet store is negated by default since there are no reputable breedersthat can or would provide dogs to pet stores.

11/02/2010

- Reputable breeders only breed purebred and Canadian Kennel Club registered dogs. These breeders must be part of the CKC in good standing. The CKC by-laws (<http://www.ckc.ca/en/Default.aspx?tabid=101>) forbid breeders to sell dogs to pet stores (section III.G). Reputable breeders adhere to the CKC by-laws and will go significantly beyond these by-laws to ensure that they are meeting more than minimum standards in dog breeding. Breeders meeting only the CKC by-laws are not considered reputable by the dog community.
- Reputable breeders regularly test their breeding dogs for health issues common in each breed and make that information available to the general public. Those that do not pass cannot be used for breeding (section III.E).
- Reputable breeders are experts on the breed they work with, and they only produce litters in order to make their breed better – healthier, stronger, longer living, smarter and more in keeping with the breed standard. They do not breed first and foremost to produce puppies for sale. They select dogs for breeding who have excelled in various different fields. For example, a Golden Retriever chosen for breeding may be expected to not only be healthy and have a good temperament, but to have performed exceptionally in the field, in search in rescue, in obedience trials or other competition or work venues.
- Reputable breeders are active members in their local breed club and dog competitions. They often are part of breed rescue and have a good reputation, and thus are part of the breeder referral programs that clubs run.
- Reputable breeders carefully breed dogs to bring in new genes and may import a stud dog from across the country or even world to achieve this.
- Reputable breeders only breed a few times a year and do not generally have more than one litter at a time. Their puppies are all spoken for before the puppies are born or sometimes even before a breeding occurs. Sales are achieved because of the breeder's good reputation and referrals from breed clubs, not advertising.
- Reputable breeders take specific steps to socialize their puppies from the day they are born, exposing them to different sounds, smells, sights and textures. They send their puppies home not before 7 weeks of age.
- Reputable breeders understand and educate their puppies' new owners about the importance of early socialization once in the home, noting that puppies must be socialized with everything around them (walking on a leash, being on a busy street, meeting other pets, etc.) before approximately 14 weeks of age in order to develop normally. They highlight that a dog kept inside or in a cage all day when it is young can not develop normally.
- Reputable breeders do not make profit. The cost of taking care of their dogs, breeding reputably, taking their dogs across the world for show, work and competition, usually far outweighs the money made on the sale of a litter.
- Reputable breeders select the homes of their carefully bred puppies with utmost care and scrutiny. They may turn down many applications and only select homes that are knowledgeable about dogs, and often the specific breed, and look for homes that have an interest in participating in competition and work venues with their new puppy as well.
- Reputable breeders do not allow people to simply select their own puppy from a litter but rather choose the appropriate puppy in a litter for the home based on various tests. The idea of selling their precious litter to a pet store which does not have breed expertise and cannot guarantee that each individual puppy go to a home that matches the puppy's temperament would be unheard of.
- Reputable breeders stay in constant contact with the new puppy owners and will take the dog back if the owners should not or do not want to keep it, either to re-home or to help train. Contract forbids the new owners to get rid of the dog to a shelter or other home.
- Reputable breeders have a life-long contract between them and the new puppy owners that must be upheld (see for example <http://www.rebelcreek.com/agreement.html>)

I myself or any number of reputable breeders would be more than happy to consult on this matter further with council if necessary.

Again, congratulations on your fabulous work thus far,

Jacqueline Young

Dear Mayor and Councillors:

Richmond City Council's move to ban the sale of puppies in pet stores is a much-needed, progressive, and bold step on behalf of abused and neglected animals and I am heartened to know that the City of Richmond is poised to become a national leader in the fight against puppy mills. The suffering that dogs endure as a result of puppy mills, made abundantly and painfully clear at the recent City Council meeting, is utterly unacceptable and your step to ban the sale of puppies in pet stores is an important piece in a strategy to put an end to this cruelty. Animal welfare must be a priority in every civilized society and I am grateful for the contribution Richmond City Council is making to that end. Your example will pave the way for other cities and municipalities throughout Canada to do the same.

Sincerely,

Cristina Faure

To Richmond Council,

Hi I'm a resident of Richmond and I support the ban of puppies across pet stores. I feel that pet shop owners and employees focus on their sales too much and not enough on the overall well fare of the pets. Their prices are unreasonably high and not necessarily all the animals come with a healthy background. In fact the amount of money an owner puts into a pet from a pet store can double compared to that of an appropriate breeder. My concern regarding the ban of puppies in pet shops may open up a financial opportunity for all those backyard breeders. How healthy are those pets going to be? How do we know where to obtain the healthy pets?

Dear Mayor and Councillors,

As you know, the City of Richmond is poised to become the first jurisdiction in Canada to ban the sale of puppies in pet stores and is now in a public consultation phase before the bylaw is brought back to council for final approval in November.

I completely support this bylaw! I support your progressive and bold step on behalf of abused and neglected animals. Please turn this into law. I urge you to do the right thing.

Sincerely,

2.) Additional comments:

Kudos to Richmond for being a trailblazer in the fight against puppy mills. Puppy mills are a major cause of not only ongoing animal cruelty and abuse but of animals dying in shelters across the province. Every dog sold out of a pet store means one dog dies in the shelter.

It is my hope that all other communities in the province will follow Richmond's lead. Thank you.

2.) Additional comments:

I know there are a lot of pet stores in Richmond selling puppies that are so tiny, they appear sickly. Maybe they are too young and should not be taken from their mother yet. Please ban the sale of puppies in pet stores. I hope other cities will follow. Having purchased my dog from reputable breeders that register the dogs through the CKC, I try to educate friends and family when they want to get a pet.

Mayor and councillors

My husband and I are volunteers in Richmond at the SPCA. We foster dogs (and other animals) on a regular basis. Over the years we have fostered many dogs from puppy mills or pet stores. They were bought on a whim and when the owners didn't want them they dropped them off at the SPCA.

We've seen first hand what happens to these dogs, many of them pure bred, when they are not properly trained or get the medical attention they need. It's so sad.. and we work very hard to house train them work with their issues of abandonment, separation anxiety and lack of socialization. Please vote yes to ban the sale of puppies at pet stores.

we are in total support of this bylaw

**HUMANE SOCIETY
INTERNATIONAL**
CANADA

OCTOBER 14, 2010

Canada's First Ban on Puppies in Pet Stores

Humane Society International/Canada

Stop puppy mills. The HSUS

HSI Canada applauds Richmond (a Vancouver suburb) City Council for drafting a bylaw amendment that will ban the sale of puppies in commercial pet stores. The amendment, originally proposed by Councilor Ken Johnson, is the first of its kind in Canada, and will give pet store owners until April of 2011 to phase out the sale of puppies in their stores.

Investigations have shown time and again that the vast majority of puppies sold in pet stores come from puppy mills, cruel mass-production facilities where the breeding dogs are often confined to small wire cages for life and often deprived of the basics of humane care, solely to produce puppies for the pet trade. HSI Canada hopes that Richmond's actions will inspire other councils across Canada to take similar actions to combat the cruel conditions in which dogs are factory-farmed for profit, and congratulates Richmond for having the courage to be the first city in Canada to take this important step towards reducing the demand for puppy mill puppies.

Stopping puppy mills

Humane Society International/Canada fully supports banning the sale of puppies in pet stores, and, as part of our campaign against puppy mills, encourages pet stores across Canada to sign our [Puppy-Friendly Pet Store Pledge \[PDF\]](#). Close to 50 pet stores across Canada have signed on to our pledge in the past two years, thus making it more difficult for puppy mill owners to find distributors for their puppies, and encouraging owners to adopt dogs from shelters.

Shelters throughout Canada needlessly euthanize countless dogs every year as a result the soaring pet population and the difficulty of re-homing adult and pre-owned dogs. By banning the sale of puppies in pet stores, the city of Richmond has taken Canada one step closer to shutting down inhumane puppy mills forever, and to being able to guarantee all dogs the proper care and love that they deserve.

We hope that councils across Canada will do likewise and ban the commercial sale of puppies through pet stores. While there will always be demand for puppies, we highly encourage people to adopt from their local shelter or purchase only from small, reputable breeders they have met and screened in person, instead of putting themselves at risk by buying from a potential puppy mill, either directly or indirectly.

Take action

Humane Society International/Canada encourages all dog lovers to write to their local councilor and suggest a similar ban. We also encourage you to write Richmond newspapers (Richmond Review, Richmond News, Vancouver Sun, and the Vancouver Province) to voice your support.

With this first step taken, we hope that councils across Canada will follow the example of Richmond, as well as several [U.S. cities](#), which already have such bans in place, and ban the sale of puppies in pet stores. Albuquerque, New Mexico, for example, banned the commercial sale of companion animals in 2006. The city's veterinarians say that the situation for these animals has markedly improved since then, reporting a 35 percent drop in the euthanasia of animals in shelters, and a 23 percent rise in animal adoption.

Mayor & Councillors

I am extremely pleased with the proposed ban on the sale of puppies in Richmond pet stores. I support this courageous initiative 100%.

My family and I foster for the SPCA Adoption Centre in Richmond, which involves bringing dogs and puppies into our home overnight. While many dogs come from places of neglect and sometimes abuse, many come from pets obtained, inadvertently or other, from a puppy mill source.

We as humans can and should change the way these loving creatures are viewed in society. One day, hopefully in years to come.....we change for the better. I believe this is a small step in the right direction.

You have my support.

Sherri and Jeff Oshowy & family

I don't live in Richmond but, I whole heartedly support your ban of placing puppy mill animals in Pet Stores.

I hate the idea of animals being bred to death and living only in a cage their whole lives. That's not why animals are put on earth. These mill dogs/cats are kept in cages and never let loose, they're not bathed, groomed or anything like how a dog should be looked after.

Humans wouldn't want to live in a cage all their life why should an animal.

Yes, I'm a dog lover BUT, I hate the people who do puppy mills, they're so cruel to animals.

I wish my civic government (Surrey) had the foresight like your council and ban these people from putting their animals from puppy mills in pet stores.

All I can say is I hope your council passes this by-law it will do so much good for animals and would be a great leading city for the rest of Canada to follow and it will take off around the world not just Canada.

Good luck to you in getting this legislation passed. If you've ever seen a dog that has been bred to death come out of one of the mills, you wouldn't hesitate to pass this law. You've never seen anything so sad in you life as a dog that had to live a puppy mill life. Grown men have cried when they saw a dog come out after living in a mill.

Thank you for reading this letter I hope it'll help you make up your mind and vote to stop this cruelty

Dear Mayor,

Please support the ban of selling pets in pet stores. This only supports a corrupt and inhumane industry that causes untold pain and misery for thousands of helpless animals. Be a real hero and be the first to do the moral and right thing! Ban it!

Thank you,
Michelle Gorman

2.) Additional comments:

Hi. I encourage you to please pass this law. Puppy Mills are a disgrace to society. There are hundreds of thousands of stray / homeless dogs in this world. I have travelled to many places around the world and nothing is more evident than that. Puppy Mills are a HUGE contributor to this problem world wide. Everytime someone buys a puppy from a store, another dog dies in a shelter or on the streets. This issue needs to be made public. We NEED to put an end to this. Thank You.

2.) Additional comments:

I bought a puppy mill havanese quite by accident, of course.. - She had years of health problems where even the 'head vet' at the Van. Aquarium (Dr. Huff) could not determine how to alleviate her serious malaise . The emotional cost to families is too high - these puppy-mill 'Greeters' want to make a quick 1K. After countless vet visits she died at age 3. The only way to stop a shameless individual is levy massive fines, since the only language they speak is 'dollar' anyway.

Please describe the problem or concern you wish to report:	I am a huge supporter of the SPCA and love our province of British Columbia. I would just like to congratulate your city council on their wonderful decision to ban the sale of puppies in pet stores. I have always gotten my pets from rescue operations and the spca and was so thrilled to hear about this. I am currently finishing my grade 12 and still deciding where to move for post-secondary. Your city council's attention to the welfare of animals certainly makes me want to move to Richmond!

To: MayorandCouncillors
Subject: bylaw banning dogs/puppies at pet stores
Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

Dear Ladies and Gentlemen

I am writing to support the proposed by-law banning the sale of dogs and puppies in pet shops and urge you to ensure that the proposed by-law to protect those who cannot speak for themselves is enacted upon.

It was with amazement that I heard a pet shop owner (opposing this by-law) give the impression that his animals came from a "good company". I have seen photos of the animals at puppy mills in atrocious condition and these mills need to close down. The one effective way to do that is to stop these unfortunate creatures from being sold in pet stores. The pet stores will no doubt make up this revenue by selling the products that they have in their stores.

Sincerely,

Juanita Stander

Thank you for being a leader in the fight against puppy mills!
Date: 27-Oct-2010 1:21:37 AM
Elizabeth Lu

1.) Dear City of Richmond Mayor and Council, thank you for becoming a national leader in the fight against puppy mills. As a resident of British Columbia, I support your progressive and bold step on behalf of abused and neglected animals. Sincerely,

Name: Ms. Elizabeth Lu

Email: betty_lu2@hotmail.com

Email Opt-In: No

Email Format: Address 1: 804 Anderson Avenue Address 2:

City: Victoria

Province / State: BC

Postal Code/Zip Code: V9A 4R3

Country: Canada

Phone Number: (250) 813-2156

2.) Additional comments:

Please, let us all put a stop to puppy mills and the horrific cruelty it stands for. As a country with laws to protect our animals from cruelty, we can't sit by and let puppy mills continue to thrive.

Again, I plead that something be done to protect those that cannot protect themselves.

2.) Additional comments:

As we learn to deal with our animal companions on the earth with respect and kindness so will we learn to be kind and good to one another. This proposed ban on pet store sales which support puppy mills, is a good start.

2.) Additional comments:

Animals are real beings who feel pain just like us. Imagine your children raised in a puppy mill. Sounds pretty repugnant doesn't it? Those animals deserve better. Thank you city of Richmond for being so ethical and empathetic to animals. You have started an excellent trend and we know others will follow.

Bless you.

2.) Additional comments:

Animals are life long commitments they should not be an impulse buy. Pet stores are an outlet for this behaviour and it needs to be put to an end. People need to be aware of where the cute little puppy or kitten is coming from. They need to be educated on the facts and understand the suffering that occurs in order for the pet store to have this merchandise. I personally refuse to shop at stores that sell such animals. And I think that with the passing of this bylaw or even just the discussion of this issue and the public attention that it will get, is a move in the right direction. I hope that this will be the beginning of the end of puppy mills. Thank you again for your action against this atrocity.

2.) Additional comments:

I would love to see this bylaw passed. What a step towards the prevention of cruelty to animals! I would like to see the other cities across Canada follow your example and pass this bylaw. Thank you very much for setting such a high standard, I admire your bold move in the right direction; the direction that will lead eventually to the freedom of animals from abuse and neglect.

City: Nanaimo

Province / State: BC

Postal Code/Zip Code: V9T 5W3

Country:

Phone Number: 250-756-3656

2.) Additional comments:

Dear Richmond Council: A HUGE thank you for showing the way to other districts to STOP the practice of selling animals (any live species) through Pet Stores. Their sole aim being to make the highest dollars they can, without a care in the world for the little puppy/kitten/etc. I've also heard disgusting rumours that once an animal becomes too old/less cute then they are ruthlessly killed to accommodate another batch of "cute" money-makers. WELL DONE.

Barb Burtwistle

2.) Additional comments:

I am doing a report for my Criminal Justice class on the prevention of puppy mills. I chose this topic specifically because of the recent vote to ban puppy sales from pet stores in Richmond. I think this is a great first step to prevent to problem, and hopefully other jurisdictions will follow suit.

I think this is an amazing thing to do, and I hope that the bylaw gets passed.

Thank-you

2.) Additional comments:

Reputable breeders who care about the well being of their puppies do not sell to pet stores! People who buy puppies from pet stores are not making an informed decision and often these puppies end up being re-homed, in rescue, at the shelter, or euthanized. Having worked in rescue for many years, I have witnessed this first hand. I do believe that by laws like this are so important in the fight towards well being of animals and pet overpopulation. We need to wipe out the disgusting puppy mill market. Eliminating the sale of puppies from pet stores is a huge step! I sincerely hope this passes and spreads across Canada.

2.) Additional comments:

I used to live in Vancouver and work at the BC SPCA Richmond Animal shelter. I also currently own and operate a pet supply store in Rossland, BC.

As a previous employee in Richmond I whole heartedly believe that your bylaw is the most progressive and proactive action against animal cruelty that this province has seen in a very long time.

As a pet supply store owner, all I can say to other pet store owners and any and all pet store customers... "What conscientiousness animal breeder in their right mind would allow a pet store to find homes for their animals?"

When one realises that the answer is 'none' one realises that pet stores selling puppies and other animals are not, and cannot, be getting their puppies from ethical breeders who care about the animals they are farming.

I beg you to stand by your current actions and do not listen to an extremely loud, unethically funded, for-profit only, voice of the large pet stores and organisations that will oppose your wonderfully progressive bylaw.

Please continue on with your bylaw and set a precedence that I cannot wait to take to my local council here in Rossland.

2.) Additional comments:

I once worked in a pet store that sold puppies, and sadly remember the lines we fed to the public in order to reassure them that we ethically sourced our animals. So it's not surprising to me to hear these same lines coming from the mouth of the pet store industry in Richmond. And the idea that banning pet store sales will drive it all underground is completely unfounded. Internet sales were and will continue to be a major source of puppy mill and backyard breeder dogs, regardless of pet stores. But not allowing puppies to be sold in pet stores will limit the number of impulse purchases, which is a major victory in my opinion. Keep up the great work!

Subject: Ban of Sale of Puppies in Richmond Pet Stores
Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

Dear Mayor and Councillors:

Richmond City Council's move to ban the sale of puppies in pet stores is a much-needed, progressive, and bold step on behalf of abused and neglected animals and I am heartened to know that the City of Richmond is poised to become a national leader in the fight against puppy mills. The suffering that dogs endure as a result of puppy mills, made abundantly and painfully clear at the recent City Council meeting, is utterly unacceptable and your step to ban the sale of puppies in pet stores is an important piece in a strategy to put an end to this cruelty. Animal welfare must be a priority in every civilized society and I am grateful for the contribution Richmond City Council is making to that end. Your example will pave the way for other cities and municipalities throughout Canada to do the same.

Sincerely,

Leilani Riddle

2.) Additional comments:

This has got to stop. The pet overpopulation is out of control. Some of these animals that give birth to these cute puppies and kittens live in deplorable conditions. The argument that you cannot get specific breeds at the rescue sites is not true. You can get any purebred you want from a rescue society that makes sure the animal is spayed or neutered before being adopted. These people that get their pets from pet stores, including kittens, do not necessarily get their animals fixed which perpetuates the problem. Please stop the sale of live animals in pet stores. Birds too are available at rescue sites. Just stop...please.

2.) Additional comments:

Kudos to Councillor Ken Johnston and supporters! A ban would remove one of the ways puppy mills "move product". That could create a drop in easy profits and help end this appalling industry.

2.) Additional comments:

Mayor Brodie and Councillors;

I previously worked in a Veterinary hospital for five years and encountered many instances of people purchasing their pets from pet stores. In one very sad case, several purebred Balinese kittens purchased from a pet store, had to be euthanized as they were all FIV positive. The breeder was aware that he was breeding a female that was HIV positive and the pet store owner continued to buy from this breeder, once notified. These are stories that most consumers don't hear about and the only way in which to mitigate this situation is to ban pet stores from buying from puppy/pet mills. I fully support the BCSPCA and their endeavor in which to pass this ban in Richmond and hope all of BC follows this progressive and responsible choice.

Sincerely,

Nikki Hughes

2.) Additional comments:

This is an amazing bylaw that will greatly help improve the lives of dogs in Canada. These animals cannot speak for themselves so by passing this bylaw we can make sure that puppy mill dogs with health problems and birth defects do not have to end up in pet stores or as breeding dogs. No responsible breeder would ever sell their puppies in a pet store! Please continue to support this bylaw! There may be some criticism and adversity, but this is the first step in the fight against puppy mills, so send the right message and continue to support the ban against the sale of puppies in pet stores!

2.) Additional comments:

I am already a monthly member/donator to the BCSPCA

Puppy mills & sales of pets in pet stores should have been banned ages ago. It is unspeakable animal cruelty to breed 'pets' this way. It should have never been allowed in the first place. I fully support the ban of puppy & kitten & exotic pets in pet stores.

2.) Additional comments:

As the owner of a rescued puppy mill female breeder it breaks my heart and angers me more than words can say how these animals are used, abused and neglected for pure profit. They are living beings with hearts and minds, not commodities. Any human being with any compassion would never do this, or buy one of the puppies if they knew where they came from. The SPCA is doing a great job at raising awareness...and the City of Richmond is to be commended for their recent bylaw reform. I hope that they stick to their guns on this.

Re: Pet store puppy sales banned in B.C. city

- I doubt anyone of you had PERSONALLY seen a US puppy mill.
- It must have been all "**He said - She said**"...
- Council voted against public opinion, just look at this pole results, and... the gap is getting wider / bigger!
Click here: <http://www.theglobeandmail.com/news/national/british-columbia/bc-ban-on-retail-dog-sales/article1755927/?from=1756167>
- I firmly believe Ms. Moriaty of SPCA had an agenda, a different one than what was presented, unfortunately.
- 10 years ago, they told me some Canadian are "weirdoes" and I did not believe them until...(see subject of this email)
- This is one major reason I moved out of Richmond. Sorry.

Subject: Thank you for your leadership in animal welfare
Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

Dear Mayor and Council,

I would like to formally express my heartfelt gratitude to you all, as a Richmond resident and as someone who has worked in the animal protection field during the past decade, for your outstanding leadership on the pet store ban issue. I know that it takes moral courage and strong leadership to take a stand, particularly when you are leading the way in Canada. I want you to know that the BC SPCA has had more positive feedback on this topic from individuals and animal welfare organizations across Canada, North America and in other parts of the world than on any other animal welfare issue we have dealt with recently. We look forward to seeing you again in November when the bylaw is voted upon, and we have already initiated meetings with other municipalities to promote a ban in other parts of B.C. There is certainly a lot of energy and interest on this topic, and I am so proud that it is my own City Council who has proposed this Canadian first. The BC SPCA is certainly more than willing to work in partnership with any parties, including pet stores, on animal welfare issues, but it is clear that provincial legislation will not be a reality in the near future, nor would it address the flow of dogs from puppy brokers from the United States. I strongly believe that your proposed bylaw, if passed, will be a turning point in the fight against the exploitation of dogs in puppy mills and will send a message that our community does not tolerate animal suffering.

Thank you again for all the hard work you do on behalf of my community. Your skills and dedication are deeply appreciated.

Sincerely,
 Lorie Chortyk

Bravo! Let's hope the rest of the municipalities in the country follow your lead.

Of course puppies (and kittens? - can't remember if kittens were included) for sale in pet stores come puppy mills. No reputable breeder would use a pet store as a sales point as they want to make sure their animals are going to appropriate homes. I hope the wording of your by-law includes all commercial outlets, not just the current three (except legitimate breeders - and the idiots who have one or two animals at home and don't have the brains to get their animals spayed or neutered).

I see your actions as another small step taken to improve the lot of animals in the world.

Regards,

Jan Nelson

Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

Dear Mayor and Councillor,

I was looking over the minutes of the Oct. 12th Council meeting, and saw mention of the website Kijiji that Tim Hansen, Assistant Store Manager, PJs Pets spoke of as a source of puppy-mill dogs if people can't get them from a pet store. I searched for all dogs in the Vancouver listings, and there were a lot -- around 1000 for people selling in out to Maple Ridge and beyond. However, when I narrowed the search to just Richmond, I found just four ads. Two of the Kijiji ads were for dogs at the Pets Wonderful store and one was for a dog purchased at Pet Habitat in Richmond Centre that someone was trying to get rid of. The forth dog is just a single puppy being re-homed. It doesn't appear that Richmond puppy mills are using Kijiji to advertise their dogs. However, pet stores are.

See attached PDF files for each dog mentioned here.

Sincerely,

Christie Lagally

Subject: City or province? Whose job is it to protect our animals?
Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

Dear Mayor and Councillors,

Thank you, once again, for making such a well considered and thoroughly researched decision to ban the sale of dogs in pet stores. Last week, the Richmond News took a bold position with the editorial "City takes a bit out of suffering" supporting your decision and their view seems to be the prevailing one in Richmond. However, the Richmond Review editor was unsure as to where his paper stood and posed the issue (and the often-cried protest of the pet industry), of animal welfare being a provincial issue. I would like to share with you my response to their editorial.

Dear Editor of the Richmond Review:

I am grateful for your editorial (Animal Welfare a provincial issue). Your position on whether the issue of banning vs. regulating animal sales by the city, is a valid concern, but it appears to be based on several pieces of wrong information.

First, you state that the ban "won't do anything to improve animal welfare in Richmond" and "purchases that end badly for the pet—represents a tiny fraction of puppies being raised in the city". This is incorrect. In fact, based on the number of dogs surrendered and abandoned at the Richmond animal shelter, 57% are purebred dogs and roughly 1/2 of those came into the Richmond Animal Shelter with either admission by the owner that the dog was purchased at the Richmond pet store or an actual receipt from the pet store. This 'tiny fraction' you mention, represents around 90-100 dogs per year in Richmond. So, actually, stopping the sale of animals in pet stores will make a difference, at least in the number of animals who end up at the Richmond Animal Shelter and the suffering they endure beforehand.

Second, you state that "this shouldn't be city business. The provincial government level—and the B.C. SPCA, which handles animal welfare issues for the province—is where these issues should be dealt with." Actually, this issue is very much 'city business' because it is the city that doles out the money to pay for our animal shelter to be filled with dogs from pet stores, and it's the city that controls and regulates the pet stores via the Business licensing bylaws. In fact, this is very much in the jurisdiction of the city, and since the pet stores continue to deny that they are purchasing from puppy mills, despite all evidence to the contrary by both CBC Marketplace and the BC SPCA, the city did what they could to regulate the pet stores and protect it's animal shelter from abuse by industry animal dumping — a shelter that is not run by the SPCA, but by RAPS. And even for those cities that have shelters operated by the SPCA, it was the BC SPCA that recommended that Richmond ban the sale of dogs by amending Richmond's business licensing bylaw.

Furthermore, despite the fact that it seems to be the popular statement in the last week to say "it's the Province's job to regulate dog breeding and sales", I have yet to see even one response from the Province or any indication they are going to do anything about this issue. And why would they? It's the city governments that suffer the costs and see the cruelty involved when animals are sold in their cities,

and the Province can't regulate what dogs breeders are doing in the States. So unless the Province is prepared to amend the business licensing bylaws for all BC municipalities to ban the sale of dogs in pet stores — which I certainly hope they do —, the City Council was right to spend their time on this difficult and heartbreaking issue.

*Respectfully,
Christie Lagally

I need to send a heartfelt thanks regarding your decision to ban puppy sales in your city. I feel that you have made an incredible difference for many animals. You have also set a precedent that I pray will be followed by many more cities in the near future.

Again thank you, and God bless all those who voted for such positive change.

Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

To His Worship, The mayor and Council Members,

On behalf of all animal lovers and the animals themselves being sold in pets stores currently ,we applaud your great efforts in banning the sale of dogs and cats in pet stores.

This is a big step in stopping the puppy mills and kitten mills where poor defenseless animals live in horrendous conditions. Taking one more venue away from where they can sell their "product" is a big milestone.

Thank-you all very much for showing great courage,

Sincerely, Brian and Carol Cunniff

Subject: Draft by-law banning sale of puppies in pet stores...YES!
Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

Ladies and Gentlemen,
 Hurrah, Hurray, Congratulations, Well Done, Take a Bow!

You have done the right thing in unanimously voting to draft the by-law halting the sale of puppies in pet stores. I am a Cairn Terrier owner who stumbled into the fact that there is such a thing as Cairn Terrier Rescue, 5 years ago. Since then I have become a foster home for Cairn Terriers, and am the foster home mentor for Canadian foster homes. In that role I have fostered several Cairns and supported other foster homes rehabilitating fostered Cairns, most of whom were breeding stock from puppy mills, no longer needed or no longer producing profitably. Our organization (www.cairnrescue.com) has taken in and adopted out over 2500 Cairns since its inception 10 years ago...mostly puppy mill dogs.

Most of the dogs arrive in ill health, with everything from a few to all teeth needing to be extracted, every kind of worm known to veterinary science, missing parts (ears, toes, eyes, eyes, legs, tails), home done C sections, hernias, bladder stones, urinary infections, respiratory infections, systemic infections, cysts, heart problems, chronic dry eye, infected ears, horrible skin conditions, damaged trachea from being debarked by a pipe down the throat, muscular-skeletal problems from no exercise and living in cramped crates, toe nails so long they have to be trimmed under anaesthesia....

Then there are the emotional problems....many of the dogs have never been touched kindly, nor hand fed and shy away from even a piece of cheese, shrink to the floor if touched, or are so shocked at being treated with love that they then shriek hysterically if left alone again. Many have no depth perception or any sense of how to navigate stairs (from having spent their lives in small crates). It is a testament to the resiliency of the breed that they learn to trust humans and become part of a family. Some fears take longer to overcome....men in hats, or leather jackets, or someone smoking. Some take weeks or months to find the courage to leave the safety of their kennel other than to eat or void.

Customers and even pet store owners such as Mr. Ang have no idea or compassion for the parents of the cute puppies behind the glass window, who spend their lives living in hell, pumping out puppies till they are no longer profitable. The lucky ones get turned over to rescue groups, or sold for next to nothing at huge dog auctions to other breeders or someone working under cover for a rescue group. The less lucky ones are euthanized by bullets or car exhaust.

You have made the right decision on taking the first small step in ending the sale of puppies and perhaps all mammals in pet stores in your city. Hopefully other cities/towns will follow your lead. You can't close down all puppy mills with this by-law, but you are doing something significant that will lead to further public education. The media attention that has come from this is invaluable for raising public awareness. Maybe fewer people will decide to buy a puppy online from a puppy mill broker in

the future. Maybe someone will try and convince the local newspaper to try and screen the kinds of people who advertise puppies for sale and refuse to publish ads from obvious brokers.

On behalf of all the puppymill dogs I have met, and all those still living in hell, I thank you from the bottom of my heart. If I can do anything at all to help ensure this by-law passes, please let me know.

Subject: Puppy Sales ban
Categories: UCRS CODE / FILE NUMBER: 12-8060-20-8663

October 14th 2010

Regarding the "Ban of puppy sales in Richmond" story.

I think people are missing some vital information regarding Pet Habitat and the shopping mall pet stores.

Pet Habitat and Pj's Pets , in Canada Pet Land in the US...

- They are outlets for the Hunte Corporation. Not a store USING the Hunte Corporation as a source.

They ARE THE HUNTE CORPORATION. Which is a large processing plant in Missouri which is exporting puppies by the hundreds every month into Canada.

Un-fixed, over priced dogs they have sourced inexpensively from puppy mills across the US.

People need to be educated about this and take the time to look at the fine print when in the store. Even the food and medication on the shelves are products of "the Hunte Corporation" and "Goodman inc". The very official looking certificates they distribute for the dogs proving the pup's lineage are printed and certified by their own internal corporations and associations. Not any external body. The medical papers are processed through their own internal veterinarians.

These Franchise chains, societies and Head Corporations are owned by Andrew Hunte and Goodman incorporated in Missouri USA.

-The public needs to know this!

I have been listening to all of the interviews regarding the issue, and I find it hard to believe that Mr. Eng (The owner of Pet Habitat in Richmond) has no clue whom he is working for, or franchised with. And I am frustrated hearing all of the internal societies of the Hunte Corporation such as the "Pet Advisory Comity" Being interviewed as if they are external authorities.

This is an important piece of the puzzle that is continually overlooked.

If the general public were made aware of this fact, they may see the fallacy behind the thousands of dollars that these outlets are charging for their "pure-bred products"

Thank you again for taking this on.

-iesza.

Mr. Mayor and Council,

I live on northern Vancouver Island, and read of your recent moves to ban the sales of puppies in pet stores.

I am the owner of two cairn terriers, aged 5 and 8, who were rescued from lives as breeding stock in puppy mills. I try to dwell only on the positive and how good their lives are now, but the fact is that they both have physical and psychological problems from the abuses of the past. One of them has no teeth, due to bad nutrition and lack of care. The other, after living here for over a year, still cringes if I approach her too quickly.

Knowing that the reason they have these problems is because their lives were lived for the sole purpose of providing puppies for pet stores, I am one hundred percent behind your decision. I only hope that your step will be followed by city councils across BC and across Canada.

Congratulations and good wishes to all of you, and thank you.

Subject: Support for ban on puppy sales in storefronts
Categories: UCRS CODE / File Number: 0170-02

Council Members,

I would like to state my support for the proposed ban on the sale of dogs and puppies in storefronts. A dog is going to be part of the family and live with you for many years. The decision to choose a dog requires more than 5 minutes on a rainy Saturday at the mall. These spur of the moment, uninformed purchases at pet stores result in too many animals later being tossed aside or surrendered at our local animal shelter, often needing expensive trips to the vet due to lack of proper care. Therefore, the Richmond taxpayers are paying for these hasty pet store purchases. I hope you will vote in a forward thinking manner and pass the ban on puppy sales in stores.

City of Richmond I admire your work on the by-law. Please get it passed. You have the opportunity to initiate the kind of change that will start the healing process for these animals. As long as there is an animal suffering in a shelter there should NEVER be an animal sold in a store. They too are suffering. Please stop the suffering. Please!

3.) Which types of communications are you interested in receiving from the BC SPCA?

Anim@ls Newsletter

owned than there are dogs owned by the public, providing more evidence that the benefits seen in Albuquerque may be from lower cat sales. Finally, the argument that Richmond will not benefit as much as Albuquerque in terms of a puppy ban stems from the lower population density seen in Metro Albuquerque compared to Metro Vancouver ($1,126.9/\text{km}^2$ vs. $5,335/\text{km}^2$)³. The lower population density and the fewer number of pet shops in Albuquerque is likely to result in Albuquerque residents having a more difficult time finding dogs and cats from surrounding areas and online sources, compared to a resident of Richmond who can easily shop at a surrounding municipality.

Ms. Carol Reichert, Richmond Animal Protection Society expressed her concern that “the pet store industry is costing the City thousands of dollars and that approximately 30% of the work done by the shelter is related to animals from pet stores.”¹ Does this 30% also include other animals, such as cats, ferrets, etc.? However, how much work was saved by pet stores who provided caring dog owners with wise advice?

RAPS also presented City council with copies of the “Dog Owner Surrender Application” forms. Nevertheless, it must be noted that the copied documents were biased selections that do not represent all the forms present in their records. Furthermore, the questionnaires present on the RAPS “Dog Owners Surrender Application” must be validated to rule out if questions are presented in a manner that falsely persuades a dog owner to report the dog as being store bought. Someone who bought a dog from a breeder or a puppy mill is less likely to disclose this information due to inconvenience or embarrassment. It is always easy to write “Pet Shop” or “Pet Habitat” rather than being asked about the breeder name, location, and blood line. Finally, Ms. Reichert predicts that “... a ban in storefronts would put puppies out of the sight and minds of people who might otherwise purchase on impulse and emotion.” The puppies available from pet shops are generally over \$1,500; therefore, I have a hard time believing that many people will have an “impulsive and emotional” purchase of \$2,000.

In conclusion, Richmond City Council can ban puppy sales, but this will not prevent a customer from shopping in other municipalities and online sources. Secondly, this ban will also create more unregistered sales via the internet and mills which cannot be monitored by the SPCA and government revenue agencies. Finally, pet store owners and employees are educated in the care of puppies which benefits countless number of pet owners; however, with a ban, pet stores will no longer be centers for education regarding the care of puppies.

Thank you very much for taking the time to read my opposition to the ban on the sale of puppies from Richmond pet shops.

Respectfully,

Dr. Jung-Wan Kim DMD, Cert. Perio., FRCD(C), *Certified Specialist in Periodontics*

Tammy Rossetti

1.) Dear City of Richmond Mayor and Council, thank you for becoming a national leader in the fight against puppy mills. As a resident of British Columbia, I support your progressive and bold step on behalf of abused and neglected animals. Sincerely,

Name: Ms. Tammy G Rossetti

Email: sanctgrael@shaw.ca

Email Opt-In: Yes

Email Format: Address 1: 1227 Pinyon Road Address 2:

City: Sparwood

Province / State: BC

Postal Code/Zip Code: V0B 2G2

Country: Canada

Phone Number: 778-518-4022

2.) Additional comments:

A morally and ethically progressive society does not allow cruelty to animals and as a new citizen to B.C., I hope to see that this Province supports a bill against puppy mills and sales of puppies through pet stores.

3.) Which types of communications are you interested in receiving from the BC SPCA?

Phone Number: 250-951-0674

2.) Additional comments:

Thank you so much for setting an example and ending the suffering of animals. I sincerely hope that more cities and countries take note of your example and help end the suffering. It all starts with one and others will follow suit!
