Re: Notice of Application for a Development Permit DP 08-414809

This is to strongly object the proposal of varying the provisions of the zoning and development bylaw No. 5300 which applies for decrease the minimum buildings and structures setback from minimum 1 to 0 meters.

This is also to strongly object of building more dwelling units at 4020 and 4300 Bayview Street. More recreational facilities should be built in that area. That will fit the lifestyle of people who live in Steveston community and will be a plan for community's sustainable development for the future.

Sorry that we can't attend the panel meeting this afternoon.

Kind regards,

Susan and Michael Tian.
