## Update to City of Richmond Council

Caitlin Cooper  
Project Manager – Regional Transportation Strategy

# What is Transport 2050?

- Provides the 30-year **blueprint** for regional transportation projects, policies, and programs
- A shared strategy: in partnership with **Metro 2050, Climate 2050**, staff from **municipalities**, and the **Province**
- **Previous plans** have **shaped the region**, and options for getting around

# What You Told us in Phase 1: Values, Concerns, and Priorities

| VALUES  | CONCERNS  | PRIORITIES   |
|---|---|--|
| <p>People most value about the region and their neighbourhoods:</p> <ol style="list-style-type: none"> <li>1. Natural areas and parks</li> <li>2. Access to shops and amenities</li> <li>3. Proximity to transit</li> </ol> | <p>People are most concerned about:</p> <ol style="list-style-type: none"> <li>1. Housing affordability</li> <li>2. Road congestion</li> <li>3. Climate change</li> </ol> | <p>As the region changes, people want to prioritize:</p> <ol style="list-style-type: none"> <li>1. Transit expansion and improvement</li> <li>2. Transportation options that are timely and convenient</li> <li>3. A transport system that's cost-effective and efficient</li> </ol> |

# Phase 2: Consider Goals and Transformative Actions

Shape the future of  
how we move. And live.

# Draft Goals

## Convenient Choices

We all have abundant, universally accessible choices allowing us to conveniently connect to opportunities without needing to rely on a car.

## Reliable Choices

We all have reliable choices that get us where we need to go on time.

## Affordable Choices

We all have affordable choices so that people of all incomes can easily live and move in this region.

## Safe & Comfortable Choices

We all have safe and comfortable choices that make us healthier and happier.

## Carbon-Free Choices

We all have carbon-free choices enabling us to achieve our Provincial and regional climate action targets.

### Action 1: People-First Streets That Invite Walking, Biking and Rolling

Strong support across demographics and across region

People liked reducing region's dependence on autos, but implementation matters

### Action 2: Fast and Frequent Rapid Transit That's a Competitive Choice for Most Longer Trips

Support for both network proposals, slight preference for street-level rapid transit

People identified trade-offs between above/below ground versus street-level rapid transit

### Action 3: Automated Vehicles That Provide Convenient Access to Car Trips, Without Adding to Congestion

In general, supported the vision for managing automated vehicles

More mixed support for using fees to manage zero passenger trips or congestion
