Comments:	We are opposed to this rezoning due to the precedent that it may create for the property behind us. We feel that this is too great and too abrupt a change in density. There should be a buffer of groups of smaller lot sizes between groups of regular lots such as ours and townhouses. If this development was behind our property, it would result in loss of privacy, less light, reduced sight lines, and create extra noise over longer portions of each day. It would reduce the quality of our life in the home in which we plan to retire. Please let us know if there is more that we can do to protect our future.
