| <p>Staff Comments</p> | <ul style="list-style-type: none"> • A tree survey is submitted (Attachment 3) and five (5) bylaw-sized trees are noted on site. The applicant is proposing to remove the Cherry tree and Plum tree in the middle of the site along the proposed property line. • Based on the 2:1 tree replacement ratio goal stated in the Official Community Plan (OCP) and according to the size of replacement tree requirement of the Tree Protection Bylaw #8057, four (4) replacement trees each at 6 cm calliper are required. • In order to ensure that the landscaping works are undertaken, the City would require a Landscaping Security in the amount of \$2,000 for planting of the four (4) replacement trees on site prior to final adoption of the rezoning bylaw. • The developer is required to provide an approximately 1.76 m wide road dedication along the entire frontage (as shown in Attachment 5) to meet the minimum residential cul-de-sac radius of 17 m and minimum width on each lot prior to final adoption of rezoning bylaw. • The applicant has agreed to preserve the Birch tree, Grand Fir tree, and Hemlock tree on site as well as the Douglas Fir tree located on the adjacent property to the north (5660 Ludlow Road). • The Birch tree is located within the proposed road dedication area and to the north of the existing driveway. Since there is no road works required at this time, impact to this tree is minimal. • Tree protection barriers around all trees to be preserved have already been installed on site and will remain on site until the construction of the future dwellings is completed. • In accordance with the Interim Flood Protection Management Strategy, the applicant is required to register a flood indemnity covenant on title prior to final adoption of the rezoning bylaw. • At future subdivision stage the developer will be required to pay Development Cost Charges (City & GVS&DD), Neighbourhood Improvement Charges (for future road improvements), School Site Acquisition Charge, and Address Assignment Fee, and Servicing Costs. |
| <p>Analysis</p> | <ul style="list-style-type: none"> • The proposal is consistent with all applicable land use designations guiding development in this area. • The proposal conforms with Single-Family Lot Size Policy 5463 which permits subdivision as per R1/H in the area. • The proposal would permit the creation of an additional single-family lot in conformity with R1/H regulations. |
