Staff Report

Origin

Rokapa Management Ltd. has applied to the City of Richmond for a zoning text amendment to allow a "Licensee Retail Store (Type 2)" (free-standing private liquor store) located in units 8088 and 8096 at 8080 Park Road (**Attachments 1 & 2**) on a site zoned "Downtown Commercial District (C7)".

Staff recommends that the subject zoning text amendment application (ZT 09-456554) be accompanied with a second zoning text amendment to remove "Licensee Retail Store (Type 2)" (private liquor store) from the list of permitted uses in "Comprehensive Development District (CD/109)" at 4651 No. 3 Road (**Attachment 3**).

There is no Development Permit or Servicing Agreement associated with the zoning text amendment application.

Background

The intent of the subject application is to relocate the permitted "Licensee Retail Store (Type 2)" land use and the associated private liquor store from the Real Canadian Superstore complex at 4651 No. 3 Road to a new location in the existing commercial building at 8080 Park Road (units 8088 and 8096).

The subject Provincial Licensee Retail Store license is associated with the Provincial Liquor Primary License for the Well Pub neighbourhood pub, which is also in the process of relocating to a new location (6511 Buswell Street). Both the subject private liquor store and the Well Pub neighbourhood pub are owned and operated by the applicant.

Findings of Fact

A Development Application Data Sheet providing details about the development proposal is included as **Attachment 4**.

The Well Pub neighbourhood pub application was recently endorsed by Council to be relocated from 8220 Lansdowne Road to 6511 Buswell Street. Subsequently, the relocation of Liquor Primary Licence No. 300830 for the Well Pub has been issued Site and Community Assessment approval (SCA) by the Provincial Liquor Control and Licensing Branch.

Liquor Control and Licensing Branch (LCLB) regulations permit only one (1) liquor store license for each liquor primary license. The applicant would not be granted another liquor store license for the Well Pub liquor primary license.

"Comprehensive Development District (CD/109)" was amended in 2006 (ZT 05-298232 Bylaw 7978) to permit "Licensee Retail Store (Type 2)" to accommodate the subject private liquor store in the Real Canadian Superstore complex at 4651 No. 3 Road.

4651 No. 3 Road is the only site zoned “Comprehensive Development District (CD/109)” and therefore, is the only property affected by the proposed removal of the “Licensee Retail Store (Type 2)” land use. The applicant has provided a letter from the owner, Loblaw Properties West Inc., agreeing to the removal of the use.

Surrounding Development

Development surrounding the subject City Centre Brighthouse Village existing commercial development site:

- To the North, across Park Road are existing commercial developments, zoned “Downtown Commercial District (C7)”;
- To the East, fronting onto Park Road, are existing commercial developments and low-rise mixed-use developments, zoned “Downtown Commercial District (C7)”. Further to the east is the site of a proposed mixed-use high rise development (DP 07-402052), also zoned “Downtown Commercial District (C7)”;
- To the South, across a rear lane and fronting onto Anderson Road, are existing low and high rise mixed-use developments, zoned “Downtown Commercial District (C7)”; and
- To the West, fronting onto No. 3 Road, are existing commercial and restaurant developments, zoned “Downtown Commercial District (C7)”.

Official Community Plan (OCP)

The proposal complies with the Official Community Plan (OCP), with the addition of a retail private liquor store into an existing commercial building, designated “Urban Core T6” with “Village Centre Bonus” in the approved City Centre Area Plan.

Public Input

A neighbourhood survey was conducted in March, 2009 by the independent Market Research Company, Synovate, to collect public opinion on the proposed new location of the Licensee Retail Store (**Attachment 5**). Surveys were distributed at properties within 50 m of the subject site. A total of 95 surveys were distributed within the neighbourhood with 40 completed surveys returned. The response rate of 42% provided mixed results with 56% in favour and 44% not in favour.

Informational signage regarding the zoning text amendment application was installed on the proposed Park Road storefront in March 2009. No concerns were received from the public in addition to the survey responses regarding the zoning text amendment application to allow the proposed Licensee Retail Store.

Analysis

Aircraft Noise

The subject site is located within Area 4 of the OCP Aircraft Noise Sensitive Development Policy, which requires noise mitigation to be incorporated within new buildings, and associated acoustic report and registration of a restrictive covenant on Title.

With the continued commercial use of an existing commercial building, a restrictive covenant is not sought at this time. Aircraft noise will be addressed at the time of significant redevelopment of the site.

Flood Plain Management

With the continued use of an existing building, a flood plain covenant is not sought at this time. This will be addressed at the time of significant redevelopment of the site.

Flood plain management, including flood plain construction level criteria, is provided in the Flood Plain Designation and Protection Bylaw 8204 and the approved City Centre Area Plan.

Policy 9307 Licensee Retail Store (LRS) Rezoning Applications

Council Policy 9307 (**Attachment 6**) is intended to generally discourage the proliferation of stand-alone Licensee Retail Stores, and to provide guidelines and criteria for the processing of Licensee Retail Stores Rezoning applications.

The proposal complies with the Policy. The application is for the relocation of an existing Licensee Retail Store to a new site. As stated above, a neighbourhood survey was conducted by the independent Market Research Company, Synovate, to collect public opinion on the proposed new location of the Licensee Retail Store (**Attachment 5**).

The proposal to add the land use to the new proposed site at 8080 Park Road and to remove the land use from the Real Canadian Superstore complex site through zoning text amendments is appropriate. The proposal complies with Council's request that liquor stores only be allowed on sites where a store physically exists and is in keeping with the intent of Policy 9307 to discourage the proliferation of liquor stores.

Policy 9309 Guidelines for Free-standing Licensee Retail Store (LRS) Rezoning Applications

Council Policy 9309 (**Attachment 7**) is intended to provide guidelines for consideration regarding Licensee Retail Stores Rezoning applications.

The proposal does not comply with the following aspect of the Policy:

- The proposed location is within 500 m of: Brighthouse Park, the Minoru Boulevard precinct of Minoru Park, the open field of the Cook Elementary School property, and the artificial turf playing field on the Richmond Secondary School property. However, the proposed location is within the City Centre Brighthouse Village, which is a high density area in the approved City Centre Area Plan envisioned to accommodate a wide variety of commercial uses, including the day-to-day needs of nearby residents. The proposed use complies with this vision.

The proposal complies with the following aspects of the policy:

- The application is for the relocation of an existing Licensee Retail Store. The proposed location is not within 500 m of other Licensee Retail Stores or BC Government operated liquor stores.
- The proposed location is within the City Centre Brighthouse Village, which is a high density area envisioned to accommodate a wide variety of commercial uses, including the day-to-day needs of nearby residents. The 1,452 m² lot, however, is not a planned commercial shopping centre property of at least 2,800 m², which is more characteristic of existing Neighbourhood Service Centres outside of the City Centre core.
- The proposed 278.7 m² (3,000 ft²) free-standing LRS is significantly smaller than the maximum recommended gross floor area of 510 m² (5,000 ft²).
- The building is set back from Park Road behind an existing surface parking area with access from Park Road through a shared lane system at the rear and west side of the property.
- The existing commercial development includes existing vehicle accommodation and will provide improvements to pedestrian safety and circulation (See Design Improvements section below).
- RCMP staff have reviewed the proposal and offer no concerns.

Design Improvements

- The building is set back from Park Road, behind an existing surface parking area with access from Park Road through a shared lane system at the rear and west side of the property. New movable planters will be placed along the Park Road edge of the site, to provide a safety barrier between the Park Road sidewalk and the existing paved surface parking area.
- A new pedestrian path will be provided to connect the storefront sidewalk with the Park Road sidewalk, improving pedestrian circulation.
- Provision of a landscape security is a rezoning requirement, and will be returned to the applicant upon completion of the landscaping installation.

Financial Impact

None.

Conclusion

The proposed rezoning will expand the range of services offered at 8080 Park Road in the City Centre Brighthouse Village area. The proposed site specific zoning text amendment to "Downtown Commercial District (C7)", and the concurrent proposed zoning text amendment to "Comprehensive Development District (CD/109)" will allow the relocation of the existing private liquor store without allowing for additional new stores. Based on the results of the neighbourhood survey conducted, the City Centre Brighthouse Village location of the existing commercial development at 8080 Park Road, the proposal's general compliance with City Policies on private liquor stores and current Provincial and City regulations that limit the proliferation of new Licensee Retail Liquor Stores, staff recommend support for the proposal to relocate the liquor store within the City Centre Brighthouse Village to 8080 Park Road.

BACKGROUND AND OBJECTIVES

Rokapa Management Ltd. has made an application to the City of Richmond for a zoning text amendment to allow a free standing (Type 2) Licensee Retail Store (LRS) liquor store to operate at Units 8088-8096, 8080 Park Road, Richmond, BC.

In order to gauge neighbourhood support for the proposal, Rokapa Management Ltd. contracted Synovate to conduct a door-to-door survey within the catchment area surrounding the proposed establishment. The sole objective of the study was to determine what proportion of residents support the proposal and what proportion oppose it. Therefore, a survey with one question asking residents whether or not they support the proposal was used to gather the information.

The results of the survey are presented in this report. A copy of all materials used can be found in the appendix.

SURVEY METHODOLOGY

In order to ensure that all units within the survey area were contacted and provided with the opportunity to voice their opinion, a door-to-door methodology was utilized.

The City of Richmond provided Synovate with a map of the neighbourhood surrounding 8080 Park Road, Richmond. The map had the survey area outlined, a copy of which can be found in the appendix. Generally speaking, the catchment area was on the western end of Park Road, including the south-western corner of the block in between Park Road and Cook Road and in between No. 3 Road and Buswell Street, and the entire Western half of the block in between Park Road and Anderson Road and in between No. 3 Road and Buswell Street. The target number of residences and businesses included in the survey was 102. Upon completion of the door to door survey, all 102 residences and businesses had been visited. Five units were empty, one resident was out of town for six months, and one refused to participate. Thus, a total of 95 surveys were distributed.

Each residential and business address was given one survey. Anyone at the address aged 19 or over could cast the vote, although preference for business units was for the manager or the owner to complete the survey.

Synovate designed a public information sheet and survey. The information sheet provided a brief description of the proposal. It also described the purpose of the survey and the process in which the survey was being conducted. The survey allowed room for residents' vote and a comments section, and had a section for their name, address, telephone number and signature. The signature is to certify that the respondent is 19 years of age or older and is a resident or a representative of the address listed. A statement regarding the fact that the survey would not be counted as valid unless signed was included. Respondents voted for whether they are in favour of, or not in favour of a zoning text amendment to allow a free-standing (Type 2) Licensee Retail Store (liquor store) at 8088-8096 8080 Park Road, Richmond, BC. The information sheet and survey were provided in English and Chinese.

Respondents were instructed to return surveys by April 6th, 2009 in the postage-paid self-addressed envelope provided.

The interviewer used control sheets to keep track of the result of each household contacted. Several pieces of information were recorded at each address, as follows:

- The address
- The result of the call (completed survey received, contact with resident and left survey, or no contact but left survey)

SURVEY METHODOLOGY

Voting Procedures

The interviewer was given a supply of materials and was assigned to contact each unit in the catchment area. The interviewer contacted the businesses and/or apartments in their assigned block recording on their control sheets several pieces of information. When contact with the resident or the business manager/owner was made, the interviewer explained the survey and handed out the survey form in English or Chinese, depending on the respondent's preference.

Respondents were provided with a self-addressed postage paid return envelope and asked to mail the survey back before April 6th, 2009.

Residents who were not at home were noted as such and a survey form and return envelope were left at the home. All businesses within the catchment were contacted.

The door-to-door survey was conducted over three days from March 23-25, 2009.

RESULTS

A total of 40 surveys (posted on or before April 6th, 2009) were received by Synovate by the reporting date of April 15th, 2009. Based on 95 surveys distributed, this represents a 42% response rate.

Only those individuals who completed the survey with an address and certified their residence and age are included in the final count. There were no late surveys received, however one survey was spoiled, as it was not signed and no name was given.

The results of the survey are as follows:

Total Valid Surveys	39
Total In Favour	22 surveys (56%)
Total Not In Favour	17 surveys (44%)

Comments

Among those not in favour, two individuals left comments. These comments are provided verbatim below:

“Too many liquor stores in the neighborhood.” (*Provided in English*)

“As a merchant in the area, we have concerns if there is a retail shop selling alcohol in this area. We are concerned that people who visit the alcohol shop will get together in the area or may be drinking on the street. This will disturb the development for the young people.” (*Provided in Chinese and translated to English*)
