Comments	<p>RE: 6731,6751 eckersley road and 6740 coney road ,Rezoning to Mid rise apartment& Townhouse As the residence, i strongly disagree the rezoning.</p> <p>1: This area is already crowded with 2 high rises and few low/mid rise apartment&townhouses. with only 3 houses lot space, there will be at least 60 new homes to be built. it's very high density. At least 60-100 population increase in a small area .</p> <p>2: Traffic: potential of increase car accidents . the left & right turn is already very difficult on coony& Eckersley roady without traffic lights. with at leaf 60 cars increased, the situation will be even worse. if have more traffic lights on both roads, then the traffic will slow down due to a 100 m road has 2-3 traffic lights which will be very inefficient. 3: parking issue: all empty space on the Eckersly /Park road are parked by cars, with 60 new homes, can't imagine how crowed the place will be 4: air polution, less green space, more people, more car, more CO2 5: student safety issue: there is a school</p>

near by, with busy street there is potential risk for those who walking to the school 6: not enough public facility to share: there are lots of new constructions going on in richmond, but not lots of community centres, limited library resources. therefore, i don't agree the rezoning
