Comments	I want to stress the importance of a balance in the design of having trees and small green spaces interspersed with the buildings and the materials for the buildings be harmonious with our natural environment. As a resident of Hamilton for over 30 years I have enjoyed the view of the mountains, the river and the wildlife that make Hamilton their home and I would like to emphasize the importance of maintaining that availability to the residents of the area. Many visitors come to our neighborhood to enjoy our natural splendor. Thank you for your consideration.
