Been trying to use the Online Survey link but always comes not available. Thus using this method through city clerk email to relay our concern. Thanks.

The current South Runway runs over the area from Alderbridge to Lansdowne are mostly residential and the in progress Atmosphere complex and the Lansdowne Mall project is also turning to residential buildings, then why does the council still considers this area to be the ideal South Runway. Think of the impact it will cause to the people living under a constant airplanes bombarded noise overhead, their health and mental state of mind. Any consideration using the Sea Island and Bridgeport which is more of a commercial industrial area as the South Runway instead?

From concerned residents
