Subject: Richmond Centre project

Dear Richmond Council,

My wife and I have been Richmond resident for over 22 years. We loved our community and are highly supportive of the new Richmond Centre. Richmond is strategically located close to the YVR airport and new Richmond Centre can definitely increase tourist in flow creating economic value. We believe it will bring more job opportunities to the local resident and also improve the City of Richmond image. Our city needs to change and grow domestically and internationally. We would like to see Richmond continue to be one of the top cities in the Metro Vancouver area. Our family believe the sooner the change the sooner people in Richmond can benefit.

Best regards,

Eric Yeung
