Schedule 6 to the Minutes of the Regular Meeting of Council held for Public Hearings on Monday November 15, 2010.

Dear Sir/Madam:

We the undersigned strongly oppose the proposed development at the above mentioned address as the height and setback is not in line with the properties in this neighborhood.

This proposed development is in our immediate neighborhood and will have a negative effect on all the homes in this area that include increase in noise, pollution, traffic congestion, loss of privacy and the list goes on. Your department must already be aware of the effects a development of this type can have in a neighborhood.

We strongly feel any permits issued should take into consideration the existing properties which are single family properties. The height and set back of this proposed development should be changed so it is the same as the existing properties in this immediate neighborhood.
