Comments:	I have concerns with the trees that will be planted on the Ash St Blvd. On the applicants development across the street on Granville ave there were No trees planted on the Blvd. The road work on Granville ave has never been finished and I have been in contact with city departments since last June about the excessive vibrations caused to my home and my neighbours by the poor quality road work. Also Am-Pri install a retaining wall and sidewalk on the east corner of Ash st just south of Granville. The wall was never backfilled properly and the installed railing system was drilled into the concrete and the resulting cracks in the concrete were never repaired. I have concerns with the crosscut at my property on Granville and Ash. I would like to see Am-Pri's previous developments completed properly before the next is allowed to proceed.
