City of Richmond Security Warning: This email was sent from an external source outside the City. Please do not click or open attachments unless you recognize the source of this email and the content is safe.

I am writing to oppose the rezoning of 6831 Graybar Rd, 20911, 20455 Dyke Road, 7500 N. 9 Road. PID 031-553-231 and a portion of Graybar Road.

These parcels encompass the Shelter Island Boatyard, which provides access to vital marine services used by multiple recreational and commercial boaters on the West Coast of British Columbia.

Numerous marine services businesses use the boatyard as their base of operations, and from there they provide vital mechanical and other services to marine craft ranging from recreation vessels to fishing vessels, tug boats, and more.

Approval of this application could spell the death knell for the boatyard, and cause a major disruption to the businesses housed there, that employ a large number of people who are paid VERY good wages. It would also cause serious problems for all the vessel owners who rely upon these services currently located at the site of the permit application.

Please deny this application, as it will literally affect 1000's of people on the South West Coast of British Columbia.
