**From:** Robusto Cigar Store

**To:** Health & Safety Committee  
City of Richmond

**Re: Patio Exemption of Public Health Richmond Protection Bylaw**

### **Introduction**

This is a presentation to request a patio exemption to the Public Health Richmond Protection Bylaw (the "Bylaw") for Robusto Cigar and Coffee Shop ("Robusto") thereby allowing Robusto to keep its outdoor patio for its clientele to enjoy cigars.

We would like to thank the Health & Safety Committee (the "Committee") for taking the time to hear from a local business. Robusto is a cigar proprietor with a coffee and snack. Robusto has recently celebrated its 5<sup>th</sup> year anniversary. Robusto founding owners, employees and clientele are all Richmond constituents.

The President and principle shareholder, Mr. Thomas Orange will speak to his personal experience in running Robusto throughout the years and the effect of forcing him to no longer allow clients to enjoy a cigar on the outdoor patio on the business. This is a company built from the ground up by the owners and employees.

This presentation will outline Robusto's appreciation of the health concerns for all citizens of Richmond and particularly its youth. How Robusto cigar exemption and issues should not be lumped in with cigarette and veteran's issues.

We will also outline community support for Robusto and the patio exemption in person and by petition.

We will highlight the change in attitude towards smoking legislation and that cigar stores are consistently exempt in North America from the statutes to allow them to continue to survive.

Lastly, we will introduce our suggested changes to the Bylaw to allow Robusto to keep its patio and the City's requirements to ensure that more cigar shops do not move to Richmond to take advantage of same.

## **The Patio**

The patio in question is essentially a sidewalk outside the doors of Robusto in the front and along the side. It is just big enough to allow one row of a chair or table. Please find attached and marled as Appendix "A" a picture of the front of Robusto and marked as Appendix "B" a picture of the side of Robusto.

## **Heath Concerns**

There is no dependable scientific evidence presented to this Committee or to the Council that secondhand smoke outdoors is a health concern to others. We would suggest that this is an obvious conclusion particularly in light of the provincial legislation.

The amount of smoke particles that a person could inhale outside is so minor that its effects are immeasurable. Add to that there are no harmful chemicals added to cigars as compared to cigarettes and there are currently no health concerns with secondhand smoke from an individual smoking a cigar on an outdoor patio.

Staff does not serve customers outside. It is a self serve coffee shop.

In addition, if a person does not want to risk outdoor second hand smoke then do not sit on a cigar store outdoor patio. There are many other places that a person can sit outside and enjoy themselves.

Moreover, if a person does not have a heated outdoor patio to go to then it is not unlikely that they will find an alternative indoors. Without proper ventilation, that is relatively costly, this will cause individuals to smoke indoors which we know is a health risk.

## **Youth**

Robusto's owners, staff and customers also share the concern of marketing smoking to youth. Cigar manufacturers and stores do not market to youth.

Robusto is a premium cigar store. Most cigars at the store are more than \$20 per cigar with many cigars costing \$40 to \$50 per cigar. This is not something that is attractive to youth. Youth is in no way the target market for cigars or Robusto. Robusto does not sell cigarettes.

Robusto quickly built a wall surrounding all cigars to ensure compliance with the provincial legislation. Please find a picture of the new wall attached and labeled as Appendix "C".

To be clear, Robusto owners, staff and clients support smoking legislation and adhere to same. The store is compliant with the provincial smoking legislation, tax legislation and municipal bylaws.

### **Cigars and Cigarettes**

Robusto sells premium cigars and not cigarettes. Cigarettes and cigars are very different. The content, cost, commitment and experience of a cigar has little in common with cigarettes. Other than being tobacco based there is really no comparison between cigars and cigarettes and they should not be lumped together when decisions are being made. The reality is that the health risks associated with cigars are a fraction as compared to cigarettes.

Cigars are made of a pure tobacco leaf without preservatives or carcinogens. As we know hundreds of additives are added to cigarettes. Cigar smoke is not inhaled into the lungs unlike cigarettes. In fact, there are very few individuals that can inhale cigarettes and smoke cigars. The two are mutually exclusive.

The cigar client is unique. They want a high end product with a place to enjoy same. They want to spend an hour or two sitting enjoying a premium cigar with a new or old friend.

To lose the patio will mean the loss of the premium cigar experience for Robusto's clientele.

### **Veterans and cigar shop**

Robusto also supports our veterans rights to smoke on their patios but essentially do not believe it is fair to be lumped in with this issue. The concerns are not the same, the parties have nothing in common and the issues should be dealt with and decided separately. Legions primary business is not selling cigars and not having a smoking patio will presumably not put them out of business. Although, this is an important issue Robusto would suggest there is no reason to make these decisions together.

### **Community Support**

As you most likely witnessed, at the last Council meeting dealing with this issue there were many Richmond constituents supporters for Robusto. Robusto also has a group here today to again support their cause. Also, we have a petition signed by Robusto's clients enclosed and labeled as Appendix "D". Robusto is a

part of its community and appreciates the reciprocal feeling from its clients and neighbours.

Robusto has repeatedly supported its community through multiple adult events and charitable donations including but not limited to:

- United Way, Wigs for Kids, Michael Cuccione Foundation, BC Lions Charity Golf, A Night of Hope (Breast Cancer), Richmond Dream Auction (against poverty in Richmond), Canuck Place for Kids, Jeremy memorial Foundation (against domestic violence), Raise-a-Reader Program

### **Alternatives**

We have also included in this package some other examples of passed smoking legislation. For the most part the much of the legislation exempts cigar shops and smoking lounges from the bylaws.

We have reviewed much of the listed legislation and it appears as if some areas allow more smoking and some less but exempt tobacco businesses to continue to survive.

### **Mercer Report**

We have reviewed Mr. Mercer's report to the Committee and have noted his main concerns appear to be that an exemption for Robusto would be problematic for the City and may attract similar businesses to Richmond.

It is not Robusto's intent to make Richmond a destination for cigar stores. It is our desire to simply continue their business in Richmond.

We would recommend that the underlined additions to the Bylaw suggested below will allow Robusto to keep its patio and not allow any additional cigar or tobacco shops to enjoy this exemption unless they currently obtain 60 percent of their gross revenue from cigars and have an existing patio.

## **Suggestions for Amended Bylaw**

### **Definition**

*Retail cigar store means any retail establishment utilized primarily for the sale of cigar and cigar smoking accessories in which the sale of cigar and cigar related products exceeded 60 percent of gross revenues in 2008 confirmed by owner Affidavit.*

6.1.1 A person must not smoke:...

*f) within six (6) metres measured on the ground from the point directly below any point of any opening into any building other than a retail cigar store building including any door or window that opens or any air intake;*

*g) in a customer service area, other than a customer service area attached to a retail cigar store and in existence on December 31, 2008; or...*

We note that these suggestions are not reinventing the wheel but rather taken from examples of current legislation used throughout North America.

If the Committee or the Council cannot make a decision Robusto would ask for the City to hold off enforcement of the Bylaw while this matter is being reviewed. Failing same would be disastrous to Robusto's business and may make any further decisions moot.

In addition, the provincial legislation clearly prohibits indoor smoking and smoking within 3 meters of an open window or door to which Robusto is not in contravention of and will not contravene.

### **If Suggestions not taken**

As this is a cigar business, not allowing clients to enjoy their purchase in a safe and comfortable location will have a severe detrimental result, particularly in these economic times.

Robusto would prefer to work with the City of Richmond but have no choice but to pursue all of its legal options under the *Local Government Act* and the *Judicial Review Procedure Act* if this matter cannot be resolved at the council level.

## **Conclusion**

Without a patio there is much less of a reason to purchase cigars at Robusto. As you most likely know all cigars are imported into Canada. There is no exclusivity of product. The only reason a client would come to Robusto is for the service, price and experience.

Again we thank the Health and Safety Committee for the time and effort allowed for a local business to be heard. It is our belief that we have put forth a reasonable alternative to ensure the continued health of Richmond constituents while allowing a long term Richmond business to continue to strive without making Richmond a destination for other cigar business.

We trust these concerns will not fall on deaf ears.

Thank You
