Submissions on Intent of Permit for 6331 and 6351 Cooney Road

We strongly opposed the construction of a 14-story tower with just SIX (6) feet next to the existing 14-story tower dwelling apartment.

It will block the AIR and VIEW for those residents living just next to the new building and it will also affect directly their PRIVACY of living. It is absolutely unnecessary to allow building such a high density environment within such narrow space.

It will not be fair to the residents, the property owners and the tax payers living in the current apartment building.
